# CITY INTELLIGENCE. CAMDEN.

# The Minulcipal Riccian To-morrow-The Can-didates and their Chances. The monotonous hamlet on the other side of

the river indulges in a municipal election tomorrow, the candidates for the various offices bying the following:-

Republican. . Charles Cox. . Sam'l H. Hufty. . Charles Parker. . A. C. Scovel. . Jacob H. Yocum. Josiah D. Rodgers. Mayor ... Marshal... olicitor.

Mr. Cox, the Republican candidate for Mayor, is the present incumbent. Mr. Scovel, the Republican candidate for City Solleitor, should not be confounded with James M. Scovel, the irre-presable "mountain partridge," who ran for State Senator on his own hook last fall, and received two or three dozen votes only in the entire county. Mr. A. C. Scovel was for some years the law partner of Secretary Robeson, of the Navy Department, and is backed up by the personal influence of that "ancient mariner." Of the Democratic candidates, Messra, Cassaday and Hugg are well known, the former having been for years past a justice of the peace, and the latter a prominent lawyer. For some years past, the Republicans have been generally successful in the city, the vote in 1868, which was the fullest recently cast, having been as follows:—

These majorities are not very large, but they are very fair, considering the small aggregate vete, and sufficiently large, we trust, to prove a stumbling block to the Democracy. In addition to the officers named above, mem-

bers of the City Council, of the Board of Chosen Freeholders, and of the Board of Edueation are to be elected in each ward, and full lickets for each of these offices have been nominated by both parties.

LOCAL ODDS AND ENDS .- The Athletic Base Ball Club elects officers to-night. F. S. Bell, the efficient Corresponding Secretary, retires. --"There, now !" said a little bit of a thing, while rummaging a drawer the other day

"there, now, gran'pa has gone to heaven with-out his spectacles. Won't you take 'em with you, gran'ma, when you go ?'

-On Saturday last a chap entered an insu-rance office in this city, and, tossing a paper on the counter, said to the clerk:---"That's run out, and I want to get it renewed." As the clerk unfolded the document a broad grin spread over his face, and he inquired: -- "Are you sure that this has run out ?" "Yes," said the man ; "my whereupon the clerk handed back to him hismarriage certificate!

-The Green Street M. E. Sabbath School holds an anniversary celebration on Thursday evening.

-Feathery flakes and beautiful enow may sound very well in poetry, but for us individu-ally, give us the clean, dry footwalks, and refective Old Sol.

-Lieutenant Errickson is the right man in the right place. He has reduced the roughs of Southwark and the Neck to a degree of quietude that would do justice to a first-class revivalist.

-An ordinance should immediately be passed by Councils, providing for the "roughing" of our slab pavements. We a few days ago saw a half-fledged surgeon standing at Seventh and Chesnut streets, chuckling over every individual who chanced to lose his or her foothold. -Detective Franklin has the urbanity of a

pope, the politeness of a Frenchman, and the The Board of Health should pay a visit to

the Central Station, and inspect its sanitary con-dition. The roaches are so numerous that they threaten to overrun the place.

A GROSS ASSAULT UPON & LADY .- About dusk on Saturday a young and most respectable mar-ried lady, whose husband does business on Arch street, was passing up Chesnut street on the road to her home, on Chesnut street, a short distance above Eighteenth. When passing the corner of Eighteenth street a man whose name and appearance is unknown, who was standing with a crowd of corner-loungers, suddenly sprang out upon the lady, threw his arms around her neck, and held her in this manner for a moment. The lady was so terrified that she moment. fainted immediately, and sunk to the ground, and so was unable to observe the face or dress of the man. She reached her home, which luckily was near at hand, but cannot tell how she did so. It has become a daily duty to chronicle some outrage done by loafers or corner-loungers to our citizens, and it is high time that something should be done to break up the nuisance. The man in this case had probably no deeper motive than the perpetration of a drunken freak, but its unpleasantness is none the less evident. The husband of the lady is very indignant, as he may well be. If any clue could be given, the man would certainly receive deserved punishment. Here is a chance for our police to distinguish themselves and atone in some measure for numberless other neglected duties. FIRES IN JANUARY.-The report of Captain Terrence McCusker, of the Insurance Patrol, sets forth that for the month of January last there were 28 fires and 1 false alarm. The causes were as follows:-Four supposed incendiary, four incendiary, one defective flue, two sponta-neons combustion, three accidental, ten unknown, two hot stoves, two carelessness. store, one; gravel-roofing establishment, one; cabinet manufactory, one; chemical works, one; wheelwright shop, one; hat trimming store, one; clay pipe manufactory, one: knitting cotton factory, one; artificial hair store, one; counting house, one; glue factory, one; beer saloon, one; woollen mills, two; match factory, one; hat and cap store, one; hardware store, one; dwelling, one; imber office, one; hose house, one; stables, shree; hotels, two; stable and office, one; gas fixture factory, one. This does not include small fires for which no alarm was struck. There was an insurance of \$50,000 on buildirgs, stock, etc., and the loss is set forth as \$103,501, which is as near correct as can be had at present. ANNUAL ELECTION FOR DIRECTORS OF THE PENNSYLVANIA RAILROAD COMPANY .- The annual election for Directors of the Pennsylvania Central Railroad Company is taking to-day, the polls having opened at 10 o'clock A. M., and will not close until 6 P. M. So far a heavy vote has been polled for the following ticket, which will undoubtedly be elected, there being up to the present time no other list nomi J. Edgar Thomson, Josiah Bacon, Wistar Morris, George Black (Pittsburg), Samuel T. Bodine, Joseph B. Myers, Edward C. Knight, Washing-ton Butcher, John M. Kennedy, John Rice.

UNEUCOMMETL.—Early yesterday morning Poinceman Ellis, of the Sixth District, observed three men in the neighborhood of Eighth and Maple streets acting rather suspiciously. One of them noticing Ellis walked towards Bace street, when the latter followed. Before he reached Maple street a whistle was sounded, and two men rushed out of an alley, and all three ran down Eighth street. Ellis at once drow his pla-tol and fired and one of the number fell. The tol and fired, and one of the number fell. The officer rushed up, supposing he was shot, but found him uninjured and apparently drank. He took him into custody, and had dragged him as far as Thirteenth and Race streets, when the prisoner, who gives his name as S. S. Redding, suddenly sobered up and made a terrific on slaught on the "Knight of the Locust." The The latter held on, hewever, and marched Redding to the station house. He will have a hearing to-day at the Central. It has since been ascertained that the three attempted to enter the jewelry store at Eighth and Maple streets, a window thereof having been forced open.

COMMISSIONER'S CASE.—Before United States Commissioner Clark, this morning, Samuel B. White had a hearing on a charge of violating the revenue law requiring manufacturers of to bacco to make and deliver to the assessors an

Dacco to make and deliver to the assessors an inventory of all goods sold. Peter C. Fulweller, a member of the firm of Roberts & Fulweller, No. 600 Arch street, testified that in January last he purchased tour hundred pounds of cuttings from the defendant, who repre-sented himself to be a foreman to S. F. Greenley. Peter Sides, Assistant Assessor of the First dis-trict, testified to receiving from the Assistant As-sessor of the division a certificate of sale of the cut-tings. Greenley did not include the sale in his tings. Greenley did not include the sale in his

tings. Greenley did not include in a sessor of the ment. Mr. Thomas C. Parker, Assistant Assessor of the Eleventh division of the First district, testified that he did not know either Greenley or the defendant, but that he was certain the sale was made in January. The case was continued until to-morrow, at 12 o'clock. White is held in \$1000 ball.

SEEING THE ELEPHANT. - An individual named Godfrey Killion, a resident of the northnamed Godfrey Killion, a resident of the horth-ern portion of the city, yesterday visited the classic locality of Seventh and Bainbridge street, for the purpose, as he expressed it, of "seeing the clephant." He there became ac-quinted with Thomas Craig and John Whaler, whom he treated to several glasses of "poison whisky." All parties getting jolly, Craig play-fully landed a "feeler" on Godfrey's nose, and Whaler in a like playful manner relieved him of his pocket-book, containing \$25. Both were subsequently arrested, and Alderman Bonsall sent them to prison.

PRETZELS, ETC .- William S. Schaeffer, a workman employed in a brewery at St. John and Green streets, was obliged, some time ago, to quit his boarding-house, No. 125 N. Front street, on account of supposed theft. Yester-day morning John Metz, one of the inmates of No. 125, heard a noise, and, going down stairs, saw a light, which was suddenly extinguished. Arming himself with a stick, he proceeded to search the place, and in the cellar found William crouched, his pockets filled with pretzels and cigars. He was at once taken into custody, and vesterday afternoon Alderman Kerr sent him to prison?

PUGILISTIC.—Some people look upon ear conductors as so many objects for the venting of their spleen. John Gallagher belongs to this Last night John took passage on one of class. the Lombard street cars, and on paying his fare complained that he had not received the correct change. A war of words between John and the conductor, a Mr. Campbell, followed. On reaching the terminus, at Front and Dock streets, Gallagher renewed the "talk," when Campbell put a head on him. The latter was arrested and taken before an alderman, who held him in \$600 bail to answer.

ROW IN ECHO PARK .- Echo Park, which is situated on the Second street pike, near Nice town lane, bids fair to become notorious. Only a few months ago a death resulted frem a row thereat, and now we are called on to chronicle a cutting match. Yesterday Charles Munich and Joseph Riotte entered the garden, and after partaking freely of beer, raised a row, during which beer glasses were plentifully used as weapons, resulting in several parties being seriously ent. The two named were arrested and held in \$1200 bail each by Alderman Heins to answer.

ADMIRALTY CASE .- The complaint of William morning before United States Commissioner Phillips. Ward, who shipped as a sailor on the vessel and was afterwards discharged, brings suit against the captain for wages. Under the law the sallor is entitled to one month's pay for breach of contract, but he claims wages only for the four days that he was actually on board. On stating this fact to the captain he immedi ately settled the claim and the case was discharged. EVANGELICAL ALLIANCE .- We would spe cially call the attention of our citizens to the meeting of the Evangelical Alliance this even ing at the Rev. Dr. Wylle's church, Broad street, below Spruce. Aside from the interest that rather around such a meeting, the pleasure will be enhanced by the presence and participation of distinguished speakers. President McCosh, of Princeton College; Dr. Butler, of the Divinity School; Hon. Judge Strong, of the Supreme Court of the United States, and others will address the meeting.

MADRID, March 7 .- In the Constituent Cortes on Saturday General Prim reaffirmed his opposition to the Duke of Montpensier, and declared that the entire ministry, with the exception of Admiral Topete, were anti-imperialists. This statement has given the latter gentleman offense. He has tendered his resignation, but it has not yet been accepted. The Unionists are furious against General Prim, and are doing their utmost to encourage Admiral Topete. A ministerial crisis is imminent.

Senate. WASHINGTON, March 7.-Mr. Summer pre-sented the memorial of Nicholas Trist, setting forth that he negotiated the weaty of Guadaloupe Hidalgo, by which peace was established between Mexico and the United States, and California secured, asserting that he had never received adequate compensation for his services, and asking an appropriation by Congress. Mr. Revels presented a petition from the colored members of the Alabama Legislature, praying the removal of the political disabilities of the Hon. Samuel F. Rice. Referred to the Committee on Disabilities.

Mr. Cameron (Pa.) presented a petition, numerously signed, from the miners of Schuylkill county anthrahite coal region of Pennsylvania, and others, praying for adequate legislation to protect their interests. Mr. Cameron said:-Mr. President-In pre-

senting this petition I wish to call the attention of Senators to the interesting region from which comes.

I call attention to the cities of Philadelphia and Pittsburg in Pennsylvania as eminently illustrative of the benefits flowing from coal, as shown in creating and maintaining home manufactures and home industry. When the com-mercial interests of the country were transferred to New York, and Philadelphia lost her supremacy as the emporium of the nation, her people at once directed their attention to the creation of the wares and fabrics which she had formerly been content to exchange. The result is that instead of sinking under the withdrawal of commerce she is now the greatest manufacturing city on the continent. She has a better fed, better clothed, and better paid population than any city in this country. And she has the best housed population of any city on the globe. Second to Philadelphia in this last particular and in the extent of her products second to Philadelphia alone) is Pittsburg, in the western part of the State I, in part, represent. Here is the great workshop of our iron manufactures. And here too, as in our eastern city, the same natural wealth-coal - forms the basis and foundation of her prosperity."Here is to be seen thrift, industry, intelligence, admirable schools, magnificent churches, noble charities, and freedom as near perfect as can be found anywhere. While less than half-a-dozen British corsairs were sweeping our commerce from every sea, this city sent one continual stream of cannon, shot, and shellyes, and heroic men-to save the nation's life from the greatest danger which ever has or ever can threaten it. And while our commercial marine sunk under its few and not very formidable assailants, this busy hive of labo and industry sent you the means of utterly destroying the mighticst armies, except our own, which ever waged war. Our blockade was maintained alone by the coal shipped from the wharves of Philadelphia to our naval vessels at their stations. The battle of Gettysburg prevented the destruction of the anthracite coal mines. It also prevented the destruction of our blockade. And that crowning victory was won because in some parts of our country productive industry enabled us to place great armies in the field, and to supply them with the material of war. To-day the inadequate protection given to it prevents universal bankruptcy and national shame. Adequate protec-tion will secure to us everything which this Government needs. The petition was referred to the Committee on Finance.

# FROM THE WEST.

Savage Shooting Affray in Ohis. RIPLEY, Ohio, March 7 .- Yesterday morning Campbell Howard, living one and a half miles from Ripley, on his way to church was met on the road by Victor Pope, who had a Henry rifle in his hand, and after passing, Pope turned and shot at him three or four times, one taking effect in the elbow of the right arm. On receipt of the news here, a constable and two others started with the intention of capturing Pope, and found him intrenched in a log house, under a bed, with a Henry rifle, two revolvers, and a blg dog. On raising the cover, he commenced shooting, and the party were forced to retire. To dislodge him they began to fire through the door, when he appeared at the window and fired several shots, one taking effect upon F. Courtney, and another in the hand of Benton Howard.

Pope's mother appearing on the ground, went in and succeeded in prevailing on him to give himself up, when he was found to be wounded in two places. Both wounds are very severe. Pope is evidently deranged.

## New York Learning of St. Louis.

ST. Louis, March 7 .- W. A. Robling, J. R. Husted, and John Prentice have arrived here from New York for the purpose of examining bridge building here, and principally the mode of constructing plers, with a view of collecting data available for the contemplated bridge across the East river.

A SENSATION SPOILED.—The Coroner was yesterday called upon to hold an inquest upon the body of one Edward Kammerer, who died early in the morning, at No. 338 North Sixth street, under rather mysterious circumstances. The Coroner made a partial investigation, and found that the deceased had partaken freely of a mixture called a cough mixture. Not knowing the component parts of said mixture, the further investigation was postponed until this day noon, when a post mortem examination revealed the fact that the deceased's death had been caused by dropsy on the brain, and the fatty degeneration of the heart and liver. This of course, ensirely frees the druggist, Mr. Wilt-kamp, by whom the mixture was prepared, from the slightest insinuation of blame.

BOARD OF SURVEYS .- A stated meeting of the Board of Surveys was held this morning, Presi-dent Kneass in the chair. A resolution authorizing the construction of a

3-feet sewer on Race street, from Nineteenth to

Twentieth, was adopted. The plan of revision fixing the width of the footways on Market street, from Eighth to Front streets, at 19 feet, and east of Front street to Delaware river at present width, was affirmed.

He was arrested and taken before an Alderman, who held him in \$600 bail to answer.

DEATH AT THE HOSPITAL .- A man named Charles McDaniel, aged seventy years, was admitted to the Pennsylvania Hospital on the 28th of February, with concussion of the brain, the supposed result of a fall. He died last evening, and this morning the Coroner was notified to hold an inquest.

A BRUTE.-James McKeever, who resides at Hanceek and Master streets, yesterday spent the day in beating his wife. He was arrested and taken before Alderman Eggleton, who held him in \$400 hail to answer.

FIRES .- About 9 o'clock last evening a fire oc curred at No. 2 Alley court, between Seventh and Eighth and Race and Cherry streets. Th family were attending church, and during their absence some scoundrel entered and started fires in the first and third stories. Fortunately the attempts were discovered before any great damage was done.

About 10:30 o'clock a slight fire occurred in Shinn's coal office, Eleventh and Hamilton streets, also the work of an incendiary.

SERIOUS ACCIDENTS .- Susan Horner, aged 56 years, yesterday missed her footing at Clalborne and Ball streets, and, falling, fractured one of her lower limbs. She was removed to her residence, No. 952 Claiborne street.

John Mills yesterday alternooa fell through the treatle work at Pier No. 1, Port Richmond, and sustained serious injuries about the head and ankle. He was removed to his residence near by.

"ON A BENDER."-William J. Hamilton, an officer in the United States army, and a temporary resident of the Girard House, yesterday imbibed freely of benzine and commenced rais ing war generally. Special Officer Kendig re-monstrated with bim, when he attempted to place him hors de combal, but Kendig was too much for him. He collared Mr. H. and marched him before Alderman Kerr, who committed him to answer.

ACCIDENT TO A CLERGYMAN. - The Rev Wesley Bishop, who is at present on a visit to this city from Long Island, N. Y., fell on a slippery pavement last evening while passing the corner of Fifteenth and Chesnut streets and broke his leg. Surgical assistance was imme-diately procured. The sufferer was conveyed to his temporary residence, where his wants are being attended to in the best manner.

MEDICAL ANNIVERSARY .- The twentieth anni-versary of the Hahnemannian Medical Institute, a society of the Hahnemann College, will be held at the Assembly Building this evening at S o'clock. The College Commencement will be at the Academy on Wednesday at noon.

A BARREL OF FLOUR .- Randolph Hope is the name of a character who has been held in \$1000 ball by Alderman Morrow to answer for the attempted theit of a barrel of flour from a grocery store at Thirteenth and Lombard streets on Saturday night last.

POVERTY .- Whilst some roll in riches, others wallow in poverty. This is fully exemplified by the fact that on Saturday night 110 vagrants were accommodated with lodgings at the Third District Station house, and last night 115 more.

SHORS .- Some time last night a shoe store on Eleventh street, above Girard avenue, was entered by burglars and robbed of the principal portion of the stock.

Mr. Thayer offered a resolution instructing the Military Committee to inquire into and re-port upon the facts connected with the Indian massacre of Buck's surveying party last summer

The Fullerton Extradition Case.

NEW YORK, March 7 .- The great Fullerton extradition case is on trial in the United States District Court to-day before Judges Woodruff and Blatchford. Mr. Stoughton, the counsel for the defendant, moved a postponement of the trial for three weeks, owing to the continued illness of Mr. O'Conor, counsel for the defense. The Court refused to grant the motion, so the trial is progressing.

Railroad Opening.

AUBURN, March 7 .- The people of this city are rejolcing over the completion of the Southern Central Railroad, giving them a connection with the Pennsylvania coal mines via Owego. The last rail was laid on Saturday, and the event was celebrated by the firing of guns and other demonstrations of joy by a large crowd who gathered to see the last spike driven. General John H. Chedell, President of the road, drove the silver spike and briefly addressed the people on the occasion.

### ully insured. THE NEW YORK MONEY MARKET.

From the N. Y. Herald, "Wall street has within the past week afforded ample topics for reflective minds. The sudden dash towards specie payments which our finances have taken furnishes a spectacle calculated to make the American value for the country and institutions. In addition to the causes which have produced the decline of gold to 1123 there is one which has not been prominently noticed, but which has been none the less operative, and that is the important position which our country has taken among the bations of the globe. We are no longer a little fringe of divilization on the edge of no longer a fittle fringe of civilization on the edge of the Atlantic, but a people of vast wealth and strength. It is only since the war that Europe has come to regard us as other than a sort of colony, energetic and enterprising, but with-out stability or stamina. But the cable, the press, and the steamship have revolutionized these ideas of us, and European wealth is tarning towards us for investment. The oceau telegraph in particular has brought the meanle on beth bither in towards us for investment. The occau telegraph in particular has brought the people on both sides of the Atlantic into a community of finances, and the time is not far distant when New York, London, Paris, and Frankfort will be as closely united as now are New York, Boston, Philadelohia, and Chicago. The metropolis of America is destined to be the metropolis of the world, and ere twenty years New York will be the centre of exchange, as London now is. The cable, in making a connec-tion between our money centres and those of as London now is. The cable, in making a connec-tion between our money centres and those of Europe, is bringing about a uniformity in the dis-tribution of capital just as the opening of a channel between two lakes brings the water of both to the same level. Even now the moneyed operations of New York are twice as large as those of London, and every circumstance indicates that our city will be the grand Clearing House for the business of the civilized world. It is because a knowledge of na is be the grand Clearing House for the business of the civilized world. It is because a knowledge of us is becoming general abroad that foreign capital is coming here, or seeking invest-ment in our Government or corporate se-curities. The objection to us heretofore was that we were a new people, without the maturity and experience of European countries. But the three great agencies of the press, steam and tele-graph are making our institutions familiar every-where. Hence our financial position is coming to a level with that of other countries. Why should United States paper money be at a discount of twenty per cent, when that of Austria, a country bankrupt for half a century, is only nine or ten per cent, below par?

bankrupt for half a century, is only nine or ten per cent, below par? "The offerings of money on call loans have not been below the average of the past month, and the rate has been in most instances five to six per cent. The process of redemption by the country banks has either been concluded or suspended, the giut of national notes not being so remarkable of late. Some of this absorption is due to the greater capital re-quired to carry stocks, now that their prices are used to twenty per cent, higher than at the beginning of the year. Commercial paper is in fair request at seven to nine per cent. for the choice grades."
