The Chief Justice said that the case was upon the list in regular order, and would be called when reached. Judge Read said that he most seriously objected

to having a case of so great is portance placed at the foot of the list. It was the most important mat-ter before the Court, and he certainly thought it

for this imputation that I wish to get rid of any case before the court. I say this matter will be heard in its regular order, and there is no reason for deviation from the fule. Judge Read—There is no such imputation made. Chief Justice—There is, and it is very improper. A case is already called, which, upon the list, has precedence to this, and when it is concluded, if no other intervenes, the Registry case will be heard

Movements for Nominating an Independent Democratic Ticket.

In consequence of the atrocious nominations made by the Democratic Convention, and the brutal man-In consequence of the atrocious nominations made by the Democratic Convention, and the brutal man-ner in which the respectable portion of the party have been thrust aside, a number of prominent mer-chants, brokers, and other citizens have come to the determination to nominate an entirely new ticket, and call on the citizens generally to sustain it. An informal meeting was held last night, at which the project was broached, and this morning quite a unm-ber of gentlemen met for the same purpose. No de-finite form of action was agreed upon, but about \$15,000 was piledged to sustain any enterprise of the kind that might be consummated. The meeting then adjourned to meet in a few days. A simi-lar meeting was held in the vicinity of Third and Chesnut streets, in reference to nom-nating Joseph N. Peirsol, Esq., as an independent candidate for City Treasurer. Much complaint was made as to the manner in which he had been treated in the convention. A list was opened for subscrip-tions for placing him as a candidate, and in a few minutes nearly \$5000 was subscribed. It is proposed to call a general meeting in a few days for the pur-pose of nominating Mr. Peirsol. It is but just to say that Mr. Peirsol informed us that he was not aware of any movement of the kind. The meeting was held in a very quiet manner, none but those who had been sounded on the subject being admitted.

The New House of Commons. The proposed new House is to hold 569 members, day instant and the process of the floor against 495 in the present House, of whom but 206 can find room on the floor; and 300 strangers are to be provided for against 265 now. Thus the House, so while the House as it stands gives room only to opposed, will accommodate a total of 599 per-sons, while the House as it stands gives room only to opposed, will accommodate a total of 590 per-sons, while the House as it stands gives room only to opposed, will accommodate a total of 590 per-sons, while the House as it stands gives room only to opposed, will accommodate a total of 590 per-sons, while the House as it stands gives room only to opposed, will accommodate a total of 590 per-sons are to be provided for the leading officers of bouse in the New Palace-yard, and close by the ouse in the New Palace-yard, and close by the intrance to Westminster Hall, are to be appropri-ted as Parliamentary offices for the great depart-mental chiefs, so that the Home Secretary, or the secretary of State for War, will have immediate occurrent to the clear enunciation of their policy. Quarrel Between France and China.

The Nord publishes a letter from St. Petersburg, dated the 19th inst., which gives the first detailed account yet published of the recent misunderstand-ing at Pekin between the French Charge d'Affaires, M. de Rochechouart, and a Chinese Prince. The news comes by land direct from Pekin, and bears dute of the Jöhn of April. According to this state-ment. M de Rochechouart was at the races, and his ment, M. de Rochechouart was at the races, and his ment, M. de Rochechouart was at the races, and his equipage came into collision with that of a personage known as the Ninth Prince of the Celestial Empire. Some confusion arose, and the Prince drove his horse among the escort of the French Minister, at the same time striking out right and left with his whip. For some time no redress could be obtained. M. de Rochechonart then applied to General Vlangali, the Russian Minister, as the senior member of the diplomatic corps, and owing to his intervention the whole of the Chinese Ministers officially walted upon the French Charge d'Alfaires, and expressed their regret at what had occurred, and thus the matter was amicably settled.

Noted Arrivals. The following, among many others of celebrity, have arrived here since yesterday afternoon:-General Geary, General Meade and staff, a committee of Philadelphia Councilmen, General Robinson, U. S. A.; General Barnum, of New York; General Alexander, U. S. A.; General Dennison, of Baltamore; Governor Baldwin, of Michigan; General Rawlins, Secretary of War; Hon. Ell S. Parker, Commissioner of Indian Affairs; Colonel W. Hopkins, of Lancaster, Pa.;

and General G. A. Cunningham, of Mass. The Soldiers' Monument.

The monument, which now stands almost complete, and about which to-day is gathered such a dense and interested throng of people, is probably the most imposing memento of the late civil war of any now in the country. Its cost will not fall short of \$50,000-although the original estimate was about \$25,000. It is from designs by J. G. Batterson, of Hartford, Conn., who also furnished the clay models of the statuary, which were worked out in Rome by Randolph Rogers. The superstructure is sixty feet high, consisting of a massive pedestal, twenty-five feet square at the base, and the die and cap crowned with a three-quarter globe, on which stands a colossal statue of the Genius of Liberty. In her right hand is held the victor's wreath of laurel, and clasping with the left a sheathed sword. Projecting from the angles of the pedestal are four buttresses, supporting the same number of allegorical statues, representing War, History, Peace, and Plenty. War is personlified by an American soldier, who, resting from the conflict, relates to History the story of the battle the monument commemorates, while History, with stylus and tablet, is chiselled as re-

of any movement of the kind. The meeting was held in a very quiet manner, none but those who had been sounded on the subject being admitted. A very bitter feeling exists on the part of many of the Democratic leaders, who openly declare that they will not support the ticket as nominated so far, and will do all in their power to defeat it. It is also proposed in several legislative districts to run independent candidates. The respectable Demo-cratic clizens of the First Senatorial district are considering the propriety of nominating an opposi-

The Hoosac Tunnel.

Work on the central shaft over the Hoosac Tunnel, where the fatal accident happened two years ago, is now progressing at the rate of a foot a day. It has now penetrated 605 feet. New air-drills are being set up, which will expedite the work, so that it is expected the whole depth, 1000 feet, will be exca-vated by March next. At the eastern end of the tunnel they are putting up six of the improved com-pressed air-drills. The heading at this end is a mile and over two hundred feet from the entrance. Gangs of miners are constantly at work on the headings, while others are carrying out the enlargement, one hundred and fifty feet of which is made. Three hundred and sixty-six feet has been taken from the heading since Sixty-six feet has been taken from the heading since the 1st of April. Last week the rock was penetrated forty-one feet; this week it will probably amount to ten feet more. At each blast that is made on the enlargement twenty cubic yards of rock are dis-placed. cording the achievements of the field. Peace is symbolized by a statue of the American mechanic, with the accessories of a cog-wheel, hammer, and chisel, while Plenty is represented by a female figure, with a sheaf of wheat and fruits, as emblematic of peace and abundance, as the soldier's crowning triumph. The buttresses on which these statues-which are all colossal-are seated, have the sides ornamented with basreliefs in unison with the idea embodied in the statue. The upper die and cap of the monument are circular, and on the die is a circlet of bronze stars made up of one for each State having dead in the cemetery. The cornice and plinth above the main die of the pedestal are octagonal and heavily moulded, and on the plinth rests an octagonal moulded base, bearing upon its face the national arms in high relief. The panel of the main die, on the west side between the statues, has engraved on it :--GETTYSBURG,

July 1, 2, 3, 1863.

While the corresponding panel on the opposite side has the following from Lincoln's dedicatory address: "It is for us, the living, rather to be dedicated here to the unfinished work that they have thus far so nobly carried on. It is rather for us to be here dedicated to the great task remaining before us-that from these honored dead we take increased devotion to the cause for which they here gave the last full measure of devotion-that we here highly resolve that the dead shall not have died in vain; that the nation shall, under God, have a new birth of freedom, and that the Government of the people, by the people, and for the people, shall not perish from the earth."-LINCOLN, November 19, 1863.

The Procession Formed.

Shortly after 10 o'clock A. M., the procession, 'curtailed" in numbers and marred in appearance on account of the mud in the streets produced by the late rains, formed in the Diamond of the town in the following order:-

The French Cable-Something Wrong-The Wire Cut. By Atlantic Cable.

LONDON, July 1 .- The papers of this city pub ish the following intelligence to-day:-The following despatches have been received from Captain Sherrard Osborn, who is at the shore end of the new French cable near Brest:-

"BREST, June 30 .- This morning at 9 o'clock, Greenwich time, the Great Eastern telegraphed to us: 'We are going to cut cable and buoy.' This has evidently been done, for no signals have passed since, a careful watch being kept for their renewal.

"The first sign of something being wrong in the electrical condition of the cable occurred early this morning, but nothing of a definite character until the above message reached us. We had a very long message at 11-30, Greenwich time, last night, from the Great Eastern, at which time the signals were reported by Mr. May to be most perfect. I see no reason for the slightest alarm at what the Great Eastern is doing. The trouble is evidently from the resistance of the gutta percha. It was reported last night that a slight fault of the 25th was improving, Mr. May agrees with me in thinking that they have buoyed the cable in shoal water, and are returning to remove the fault. The delay is the only inconvenience." The following has been received from Sir W. Thomson:-

"MINON, France, June 30 .-- I arrived here from Brest, with Captain Osburn, at noon. A telegram from Mr. Gooch, dated at 9 o'clock this morning, Greenwich time, awaited him, saying that they intended to cut and buoy the cable. This has probably been done, as no signals have come since then. We do not know the reason. The tests here up to 6.30, Greenwich time, gave

Chief Justice—I am aware of that; but this is the most extraordinary thing I have heard since I have been on the bench. William M. Meredith, Esq., suggested to the Court

that it was usual to give cases of great importance preference in point of the time of hearing. The Chief Justice said he did not like to see the ourt thus importuned to call a case immediately ut of its regular order, as if it were trying to avoid Mr. Meredith assured the Court that he had enter-

The whole controversy was of an exceedingly an-pleasant character, and was finally concluded by the understanding that upon the case first upon the list the registry question should be heard if no other intervened.

THE TWENTY-NINTH JUDICIAL DISTRICT.

THE TWENTY-NINTH JUDICIAL DISTRICT. The Commonwealth vs. James Gamble. Quo warranto. This was the case which had precedence to the registry case upon the list. Having raised a preliminary question as to which party had the right to open the argument, the defendant upon his own demurrer, or the Commonwealth by right of some prerogative; and having decided it in favor of the defendant, the Court proceeded to hear the case, which was then opened by Judge Strong for the de-fendant. The facts of the case are these: -At the suggestion of the Attorney-General, the Common-wealth issued a writ of our warranto against suggestion of the Attorney-General, the Common-wealth issued a writ of quo warranto against James Gamble to show by what authority he exer-cised the rights and privileges of President Judge of the Court of Common Pleas of Lycoming county. To this writ the defendant pleaded that, prior to the 2sth of February, 1848, Lycoming county was a part of the Twenty-eighth Judicial district; on that day an act of Assembly was passed by which Lycoming county was detached from the Twenty-eighth dis-trict and erected into the Twenty-eighth dis-trict and erected into the Twenty-ninity Judicial district, this act of Assembly directed that on the second Tuesday of October the following, the electors of the county should proceed to choose a President Judge of the court so created; on the day appointed the citizens elected the defendant, James Gamble, to the position, and he was duly commissioned and sworn as President the defendant, James Gamble, to the position, and he was duly commissioned and sworn as President Judge of the Coart of Common Pleas of Lycoming county, and by virtue of his commission and oath he has to the present day exercised the rights and dis-charged the duties of the office. This pica the Com-monwealth did not traverse, but by way of confes-sion and avoidance replied that the act of March 16, 1869, repealed the act of Pelsraary 25, 1848, and Lycoming county was thrown, not back into the old Twenty-eight, but into the Fourth Judicial district; and as there is now no such district as the Twenty-eight, but into the Fourth Judicial district; and as there is now no such thus presented the defendant demorred, and thus presented the question, whether this latter act were operative to depite Judge Gamble of the rights of President Judge of the Common Pleas of Lycom-ing county, the Commonwealth maintaining the affirmative, and the defense the negative. The arguinent was still under way at the close of The argument was still under way at the close of our report.

FINANCE AND COMMERCE.

OFFICE OF THE EVENING TELEGRAPH,

The activity which has characterized our local Money market during the current week, and which culminated yesterday in a rush for loans, has tamed down to-day within the usual limits of a quiet de-mand. The multitude of corporations which genemand. The multitude of corporations which gene-rally pay out their quarterity or semi-annual divi-dends or interests on the first of July have already begun the operation, and, with the gold interest due on Government bonds which is either owned or will be deposited in the city, will give in a few days an entirely new feature to the market. We notice, so far, no very material change in the rates current, nor are the banks more disposed to discounting operations than yesterday, but there is a decidedly easier feeling in moncy circles, and the urning-point has been reached.

turning-point has been reached. Call loans are made at 6@7 per cent. on prime col-interal, and merchant paper is current on the street

at 769 per cent, according to grade. The gold market is active and prices firm at 157 %at noon, an advance of % on opening price. Govern-ments are quite active, and the tendency is decidedly opward.
