CITY INTELLIGENCE. THE CITY TRUSTS.

The Act by which Their Management is En-

trusted to a Board of Trustees. On March S last, Senator Connell introduced into the Legislatare a bill providing for the establishment of a Board to be known as the "Directors of the City Trusts." The bill passed through both houses of the Legislature, without amendment, but it was not ap-proved by the Governor until the 36th of June, and the first intimation the public had of its approval was the special despatch from Harrisburg published in our columns yesterday afternoon. The following is the full text of this important statute:--

Poore, in command of the Navy Yard here, will take his place] as commander of the North Atlantic squadron. It is said that Hoff has been more gracious towards the Spanlards in and around Cuba than the strict letter of his instructions demands. There is a feeling at the Navy Department that he has given too much attention to overhauling suspected violators of the neutrality laws, and too little to the protection of American interests against over zealous Spanish authorities.

The White House.

The President threw open his doors from 10 to 11 o'clock this morning, and admitted a crowd of visitors wanting to see him, without distinction. No person of prominence went in with the crowd, which was very large. Such Senators and members as were present went away, preferring to wait until after the doors were closed, rather than have their business revealed to the public.

Soldiers' Monument.

W. P. Lasalle, chairman of the organization of Union war prisoners, had an interview with the President relative to securing his aid and cooperation in the erection of a monument to the Union soldiers who died in Rebel prisons or from disease contracted therein. The President promised to do all he could, and suggested that the association agree upon some plan of operation and then get to work.

Brevet Major-General Daniel Butterfield being on the rolls of the regular army, it became necessary for the Secretary of War to grant him leave of absence or retire him, in order to allow him to accept the civil position of Assistant United States Treasurer at New York.

The former expedient has been adopted, and an order to that effect issued to-day. Some doubts are expressed as to the legality of this proceeding, and it is thought that it is in conflict with the act of Congress prohibiting an officer of the army or navy from accepting a civil office and at the same time retaining their position in the army.

RICHMOND, July 7, 1869.—Mr. President:—On behalf of the State Executive Committee of the Walker party, I congratulate you upon the

After the Fillbusters.

On Wednessiay ovening, when the United States officers were in search of the Uubar, filtbusters who attempted to leave New York, orders were sent to Dr. Nolen, Collector for this Port, to take the revenue cutter attached to this station, and cruise in the lower part of Delaware here.

revenue cutter attached to this station, and cruise in the lower part of Delaware bay, in pursuit of any of the party, some of whom it was thought might rendezvous in the neighborhood of the Breakwater. Before any active measures had been taken, further than to get up steam on the cutter, however, the orders were countermanded, and our genial Collec-tor was spared his naval expedition, and the peaceful ripples of the bay were not disturbed by the echoes of his warlike guns. Order reigned at the Break-water, and no collision occurred for us to report.— Witnington Commercial of pesterday. A Woman Falls Inte a Well and is Drowned.

A Woman Fails into a Well and is Drowned. The same journal reports this shocking calamity: —This morning a terrible accident occurred at Mr. Cleland's farm on the Newport pike, near this city, by which the wife of Mr. Hurst, the farmer of the place, lost her life. There is a well on the place which ad-joins the house, and into the top of which there is an opening from the cellar to permit things to be lowered in order to keep them cool. The well is thirty feet deep below the level of the cellar floor. This morning Mrs. Hurst, in lowering some butter or something of the kind from the cellar down into the well, lost her balance and fell down the well. She gave an alarm and her husband ran to her assistance. He managed to get her to the top of the well, when her hold gave way and she fell back again. A second time he raised her slowly almost to the top and once more she fell back into the was hoisted for the third time, she was found to be dead, Deceased was a woman of about middle age. — Coroner Pendergrast held an inquest on her re-mains this morning, and a verdict of gecidental drowning was rendered.

The monitors purchased by Peru in the United States, the Cubans thick, will finally turn up on the yeasts of the isle. The subject of their detention at we Orieans was fully discussed at the time. A Thespian "Onpleasantness."

It was broadly hinted in theatrical circles has night, as also among the select few of the newspaper press who do the dramatics, and the promiscuous many who do the managers and have free access to press who do the dramatics, and the promiscuons many who do the managers and have free access to the regions behind the scenes, that Manager Tay-leure, the right-hand man of Manager Fisk, had se-riously damaged the person of Mr. Dominick Murray in a hand-to-hand conflict at the Metropolitan Hotel, in the afternoon of the day then current. From what could be learned 'from various sources, it would ap-pear that Mr. Tayleure had once, in his official capa-city, discharged from the theatre of which he had charge one Mad'lle Fiddes, otherwise Mrs. Murray, wife of the victim of the strife hereinbefore mea-tioned; and that, incited by injudicious friends, Mr. Murray had thrown up his London engagement and hastened to New York for the purpose of castigating Mr. Tayleure at the earliest opportunity. That he had frequently threatened in public places to punish the said Tayleure; that Mr. Tayleure, hearing of these threats, but in no wise dreading the execution of the same, went for Mr. Murray at the Metropolitan Hotel yesterday, and did then and there so belabor him as to render him unable to do further battle. This is one story. Another is to the effect that Mr. Murray was not badly punished, but was only a little bruised; and still another has it that the set-to be-tween the knights of the buskin was a contest in which both displayed great skill and pluck, and which was witnessed by a large concourse of respect-able citizens, who appiauded the extempore "millers" with the most commendable impartiality.
