## NEWS SUMMARY.

#### City Affairs.

-Between 11 and 12 o'clock on Saturday night an attempt was made to kill Jacob Merker, residing in Borden street, above Third, First ward. He had been in the saloon on the corner of Fourth and Wharton streets, and there, as alleged, had a quarrel with one of a party of young men. When he went outside he was followed and three shots discharged from a pistol at him. One of the balls struck him on the side of the head, but glanced and passed upward, producing only a flesh wound, which was dressed at the drug store of Dr. Nebinger, Yestarday Mr. Merker had so far recovered as to feel no bad effects from the injury. The offender, who is unknown, made his escape. —At the annual election of the Typograph-

ical Union, No. 2, held on Saturday evening, the following officers were elected to serve the ensuing year;-President, John W. Bailey; Vice-President, William Tarner: Recording Secretary, Hugh J. Darborow; Financial Secretary, Samuel D. Carter; Treasurer, Charles Gelwicks: Doorkoeper, William Goode, Sr.: Trustees, Eugene Vallette, John Dunn, Owen A. Duffle: Business Committee, James Beatty, P. H. Jacobs, Alexander McLean, E. McCan, Horatio Garey, H. W. Robertson, J. W. Kenting, W. K. Clare, Poter White.

-James Boyce, aged 23 years, residing on Twenty-third street, above Race, was attacked yesterday by parties unknown, and badly beaten about the head. South Carr, aged 13 years, residing at Eighteenth and Bedford streets, in jumping from a train of cars on the Baltimore Railroad was thrown upon the track, and the wheels of the car passing over one of her limbs, severed it from her body. She also sustained an injury to one of her arms. The above were admitted to the Penusylvania Hospital.

-On Saturday afternoon a fire broke oal on the roof of a large dwelling on the south side of Spruce street, above Eleventh, and before it could be checked had destroyed or damaged the roofs of the dwellings from No. 1100 to 1106. The firemen labored under great disadvantages, owing to the heat of the day and the scarcity of water, but they sacceeded finally in subduing it, confining it to the roofs. The occupants suffered in damage to the furniture by water. Mrs. Eliza Gilpin, widow of the late Henry D. Gilpin, and Mr. Henry B. Tatham were the occupants of two of the houses: the third was without an occupant. The loss is covered by insurance. About 4 o'clock yesterday morning Capain Shaw, of the London Fire Brigade, was own the skill of our firemen. The alarm sounded from Broad and Buttonwood ets, and the various companies hurried

and went through the evolutions of extinguishing a confiagration, which were witnessed by Captain Shaw and the committee from Baldwin's locomotive works. As the fact that an alarm would be given at that hour was made public beforehand, the firemen were prepared for it, and in some instances companies left their bouses before it was communicated, and took stations nearer the point, in order to be early upon the ground. Two companies upon being told that the alarm had been given, harried to the spot before it had been sounded.

RUINED.

A Yonkers, N. Y., Banking House Smashed.

Mr. Stokes, cashier of the banking house of T. F. Morris & Co., who has decamped, is a defaul-

of the firm came to New York to look after cer-

ain securities, and it was ascertained that Mr

Stokes had already converted the securities into

available funds, and appropriated them to his own use. On the return of Mr. Morris to Yon-

kers, and after a con-ultation with his brother

on the subject, it was decided to close the bank

and investigate the true state of their affairs.

The exact amount of Mr. Stokes' defalcation has not been ascertained. The Messrs, Morris are said to have received a letter from their de-

FERRIS & CO.'S

AUTOMATIC GAS MACHINES

Have been in successful operation for eleven years, and in all cases given perfect satisfaction. The light is much superior to that of city gas, at much less cost. The many accidents arising from the use of KEROSENE and COAL OIL LAMPS and worthless gas machines should in-duce persons to adopt a safe, ecconomical, and satisfac fory light. The simplicity of our machine, its slow motion, its superiority over all others on account of its REVOLV-. ING evaporator, which takes up all the carbon from the material, and the fact that it will run for years without cost for repairs, recommend it above all others in the market. The machine can be seen in operation at our Office, where explanations and references will be given. FERRIS 4 CO. 6 Ituths Smip) No. 327 CHESNUT Street, Philada. We learn by a letter from Austin that Mr. riett, formerly a resident of our city, has just returned from a visit to the Hot Springs, Ar-kansas, and brings word of the Rebei butcher Manhattan. Duff, which will interest all of our readers in Western Texas. It seems that Duff has been keeping store on

the Arkansas river until recently, when he mur-dered a negro and is now in jail at Little Rock, awaiting his trial. The murder was a coldblooded one, and the feeling against the murderer is intense, so much so that he is trying to obtain a change of venue to Pine Bluft. The Sheriff informed Mr. Arlett that a change of venue would do him little good. When Duff fled the country it was reported he

had gone to Europe, and all traces of his whereabouts had been lost by the Union men, at least. Duff was the commander of the Rebel troops that hung one hundred loyal men in the German counties-his troops took part in the Nucces massacre, and his deeds of murder and outrage form one of the blackest pages of the Rebellion.-San Antonia (Texas) Express.
