THE DAILY EVERING TESTSFARM FINEADELPHIA, SATURDLY, FEBRUARY 12, 1870.

NEW YORK, Feb. 12, 1870. A New York Behemlenne. The other evening I accepted an invitation of somewhat peculiar character, and paid a visit to a certain feminine reputability who at one time was exceedingly well known as a queen in Bohemia. That time has long since passed, and the woman of good abilities, who might have won a fair success upon the stage, or with her pen, now lives from hand to mouth in one wretched room, dealing out spiteful gossip in excellent language, smoking strong cigars, drinking raw whisky, sandwiching her sen-

tences with highly-flavored oaths, cramming

herself with spiritualism, and indulging largely

in reminiscences of palmier days, when dia-

monds and laces were plentiful, and she one of

The description was a just one. It was very sad to see that woman lying there-for it was past midnight and she was in bed-her hair streaming upon the pillow, the rumpled frills of her night-dress betraying more than a blondeburlesque amplitude of bosom, her cheeks more becomingly hectic than any rouge could make them, and her eyes flashing like generous dark gems. With a carelessness which she neither apologized for nor attempted to remedy, the bed-clothes were huddled around her form, and as we entered she flung down the book-it was Swedenborg's "Heaven and Hell"-and greeted us with a saucy self-possession which the airiness of her attire rendered rather piquant. It was like visiting a played-out Cora Pearl-a cocotte in her last days when the first two syllables are gone out of the bubble-and-squeak of existence, and only the squeak remains. She had come down to the soup maigre of life, after having dingered long, loth to depart, over the grouse and pheasant. Some valuable diamonds she still retained, and one magnificent cluster she had fastened around her neck. The furniture of the room was extremely cheap and common, and the various articles of the tollet were "slung" around with a greater regard to the convenience of the moment than the eternal fitness of things.

How she talked! It was painfully gratifying to hear her. Her power in conversation was far beyond that of any one else in the room, and she wielded it incessantly and with apparent relish during the hour we remained, now giving anecdotes of Lola Montez and Adah Isaacs Menken. (whose portraits decorate the walls of her room, and both of whom she intensely admires), now vehemently declaiming against what she termed the shameless hypocrisy of, a woman who notoriously apes morality and scandalizes, for spite's sake, a profession she never possessed the physical charms to succeed in. Puffing the very etrong cigar that one of the men in the room had offered her, bullying her guest for not having brought her so much as a mug of ale from the restaurant below, quoting thoughtful aphorisms from Bulwer and emotional passages from Byron, expressing a sensuous delight in children, and especially in boys, swallowing raw liquor with no greater apparent flush either in her face or emphasis, proudly trampling down her sense of degradation, and boasting that right or wrong she meant to fight it out on that line to the latest day of her existence, defiantly announcing that it was her principle in life to do as she pleased, without caring a --- what anybody thought, the woman was a spectacle not easy to be forgotten. She was one of those fascinating sinners whose repentance angels are said to rejoice over. Will she ever give them a chance? Genuine Pantomime.

That which is employed at the public entertainments of the pupils of the Deaf and Dumb Asylum, in One-hundred-and-sixty-second street. Last night they performed in public one of the favorite pantomimes of the extinct Ravels, Mazulme; or, The Night Owl, and realized one hundred dollars. The pantomime was none the less effective for being involuntary, the deaf mutes' lack of the usual complement of senses appearing to enhance such natural aptitudes as they possessed for pantomimic expression.

Sents at Niblo's. The impositions which the public is forced to suffer at the hands of the managers of Niblo's have reached such a height as to be endurable no longer. For instance, it is advertised that at such an hour seats are to be reserved at the box office. You present yourself as near the opening hour as possible, prepared to pay your two dollars (that is the price of the orchestra-stalls) and are then informed that the seats you desire to select are only to be procured at a certain store on Broadway. You proceed to the store and are there subjected to a fresh burst of intelligence, viz., that seats are securable only at an additional price of twenty-five cents. Thus two seats which in any other theatre in the city would cost three dollars, cost nearly five at Niblo's, and all to see an actor who is not better than two or three native American artists.

The Bal d'Opera Italien .

was a dead failure. It appears to have run its course, and to be incapable of resuscitation. At 10 o'clock only two carriages were before the door of the Academy, and when I stepped upon the dancing floor at midnight, the spectacle was more like that of a quiet private party than of a great public ball. But at any rate the guests were not prim, and probably enjoyed themselves much more than they would had all the snobs who go to the opera because it's "the thing" been present.

Breadway Snew.
For once the officials to whom is committed the well-being of Broadway have performed their duty. That thoroughfare has been spotted the last two days with scores of carts whose drivers have been busy in removing the snow. Consequently Broadway is comparatively clean, the slush being in no ease more than a foot deep.

Concentrated Fluid Extract Buchu.

THE GREAT DIURETIO.

The proprietor trusts that his remedies, from the fact of their being advertised, may not be classed as

BUCHU, in one form or other, has been presented by every educated physician for more than

TWO HUNDRED YEARS.

H. T. HELMBOLD claims a superior mode of extracting its virtues. The experiments were made while engaged in the DRUG business in the city of Philadelphia 19 years ago, prompted by the alarming increase of diseases of the Bladder, Kidneys, Gravel and Urinary Organs existing in both sexes. These diseases were attracting as much attention as diseases of the Liver or any other organ of the body. Upon the sound and healthy condition of these organs, the nervous system and liver were involved, and the happiness of the entire human family depended.

The Buchu, acting favorably upon both Liver and Kidneys, to prepare it so that it would retain its strength and active principle was his aim. It must not be made as housekeepers make tea, by boiling. It is a delicate leaf, and its active principle would be destroyed by such a process. It must be prepared in VACUO, and of the long leaf, fresh and carefully

selected. THE SUPERIORITY OF MY MODE OF PRE-PARATION ACKNOWLEDGED. I now ship to the point (CAPE OF GOOD HOPE) where the leaves are gathered, large quantities of

MY FLUID EXTRACT.

THE ARTICLE STANDS PRE-EMINENT, AND IS KNOWN IN ALL PARTS OF THE WORLD. The first and most important object was to offer to the afflicted a remedy that was perfectly safe, and could be taken by adults-children. Ignorant persons, who pay no attention to dose, direction, or advice, might reason, "That if a teaspoonful taken occasionally did good, two would do better, and perhaps a bottle would cure in a day."

Many have broken down their health by dissipa tion, and on this principle, but they had been years What I would have understood is that no injury

ean arise from its use. It is as safe as any article o food, but patients must not expect any medicine to rebuild a wrecked or shattered constitution in a few days, and perhaps with a single bottle,

Notwithstanding the number of years I have been engaged in business, there may be those located at a distance that may not be aware of all the facts, and would like to be satisfied on all the points. Having been educated a druggist, I append the following:-

FROM THE LARGEST MANUFACTURING CHE-MIST IN THE WORLD.

"I am acquainted with Mr. H. T. Heimbeld. He occupied the drug store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise. WILLIAM WEIGHTMAN,

"Firm of Powers & Weightman,
"Manufacturing Chemists, Ninth and Brow streets, Philadelphia, November 15, 1854."

I propose to give evidence that this remedy is no a Patent Medicine. The objection which generally lies against all discoveries and inventions in medicine is "Publicity." If somebody should discover a remedy to prolong life, or an infallible cure for cholera or consumption, what a monster would he be to withhold his knowledge! We have yet to learn from what chapter or verse in Scripture to quote, "that men may not heal others of their fellow-men of any

Nor have we asked Pickwicks, Affected Prudes, or, in short, men who are possessed of every kind of sense but common sense, and all kinds of opinions but their own. The Buchu is a good thing-it has hundreds of thousands of living witnesses to attest its virtue and commend it. It is the prejudice of bigots and the envy of "QUACKS."

CURE OF GRAVEL OF FIVE YEARS STANDING STONE PASSED AND TO BE SEEN. H. T. Helmbold:

DEAR SIR:-We introduced your "Fluid Extract DEAR SR:—We introduced your "Finid Extract Buchu" in this country about eight months ago, and are happy to state that it is meeting with universal favor. We wish to inform you of one instance (among many) where your "Buchu" has worked wonders. A man in our country named J. B. Estell had been suffering about five years with gravel. About six weeks ago he bought of us one bottle of your "Buchu." and before he was through with one bottle he passed a gravel that weighs eight grains, which we now have on exhibition in our drug store. He says that he will never be without the "Buchu" He says that he will never be without the "Buchu" in his house again. Your preparations are gaining tavor every day. CURE OF BLADDER AND KIDNEY AFFECTION OF LONG STANDING—STONE PASSED AND TO BE SEEN. WESTFORT, Conn., Sept. 5, 1869.

H. T. Helmbold, Esq.:— DEAR SIE:—I commenced taking your "Extract of Buchn' about two weeks since for an affection of the bladder and kidneys. I have suffered by spells very much for a few days past. But yesterday relief came through the effect of your "Buchn." A stone passed from my bladder about the size of a large pea, and I

now feel perfectly well and entirely free from the pain that I have suffered with "so hard." I attribute my cure to your medicine entirely, and would rehave great faith in its curative powers. Tours tru THOMAS J. BENNETT.

OF A PATIENT SEVENTY-BIGHT YEARS OF AGE. THANKS TO MR. HELMBOLD.

EDITOR "COSMOPOLITE":—I desire as an unsolicited tribute to the merits of Heimbold's Buchu, and for the benefit of those similarly afflicted as myself, to say that after consulting many eminent physicians, and trying nearly all the best advertised remedies, in the vain hope of finding relief from aggravated kidney and biadder diseases, from which I have suffered excessively for many years, good fortune finally suggested to me Helmbold's Buchu, which I commenced using with little faith, and no apparent beneficial results, for about a month. At the expiration of that time, however, I thought I commenced to experience slight relief, which encouraged me to persevere in its use, and now, at the expiration of four months, aithough I am an infirm old man, nearly 78 years of age, and consequently medicines cannot be expected to favorably affect me as they otherwise would, I have found such unspeakable relief and permanent benefit from Mr. Helm bold's valuable discovery, that I feel I ought to publicly record the fact, as an acknowledgment to him and a valuable suggestion to the public. Yours respectfully,

A PERMANENT CURE OF GRAVEL OF TWELVE YEARS' STANDING—STONE PASSED AND TO BE SEEN. BURNSIDE, Conn., Dec. 15, 1869.

Dr. Helmbold :-Dr. Helmbold:—
DEAR SIR:—It is with much pleasure that I write you upon facts respecting myself. I do not know hardly how to express myself. I have been for the last ten or twelve years the greatest sufferer man could be and live; but more sometimes than others. The complaint was the "kidneys" and "bladder." I have been sometimes from twelve to fourteen hours, and wanted to make water every minute, and could not. Have consulted doctors, both in Massachusetts and this State, and taken pills. I may say by the and wanted to make water every minute, and could not. Have consulted doctors, both in Massachusetts and this State, and taken pilis, I may say by the quart, also liquored medicines, but found no relief from any, and got worse the last six months. I was so that I could scarcely get about. I could not rest night or day. It would soon have been "all up" with me, if I had not seen your advertisement in the Berkshire Courier, headed "Ridneys." I read it through, and thought I would try it. I purchased a bottle, but, mind you, had not much faith in it. Why should I, when I had been trying so many things and cost me so much? Well, I began taking it, and before I had taken the first bottle I feit bad; but I finished it and get another. By the time I took half of the second I still got worse (apparently.) When I walked it seemed as if my right kidney was falling from its place, and I feit really bad. I feit so before I had finished the second, that I had made up my mind it was of no use trying any more—and all this time the "Buchu" was doing its work, but I did not know it; so I gave it up and went to Hartford on Saturday to one of the best doctors in the city. He said it was the neck of the bladder, and I should have to musters. so I gave it up and went to Hartford on Saturday to one of the best doctors in the city. He said it was the neck of the biadder, and I should have to undergo an operation. He gave me medicine, and I went home quite downhearted. On Sunday I was unable to go to church. I had not taken any of his medicine, but on my return continued using the "Buchu," and In the alternoon it had the desired effect.

I cannot tell you all, but this is a true story of my case, and you are welcome to make such use of my name as you think proper. I am pretty well known in Berkshire; also in Connecticut. The advertise-ment saved me. Why not publish more? Tha Springfield Republican is a wide-spread paper. If any one wishes to see this wonder they can do so. I could write all day, but think I have said enough this time, so I remain your ever well-wisher. EDWARD L. HOWARD.,

Mr. H. T. Helmbold:—

DEAR SIR:—In regard to the question asked me to my opinion about Buchn, I would say that I have used and sold the article in various forms for the past thirty years. I do not whink there is any form or preparation of it I have not used, or known to be used, in the various diseases where such medicate agent would be indicated. You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in my judgment, is warranted by the facts.

I have seen and used, as before stated, every form of Buchu—the powdered leaves, tincture, fluid extracts—and I am not cognizant of any preparation of that plant at all equal to yours. Twelve years'experience ought, I thank, to give me the right to judge of its merits; and, without prejudice or partiality, I give yours precedence over all others.

I value your Buchu for its effects on patients. I have cured with it, and seen cured with ft, more diseases of the bladder and kidneys than I have ever seen cured with any other Buchu or any other proprietary compound of whatever name.

Respectfully yours, etc.

the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted my family physician in regard to using your Extract Buchu.

I did this because I had used all kinds of advertised remedies and had found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubebs, and juniper berries, it occurred to me and my physician as an excellent combination, and, with his advice, after an examination of the article and consulting again with the druggist, I concluded to try it. I commenced to use it about eight months ago, at which time I was confined to my room.

From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks was able to walk out. I felt much like writing to you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer, and see if it would effect a perfect cure, knowing that it would be of greater value to you and more satisfactory to me.

I am now able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste

and odor, a nice tonic and invigorator of the system, I do not mean to be without it whoney of occasion may require its use in such affect M. MCCOR, MICK.

Dr. H. T. Helmbold:—

Two bottles only of the package of your valuable Buehu presented to the institute have been used by the children, and with perfect success. In the case of our little Lieutenant A. J., his pride is no longer mortified, and he is free from the daily morning anathemas of the chambermaid who has charge of his bedding. I feel that a knowledge of the result of our use of your Buchu with the children under our charge may save many a Superintendent and Matron of Boarding Schools and Asymms a great amount of annoyance; and many a poor child saffering more from weakness than from habit, may be spared punishment that is (not knowing it as a weakness instead of a bad habit) most unjustly inflicted upon them. Thanking you on behalf of the children, and hoping others may be alike benefited, I am respectfully yours.

GREAT SALT LAKE CITT, UTAH, Jan. 28, 1868. Mr. H. T. Heimbold:—

DBAR SIR:—Your communication requesting our DEAR SIR:—Your communication requesting our terms for advertising was duly received, but from a prejudice I had formed against advertising "oures for secret diseases," it was left unanswered. During an accidental conversation in a drug store the other evening, my mind was changed on the character of your Buchu. It was then highly commended for other diseases by two physicians present. Inclosed please find our rates of advertising. Yours, etc,

T. B. H. STENHOUSE,

Editor and Proprietor of Dally and Semi-weekly Telegraph.

ONE HUNDRED DOLLARS WOULD BE GIVEN FOR A BOTTLE, IF NECESSARY.

H. T. Helmbold. Esq.:—

DEAR SIR:—I take great pleasure in sending you a certificate, in addition to the many you have received from suffering humanity. I can scarcely find language sufficiently strong to express my heartfelt gratification at the wonderful cure your "Buchu" has effected. For four years I have suffered beyond description. All my friends (with myself) came to the conclusion that my case was incurable. RAHWAY, N. J., Dec. 2, 1869. scription. All my friends (with myself) came to the conclusion that my case was incurable. Accident placed your advertisement in my hands. I commenced taking your "Buchu." I followed the directions, and to my utter astonishment, before I had taken seven bottles of your valuable medicine (I would give \$100 a bottle, if I could not get it at any other price), I am entirely cured. I most earnessly recommend it to all those suffering from disease. I have told many persons to take your valuable medicine, and they are doing so with great success. Any information my fellow-citizens may require will be freely given by the subscriber at his residence, No. 78 Milton avenue, Rahway, N. J.

A CASE OF INFLAMMATION OF KIDNEYS AND GRAVEL. GRAVEL.

From Morgan, Frazel & Co,
GLASGOW, Missouri, February 5, 1868.

Mr. H. T. Helmbold;

Dear Sir:—About two years ago I was troubled with both infammation of the Kidneys and Gravet, when I resorted to several remedies, without deriving any benefit whatever; and, seeing your Extract Buchu advertised, I procured a few bottles and used them. The result was a complete cure in a short time. I regard your Extract Buchu to be decidedly the best remedy extant for any and all diseases of the Kidneys, and I am quite confident that it will do all you claim for it. You may publish this if you desire to do so.

CURE OF NERVOUS PROSTRATION AND DE-CLINE OF A YOUNG LADY.

H. T. Heimbold:—

I have been giving your Extract Buchu to my daughter, who has been unable to sleep, very nervous, loss of appetite, general debility, and rapidly falling into decline—in fact, consumption was talken of. I was recommended to use your "Buchu" by a highly respectable lady of this place, who had given it to her son with complete success. My daugnter had been troubled for a long time. I purchased one bottle some eight weeks since, which lasted one week, and from which she received great benefit, and induced me to purchase one-half dozen bottles, as I had tried many other remedies, and my family physician, to no avail it is now more than two weeks since she has taken the last bottle, and I am happy to inform you of its complete success. H. T. Helmbold:-

happy to inform you of its complete success.

Very truly yours,
