A. I made no terms directly, but Colonel Snowden mentioned a sum, and asked me if that was alamst right for clerk hire by the day: I told him I thought that was a fair day's wages. Q. Not to my recollection: the parties were not paid by the Democratic committee to my knowledge: I have handed them money from Colonel Snowden, probably three or four times to Bollean and White.

The pressing want was in the lack of class-rooms for pupils of a more mature age than the children, and this want, the building, however remodelled, could not be made to satisfy. The necessity there-fore arose to look around them for a site upon which to erect a new building for the school, capable of accommodating all its needs and answering all its requirements. Directly opposite the clurch, upon the corner of Vanghan and Locust streets, a lot was secured. Immediately thereupon, the committee having the work in charge, backed by the whole con-gregation, vigorously set themselves to the task of combacting the quick building of a school. Plans were

A COINCIDENCE.—Prominent among those who were recognized as professional vonchers for those obtaining naturalization papers in the Supreme Court during last September was one James A. Watson. He was subpended by Mr. Waterhouse, Constable of the Twenty-second ward, to appear be-fore the Examiners taking testimony in the late con-tested election, but was not present when his name was called.

Judge Peirce is the only member of the bench now present in the city. The proof of the service of the subpena was made before the Examiners, and was taken out by Tipstaff Waterhouse, who arrived Judge Peirce's residence just as that gentleman had returned from a drive. The case was stated, the Judge dismissed the carriage, and then signed the attachment. Armed with the document, Tipstaff Waterhouse went to the house of Watson this norm-ing, and upon being confronted with that individual, recomized him as the men who had been dividual. recognized him as the man who had been driving the carriage for Judge Peirce at the time he signed the attachment.

Boor THIEVES.—Yesterday two men went into the boot and shoe store at Filth and Shippen streets, and while one was being waited on by the attendant the other lifted a pair of boots and left. After they had gone the storekeeper missed the articles, and gave notice to a policeman, who succeeded in arrest-ing one of the two, who gave the pape of Lawresting one of the two, who gave the name of Lawrence Wayne. On him was found a pawn ticket calling for the boots. They were recovered. The pri-soner will have a hearing this afternoon at Central Station Station.

ATLANTIC CITY, July 31 .-- An excursion train of twenty cars came down early this morning. as a forerunner of the crowds that will to-day rush to the seaside. The regular morning train added about two hundred to the population of the hotels; and as there are four regular trains yet to arrive, there is a good prospect of lively times. The weather is cool and charming, and the bathing, which has been for the past week ouite chilly, is now quite delightful The safety of bathers is proved by there having been not a single case of drowning, and a musquito is more of a rarity here than in Philadelphia. Camp Meade is all ready for the Zouaves, who are to arrive by the afternoon fast line, which comes through in less than two hours. The great event for next week is the Bal Masque, which comes off on Thursday evening at the New Excursion House, the saloon of which was selected because its dimensions will give room or the throng expected on that occasion.

According to the specifications it will be seen that the great want of the school hitherto, the want of rooms for Bible-classes, has been met and amply The partitions between the various rooms, both on The partitions between the various rooms, both on the ground and first floors, are so constructed as to slide away when required; those on the ground floor descending into the cellar, those on the first floor receding to the walls, thus leaving but a single, unobstructed chamber, large and convenient. The roof will be "Mansard." The entire building will be warmed in cold weather by means of the "Harrison Heaters." Mr. Samuel Sloan is the archi-tect; Mr. John Crump the builder.

Now, comparing this result with similar calculations in relation to Second street, which contains 2500 buildings_twelve of them for sale, fourteen without tenants, and seven rooms to rent-it appears that with one-sixth more houses, these streets between the rivers have but threethese streets between the rivers have but three-fourths as many for sale, while of houses, stores, and office-rooms to rent, they have nearly seven times as many. Beyond the Schuylkill, in these streets, there are houses for sale or to rent. Were such taken into account, the number for sale would not be greatly in excess of those in Second street, but the disproportion of those held for tenants would be still further increased.

SOUTHERN EDUCATION.

The Peabody Fund-Letter from the General Agent on its Distribution. The Rev. Dr. Sears, general agent of the Pea-body Southern Educational Fund, wrote as fol-

lows from Staunton, Va., on July 10:-The trustees have decided to co-operate with State systems (of public instruction) as far as possible. We hope to do so with Louisiana, and I see no great difficulty, if the two races are placed in separate schools. I believe there are to mixed schools in Florida, South Carolina, North Carolina, or any other State; nor can suppose that Louisiana will venture on so bold an experiment.

If, under the State law, no schools are main-tained but such as are attended by colored children, or if, virtually, the colored children, and they alone, are provided for by law, we must

look particularly after the white children. In making our arrangements with towns, our

judgment must be guided, first, by the amount raised by the people: secondly, by the popula-tion to be provided for. Our contribution is not a charity to poor children, but an encouragment to communities. The people must contribute something-say three-fourths, or more, of the amount needed to support a free public school in their midst, and a certain number of children to be provided for should also be reported, so that we may know what supplementary aid is required, each year, to render the school per-

manent and successful. Both the trustees and Mr. Peabody are warmly attached to our plan as it now is, particularly to that feature of it which relates to public schools I cannot yet say, however, what amount can be granted the coming year. If we can work more advantageously in Louisiana than elsewhere, we can justly and wisely do more than we could do otherwise; but if the children for whom we provide will not attend the schools, we must with-draw our aid and bestow it elsewhere. I wish you to exercise a wise discretion in this

matter. Be pleased to let the people know that the way in which they use our contribution one year will determine the question whether it shall be renewed. Every thing is on probation; this is our great security. If the people raise the needed funds and concur with us, whole communities will have the same interest in the schools as though they were unconted by conc schools as though they were supported by gene-ral taxation. We wish particularly to know how much money has been raised, and how many children have attended the schools already aided in Louisiana.

THE LIBERATORS.

Colonels Ryan and Currier Still at Clifton-Their Views on the Situation. NIAGARA, July 20.—Colonels Ryan and Cur-

rier, of the late Cuban cavalry, are still at Clifton, Canada, where they attract much attention. They appear to be nowise dispirited at the recent turn of affairs in New York. They look upon the reported dissensions in the Junta as more calculated to injure the members individually concerned in them than to prove detrimental to the cause of Cuban independence. Had the Junta properly sustained the Gardiner's Island expedition, they allege that they would have long ago reached Cuba with the forces they were recentlycompelled to abandon in New York Captain Anderson is expected to reach here tomorrow, when some plan is to be agreed upon for another movement. Communications are daily had by Ryan and

Currier with the Junta in New York, and it is

given out that when a new course of action is

determined upon, neither the petty internal dis-

sensions of parties in New York, nor the zeal of

Uncle Sam's officials will be able to frastrate the movement. The story that a body of Cuban

volunteers were about to make their way to the

Canadian frontier is pronounced by Colonel Byan without the least foundation. I learn,

however, that Colonel Ryan has been tendered recently, by wealthy Cubans of New York, such

means as may be required for a reorganization

of another expedition, and a supply of arms, am-munition, etc., which were to be forwarded from

A commission in the Cuban forces has been

proffered, through Col. Ryan, to Capt. Cusick,

of the United States Army, who is now at the International Hotel, but that gentleman de-

clines. Several Cubans of means are also at the

International, and frequently call upon Ryan

and Currier. Riding out to-day, I observed a

Cuban flag waving from a flagstaff at the Mont-

DIED.
