THE COLTON DENTAL ASSOCIATION, which was established in this city in 1863, has during the intervening space of time treated 55,000 patients, without one single accident, thus presenting the strongest kind of proof that gas is a safe anaesthetic, and that the attaches of the association know how to use it. The business of the con-cern is solely that of extracting, and a long practice and careful attention have perfected the operators in this particular branch. Fresh gas is made daily, and from two to three hundred gallons per day are used. The association much prefers administering the gas to persons in sound health, but in necessary cases it has been given to sickly persons. The charges for extraction are moderate, being \$2 for the first tooth and \$1 for all ambsequent extractions. The rooms of the association are at No. 337 Walnut street, the office hours being from 9 to 514 o'clock P. M. To those who contemplate paying them a visit, we would gratui-tously give the advice to call first, and secure an appointment, else they may be compelled to linger half a day awaiting their turn.

SUBNISHDE ORIGINAL FIRE PLACE STOVE AND WARM-ATR FURNACE COMBINED .- The only Fire-Place Stove ever invented that will warm the room in which it is situated. All others fail in that particular.

We have embodied in THE SUSNYSHIE all the LATEST and BEST-KNOWN PRINCIPLES of consuming coal with ECO. NOMY, and have discarded all the numerous imperfections that are being used in the Baltimore and New York Fire-Place Heaters.

THE SUNNYSIDE WIll produce MORE WARM AIR with LESS FURL than any other Stove, and is acknowledged, by all who are using them, to be SUPERIOR IN EVERY PARTI-CULAR to the Baltimore and New York Fire Place Heaters,

which they had heretofore used.

Do not be deserved by misrepresentations in regard to THE SUNNYSIDE, but call and examina it, and see the large number of testimonials from those who have them in use, which will convince any person of its superiority to all others, at the Warming and Ventilating Warerooms of

GEORGE P. SHOCK & CO.,

No. 353 N. Second street. WE DESTRE to call attention to the advertisement of Mr. Mitchell McAllister, in anoth or column, who is now propared to give exhibitions with the Storeoptican and Magic Lantern. Any one who has ever seen an exhibition of this kind must have been struck with the wonderful relief given to a landscape view or piece of statuary, magnified fifteen or thirty feet high having a periout stereoscopic effect. The cause of this effect is due to the scenes and pictures being photographed from nature, and giving the true perspective and all the v ried tints of light and shade, and also to the intensy brilliancy of the lime light. In the dissolving views the change seems almost miraculous, for whilst observing a view of a castle, abbey, or ruin, by day, the view changes almost imperceptibly to an en tirely different view by night, or from an exterior to an interior, or from one city to enother, in so gradual a manner as to completely bewilder the audience. Aquaciums are also shown with the fish swimming about, and margifled on the walter screen, to be from twenty to thirty toot long. Many other beautiful and interesting experiments can also be alsown. It has no equal as a means of sutertaining and instructing the young, and it also furms a most attractive exhibition for all.

DUFFIELD ASHMEAD'S BOOK STORE. It is a healthy sign in these "dull times" to see that the traffic in Litera-tereflourishes, as is indicated by the extensive alterations and improvements which have recently been made by Duffield Ashmead to his store, No. 724 Chesnut street. These alterations consist in an entire change of the front and interior of the store.

New Bulk Windows with large plate glass have been in serted in place of the old-fashioned kind, making the contrast quite striking. One window is appropriated to Books in every conceive ble style of binding, from the common cloth to the elegant "Free Calf."

The other window is appropriated to "Chromos," framed and unframed; the two windows forming a display which cannot fail to attract the passer-by, excite his curiosity and cause him to walk in and examine the large and well selected stock inside. The alterations and improvements to the interior are

equally decided. The whole store has been repainted, and ents a brighter and cheerier appearance. Midway in the store is the Art Gallery, which is commo-dious and well lighted, and is appropriated to the exhibition of Chromes and their "Originals," Immediately in the rear of the Art Gallery is the "Circulating Library," an entirely new feature of this establishment. This is fitted up in a very cosy manner, and contains over 4000 volumes of well-selected and standard works. By this arrange ment Mr. Ashmead is able to accommodate those who want to buy and those who want to borrow, Immediately adjoining the Circulating Library is the Wholesale and Packing Room, where the publications of this house are

Although the store is large, measuring 25 by 150 feet, it is furnished and arranged in such a manner as gives an air of comfort and case such as one feels in his own library. Altogether the store is a credit to Philadelphia.
