### WITT INTELLIGENCE.

8

MUSIC IN THE PUBLIC SCHOOLS. The Board of School Control are endeavoring to introduce the study of music into all the public schools of this city. To that end they have adopted a plan of procedure so com-prehensive in grasp, and have arranged so effec-tively for the execution of its details, that its success can no longer be considered doubtful. Indeed, they have well used the experimental appropriation of 60000, and City Councils may heartily incline to be most liberal this fall. Jean Louis, an accompilished singer, educated in the first musical schools of Ger-many, has been appointed chief instructor, at a salary of \$1900, and under him have been placed fontcen competent teachers, at an average salary of \$350 each. Professor Louis' main charge will be the Central High School; Professor Everest will have the Normal School, and to each of the assistant teachers will be assigned the Grammar and Second-MUSIC IN THE PUBLIC SCHOOLS. The Board of School

have the Normal School, and to each of the assistant teachers will be assigned the Grammar and Second-ary schools in two school districts Professor Louis paid his first official visit to the lads at the High School yesterday afternoon, and gave them the first of the series of contemplated weekly lessons in the closing hour of the session. The experiment was a highly successful one, the tact, urbanity, and enthusiasm of the professor en-listing the interest of the boys at once. This morning Professor Louis met the lady prin-

This morning Professor Louis met the lady prin cipals of the Primary Schools in the Normal School cipats of the Frinary Schools in the Normal School building. As the limited appropriation will not allow any provision for the teaching of the little ones in this department, the professor kindly volunteered to give a course of instruction to these Principals, that they might he fitted to these Principals, they might be fitted to teach their assistants

that they might be inter to teach their assistants and scholars in turn. A large number of ladies were in attendance, and much interest was manifested by them. Daniel Steinmetz, President of the Board of Control, briefly referred to the importance of the study of music in the public schools, and ranked it as of more value than any other branch of instruction. To him it appeared to be a great moral force—a police force by which the teachers could govern the pupils with the utmost facility, and by which the children would be refined and benefitted.

Professor Louis being introduced, stated his great Professor Long being introduct, stated in Spear aim was the popularization of music in the schools committed to his charge. To the attainment of that end he would bend all his energies, and he would request the hearty co-operation of those before him. He would, at the weekly meeting on Saturday next, divide the provide the dasass: those who had no musi-Principals into two classes; those who had no must-cal instruction would be taught from 10 to 11% o'clock; those who had some proficiency would follow until 1 o'clock. The advantages of musical edu-cation were then alluded to fittingly, and a series of introductory exercises were explained and practised. The first principles of musical expression and time were illustrated so clearly and concisely as to show the exact competency of Mr. Louis for the duties he has assumed. In this connection, it may be stated that the Controllers are considering the propriety of a public musical entertainment by many of the children at the Academy of Music during the fail season, that the public may see the results achieved by a few months' thorough instruction.

A CUTTING AFFRAY AT RICHMOND-ONE SHIPPING MASTER PLUNGES A KNIFE INTO ANOTHER.-Yester-day afternoon, a cutting affray took place at Rich-mond, which may result fatally to one of the participants, both of whom were shipping masters, tween those men, William Geary and John Dryt name, there has existed an enmity, arising it the course of business. Yesterday they met on Pier No. 11, and after a few words about the shipment of a crew which Dryberg had succeeded in taking away from Geary, the latter approached Dryberg with a knife. Dryberg had a cane, which he plied with some little effect about the head and arm of his assailant, but the latter overpowering him, soon gained the upper hand, and inflicted three incisive wounds

upon the head of Dryberg. This he followed up in a cool spirit of determina-tion by another one just below the left nipple, the blade being forced through the pleura and penetrating the ling. The wounded man for a time bled profusely. Some of the bystanders picked him up and conveyed him to Bearman's barber shop, near when Dr. Thomas S. Bartram, 1613 Richmond street, was called in and dressed the wounds. He was then conveyed to his establishment, in William street, where he has been residing. The physician then probed the breast wound, but was forced to

desist through fear of producing hemorrhage. Geary, after the committal of the deed, threw the knife into a pile of coal dirt, where it was afterwards found, the blade being bent in a semicircular form. He was immediately taken into custody by some of the officers of the Eighteenth district force and re-moved to the station house, where he is now con-fined to await the result of the injuries he has inflicted in a passionate moment. Some four or five of the lookers-on have also been arrested to serve as witnesses.

THE AVONDALE RELIEF FUND .- The treasurer of the fund for the relief of the widows, orphans, and other sufferers by the Avondale mine calamity acknowledges the following receipts :-

FIREMEN'S PARADR.—This evening the Northern Liberties Hose Company, on their return from a trip to Williamsport, Buffalo, and Nugara Falls, will be received by a grand demonstration from many of the other companies in the city. The arrangements for the reception have all been completed. There will be a torchlight procession, of course. It will pass over the following route:.— Form on Walnut street right resting on Front, march up Walnut to Tenth, down Tenth to Locust, out Locust to Broad, out Broad to Arch, down Arch to Fifth, up Fifth to Girard avenue, down Isarel to New Market, down New Market to the Liberty Hose house.

Hose house. Albert R. Schofield has been elected Chief Marahal. First Division—Delaware Engine, Resolution Hose, Mantua Hook and Ladder, Harmony Engine. Second Division—Humune Hose, Friendship En-gine, William Penn Hose, Hope Engine. Third Division—Schuyikii Hose, Northern Liber-ties Hose, Lafarette Hose, Philadelphia Engine. Fourth Division—Taylor Hose, Union Engine, Globe Engine, Western Engine.

Engine, Western Engine, The following persons have been elected division marshals:-First division, Andrew Auld; second division, J. N. Kochersperger; third division, Wm. Curry; fourth division, William Knight,

THE DISPLAY AT HORTICULTURAL HALL, OD TUCSday next, the 14th inst., the iong-anticipated national display of fruits, flowers, and vegetables opens at Horticultural Hall, on South Broad street. The most extensive arrangements have been perfected, every care has been taken to insure the exhibition's success, and success it will have beyond all doubt. It would be difficult to tell which department of the display will be the most attractive-whether the fruits will surpass the vegetables, or the flowers surpass them both. In conjunction with the exhibition, there will be a meeting of the National Association of Pomologists and Fruit Growers on the 15th inst. This Pomological Congress for three days expect to debate on questions affecting practical and scientific fruit culture. The meeting of this assemblage, to-gether with the magnificent display and the grand evening reception to be given by the Horticultural Society, insure the success of the enterprise ere it starts. starts.

FIRE.—This morning, shortly after 1 o'clock, a fire roke out in the three-story brick building No. 1423 spring Garden street, owned and occupied by John 4. Smith & Sons, cedar tank and vat manufacturers The upper story with its contents was entirely de-stroyed, and the lower portions of the structure damaged both by fire and water. Mr. Smith estimates his loss on building and stock at \$5000. He has an insurance of \$2000 on the building in the People's Insurance Company, of this city, and \$1000 on stock and tools in a New York company.

BETTER .-- The condition of Mr. Brooks, the reve-ue officer who was shot by a cowardly dastard on Monday last, has improved since yesterday and last night, and well-grounded hopes are now entertained that he will recover. This is grateful information to the public, and important to his would-be assassing. His death, in case they were arrested, would have swung them without a hope of mercy. Their detec-tion, when Mr. Brooks himself is once upon their track, is rendered much the surer. May they speedily be brought to justice.

CHRIST REFORMED CHURCH .-- To-morrow evening, there will be an interesting service at this church, on Green street, near Sixteenth. It will be the first service held since the recent troubles, through which the building had to be offered for sale. Some kind friends have stepped in and made certain arrange-ments which place the congregation out of all danger losing their property. The service to-morrow ill be appropriate to the new and encouraging state ( affairs. Rev. Samuel II. Giesy, D. D., will deliver of affairs. he sermon.

MANNEM.-George Price and John Miller, two olored men, both employed at the Ridgway House, i the foot of Market street, the former as head and he latter as a sub-waiter, got into an altercation esterday aft-rnoon, during which George neatly sit of John's ear. The difficulty had its origin in um-brage taken by Price because Miller carried away a piece of watermelon from a guest. A regular fight ensued. Alderman White committed George,

TOOK THE ADVANTAGE .- William S. Roberts, an Englishman of three months' importation, resides at No. 2116 Elisworth street. Yesterday, during the procession of the American Protestant Association, he went to look at it, descriing his house for the time Pending his absence thieves effected an en trance, and carried off \$125 worth of clothing. liam is wroth.

UNITED STATES COMMISSIONER'S CASE,-Before United States Commissioner Henry Phillips, Jr., at noon to-day, Harding Tucker, master of the Ameri-can brig Etta M. Tucker, was held for a further hearing on the charge of assaulting a seaman named John Hanagan on that vessel whilst sailing from Portland harbor on the evening of August 26, 1869. The hearing was continued until Monday at noon.

DROWNED .- Last evening a lad twelve years of age, named Charles Darrah, fell overboard at Arch street wharf, Schuylkill, and was drowned. His body has not yet been recovered. The Harbor Police are grappling for it. The deceased lived at No. 2130 Powell street.

THE WAR .- During the past two weeks 150 unmuzzled dogs have been captured. Thirty-three of them have been redeemed from the hands of the

The Burning of Another Brenker. The Burning of Another Breaker. Yesterday afternoon intelligence was received here of the partial burning of the Barroughs Break er, belenging to the Wyoming Coal and Transportation Company. This breaker is about a dozen miles from Avondse, and is connected with one of the richest mines in the valley. It took fire on Sunday after-noon. The dames were discovered by a boy, who saw them shooting out of the roof, and were extla-guished before serious damage was incurred. No persons were in the mine at the time. The Story of Signs of Mar.

### The Story of Signs of Life.

The Story of Signs of Life. The assertion that one of the bodies taeen from the Avondale mine showed signs of life on being brought to the fresh air is utterly false. It is singu-lar, however, that no effort at resuscitation was made by the physicians present. I heard a man say to-day that he had known men in Wales to be re-stored to animation, after having been propondiced stored to animation after having been pronounced dead-death having been caused by poisonous mine gases. He urged that there had been too much haste in burying the remains, and said that the doctors ought to have taken at least two or three of the bodies, and subjected them to every test calculated to revive them. Certainly, no harm could have folowed such an effort, and many of the miners would have felt more satisfied than they are, for there are men here who really believe that some of the miners who were apparently deal might have been restored to life if proper efforts to resuscitate them had been made

General Sherman as Secretary of War. Special Despatch to The Evening Telegraph.

Washington, Sept. 11.—General Sherman to-day assumed the duties of Secretary of War. His pre-cise status excited considerable discussion, as it was argued he was appointed ad interim, and which would have to be renewed every ten days unless the President should make a permanent appointmen

sconer. It was also maintained that Sherman could not be General of the Army and Secretary of War at the same time. All doubts about his position were re-moved by some newspaper correspondents waiting upon him and requesting him to explain how the matter stood. He cheerfully gave them all the in-formation they desired; showed them his corr mission as Secretary of War, which holds good till Congress meets unless the President makes another appointmeets, unless the President makes another appoint-ment before that time. His first appointment as Secretary *ad interim* was revoked. He cannot draw pay for both offices, and will retain his army position, as General Scholadd did General Schofield did under similar circum-

stances. The Treasury Department Closed.

Descatch to the Associated Press.

WASHINGTON, Sept. 11.—From respect to the memory of Senator Fessenden, the Treasury Depart-ment is closed to-day to the public, and only the most important routine business is being transacted.

preparations to attack Lopez in force.

tained considerable damage.

What is it, and what will cure it? It is a fact that will not be controverted that Dyspepsia is a national disease, to be found from the Presidential mansion to the humble cottage along the marshes of the Atlantic. Symptoms-There are scarcely two cases of Dyspepsia alike. The symptoms vary. In one case they may be cold hands and feet, oppressive soreness and pain in the pit of the stomach, drowsiness after meals. In another, costiveness, heartburn (so called), tormenting feelings, both mental and physical. In a third, nervousness, the spirits depressed, a foreboding of evil, the mind so depressed that in some cases there is extreme melancholy, and the sufferer is led to commit suicide. In another, harassing belchings, saliva or a watery substance profusely running from the mouth, throat Despatch to the Associated Press, WASHINGTON, Sept. 11.—The Commissioner of Internal Revenue has, in pursuance of the various provisions of law, prescribed the scal register lock manufactured by the Townsend Manufacturing Company, of Buffalo, for use at the distilleries and bonded warehouses. They are furnished at the ex-pense of the owners of such establishments. Col-lectors and assessors are directed to ascertain what number of these patent seal locks will be required in distilleries and warehouses in their respective dis-tricts. Many acts of carelessness by officers having the custody of locks and keys have come to the knowledge of the Internal Revenue office. Any officer guilty of such negligence should be promptly reported for dismissal. Distillers are required to fit the doors on which locks are to be placed with the requisite hasps and staples, and the Internal Reve-nue officers are required to see that the hasps are sufficiently strong and the staples securely fastened. irritated with a dry cough, skin dry, then cold, the stools clay colored, restlessness at night, sleep easily disturbed, frightful dreams, at one time bowels constipated, then diarrheea or dysentery, caused by foul matter in the stomach, causing apoplexy and other diseases beyond the power of human skill te control. What will cure it? By indigestion the food lies in the stomach and is decomposed by heat, etc., into a mucus; this mucus adheres to the walls of the stomach until a false membrane is formed, which paralyzes the functions of the digestive organs. To perform a cure this false membrane must be detached, and the stomach healed and brought back to natural tone; without effecting this, it is impossible to effect a cure, and in this mode of ing to-day, \$92,600; total amount burned, \$16,015,744. T.C.P. SHOT

remove the false lining, and the Pine Tree Tar Cordial heals, making a perfect cure of this dreadful disease.

THE VIRTUES OF TAR.

A very ingenious "sell" upon the Royal Society of Great Britain was perpetrated by Sir Charles Hanbury Williams, a wicked wag of the age, during the furore caused by the discovery of the wonderful healing powers of TAR WATER Sir Charles sent a communication to the President relating the circumstances of a sailor's breaking his leg on board of the guardship at Chatham, and its perfect union and cure by an application of spun oakum soaked in tar. After the communication had been read and printed in the Royal Transactions, he sent a second letter, stating that he had forgotten to state in the former correspondence that the leg was a wooden one! Although this joke was a sore one for the society, it did not injure the reputation of Tar as a remedy, for its legitimate cures were so wonderful that odes were written in its praise, and the celebrated Bishop Berkely published two voluminous works describing, endorsing, and registering its virtues. From the failure of selentific men, at that period, to extract and concentrate the curative principle from the crude tar, its nauseousness caused it to fall into disuse, and its great healing powers were lost to mankind until Dr. L. Q. C. Wishart succeeded in depriving the specific of its unpleasant and cruder particles, and in his PINE TREE TAR CORDIAL offering to the afflicted all that was valuable, while the other parts were eliminated by its careful preparation. As soon as this was accomplished the remedy was again endorsed by the faculty, and the cures were such as to convert its enemies and firmly establish it as one of the greatest blessings to suffering humanity. Its success was immediate and wide-spread, and its manufacture became of great importance and a source of wealth to its reviver. A long life was spent for the welfare of mankind by Dr. Wishart. in perfecting his discovery and promulgating its usefulness, and at his decease (which took place but recently) the method of preparation an the extension of its usefulness devolved upon his sons. It cures colds and coughs with marvellous celerity, and is the only preparation which ap-proaches to a specific. It does not cover and patch up, but eradicates disease by removing the cause, and for obstinate, long-continued catarrhs, and consequently of the incipient stages of consumption, is the only certain remedy in the pharmacopæia. It would be a waste of the reader's time to enumerate cases, for the remedy is so well known, its virtues have been so thoroughly tested, that eulogy is superfluous and reference not requisite. Not only as an internal remedy is it valuable, but externally it heals sores and irritations, and as a pleasant fumigator in the sick room stands above all others

The Treasurer is glad to learn that some churches have already announced collections for to-morrow, and he hopes that every minister may give his people an opportunity of contributing to this fund for suffer-ing humanity.

All who desire to contribute to this fund should ad their contributions at once to George H. Stuart, Treasurer, No. 13 Bank street.

THE MORTALITY OF THE CITY.-The number of leaths in the city for the week ending at noon to-day was 281, being an increase of 16 over las week, and an increase of 34 over the correspond-ing period of last year. Of these, 129 were adults; 152 minors; 218 were born in the United States; 52 152 minors: 218 were born in the United States; 52 were foreign; 11 were unknown; 28 were people of color; and 10 from the country. Of the number, 6 died of congestion of the brain; 5 of inflammation of the lungs; 19 of marasmus; 5 of typhoid fever; 10 of oid age; and 24 of cholera infantum. The deaths were divided as follows among the different wards.

THE BEREAVED .- Next week the Young Mænnerchor Society will give a concert in aid of the families rendered destitute by the Avondale Mine disaster.

AVONDALE.

#### A Whole Church Suffocated-The Hideous Sight in the Dark Chambers-The Shaft that Never was Sunk.

A correspondent sends to the New York Sun par ilars of the funeral at Plymouth yesterday, and adds:-

### A Whole Church Suffocated.

At the conclusion of an address, the Rev. Mr. Mor-gans, pastor of the Welsh Baptist Church in Phymouth. remarked, with deep emotion, that a! three of the male members of his church had perished in the mine.

### Seventy Men Digging Graves.

It required seventy men to dig the graves in the Hyde Park Cemetery. This force of gravediggers commenced work yesterniay morning, and were en-gaged at it all day, and until late last night.

### The Story of the First Descent.

William Balliday, who was among the first to en-ter the mine after the fire was extinguished, has made the following statement:-

made the following statement:--made the following statement:--PINE RIDGE COLLERY, Sept. 8.-I. William Halliday, have been three times down the shaft; the first time I could not go away from the bottom. I went down the second time to-day, and, with three others went up the plane in the east gangway, as near as I could judge, one hundred paces; the first we saw were two men in a car-dead; a lew paces further on were formen and boys, in a pile, lying in different positions-some on their faces, others on their backs; inthers with soms in their arms, who, from appearances, had died with great struggle We began to be overcome with the first damp and small from the dead bodies, but still felt as if we could not come away without biringing one of the dead with us, and accordingly we each got a boy on our shoulders and brought them up with us. After I found this lot of men i went about fifty feet further on to the back end, br from the same gangway and irought out a man. About thirty of the men had their shirts drawn over their heads for protection. protection

### Hideons Human Statuary.

**Hideous Human Statuary.** The fact, as stated by Mr. Halliday, that thirty of the men were found with their heads and faces covered by their shirts, is accepted by many as evidence of a terrible struggle on the part of the miners to hight for life as long as possible. The positions of the bodies also indicated as much, although the faces of the dead, except in a few instances, exhibited no signs of great suffering or mental torture. Even on that cold cluster of human bodies grouped together like hideous statuary by the hand of death, the testimony of affection in the last moment of life was written. Folded in each other's arms were finends who had stood by each other under the sum body, his own son, who had answered the same yound partially sitting up and holding on each arms, what the feelings of all the prisoners were we may at the feelings of all the prisoners were we may a store to magine, but we can never fully realize.

## The Shaft that they Intended to Sink.

If this terrible calamity had not occurred another shaft would have been sunk in a few days. The shart would have been sufficient in a few days. The miners were, in fact, getting everything ready to commence this work, as the point had been reached in the mine at which it was intended to place a second shaft. The matter of danger had repeatedly formed a subject of conversation among the miners, and it was only a few days before the disaster that

were received from William L. Garrison and others. visions have been made for carriages outside the harmonious. WM. J. HORSTMANN,

Chairman of the Committee.

Tar Cordial is an extremely potent and valuable medicine for the cure of throat and lung diseases. It combines, to a degree unknown in any other remedy, vigorous action with safety and harmleseness.

## DR. WISHART'S PINE TREE TAR CORDIAL.

It is the vital principle of the Pine Tree, obtained by a peculiar process in the distillation of the tar, by which its highest medical properties are retained.

It is the only safeguard and reliable remedy which has ever been prepared from the juice of the Pine Tree.

It invigorates the digestive organs and restores the appetite.

It strengthens the debilitated system.

It purifies and enriches the blood, and expels from the system the corruption which scrofula breeds on the lungs.

It dissolves the mucus or phlegm which stops the air passages of the lungs.

Its healing principle acts upon the irritated surface of the lungs and throat, penetrating to each diseased part, relieving pain and subduing inflammation.

It is the result of years of study and experinent, and it is offered to the afflicted with the positive assurance of its power to cure the folowing diseases, if the patient has not too long delayed a resort to the means of cure;-

Consumption of the Lungs, Cough, Sore Throat and Breast, Bronchitis, Liver Complaint,

Blind and Bleeding Piles, Asthma, Whooping Cough, Diptheria, etc.
