The prospects for the continuance of the strike Schuylkill region continue about the in the same. The dead-lock is as strong as ever, with no present hope of adjustment. There have been ramors of trouble in other regions, but so far notaing of importance has come of them. suspension has been talked of in the Beaver Mendow and Hazelton regions of the Lehigh field, but matters are now said to be adjusted satisfactorily.

The assessment for the support of the Schuylkill county miners is said to bear heavily upon the men of the other regions, and to be very unpopular. In some quarters not only the asses ment is evil spoken of, but the whole Schuyikill field and its accessories is freely discussed as a nuissuce and a drawback on the workmen in other regions. Even among some of the Schuyl-kill men the strike is unpopular, as was to be There are slways some who are disexpected. ratisfied in everything, no matter what the course may be. To ascertain what effect is likely to flow from the dissatisfaction, it is necessary to know how many are dissatisfied. But even a large number of dissatisfied would have but little effect upon the strike at present. The men have put themselves into the power of the cilque who are at the head of the association, and they cannot extricate themselves.

Several hundred miners have left Schuylkill county to find work in the upper coal field of Luzerne county. In this movement they are helped on by the association. Every one who goes receives five dollars to pay expenses. This is the general policy of the W. B. A. in all cases of strikes. The money sent from other regions for the relief of the striking men is distributed among them in sums proportioned to their wants and the size of their families. Single men, and those who are unpopular, are not allowed money to live in idleness, but are obliged to leave and

seek work elsewhere. Some of the Schuylkill men who have thus arrived and are now working in the Lehigh region express themselves as considering "Schuylkill played out," and say that the union is in a like condition. It is unfortunate for the union that such public expressions should be allowed from its members, but it is not yet seen how they can be avoided.

The supply for consumers along the line of the Reading Railroad, which was obtained for a time by means of the East Pennsylvania Railroad from the Lehigh mines, has been unceremoniously stopped by the refusal of the men to load the Reading Railroad cars. This refusal was ordered by the officers of the association, who forbid anything which would tend to relieve the Schuylkill operators. The shape in which the demand was put was a notice from the officers of the Miners' Union to the operators, stating that if any more coal was furnished to the Schuvlkill county trade work would imme diately be suspended in the entire Lehigh On the receipt of this notice the operegion. rators, having an eye to their own immediate interest, and acting like the brave men that they are, immediately succumbed, and no more Reading cars were loaded.

A large vein of coal has been discovered within the past week in the Lorberry region. It is known as "White's Vein," and tunnelling has been going on for a year and a half in search of it. It was struck at the distance of 173 yards, was eleven feet thick, with nine feet of solid coal, and with a pitch of S1 degrees.

The eighty-second auction sale of Scranton coal by the Delaware, Lackawanna and Western Railroad will be held in New York on next Wednesday, the 27th instant.

The demand during the week has been good. The following are the prices of the week at Port Richmond for shipment. For points other than east of Bordentown and south of Cape Henry,

or the nearer points, the rates are forty cents per ton higher than these quotations:— Schuylkill red ash, \$445@450; steamboat, \$456; broken, \$450; egg, \$450; stove, \$450; cheenut, \$4; Shenandoah broken, \$460; egg, \$4.60; stove, \$4.65; chesnut, \$4.20. Arch street, for the purposes of a minstrel hall, which is to be known as "Tae Arch Street Opera House." This institution, which will be occupied by a first-class troups, will be presided over by Lew. Simmons and E. N. Slocum, both well known until recently in connection with Carneross & Dixty's Opera House. The size of the lot is 50 feet front by 175 feet deep, and the hall way leading to the auditorium will be 16 feet wide and flanked on either side by stores forty feet in depth. Considerable attention will bestowed upon the ornamentation of the structure, and it is intended to compare favoraby with the New York places of annaement. The ceiling of the hall and of the whole esta-blishment will be beautifully and elaborately freecoed. The house when it is finished will accommodate comfortably one thousand per-sons. The floor of the auditorium will be level with the pavement, and the means of ingress and exit will be sufficient to allow the place to be emptied, in case of necessity, in a very few minutes. The opening night has been fixed for September 1. Messrs. Simmons & Slooum are at present engaged in organizing their troupe, and several recognized first-class men have already been secured. They are at present in New York city, and are expected to return to this city in a few weeks, when they will be able to announce their programme. The completion of "The Arch Street Opera House" will give to Puiladelphia three minstrel halls, all of which will no doubt be well patronized.

#### FROM EUROPE.

Text of the Plebische and Arrangements for Taking the Vote.

PARIS, April 23 .- The Journal Officiel of this morning contains an imperial decree calling upon the people of the nation to accept or reject the project of the following plebiscite on the 5th of May next:-"Do the people approve the liberal reforms which have been effected in the Constitution since 1860 by the Emperor, with the concurrence of the great legislative bodies of the State, and ratify the Senatus Consultum of April 20, 1870?"

The other parts of the decree contain directions for the manner of voting. The ballotboxes will be opened at 6 o'clock in the morning and remain open until 6 o'clock in the evening. The canvass of the votes will commence immediately after the closing of the balloting. The form of vote will be "Yes" or "No," on one paper. Legal electors of the army and navy will vote at their place of garrison, or of residence at the time of election. The returns of the vote in each department will be canvassed in public session by three counsellors-general. appointed by the prefects of departments.

General returns from all the departments will be finally canvassed in the Corps Legislatif. The decree is signed by all the Ministers, and bears date April 23d inst.

This is followed by another decree containing directions relative to the vote of French and naturalized citizens in Algiers.

Following this again are the text of the Senatus Consultum, fixing the Constitution of the empire, as voted by the Senate at the session of April 20, and a circular from the Minister of the Interior to the Prefects of the various departments, dated April 20, authorizing public assemblies for discussion of the new Constitution.

These assemblies will hold sessions from April 23 to May 3, and every elector, without regard to the precinct or department which he may be in at the time, will have the right to participate in the deliberations. This circular, while it permits the use of advertisements and placards treating of the Constitution, because the law protects the use of political placards, recommends prefects to leave to the electors, under conditions of respect for law and public order, the broadest latitude in discussion and the propagation of political opinions.

The committee of Legitimists, at their meeting yesterday, resolved to vote against the plebiscile. Manifestoes of the International Associations and Federal Labor Societies of Paris were issued to-day. They recommend to members and others to abstain from voting altogether on the 5th of May.

The Chair understood that to mean that he would ask leave subsequently, but Mr. Ha left last evening for home. It was probable he in-tended that remark as a request that the Chair should ask it from the House. He therefore sag-gested that leave of absence should be granted hin, as otherwise the Sergeant-at-Arms would be under the imperative necessity of sending for him. Leave of absence was accordingly granted to Mr. Leave of absence was accordingly granted to Mr.

# FROM WASHINGTON. The Funding Bill.

Special Despatch to The Evening Telegraph. WASHINGTON, April 23.—The Committee on Ways and Means had a meeting on the Funding bill to-day, and though no action was taken of a definite character, the indications from the discussion are that the committee will report a substitute for the Senate bill, which will be more in accordance with the views of the majority of the House. The compulsory section concerning the national banks is re-garded as beaten, though Secretary Boutwell has not modified his views on that subject

In the new bill the committee will endeavor to make such concessions as were asked by the delega-tion of national bank men who were here some time ago. If has been ascertained that no funding bill can command the votes of Western men that dis-criminates against the banks.
