BONDS

Chicago, Danville, and Vincennes Railroad.

	Capital Stock paid in	2,100,000

	Estimated Earnings per annum	2,639,306

	Interest on the Loan per annum	175,000
1	Amount of Bonds per mile of Road	18,000
	Amount of Interest per mile	1,260
	Amount of Net Earnings per mile.	6,284
i		

The Bonds follow the completion of the Roadhave the Union Trust Company of New York as their Official Register and Transfer Agent-and are sold at present at 95 and accrued interest.

They bear examination and comparison better, it is believed, than any other now before the public, in the fixed and unchangeable elements of Safety, Security and Profit.

They bear good interest-Seven per cent. Gold for forty years—and are secured by a Sinking Fund, and First Mortgage upon the road, its outfit, and net income, the Franchises, and all present and future acquired property of the Company.

They depend upon no new or half-settled territory for business to pay their interest, but upon an old, well-settled and productive country-assuming that a railroad built through the heart of such a region offers better security for both Interest and Principal than a road to be built through the most highly extolled wilderness or sparsely settled territory.

This Railry ad possesses special advantages, in running into and out of the City of Chicago, an important Railroad and Commercial Centre; in running through a line of villages and old farming set. tlements in the richest portion of the State of Illinois; in ronning near to deposits of Iron Ore of great extent and value, and over broad fields of the best coal in the State-which mining interests are its monopoly. And besides the local and other business thus assured, there will be attracted to this road the considerable traffic already springing up "from the Lakes to the Gulf ;" as with its Soutaern Connections itstorms a Trunk Line 45 miles shorter than any other route from Chicago to Nashville.

These sonds are therefore based upon a Reality. and a Business that a few years must inevitable double-and competent judges say treble-in value. The Road is 62 miles long, connecting Frederickaburg via Orange Court House, with Charlottesville, waich is the point of junction of the Chesapeake and Ohio Rail. road to the Ohio river, and the extension of the Orange and Alexandria Railroad to Lynchburg. It forms the shortest connecting link in the system of roads leading to the entire South, Southwest and West to the Pacific Ocean. It passes through a rich section of the Shenandoah Valley, the local traffic of which alone will support the Road, and it must command an abundant share of through trade from the fact of its being a

THE WHOLE LENGTH OF THE ATLANTIC COAST. From Charlottesville to Tidewater by this conte the distance is 40 miles less than via Alexandria; 65 miles tom

than via Richmond and West Point; 134 miles less than via Norfolk A limited amount of these bonds are offered at 22%, and interest from November 4, in currency.

From an examination in person, and also by competent counsel, of all the papers and documents relating to this loan, we are enabled to pronounce them entirely correct and satisfactory; we have also had the work and property of the company examined by our own agents, whose reports agree with those made by the officers of the company, and we therefore recommend these bonds, the issue of which is limited to \$16,000 per mile of complete and equipped road, AS A FIRST-CLASS SECURITY IN EVERY PARTICULAR, and as a most desirable investment, giving a large increase of income over investments in any description of Government bonds.
