MEWS SUMMARY.

City Affalys. -Messrs. Thomas & Sons sold yesterday, on the premises, by order of United States District Court, N. J., the valuable property belonging to the National Iron Armor and Ship Building Company, Kaighn's Point, N. J., for about \$170,000. The machinery was sold separately for about \$15,000.

-Charles Leibrand, nineteen years old, had a leg broken yesterday at the depot of the Ches-nut and Walnut Streets Rallway Company by a bag of corn falling on it. He was admitted into the Pennsylvania Hospital. —The distribution of bread and soup was com-

menced yesterday to the deserving poor, at the Moyamensing Soup House, northwest corner of Eighth and Murriott streets. Contributions in

money or provisions will be received by any of the managers. Robert Graffen is the President, and John Pierce Treasurer.

—A committee of Conneils visited the County Prison on Monday, and, from an inspection of the untried department, expressed themselves the control of the c fully satisfied of the necessity of an enlargement. It is understood that they favor the extension of the Prison westwardly, using therefor the parade ground as far as Twelfth street. The subject will be reported to Councils at an early day.

-At the annual meeting of the stockholders of Horticultural Hall, held last evening, the annual report of the Directors was submitted, showing what the receipts from the hall have been. The expenditures were \$11,950 77, leav-ing a balance of \$489 13 in the treasury. In the expenditures were included the taxes of 1868, amounting io \$1872.60.

-Dennis Delany, forty years old, who resided at No. 169 Thompson street, fell off a lumber wagon yesterday, at Seventh and Coates streets, and being caught under one of the wheels was dragged along the railway track, and killed before the horses could be stopped. The Coro-ner held an inquest on the body, and a verdict of accidental death was rendered. The testimony did not clearly show that the fall was attributable to the wagon turning off the railway track but the jury inclined to that belief. Deceased

leaves a family. -The hearing was continued before Unite States Commissioner Hibler yesterday in the case of Nathan Kahn, a bankrupt, charged with obtaining goods with a fraudulent intent. August Cohen testified that defendant is indebted to the firm of Bloomingdale, Rhine & Co. \$459, purchased in August last, at which time he said his whole indebtedness did not exceed \$1500, and that he had on deposit with Henry Locheim about \$3800. Solomon Thalheimer testified that Mr. Kahn is indebted to Thalheimer & Hirch \$450 for goods purchased on the 26th of August last.

In a conversation with the witness, Mr. Kahn said that most of his property had been burned at the recent fire on Broad street. There was further testimony showing that defendant had 16 boxes and 8 trunks of goods stored at the warehouse on Broad street, lately destroyed by fire, and that afterwards the boxes and trunks of goods saved were hauled to his store, Second street, below New; also, that two bills of goods were bought of Charles B. Williams, of five or six hundred dollars; one on the 18th of November, the other on the 28th. The examination was not concluded at the adjournment.

The third annual meeting of the contributor to the building fund of the Academy of Natural Sciences was held yesterday afternoon. The annual report of the Board of Trustees set forth that a petition to the Legislature for permission to occupy one of the Penn Squares for a site for their building had failed, and that plans for an economical building, to be erected on the south-west corner of Nineteen and Race streets, had been adopted. The lot contains 48,528 square feet, and is so situated that natural light is secured to it from its exposure on three streets. The Treasurer's report shows that since November, 1868, only one hundred dollars additional contribution have been received; that after paying taxes for the year 1869, and sundry contingent expenses, the building fund on hand November 30 is \$31,284-68; that the aggregate of contributions remaining unpaid is \$15,175, making the total fund at the most \$46,459-68. A part of these contributions are payable in materials, and of course cannot be asked for until they are needed. It is estimated, therefore, that about \$44,000 are, or will be available during the year 1870, if the work is begun. During the past year, in which it was closed for six weeks, the Academy was visited by 94,756. The receipts were in the aggregate \$15.03, or on an average of a fraction less than one cent for every 64 visitors. The report was adopted, and the following were elected as the Board of Trustees for the ensuing year:

W. S. W. Ruschenberger, Chairman; George W. Tryon, Jr., Secretary; William S. Vaux, Treasurer; Joseph Leidy, William P. Wilstach, Frederick Graeff, Ed. S. Whelen, John Welsh, Thomas Sparks, Robert Bridges, Loseph Leaner C. Joseph Jeanes, John S. Haines, Henry C.

-We regret to announce the death of Mr John A. Robinson, which occurred on Sunday afternoon at 4 o'clock, at his residence on Brown street, near Eleventh. Mr. Robinson had been in his usual good health up to that hour, and upon going into the yard fell instantly dead. He was well known to many of our citizens as an insurance agent, having his office at Lancaster's Insurance rooms, Fourth and Walnut streets. He was for some time a steward of the St. George's Society, and his name had recently been placed in nomination as its secretary for the current year. Simple and unostentatious in his manners, he will be remembered with interest by many a poor Englishman who applied to him for aid, and received therefor words of sympathy and acts of beneficence.

A meeting of the Pennsylvania Baptist General Association was held yesterday afternoon. The Secretary's report showed that during the past year the Board had commissioned forty missionaries, whose labors have extended into twenty-seven counties and fourteen associations. In the discharge of their duties they have preached 3336 sermons, attended 1657 meetings, have made 6496 religious visits, travelled 13,603 have made 6496 religious visits, travelled 13,603 miles, and baptized 433 converts. The officers of the association are:—President, Samuel A. Crozier; Corresponding Secretary, Levi G.Beck; Treasurer, John C. Davis; Managers, Isaac Ford, J. H. Castle, Howard Malcom, S. J. Creswell, P. S. Henson, George Callaghan, H. G. Weston, William Catheart, George Snyder, George Nugent, Daniel Weckerly, J. Spencer Kennard, Owen P.—Eaches, A. H. Lung, William Wilder, George A. Peltz, James Miller, Warren Randolph, Lemuel Moss. Lemuel Moss.

Domestic Affairs.

The Covode-Foster contested election case involving the seat for the Twenty-first District of Pennsylvania, is to be considered by the

House committee on Thursday next. —Miss Bateman, charged with the murder, at Wheeling, West Virginia, on December 30, of W. J. McNash, her deceiver, has been released

upon giving bail to the amount of \$10,000.

—In the State House of Representatives yesterday, after some discussion, a resolution was agreed to providing for an investigation by a committee into the affairs of the State Treasury

-The following were the proceedings in Congress yesterday after the close of our report:

A message was received from the President, vetoing a bill for the relief of Rollin White. After an executive session the Senate adjourned. In the House, Mr. Farnsworth, from the Re-

construction Committee, reported a bill for the admission of Virginia. Mr. Bingham offered his admission of Virginia. Mr. Bingham offered his bill as a substitute, and both were ordered to be printed. Mr. Scofield, from the Naval Commit-tee, reported a bill transferring the Philadelphia Navy Yard to League Island. The House then went into Committee of the Whole, and Mr. Kelley made a speech, after which the House adjourned.

Foreign Affairs.

NEW JERSEY.

Gov. Randolph's Message to the Legislature. This document has just been issued. We publish some of the most important portions: -THE FINANCES-STATE FUND.

Income \$678,908-73
Disbursements \$582,877-54
Refunded to War Fund 93,279-71
Balance in Bank 2,760-48

\$678,908 73 The income of the State was \$678,908.73.

THE WAR DEUT. The war debt has been decreased ninety nine thousand nine hundred dollars (\$99, 900) within the year, by bonds taken up by Commissioners, leaving the balance of war bonds outstanding November 30, 1869, three million ninety-six thousand two hundred dollars (\$3,096,200), and at this date, one hundred thousand dollars (\$100,000) less,

being amount due and paid January 1, 1870. It will be observed that the State has been able to obtain from the General Government the sum of twenty-seven thousand five hundred and forty-nine dollars and forty-five cents (\$27,549.45). Other claims to a small amount remain unpaid, and will be pressed to settlement.

Under any circumstances the receipts of the State from the General Government will be both small and uncertain, and not at all to be relied upon to meet the certain expenditures they have heretofore helped to meet.

As has been shown, the cost of maintaining the State militia, and the home for soldiers children and disabled soldiers, was ninetyone thousand four hundred and six dollars and thirty-two cents (\$91,406.32), in 1869, and this entire amount was taken from the 'war fund" and consequently not directly felt by the tax-payers of the State.

The present expense of maintaining the militia will not be reduced, but that of the home for disabled soldiers may be gradually lessened, whilst the cost of maintaining the home for soldiers' children can only be kept where it is, or lessened by a revision of the existing law.

SCHOOL PUND. The receipts of the school fund have been, \$137,081-11

\$137,671'11 The aggregate of the school fund is now five hundred and seventy thousand three hundred and twenty-one dollars and seventeen cents (\$570,321'17), against five hundred and sixty thousand, seven hundred and sixty dollars and one cent (\$560,760 01) at the same time in 1868.

The agricultural college fund now amounts to one hundred and sixteen thousand dollars (\$116,000). The proceeds of interest is placed in the hands of the trustees of the college.

STEVENS BATTERY. As communicated by me to your predeces-sors, the vessel known as the "Stevens Bat-

by him to finish the vessel in the most complete manner.

Under the authority of the law empowering me to accept the vessel and appoint com-missioners to take charge of the interest of the State during its construction and pending its disposal, I appointed as commissioners General Fitz John Porter, of Morris, and Messrs. Benjamin G. Clarke, and W. W. Shippen, of Hudson.

There is no longer any doubt but the ves-sel, when finished, will be the most formida-ble war vessel afloat; and though constructed at a cost little short of two millions of dollars, will be much better worth the money than any vessel of similar cost in our own or other navies.

The vessel is being completed under the personal superintendence of General George B. McClellan and Captain Newton, which alone is sufficient to insure to our people not only every effort that fidelity gives, but every

aid of the highest intelligence.

As the consent of Congress will be necessary to permit the State to lawfully accept the vessel and dispose of it, I recommend the passage of a joint resolution requesting our re-presentatives at Washington to procure such consent.

The vessel will be completed within 1871. and can be finished sooner, if required, but at an increased cost.

CONSTITUTIONAL AMENDMENT. Conforming to my duty, I submitted to the last Legislature the proposed addition to the Federal Constitution, known as the fifteenth amendment.

With a view of permitting the people of the State, in the exercise of their right, to express themselves upon the subject through the election of representatives to the present Legislature, I recommended that no final action be taken by your predecessors. To this they acceded, and their decision, in strong contrast with that of most of the States acceding to the amendment, seemed to be most fitting, considering the importance and gravity of the subject involved. It is gratifying that legis-lators, who possessed ample power to defeat an important political measure, should have so highly regarded the honor and reputation of our State and rights of the people, as to omit its exercise, even under great provoca-tion so to do. The late election gave ample opportunity to the advocates of universal suffrage to press their views.

The result is known, and New Jersey declares against the scheme. The singular anomaly of being a State in authority for a single and partisan purpose, and a territorial dependence in all other respects, has been presented for the criticism of

the enemies of popular government.

The advocates of the proposed amendment The advocates of the proposed amendment urge its adoption upon the assumption that suffrage is a right and not a privilege bestowed by government, and that all men without distinction as to "class, color, or previous condition of servitude, etc.," are the natural inheritors of such right, and this assumption is sought to be enforced principally upon the ground that all governments. pally upon the ground that all governments derive their powers from the consent of the

governed. To show the fallacy of such a doctrine, it is only necessary to ask why its application should be limited to men, and why women, who are amenable in like degree as men, under our law, to punishment for crimes, to taxation for the support of the State, and to most other impositions of government, should be excluded from the exercise of a power claimed to be a right to those who are gov-

Again, if suffrage be a Right, way should States be permitted to make an arbitrary rule as to the age which shall be attained before suffrage shall be exercised, for many persons are better fitted to vote intelligently age of eighteen than others are at fifty. Or why should the Congress fix a period of years before a naturalized citizen can exercise the privilege of the ballot, when his adherence and duty to the Government is just as fully had if the necessary oaths be taken upon the day of his treading our shores, as they are ever had?
