Consultation with the President. Special Despatch to The Evening Telegraph.

WASHINGTON, March 25 .- There was a large number of Senators at the White House to-day in consultation with the President on the San Dominge treaty. They wished to obtain evidence and facts to meet statements made in Sumner's speech delivered yesterday. Some Senators freely stated to the President that, unless the facts and figures set forth by Sumner could be answered, many votes would be mustered against ratification which were before counted in favor of it. The President, it is understood, has promised to supply additional information to the friends of the treaty.

Coin Balance. The coin balance in the Treasury to-day is \$104,000,000, \$40,000,000 of which represents gold certificates outstanding.

The next payment of coin interest falls due on the 1st of May and amounts to twenty-five millions of dollars. The Secretary of the Treasury estimates he will have a coin balance of one hundred and eighteen millions of dollars, ont of which to pay this. The coin certificates included in the above will not reach, it is thought, over forty millions.

Currency Balance. The currency balance is \$5,000,000. The San Domingo Treaty.

The Senate Las gone into executive session on the San Domingo treaty. An effort was made to take up and dispose of the case of Senator Ames, but a majority favored going on with the treaty. It is stated that Senator Morton will make a speech in answer to Mr. Sumner to-day. The Judiciary Committee

is pursuing its investigation of newspaper men implicated in the premature publication of evidence in the gold conspiracy case. Nothing important has been elicited.

Illness of Senator Wilson

The Committee of Friendship Division, Gen. Louis Wagner, Col. R. Corson, and W. A. Duff, who are here, have secured Dr. Newman to take the place of Senator Wilson at the Philadelphia Academy of Music to-night, Mr. Wilson being unable to go on account of a painful carbancle on his neck.

Longue Island.

Mr. Starkweather, member of the House from Connecticut, went before the Appropriation Committee to-day and asked an appropriation of \$250,000 for the Navy Yard at New London. He disavowed any intention on his part to antagonize any appropriation that might be asked for League Island. It is well known, however, that New Londoners want to keep League Island from getting any appropriation at all.

Interesting Proceedings in the House of By the Associated Press.

LONDON, March 25 .- The proceedings in th House of Commons last evening on the bill f . the protection of life and property in Irelan of were very interesting. After the rejection a f the amendment for reducing the time of im . prilonment for carrying arms from two years to one year, the House proceeded to the consideration of the clause enabling magistrates to call and examine witnesses where the defendant is unknown.

A warm discussion ensued, after which the House divided, and the clause was adopted. The clause looking to the closing of inns at sunset also provoked a long debate, but was at length adopted. The bill was proceeded with clause by clause until the part relating to press prosecutions was reached, when an amendment was offered for striking out these particular clauses.

Daniel O'Donoghue, member for Tralee, spoke at length against the bill. He declared that the measure was a continuation of the system of legislation which had absolutely maddened Ireland by substituting local despots for legal protection.

He particularly denounced the press clauses, which he affirmed aimed at law-abiding journalism in Ireland, and were alone sufficient to prompt him to resist the bill to the last.

The Right Hon. Gathorne Hardy, member for Oxford University, favored the bill. He said the powers it gave were safe in the hands of any ministry answerable to Parliament. The clause for press prosecutions, however, was a waste of ammunition where the press was so worthless. Sir Roundell Palmer, member for Richmond, eloquently denounced the Irisn press as treasonable and unscrupulous, and the source of all the delusions blighting that unfortunate country.

After further debate the amendment was rejected by 315 majority, and the House adjourned at a late hour.

CONGRESS.

Senate. Continued from Third Edition.

Mr. Osborn introduced a bill to relieve the political disabilities of certain citizens of Florida, Referred.

Mr. Howard called up the bill to fix the point of junction of the Union Pacific Railroad Com-pany and the Central Pacific Railroad Company. The bill provides that the common terminus and point of junction of the two roads shall be esta-blished on the line of railroad as now situated, northwest of the station at Ogden, and within the limits of section 36 of township seven, of range two, situate north and west of the principal meridian and base line in the Territory of Utah. The bill also grants to the companies six additional sections, one section of land in each township being reserved for the benefit of schools in Utah, and these lands to be paid for at the regular Government price, \$3:50 per acre. Express prohibition is imposed that no rights of private persons shall be affected by the act.

Mr. Casserly inquired how near the bill fixed

the point of junction. Mr. Howard replied it did not fix any precise point. He referred to the text of the bill, and remarked that it had been agreed upon by both companies. The bill passed.

Mr. Ramsey called up the bill to create an additional land district in the Territory of Dacotah. Passed. Mr. Osborn called up the bill extending the

Homestead and Pre-emption laws to the public lands in Alabama, Louisiana, Mississippi, and Arkansas.

Pending the consideration of the bill the morning hour expired, and the Senate at 1 o'clock, on motion of Mr. Sumner, went into executive session.

House.

House. Continued from the Second Edition. Mr. Randall, by unanimous consent, sent up and had read a letter to himself from W. E. Lehman, of Philadelphia, ex-member of the Thirty-seventh Congress, denying for himsels the imputation contained in Mr. Kellay's speech yesterday as to cadetship sales. He (Randall) hoped that Mr. Kelley would explain what he did mean. did mean.

Mr. Kelley said he had not intended to include his colleague in Congress, but only some of his predecessors. Mr. Lehman has been his colleague, associate, and friend, and was as honorable a man as he knew. Mr. Randall could not believe that his col-

league intended to include such of his predecessors as Messre. Ingersoll, Robbins, and Moore.
