THE UNIVERSITY MEDICINES ARE THE FAVORITE PRESCRIPTIONS

OF THE New York Medical University.

Reliable Remedies of a high Scientific character, designed for the cure of all diseases.

PREPARED STRICTLY ACCORDING TO THE LAWS OF Medicale are prepared in consonance with the views of a number of distinguished living American Physicians, who believe that the time is come when educated Physicians should arise and make a decisive effort to overthrow the health-destroying system of Quackery prevailing in every town and city, and substitute SCIENTIFIC RESPONSIBLE REMEDIALS, in place of the worthless or dangerous Patent Medicines flooding the country.

of the worthless or dangerous Patent Medicines flooding the country.

These remedies are prepared by the newly discovered Obemical process of Professor Scott, termed STEAM FILTRATION, by which the entire Active Principle of any herb, drug, or chemical is thoroughly extracted, and its curative properties increased a hundred fold over those made in the ordinary manner.

They are standard, most of the ingredients constituting them having been used by the physicians of the University, in their private practice, for more than twenty years. Although but recently brought before the public in their present form as FIRESLAE REMEDIES, they are rapidly superseding the old poisons, Patent Medicines and Nauseous Drugs.
