WANT OF ENERGY is one great cause of misfortune in business, as well as a neglect of household duties. The use of Speer's "Standard Wine Bitters" will effectually give tone and energy to the physical powers of the system, and remove lassitude. The Peruvian Bark centained in them will also cure Ague. THE PARHAM SEWING MACHINE. - This celebrated Sowing Machine is conceded on all sides to be the best that has ever been invented. Mr. Parham, its inventor, has been engaged in the manufacture and sale of sewing hines from the time the first invention of this kind was placed in the market till now, and the vast experience gained in that long period has been put to the best pos sible advantage in the invention and subsequent improve ments of the Parham. It is the latest invention in the shape of a sewing machine patented, and it combines in a most admirable manner all the good features of the ma chines that have preceded it, with many qualities of a superior character not found in any other. It is adapted to a wider range of work than any other sewing machine. runs smoothly, noiselessly, and easily; is elegantly but rably constructed, and makes perfect work on all kinds

of material. An inspection of the machine is cordially asked for it, at the Parham Sewing Machine Company's elegant establish ment, No. 704 Chesnut street.

GENERAL DEBILITY IS NATURE'S APPEAL FOR HELP. Thousands of persons, without any specific ailment, are the victims of languor and lassitude. The unthinking are apt to confound this species of inertion with laziness, whereas it usually arises from a want of organic energy, for which the subjects of it are no more responsible than the near-sighted are for their defective vision. Such persons, although they may be free from pain, are as truly invalids, and as much in need of medical aid, as if they were tormented with the pangs of acute disease. They require a TONIC and ALTERATIVE that will rouse and regulate their torpid organizations. In cases of this kind. HOSTETTER'S STOMACH BITTERS produce an immediate and most favorable effect. The debilitated and desponding valetudinarian, who feels as if he were but half alive, who shuns company, and has no relish either for business or pleasure, is metamorphosed by a brief course of this mon potent vegetable invigorant into a quite different being. The change effected by the BITTERS, in his bodily and mental condition, is a surprise to himself and to his friends. He mopes no longer; the active principle of life, which seemed to have died out of him, is reawakened, and he feels like a new man. Remembering that debility is not only an affliction itself, but an invitation to disease, no time should be lost in recruiting the broken-down system with this choicest and most potent of all TONICS AND NERVINES.
