THE WASHINGTON MONUMENT.

The Dedication on the Fifth of July—The History of the Movement for its Erection. About the only public celebration on the coming 5th of July, in this city, will consist of the dedication of the statue of George Washington, to be erected directly in front of Independence Hall, on Chesnut street.

The original idea was to have a monument to Washington, and the project was conceived about ten years since in the public schools. For the purpose of raising funds a grand fair was given at National Hall some years since, and about \$5000 was raised on that occasion.

The money on hand was then invested in United States securities, and after a lapse of time a movement was made during the present year to raise the balance to obtain the statue. The statue was ordered, and after its completion it was found that a surplus of about \$800 was on hand.

The statue will be presented to the city by the Washington Monument Association of the First School District of Pennsylvania, and the opening of the statue will be on the 5th of July, in front of the State House, an ornament to the city, and everything connected with it paid in full.

The entire height of the statue, including the base, will be 65 feet 6 inches, and the total expense connected with its construction will be about \$6000. The following are the names of the remaining officers connected with the movement in getting up the statue:—

President—G. F. Gordon. Vice-President—James J. Frechman. Secretaries—Henry Mather, Washington J. Jackson. Treasurer—Joseph Cooper.
