TER SANGDAFEST.

Interesting Proceedings - 0. and Consert-2003 Sungers England. From Our Own Correspondent.

BALTIMORE, July 13 .- The grand concert this evening, at the Maryland Institute, by the united societies, was a magnificent affair. The entertainment possessed a degree of grandeur and magnitude but seldom met with, and was in the highest degree creditable, and served to give a reminder of the grand fests in Germany, participated in by countless thousands of trained singers.

The arrangement for the location of the singers was most admirable, the massive platform being filled with substantial and neatlyconstructed rows of benches, elevated one above the other, so that the members standing thereon could all see the baton of the leader, and act in concert with his well-directed movements and signals.

Professor Lenschow, the leader of the present Siengerfest, has already occupied an exalted reputation as a musician of eminence and distinction, but the manner in which he has discharged his duties on the present occasion has served to make for him a permanent Germanic-American reputation of the most enviable character, and which is, in truth, well deserved, from the faithful and unremitting attention he has given to his duties.

The concert opened with the grand overture "Robespierre," by Littolf, by the full orchestra. This and the "Fest Overture," by Hohnstock, in the second part of the programme, were tinely rendered. The united societies sang in grand style the noble chorus "Sonnenaufgang," by Hammer. The next selection given by the united societies was an acknowledgment to the Creator, a fine composition in E flat, by Herman Mohr.

This was followed by Abt's "Song of Victory."

In addition to the united efforts of the societies, various delegations sang some less pretentious compositions with excellent effect, The New York singers gave "Das Kirchlein," by Becker, and the Philadelphians sang "Zum Walde." The Baltimofeans distinguished themselves by the manner in which they rendered the prize composition of Herman Franke.

This programme will be repeated at the picnic to-morrow afternoon at the Schuetzen Park.

The award of prizes will be made tomorrow, and the decision of the judges is looked forward to with much interest.

-Yesterday an examination was made of the pupils of the Lincoln Institute by the State Examining Committee, Colonel George F. McFarland, State Superintendent, Francis Wells, Esq., and Lady Superintendent, Mrs. E. W. Hutter. The examinations were confined to the classes of the first, second, and third divisions, who exhibited a good degree of proficiency in spelling, reading, and writ-ing. The lads were also drilled by Colonel McFarland, showing a quickness and accuracy of movement.

About five o'clock yesterday morning a yawl boat was found floating in the Delaware, having on the stern the name of Amanda Malvina, and blood in large quantities on the seats and sides. The boat is claimed by a

relled yesterday as to the order in which they should present their addresses to the Governor-General, who, when he heard of it, ro-fused to receive any of them.

-The Decatur cotton case, involving the value of 1500 bales of cotton, was decided against the Government yesterday, at Memphis, Tennessee. The case will be carried to the United States courts.

-The convention to consider the feasibility of introducing Chinese labor into the South and Southwest opened yesterday at Memphis. A large number of delegates were present, including several prominent Chinese.

Foreign Affairs.

LONDON, July 13 .- The Star to-day says:-"The intervention of Americans has undoubtedly helped to prolong the insurrection in Cuba. The Government has resolutely declined to be led into acts of open hostility to Spain, but the Lairds of America have contrived, in some instances, to outwit it. This does not exculpate England, but shows that the faults of which she is accused may be committed by another nation at the very time it is exacting redress for them." LENDON, July 13 .- A collision occurred at

Sheffield to-day between two parties of miners, one belonging to the union, and the other consisting of anti-union men. The fighting was severe, and many were injured, one fatally.

William Winthrop, United States Consul at Malta, is dead,

LONDON, July 13 .- In the House of Commons to-night, Mr. Otway, in reply to Mr. Sykes, in respect to the relations of England with China, admitted that it was the interest of England to strengthen the central government of that country, and not to weaken it by a gun-boat policy and extravagant de-mands. He reminded the House that America and other countries have treaty rights in China as well as England. In revising the treaty of Tien-tsin, we must consider the probable action of other countries as well as our own demands and rights.

The internal trade of the country was destroyed by British merchants selling certifi-cates to Chinese traders, to enable them to defraud their Government. The Chinese Government desires to yield to the wishes of the merchants, and when the Emperor attains his majority it is hoped we shall be able to treat with him on all questions in regard to the rights of trade, in that country, of English merchants.

BREST, July 13.-A despatch from the Great Eastern, dated yesterday, announces her arrival off Miquillon, but a dense fog prevailing, she had, as yet, been unable to find the shore end of the cable, with which to make a splice with the deep tea cable. A later despatch says the cable has been cut and buoyed, to prevent accident, until the fog clears up. No communication has been had with the ship since last night.

PARIS, July 13 .- It is officially announced that the Senate will be convoked for August The session of the Corps Legislatif will be immediately prorogued, and the resignations of the Ministers have been accepted, but they continue to hold office until their successors are appointed. PARIS, July 12.—The *Tiers parti* deeming the message of the Emperor satisfactory,

have written the proposed interpellation. The Debats newspaper of to-day, commenting on the political reforms promised by the Emperor, thinks it impossible to overvalue

their meaning, and unjust not to be grateful for the Emperor's concessions.

man named Miller, who states that he had it entrusted to him to sell, and that it was stolen from the wharf where it was moored. On Monday night three men and a woman were seen in a boat resembling the yawl in ques-tion. In the bottom of the boat were two caps, one of fur and the other of cloth. One of these is claimed by Mr. Miller, and the other is supposed to have belonged to one of the men. The detectives were informed of the affair, and are endeavoring to find the parties seen in the boat. From the large amount of blood found on the seats, it is feared that some one has been foully dealt with and thrown overboard.
