THE DAILY EVENING TELEGRAPH-PHILADELPHIA, FRIDAY, APRIL 29, 1870.

LEGAL INTELLIGENCE.

THE RICHMOND COAL WHARVES.

An Important Decision-The Reading Railroad Required to Afford Full Accommodations to Shippers of Cont.

Supreme Court, Nisi Prius-Judge Read.

In the case of Lewis Audenried et al. vs. The Philadelphia and Reading Railroad Company, in equity, Judge Read this morning delivered the following opinion : -

By the act of the 4th of April, 1833, under which the defendants were incorporated, their railroad might terminate "at some suitable point in or near the city or Philadelphia, or on the line of the Phila-delphia and Columbia, or the Philadelphia. German-town and Norristown Railroad," and under these town and Norristown Railroad," and under these powers they constructed a railroad terminating on the River Delaware, at Richmond, near the city of Philadelphia. This route is distinctly recognized in the fourth section of the act of 20th March, 1853 (P. L. 149), in these words, "The route already lo-cated by them for their railroad from the Falls of Schuyikili to the River Delaware." The eastern ter-mination of the main coal line of the road is, there-fore, the river. To accommodate the shippers of coal a large wharf front, to be owned by the com-pany, was therefore a matter of absolute necessity, and it has been acquired by the defendants, who have built wharves and plers running into the tide-way of the Delaware, with branches or extensions way of the Delaware, with branches or extensions of the railroad running down to the ends of the piers, so as to allow the coal to be emptied from the

cars into the holds of the vessels. Bins are also provided into which the coal can be dumped when the vessels are not there. The branches or extensions are in fact part of the main ine, and subject to the same rules and provisions or they are branch railroads, within the meaning of the 17th section of the act of 18th April, 1846, which has been extended by the act of the 12th April, 1864, P. L. 396, to the Fhiladelphia and Reading Kall-ruad Company. (Black vs. Railroad Company, 25, Legal Intelligence, 1868, p. 501.) The main line is 954 miles in length, with a doable

track, and all the failroads owned, leased, or con-trolled by the defendants have an aggregate length including sloings, amounting to 1142 miles of single track road. These subsidiary roads render tribu-tary to the main line almost the entire territory of the southern and middle coal fields, one of sixty miles, and the other of over thirty miles in length The capital stock of the Philadelphia and Reading Railroad Company, on 20th November, 1969, was \$29,023,100.28, its runded debt \$7,819,592.13, and the managers have negotiated a loan of \$5,000,000 of seven per cent coupon bonds, dated January 1, 1870, payable in twenty years, one-half convertible at the option of the holder into stock, at par, at any time after the first of January, 1872. The result of this large moneyed investment was that in 1869 the total of all one of the stock at parts of the total of all the total of all coal transported on the main line was 4,239,457 tons of 2240 lbs, of which 2,362,972 tons were sent to Richmond for shipment, Lewis Audenricd, one of the plaintiffs, was the

Itst shipper of coal that occupied one of these wharves at Richmond. He took it in the year 1842, and used it till 1848, when he formed a partnership, which continued the occupancy till 1854, when the present firm (the plaintiffs in the bill) was formed, who used a wharf or part of a wharf till 1868, and for two years must used the wharf No. 11 as shippers for two years past used the wharf No. 11 as shippers coal from that point to New York, Boston, and

other ports. During all this time, with the exception of 1858, the plaintiffs allege that they or their predecessors, for twenty-seven years, with that single exception, have been, if not the largest, certainly among the largest shippers of coal over the road, and from these wharves during the past year (1869) they shipped there over 213,000 tons, being an eleventh part, within a fraction, of all the coal sent there for shipment.

Lewis Audenried, the senior partner, in his affidavit says :- "Relying on the continuance of the usual facilities at Richmond my firm, and the several partners are involved in large engagements, to carry out which, to a great extent, equal facilities at Rich-mond for shipping with all others in the trade are

"We have advanced to miners not less than \$175,000, and agreed to advance not less than \$100,000

"If we are denied these usual and necessary facilities our custom will be to a great extent broken up, or we must ind coal for it elsewhere, and prin-cipally from parties who transport it over roads ter-minating directly in the vicinity of New York.

"When the company made the arrangement with us looking to an increased tontage and business, they gave us additional wharf accommodations for the expected increase, and in consequence of this and our using these facilities to the fullest of this and our using these facilities to the fullest extent. it is believed the company made in the year 1869 about \$21,000 on the item of shipping our coal, a much larger profit than was made from any other individual shipper or firm.

"The dispute between us and the company arises

I am of opialon the defendants were and are bound to give the plaintiffs proper wharf accommodation at Richmond, and I accordingly grant an injunction as prayed for in the second, third, and fourth paragraphs of the prayer. The decree in proper form to be entered forthwith.

AN APPEAL TAKEN. An appeal was at once taken by the defend-

ants from the decree to the Supreme Court in Banc.

-In a letter to a friend in New London, Conn., General Sherman says that he is rejoiced to learn that the people of that city ratify the appointment of Mrs. Mower as Postmaster, and adds, "Let them now help her in the discharge of her office, and be patient until she masters If a country wants brave men in hours of danger, they must remember the widow left desolate and the children who need food and education. I feel the deepest interest in General Mower's family, and am delighted that this office has been so well bestowed."

CITY ITEMS.

ABOVE THESE PRICES, UP TO THE FINEST AND DEST TO BE FOUND ANYWHERE. ALSO, IN THE PIECE TO MAKE UP TO ORDER. HALF-WAY DETWEEN FIFTH AND SIXTH STREETS. No. 518 MARKET STREET-

DR. SCHENCE SAYS persons can live in Florida the year

round, if they will only be liberal in the use of Schenck's Mandrake Pills, to keep the liver in healthful action, as the climate has a marked effect on the biliary organs. No person need suffer from Bilious Complaints if they will adopt the advice of Dr. Schenck and use the Mandrake Pills, as they are warranted not to contain a particle of calomel. They not only act better than any mercurial medicine in the world, but they do it more promptly and with entire freedom from griping.

A WELCOME DISH AT THE TABLE, AND AT THE COUCH THE INVALID.-The countless ways in which the Sea Moss Farine may be utilized in cookery, the immense number of dishes-some plain and simple, others of the most delicate and delicious nature-to which it imparts not only all that is desirable in quality, but a wonderful increase of quantity, are among its strongest recommend ations. There is no kind of farinaceous preparations, no kind of soup or gravy in which it may not be used to advantage; and the blanc mange, puddings, custards, creams, jellics, gruels, etc., made from it are not only unsurpassed, but, in our opinion, unequalled. Invalids whose stomachs are so sensitive as to reject all ordinary preparations for the sick-room, find no difficulty in retaining and digesting the light and nourishing food of

which this article forms the basis. On the score of economy the Sea Moss Farine is cer-tainly infinitely preferable to any of the starches, farinas, gelatines, etc., made from the cercals or from maize. We are assured that a package of it, costing only twenty-five cents, will produce no less than sixteen quarts of blanc mange, jelly, custard, or Moss Farine cream. The quantity seems almost incredible, but the statement is made on good culinary authority, and our readers can easily test its accuracy for themselves.

FRANELIN SAYS a thing economically dona is well done. This system of deing business has always been observed by Rockhill & Wilson. By keeping down expenses they are enabled to sell their clothing at far lower prices than houses that waste in show. The public have discovered this fact, and felt the benefit of it in their purchases of the fine, substantial, and cheap clothing which they are making daily at the old and popular house of ROCEBILL & WILSON

Brown Stope Hall. Nos. 603 and 605 Chesnut street.

P. S.-Open every day for our friends to call and inspec our \$10 all-wool Spring Suits, and \$5 and \$7 Spring Overccats, which really astonish the community.

SOMETIMES A COLD WILL NOT YIELD TO OBDINARY REMEDIES, because of the severe inflammation of the delicate lining of the tubes through which the air we breathe is distributed to the lungs. This obstruction produces pain and soreness, hoarseness, cough, difficulty of breathing, heetic fever, and a spitting of blood, matter or phlegm, finally exhausting the strength of the patien and developing very serious disease. Dr. Jaynes' Expect torant seldom fails to remove these symptoms by relieving the lungs of all obstructing matter, and healing all soreness, Pleurisy, Asthma, and Bronchitis are likewise cured by this standard remedy, and the reputation it has maintained for over thirty years affords the best guarants of its merit. Sold everywhere,

HOLMES-RILEY. -- On the 37th instant, by the Rev. E. I. D. Pepper, Mr. EDWIN HOLMES to Miss EMMA, daughter of Benjamin Riley, all of Philadelphia. IVINS-KEEN,-At the residence of the bride' mether, on the evening of the 27th instant, by the Rev. Isaac Cole, D. D., CHABLES G. IVINS to MA-TILDA M., daughter of the late Charles Keen, all of this city.

rom different incerpretations of the terms of a ve hal contract. I never knew or believed nor heard it asserted that the terms were such as the company now asserts until the shipping season was over and the drawbacks paid."

the drawbacks paid." Since 1867 the company ships all the coal and are paid from lifteen to twenty-two and a half cents per ton, with ten cents for dumpage, during the day of arrival, and a loss of this allowance, if not so dis-

charged, and an additional fine. The defendants claim there is due to them, by the plaintiffs, the sum of \$97,993 83, being, as they allege, received by them as drawbacks during the years 1868 and 1869, in excess of the drawbacks current at the time, and in a letter dated 1st of February, 1870, making this claim, it is distinctly of reordary, 1500, making this claim, it is distinctly stated that if the claim is not properly adjusted "this company will feel constrained to commence legal proceedings for its recovery, and will refuse to permit Messrs. Audenried & Co. to occupy a wharf at Kichmond hereafter" hereafter.

The last threat has been carried into full effect, The last threat has been carried into full effect, and the plaintiffs are entirely deprived of all wharf accommodation at Richmond. It will be observed that the defendants, as carriers of coal, take charge of it from the coal region until it is loaded into the vessels at Richmond. The railroad is thus extended from its commencement in Schuylkill county until the meabers the vessels in the Intervention vessels at Richmond. The railroad is thus extended from its commencement in Schuylkill county until it reaches the vessels in the Delaware into which the coal is to be loaded. Of the contracts for 1868, we have no other evidence than that the drawbacks were given by the President and Mr. Tucker, and paid and settled without a word of complaint on either side. In the beginning of 1869, it was deemed important, as had been found in 1868, to fuduce large shipments of coal to the eastward, and par-ticularly to Boston, which could only be done by giving heavy drawbacks, so as to enable the ship-pers to sell at prices which would allow them to compete with the coal of other companies whose natural terminas was New York and not Philadel-phia. An effort was made by Mr. Smith in March, 1869, to have the trade called together and to Induce them to sell coal freely, and to unite with the com-pany at low charges for transportation in exhibiting the strength of the Schuylkill region. Colonel Day, the gentlemen spoken to, said to Mr. Smith, "That it was our fight with the New York companies, and that we ought not to urge the operators to partici-pate in it," at which he said Mr. Smith exhibiting the strength of annoyance. Mr. Tucker says in his letter of 6th December, 1859, to Mr. Smith, which was read to the President before it was sent, "I inquired if he (Colonel Day) recollected how low you (Mr. Smith) offered to trans-port the coal. He replied that he thought you said as low as fifty cents, if it was necessary to maintain

recoilected how low you (Mr. Smith) offered to trans-port the coal. He replied that he thought you said as low as fifty cents, if it was necessary to maintain a successful competition. I then asked the com-mittee how they supposed we felt when Audenried A Co, proposed to secure to us the transportation of 100,000 tons at the price agreed upon. I stated that we felt under great obligations to them." Mr. John Tucker, a very able and acute man of business, in the conclusion of his letter says, "Even now, with all the money we have made, I would be better satisfied it we all had had a steady and regu-iar business and working to our capacity at the charges on Audenried's coal than I am now. The battle would have been fought, and we should have won it. Now a confi of is probably before us." It is clear that whatever confract was made be-tween Mr. Tucker, the recognized agent of the

tween Mr. Tucker, the recognized agent of the Philadelphia and Reading Rallroad Company, and Mr. Addison Child, on behalf of the plainting, at which W. G. Audenried was present, "It was all ver-bal, except the memorandum mentioned in the bill." Of this contract there are three competent wit-nesses, Mr. Tucker, Mr. Child, and Mr. Audenried, and be the whotever it was both parties in good faith Of this contract here are three competent with neases, Mr. Tucker, Mr. Child, and Mr. Audenried, where the severe it was, both parties in good faith should be bound. The error, if there be any, has been in turning to resolutions of the board, and as-swere liegal if not in strict conformity with them. There is no evidence that the drawbacks of 1868, and paid in regularly allowed by the proper atthories, and paid in regularity allowed by the proper atthories, and paid in regular course by the proper atthories, and paid in regular course by the proper atthories, and paid in regular course by the proper atthories, and paid in regular course by the proper atthories, and paid in regular course by the proper atthories, and paid in regular course by the proper atthories of a pecial contract, as stated by the agents of the two parties. Some of the details may be disputed; but it is certain they were all paid in due course after the attention of the incoming president had been called to them. Under this state of things, it is clear that these matters were the subject direct diverse at the section an appeal to a legal tribunal; but not of due to mere by depriving tim of all wharf accommoda-tion taking the defendants in taking away from the paintiffs all proper wharf accommodation to persons attracted as the plaintiffs were all due to persons attracted as the plaintiffs were all due to persons attracted as the plaintiffs were all due to persons attracted as the plaintiffs were all due to persons attracted as the plaintiffs were all due to persons attracted as the plaintiffs were all due to persons due to the company, who derive all due to persons due to the company, who derive all due to persons due to the company, who derive all due to persons due to the company, who derive all due to the reaction, how ever wealthy and powerint.
