Great Filibustering Expedition Off for the Coast-D-parture of Two Thousand, Men from a Florida Port-What the Prospects Are.

strong, under command of General Crysto, that left New York on Monday morning at 5 o'clock, on board the steamer Alabama, safely ran the forts and two revenue cutters and arrived on the Florida coast this morning. She was joined off a port by the Cuban privateers Lillian and Teaser, on board of which were 1600 men under General Golcouria, 10,000 Remington and Winchester rides, 500 sabres, and

twenty-four pounders. Another body of men, under command of Gene-rais Steedman and Magrader, are now at a Gulf port embarking on a third vessel for the common rendez-yous, off the Cuban coast. The Lillian and Teasor with

The Liniah and reaser, what good men, about seventy officers and a considerable quantity of arms and azimunition, sailed for Cuba last right. They will be joined at sea by the privateers Hornet and Caba, carrying fifteen gans each, some of which are 100-pounders.

These four vessels will escort the expedition to its Insidestination. The Hornet will cruise about the island and the others will go to sea in search of Spanish merchantmen and troop ships. Volunteering is very brisk along the whole Gulf

coast, and already 5000 men are awaiting transportation.

The Spanish Gunbonts-Another Fillbustering Steamer Rendy for Sea. The Government authorities at Washington have peremptorily decided not to interpose any obstacles in the way of the steamer Enterpo, recently loaded at Cold Spring, on the Hudson, with a large and valuable supply of ordnance and ordnance stores, designed as armaments for the thirty new Spanish gunboats, now being fitted out in this city and vicinity for use against the Cuban revolutionists. The Marshal removed his surveillance over the war-freighted vessels yesterday morning, after which he anxionsly and feveristly awaited instructions from Washington, hoping that they might furnish him with some definite and official plan of action in the matter. He hesitated about instituting any proceedings without peremptorily decided not to interpose any obstacles hesitated about instituting any proceedings without the direct sanction of the administration. No orders came to him, however, and be finally decided to reinquish all jurisdiction over the steamer, basing his altimatem on the opinion of the United States At-torney-General. The vessel being thus relieved of all interference, is now at liberty to go wherever she pleases. She will, doubtless, obtain her clearing papers from the Custom House to-day, error will then sail for Havana, at which place her cargo is made deliverable. It is beheved, how-ever, that she will have to run the gauntlei of the privateer Hornet before she can procure a peace-ful voyage to her destination. Considerable appre-mensions were caused among the Cuban residents of Rensions were caused among the Cuban residents of this city yesterday in regard to the Spanish gunboats, numerous assertions being made that the Govern-ment should offer no obstructions to their depar-ture. Our reporter visited United States District Attorney Pierrepont, for the purpose of asser-taining the truth of these assertions, but was told by that gentleman that no orders had been given by the Government for the release of the gunboats. They are detained, it will be remembered, on complaint of Colonel Freyre, the Peruvian Minister, who alleges that they are intended for hostile use against Peru by the Spanish Govern-ment. It is probable that they will not be suffered to go until some investigation has been made of this go until some investigation has been made of this charge. A report from Spanish sources has been cir-culated to the effect that the vessels will take their departure at the proper time without encounter-ing any opposition on the part of the Govern-ment, but there appeared to be several reasons for doubting the report. It is not probable, however, that the gunboats will make any attempt to escape under cover as soon as they are finished. It is also inder cover as soon as oney are measured. In the prepresented that the agents for the boats will resort to subterfuge for the purpose of getting them out of this port. Among the runnors is one to the effect that the vessels will be cleared as American mer-chant vessels. The ultimate disposition of them will be known in a very short time, -N. Y. Times of

The Brooklyn Navy Yard.

Whatever to say incending of our Government, or whatever may be its policy toward Cuba, one thing is now certain, that is, that preparations of such warlike aspect are in progress, and to some extent com-pleted, at the Brooklyn Navy Yara, as to waraat the belief that the United Sintes does not mean to re-main in the position of a mere idle and disinterested

tained, will probably amount to not less than \$150,000.

The following comprises the property they did not The following comprises the property they did not take:--Two packages, one containing \$27,000 in United States five-twenties, and the other about \$18,000 in available funds, the property of the Nor-walk Fire Insurance Company, were loosely wrapped in the difference of the state of the stat walk Fire Insurance Company, were loosely wrapped up in old newspapers, and overlooked; a wallet con-taining \$7500, the property of Jesse Smith, Esq., va-rious other packages of United States bonds and greenbacks, and the silverware above mentioned. Had they been less hurried and more discriminating, they could have added nearly \$80,000 available funds to the sum total of their very respectable haul. The bank has a capital of \$300,000 and a surplus of over \$00,000, and the officers assure us would con-tinue business without interruption, but with a di-minished reserve. The loas will fail chiefy on those

minished reserve. The loss will fall chiefly on those persons who had deposited their cash boxes in the bank for security. The barglars left behind a heavy persons who had coper banglars left behind a neary bank for security. The barglars left behind a neary copper sledge, a copper banmer, a full set of wedges, three canisters (two enotied of their powder), two jimmies, with all the materials for blowing the pow-der into the desired place.

der into the desired place. On the whole, it is evident that the job was done by experts, who have reason to feel very well satis-fied with their success.

Cleveland and Pittsburg, 90; Chicago and Rock Island, 1063; Pittsburg and Fort Wayne, 180%;
Western Union Telegraph, 263;. ebration of the Holy Sacrifice, the grand To Doum Loudanias of Haydn will be given, followed by the Mass of Von Weber in G, the master work of that Instrious composer. Before the sermon the Veni Sancte Spiritus, com-osed by the Abbe Vogler, will be sung, and in nonor posed by the Abbe Vogler, will be sing, and in hohor of the festival of the floty Rosary, the selection for the Offertory will be the *Aw Maria*, composed by Heinrich Proch, and sung for the first time in this city by Miss E. A. Donnelly, of St. Joseph's choir, with 'tiolin oblighto accompaniment (performed by Mr. Simon Hassler), together with full orchestra. As the last Gospel is being read by the officialing priest, the hymn in honor of St. Michael, *Te spicalor et Via-tus Patris*, will be sung, and at the conclusion of the corposition. it will thus be seen that the occasion will be commemorated with more than ordinary solemnity, and the church will doubtless be filled to its greatest ca-nacity. On all such occasions in the Catholic Church the ceremonies of the altar are most imposing and the ceremonies of the high are most imposing and edifying, and as the several events above referred to all take place to-morrow morning at St. Michael's, we may expect the services there, in conjunction with the superb music which has been prepared, to be of the most interesting obaracter.

well, who was deputed specially to look into the matter, is decidedly against the statement of the

importers, and coincides with that of the domestic manufacturers.

Spanish Outrages.

The State Department received to-day despatches from our Consul-General at Hayana, giving information of the contemplated interference on the part of the Spanish Government with the United States mail. No open act of violence had then been committed, but Mr. Plumb had knowledge of improper interference on the part of Spanish officials, which he believed would be followed up by an open seizure of the mails, unless proper steps be taken by the Government to prevent it. The despatches were referred to the Post Office Department, as it was understood that Mr. Creswell had already had some correspondence with the mail agents

The President's Mansion.

delegation of the Pittsburg steamboat men,

The war between the printers and Mr. Clapp Superintendent of the Government printing office, it seems, is not yet quite ended; and the superintendent has been so much annoyed by the demands of the printers, that he to-day issued a formal order defining their duties, and telling them that they must clearly understand that the power and duty of regulating the interual affairs of the Government printing office, including the selection of its , ersonnel and fixing of their rate of pay, are by public law vested solely in the Congressional printer; that he is held responsible for the execution of his office in the manner prescribed by law; that he cannot divide this responsibility with others, and that consequently all interference under color of any authority less than that of the Congress of the United States with his prerogatives in this regard, is alike unwarranted and unwarrantable. He cannot,

OUR NATIONAL DISEASE

What is it, and what will cure it? It is a fact that will not be controverted that Dyspepsia is a national disease, to be found from the Presidential mansion to the humble cottage along the marshes of the Atlantic. Symptoms-There are scarcely two cases of Dyspepsia allke. The symptoms vary. In one case they may be cold hands and feet, oppressive soreness and pain in the pit of the stomach, drowsiness after meals, In another, costiveness, heartburn (so called), tormenting feelings, both mental and physical. In a third, nervousness, the spirits depressed, a foreboding of evil, the mind so depressed that in some cases there is extreme melancholy, and the sufferer is led to commit suicide. In another, harassing belchings, saliva or a watery substance profusely running from the mouth, throat irritated with a dry cough, skin dry, then cold, the stools clay colored, restlessness at night, sleep easily disturbed, frightful dreams, at one time bowels constipated, then diarrhosa or dysentery, caused by foul matter in the stomach, causing apoplexy and other diseases beyond the power of human skill to control. What will care it? By indigestion the food lies in the stomach and is decomposed by heat, etc., into a mucus; this mucus adheres to the walls of the stomach until a false membrane is formed, which paralyzes the functions of the digestive organs. To perform a cure this false membrane must be detached, and the stomach healed and brought back to natural tone; without effecting this, it is impossible to effect a cure, and in this mode of treatment lies Dr. L. Q. C. WISHART'S wonderful cures of the Dyspepsia. The Dyspepsia Pills remove the false lining, and the Pine Tree Tay Cordial heals, making a perfect cure of this dreadful disease.

THE VIRTUES OF TAR.

A very ingenious "sell" upon the Royal Soclety of Great Britain was perpetrated by Sir Charles Hanbury Williams, a wleked wag of the age, during the forore caused by the discovery of the wonderful healing powers of TAR WATER Sir Charles sent a communication to the President relating the circumstances of a sailor's breaking his leg on board of the guardship at Chatham, and its perfect union and cure by an application of spun oakum soaked in tar. After the communication had been read and printed in the Royal Transactions, he sent a second letter, stating that he had forgotten to state in the former correspondence that the leg was a wooden one! Although this joke was a sore one for the society, it did not injure the reputation of Tar as a remedy, for its legitimate cures were so wonderful that odes were written in its praise, and the celebrated Pishop Berkely published two voluminous works describing, endorsing, and registering its virtues. From the failure of scientific men, at that period, to extract and concentrate the curative principle from the crude tar, its nauseousness caused it to fall into disuse, and its great healing powers were lost to mankind until Dr. L. Q. C. Wishart succeeded in depriving the specific of its unpleasant and cruder particles, and in his PINE TREE TAR CORDIAL offering to the afflicted all that was valuable, while the other parts were eliminated by its careful preparation. As soon as this was accomplished the remedy was again endorsed by the faculty, and the cures were such as to convert its enemies and firmly establish it as one of the greatest blessings to suffering humanity. Its success was immediate and wide-spread, and its manufacture became of great importance and a source of wealth to its reviver. A long life was spent for the welfare of mankind by Dr. Wishart

in perfecting his discovery and promulgating its efulness, and at his decease (which took place but recently) the method of preparation an the extension of its usefulness devolved upon his It cures colds and coughs with marvellous celerity, and is the only preparation which ap-proaches to a specific. It does not cover and proaches to a specific. It does not cover and patch up, but eradicates disease by removing the cause, and for obstinate, long-continued catarrhs, and consequently of the incipient stages of consumption, is the only certain remedy in the pharmacopeira. It would be a waste of in the pharmacopeda. It would be a waste of the reader's time to enumerate cases, for the remedy is so well known, its virtues have been so thoroughly tested, that eulogy is superfluous and reference not requisite. Not only as an in-ternal remedy is it valuable, but *externally* it heals sores and irritations, and as a pleasant femigrator in the sick room stands above all famigator in the sick room stands above all others. Tar Cordial is an extremely potent and valu-able medicine for the cure of throat and lung diseases. It combines, to a degree unknown in any other remedy, vigorous action with safety and harmlessness

main in the position of a more idle and disinterested special of of what is going on in the Antilles. The powerful monitor Dictator, which many persons thought would not be of any more use, has been put into thorough condition for sea zervice. A body of workmen recently overhauled her marblinery and put it in order for use. The vessel was then placed on the dry dock for such further examination and presented on a metal her designed because to her on the my dock his hight be deemed assessary to her bull, and now she is coaling up, it is understood, for a cruise in the Southern waters: She will be ready to-day. -Times of yesterday.

BANK BURSTING.

The Bank of Norwalk Robbery-Vault, Safes, and Treasure Boxes Blown Open-A Haul of

and Treasure Boxes Blown Open-A Haul of Over \$150.000. Yesterday, in our telegraphic columns, a despatch of the occurrence of this crime in Norwaik, Conn., was published. These are additional particulars:-Early yesterday morning, as some laborers at Nor-walk, Conn., were on their way to work they ob-served a couple of tin cash-boxes in the street and some loose papers lying around. These led to in-quiry, which resulted in the discovery that the Na-tional Bank of Norwaik had been robbed. When the reporter arrived at the bank there was quite a crowd assembled; but none were admitted except those who were on business. The bank is a brick building, with a handsome brown-stone front, situated on the south side of the

brown-stone front, situated on the south side of the

brown-stone front, situated on the south aide of the principal street of the town, adjoining and west of the depot of the Danbury and Norwalk Railroad. The officers of the bank had felt very secure against any attempt to despoil them of the valu-ables contained therein, resting their faith chiefly on a Franklinite iron-drill and burglar-proof safe, made by Hendrickson, of Brooklyn, and on the vault itself, though this was chiefly considered as a protection against fire.

From the appearance of the premises it was From the appearance of the prendess it was thought the burgiars must have entered by the front door by means of false keys, locking the door behind them. The opening of the doors of the vault by means of wedges and the "jimmy" must have been a comparatively easy task. This once opened they had their choice of numerous cash boxes, bundles of more or less valuable papers and documents, and baskets of silverware, deposited in the vault for safe basicels of silver ware, deposited in the valid for safe keeping. But these were none of "your every day gentlemen," who were content with small, or com-paratively small, recognition of their standing in their profession: they estimated themselves far higher. Within the safe were the articles of which they were in quest, and these they meant to have and proceeded to get. and proceeded to get.

and proceeded to get. They appear to have first tried to force the door or split the safe with wedges. First one, then another part of the door yielded to their well directed enorts, but the door was still closed and the safe intact. They next tried the efficiency of powder, and, de-split the warrantry of Mr. Hendrickson and the con-fidence of the bank officials appear to have had little difficulty in proving Mr. Hazard's powder superior to the warranted Franklintle. The charge was placed, the fuse laid and ignited, the valit deserted, and the doors sint and the explosion awaited. And such an explosion ! The safe door was destroyed, the doors of the valit blown open with such force as to break the wall behind them; the plate glass windows in the front of the bank were also broken, and other in the front of the bank were also broken, and other and numerous marks of the force of the powder are

plainly to be seen. At this juncture a Mr. Parker, who lives next door to the bank, and whose bed-room is about twenty feet from the vault, was disturbed in his slumbers, got out of bed, went down to the sidewalk in front of the bank, saw the gas burning as usual, and, see-ing broken glass on the sidewalk, supposed some boy had thrown a stone and broken the glass of the boy had thrown a stone and broken the giass of the lamp. Mr. Parker then returned to his bed. This was between three and four o'clock la the morning. The safe open, the enterprising gentlemen pro-ceeded to help themselves to a little over \$25,000, cash, the property of the bank is \$17,000 United States ive-twentles, \$11,000 Danbury and Norwalk Railroad bonds, and a note for \$10,000, the property of Mr. Eben Hill, the president of the bank ; eight \$1000 bonds, one \$500 and one \$50 bond of the Burlington and Mississippi Railroad ; one \$1000 bond of the city of New Orleans ; two certificates, each of fifty shares, of Eank of Norwalk stock ; one certifi-cate of forty-six shares Manhattan Fire Iusurance Company, one certificate of thirty-three shares stock of the Burlington and Mississippi Railroad, certin-cates of about \$5000 united States five-twenties, the property of Mr. E. K. Lockwood; \$2500 United States five-twenties, the property of George A. Da venport, Judge of Probate; and some five or six cash boxes they took, contents and all. These, with other and small amounts not yet definitely asocr-Mr. Parker then returned to his bed. This

his department, either as individuals, or in any organized capacity, to dictate to him in respect to his appointments, dismissals, or general policy of his office. He adds that he has yielded his last submission to threats of any combination of men inside or outside the office relating to its administration.

Secretary Fish returned last night and was at the State Depart-

ment to-day. About noon he was closeted with the President, and the report is that Cuban mat-

ters were under consideration.

Revenue Decision.

In reply to a letter from Messrs, Ford, Spaulding & Rapley, theatrical managers, an opinion has been furnished from the Internal Revenue Department, which decides that all rooms and halls rented occasionally for theatrical representations are liable to a tax or license of \$100 per annum; also, that exhibitions given in other places, rooms or halls not arranged and renied for theatrical purposes, under canvas or temporary buildings, are liable to the license imposed in paragraphs 38 and 39, section 79, act of June 30, 1864.

FROM NEW YORK.

A Vouthful Embezzler Lives High. Despatch to The Evening Telegraph.

NEW YORK, Oct. 2 .- John Sanderson is the name of the person who absconded from Puleston, Kaymond & Co. He is said to have lived at the rate of fifty thousand dollars a year on a salary of \$5000. J. Martin & Co. have failed. Secretary Creswell

in his speech this morning said there is nothing the Government can do for the merchants and ankers of this city that will not be done.

The Money and Stock Markets. Money is comparatively easy at 7 per cent, ou all to good houses; street rate 7 per cont. in gold. Covernments opened firm, but the advance was lost on the noon board, in consequence of the extreme dulness prevailing. Stocks have been unsettled and irregular, with the exception of Vanderoilt shares, which are the special feature. Central advanced 5 per cent., Hudson River 4, and Harlem about 3. The advance is attributed to the presence of Vanderbilt and his triends.

There is some anxiety in relation to an advance in stocks, as it will have the tendency to throw on the market shares that are hold at a higher figure. The market is purely a brokers' market. Foreign exchange is firm at 1081/ for three days and 108% for sixty days. Leading bankers are inclined to hold for higher rates during the coming week. The failure already reported was I. J. Mott and not J. Martin.

Rallroad Accident.

New York, Oct. 2 .- One car of the through passenger train on the New Jersey Railroad jumped the track in Jersey City to-day. None of the passengers were killed, but the car was badly smashed.

FROM TEXAS.

Resignation of Provisional Governor Pearce-

GALVESTON, Oct. 2 .- Provisional Governor Pearce sent in his resignation yesterday, and will take to stump for Hamilton. The action of General Reynolds and the administration regarding Texas affairs will cause 20 more Republican speakers to take the field for the Hamilton ticket. Preparations are being made for a grand Hamilton demonstration here to morrow.

ter, a couple of young fellows, arrested for being engaged in the emente last night at Fifth and Ches-nut streets, had a hearing this morning before Al-derman Kerr, at the Central Police Station, and were held to mywer the charge of incling to riot were held to answer the charge of inciting to riot.

FROM NEW HAMPSHIRE.

Bluess of Ex-President Pierce.

CONCORP. Oct. 2.-Ex-President Pierce has been very ill for some weeks past, and his physicians pro-nounce aim very low. His disease has assumed a dropsical form, and his recovery is extremely

The personal controversy between the Hon, G. G. Fogg, of the *Independent Democrat*, and the Hon, W. E. Chandler, of the *Republican Stateman*, has re-sulted in the deposit of \$10,000 by each, the latter offering to prove that Fogg offered the Hon, J. G. Sinclair to lend his (Fogg's) influence for the elec-

tion of Judge Chase II nominated for the Presidency by the Democratic party. The \$10,000 won is to be distributed among religious societies in Concord, and

THE MORTALITY OF THE CITY .-- The number of

deaths in the city for the week ending at noon to-day was 225, being an decrease of 14 from hat week, and a decrease of 50 from the correspond-

ing period of last year. Of these, 90 were adults; 126 minors; 174 were born in the United States; 38 were foreign; 13 were unknown; 8 were people of color; and 17 from the country. Of the number, 2

original for the contrast of the brain is of inflammation of the lungs; 6 of typhoid fever; 18 of marsanaus; 5 of old age; 7 of cholera infantum; 29 consump-tion of the lungs; and 14 scarlet fever. The deaths were divided as follows among the

DR. WISHART'S PINE TREE TAR CORDIAL.

It is the vital principle of the Pine Tree, obtained by a peculiar process in the distillation of the tar, by which its highest medical properties are retained.

It is the only safeguard and reliable remedy which has ever been prepared from the juice of the Pine Tree.

It invigorates the digestive organs and re-

stores the appetite. It strengthens the debilitated system. It purifies and enriches the blood, and expels from the system the corruption which scrofula breeds on the lungs.

It dissolves the mucus or phlegm which stops the air passages of the lungs.

Its healing principle acts upon the irritated surface of the lungs and throat, penetrating to each diseased part, relieving pain and subduing inflammation.

It is the result of years of study and experi-ment, and it is offered to the afflicted with the positive assurance of its power to care the following diseases, if the patient has not too long delayed a resort to the means of cure:-

Consumption of the Lungs, Cough, Sore Throat and Breast, Bronchitis, Liver Complaint,

Blind and Bleeding Piles, Asthma, Whooping Cough, Diptheria, etc.
