CITY INTELLIGENCE. WOMEN AT THE CLINICS.

The Controversy in this City-The Proposed Action of the Managers of the Panasylvania Mospital.

vexed question whether females shall attend the clinical lectures at the Pennsylvania Hospital will be decided at the annual meeting Monday next of the contributors to that institution. The following interesting facts will show what has already been done in the matter, and the reasons for adopting the rather unusual course of submitting it to the contributors for their decision.

From the official records it appears that on October 25, 1660, an application was made by the officers of the Female Medical College that the stadents of their college be admitted to the lectures of the hos-pital, when it was resolved that the steward of auporized to sell tickets to such female students con nected with the Women's Medical College. On the 6th of November a disturbance was made by some of the students attending the clinical lecture of that day, not only in the lecture-room, but in the yard of the hospital and in the adjoining street, so as to cause severe animadversion from a large part of the public press. This led to a special meeting of the managers on the 13th of the same month, when the following preamble and resolutions were adopted :-

Iollowing preamble and resolutions were adopted : - *Whereas*, it appears the resolution adopted by the board at their stated meeting on the Bich wit, authorizing the attendance of female stadents at the clinics of the hospi-tal, has given rise to much disastification on the part of many physicians and students of this city; and *Wascow*, Such opposition was entirely unexpected, from the fact that female students had been attending the clinics of the Blockley Hospital of this city, as well as the belleve Hospital of New York, and those of Edulargh, Noctand, and Zurinb, Switzerland, without, so far as we were aware, there being any opposition and *Warreas*, it is the desire of the managers of the hospital to avoid giving any just ground for dissatisfaction; there-fore

tors Resolved. That a committee of five be appointed to con-fer with the medical and surgical staff of the hospital, and to provide for separate clinical instruction to the iemale students of medicize, on at least one day in each week, and that on the completion of such an arrangement the other clinical lectures be confined to classes com-posed of males only.

At an adjourned meeting held December 6, 1869, the committee reported, "That having had a confer-ence with the medical and surgical staff of the nospital, and a full discussion of the subject referred to the committee, they report that the entire medi-cal and surgical staff expressed their opposition to the establishment of a separate clinic for female students, and their willingness to continue the clinic to mixed classes, under the restrictions and upon the conditions expressed in their communications to the committee herewith presented," viz. :---

the committee herewith presented," viz. :---At the meeting beld at the Pennsylvania Hospital, Dec. 2, 1869, the medical staff, after submitting their views on the subject of separate instruction of female students, being unable to accede to the proposition of the commit-tee of the board, and being informed that any other pro-position looking to the present selution of the difficulty would be received, under existing complications, and in view of the fact of the managers having already granted the right by the sale of tickets to female students to attend the clinics of the hospital, submit the following propositions.--

propositions — I. That elinical instruction shall not in the least be ro-stricted or abridged. S. that remale students shall only attend on one of the two clinical days of each week; and that on this day all cares deemed by the lecturer indelicate or improper to be witnessed by them, shall be reserved for the last part of the hour, when these students shall be notified, in order that they may withdraw; and, on their notifoing so, the lecturer shall have the option of dismissing the class. 3. The above arrangements to continue only until the expiration of the term for which the tickets have been already sold.

Signed on behalf of the Medical and Surgical Board. Some deubts having subsequently been expressed whether the proposed arrangement would be satis-factory to the students, the subject was referred back to the committee, who, on the 29th, received the following communication from the medical staff:-

Staf: — Gentlemen: — As we have reason to think that you may be waiting a further communication from us, we beg leave to stave that since your last meeting we have decided grounds for believing that the temporary arrangement pro-posed will be as generally acceptable to the faculties and statents concerned, and to the profession at large, as any that can be derived. We bave, however, agreed to one alteration in the second proposition, so that it shall read. 'the lecturer shall dismiss the class.'' instead of shall have the option of dismissing the class. Signed by Secretary of Medical Staff. "The Reard of Managers "theor resolved that the

staff was respectfully declined. Under this arrangement the clinical lectures have been regularly held, without disturbance of any kind, and, from appearances, seemed to be giving satisfaction to all parties. Inasmuch, however, as many members of the medical profession, some of whom are valued contributors to the hospital, were

THE COAL TRADE.

The Suspension-The Scranton Sale-The Lehigh Region and the Schuylkill Supply-A

Miners' Demonstration -Quotations, Etc. There is as yet nothing new to report in relaion to the Schuylkill suspension. The operators are no nearer a settlement, and the men have no better prospect for a righting of their wrongs, if wrongs they have. The men in their present position get but little sympathy from any quarter but their own, and consumers in particular view them with especial distrust. The consumer, if he has any fellow-feeling for the miner at all, views the matter in this light: The miner may get insufficient wages. He may desire higher wages, but higher wages will make higher priced coal. We are not able nor willing to pay for higher priced coal on account of a general reduction of our incomes consequent upon a general fall in prices. We are therefore opposed to any advance of miners' wages, no matter what the necessity may be. So the matter stands.

ter stands. The monthly sale of Scranton coal by the Dela-ware, Lackawanna, and Western Railroad Company was held in New York on Wednesday last. The rates have been already published. As compared with the sale of last month there was an average decline of 16 cents per ton. The price of lump was 5 cents lower, of steamboat 13 cents, of grate 13 cents, of egg 12 cents, of stove 21 cents, and of chest-nut 3 cents. The supperson has not had the effect cents, of egg 12 cents, of stove 21 cents, and of chest-nut 3 cents. The suspension has not had the effect of making an advance of rates, in this locality at least. If the prices have lowered when one-third of the trade is stopped, can the Schuylkill operators be expected to resume operations, which will in-crease the supply, on the condition of an advance of wages? If no arrangement can ever be made by which the conflicting regions can be made to har-monize, and by which fair competition can be pos-sible, either by an equality of wages and a reduced cost of transportation for the unequal side, or by a surplus of labor in the more fortunate region which will produce a willingness to accept a lower rate in surplus of haor in the more forthing a lower rate in will produce a willingness to accept a lower rate in other places, the possible effect at some future time may be a total abandonment of the Schuylkill region. The demand of the week in this vicinity has been somewhat active. The week in this vicinity has been ing Railroad, published yesterday, shows a slight

Owing to the refusal of the Lehigh men to load the cars of the Reading Raliroad, the cars of the Lehigh Valley and Luzerne Raliroad Companies are now used by the Reading company to supply the line of the Schuylkill from the Lehigh region. The Lehigh roads are running to their full capacity. There have been several runnors of serious strikes in this region, but none of importance have yet been re-ported. The damage done the Lehigh and Delaware Division Canals by the recent rains has not yet been entirely repaired. entirely repaired.

On next Monday a grand parade of the Workmen's Beneficial Association will take place in St. Clair. It is said that this will be a large and most gorgeous affair As St. Clair is situated in the region now in suspension, it is supposed that those who are to take part in the demonstration have had an abundance of time to make the most extensive arrangments, and

a great success is anticipated. The prices of coal by the cargo at Port Richmond are substantially the same as those of last week. The following are the current rates of freights

from Port Richmond for the week ending April 29. They are considerably lower in the average than those of the preceding week:-Bucksport, \$2: Port-Indee of the preceding week: -- Bicksport, \$2: Port-land, \$1.75: Boston, \$1.90(a): Charlestown, \$2: Fall River, \$1.75: Gloucester, \$2.40; Marblehead, \$2: Newburyport, \$2: New Bedford, \$1.75: Providence, \$1.75: Fawtucket, \$1.90 and tow; Bridgeport, \$1.65; Fair Haven, \$1.75: Norwich, \$1.70 and tow; New York, \$1.20(a):30; Washington, \$1.10: Savannah, \$2. A SCOUNDREL .- Some eight months ago a young German named John Schible, aged nineteen years, came to this city and succeeded in ingratiating himself into the favor of a family named Schneider, who reside in the rear of No 311 Race street. The young scoundrel told a pitiful tale of want, and the family compassionating him, gave him board and lodging. As time progressed and John obtained no work the family began to grow uneasy, but the rascal quieted their alarm bytelling them that he shortly expected help from his sister. The head of the Schneider family works in a sugar refinery, and by hard labor had been enabled to lay by a few dollars. A day or two age John disappeared, and an examination showed that previous to leaving he had broken open the trunk in which the fund was kept and taken the whole of it. Amongst the cash were eight sovereigns and a new \$20 bill. The latter has been traced to a clothing-store on Market street, where the scoundrel purchased a suit of clothes with it. ONE OF THE "RANGERS."-This morning, between 4 and 5 o'clock, a citizen noticed three young men lurking in the yard of a house at Ninth and Watkins streets. After searching around the whole neighborhood he finally found policeman, whom he notified. The officer, without stopping to arrange any plan, rushed off in a flurry, and, approaching the place without any caution, gave the rascals due notice, and they fied. He pursued and managed to capture one of them, who gives his name as James Gorman. James is a member of the organization know as the "Schuylkill Rangers." his person were found a revolver, bowie knife, and black-jack. He will have a hearing this afternoon at the Central Station. SETTLEMENT OF AN ESTATE.-Some week ago we published an account of the admittance to probate of the will of the late Bernard Maguire, of this city. The executors have had several meetings and have reported the following as the settlement of the estate. From the figures presented our readers can judge as to how such matters are managed:-The whole ap praised value of real and personal estate \$61,633.34. Debts and funeral expenses, \$1000 executor's commissions, \$3081.99; United States tay, \$3600; expenses in settlement of estate. \$1200, making in all \$8881.67; leaving to be distributed in legacies the sum of \$52,751.67. LECTURE IN WEST PHILADELPHIA .- The second public lecture since the opening of Dr. Saunders' College will be delivered by its president, who has been so long an educator, and who announces in another column that his subwill be, "How to train the young. lect We believe the Doctor will find a full house of interested listeners. It is a singular and pleasing incident that he follows Judge Axtall, whom he trained as a pupil, on the subject of "Training," so that he can refer his audience to the eloquent speaker they heard last Monday evening as a specimen of his work.

THE RICHMOND SUFFERERS.

A Meeting of Citizens at the Mayor's Office. A large meeting of the substantial citizens of Philadelphia was held this afternoon at the Mayor's Office, with reference to the Richmond calamity. Mayor Fox was called to the chair, and Caleb .Jope and Charles Rogers were selected as secretaries. Mayor Fox said that Philadelphia has the reputation of being among the first to move where distress and affliction occur, and it seemed to him that her citizens should have an opportunity to contribute of their wealth. There are many family a who are bereft of their only support, or crippled in such a form as to be deprived of that succor which a father or brother only could furnish. Some have died, others are dying. He hardly knew what steps to take, but he at least thought that he would be safe in inviting the good citizeus of Philadelphia to come

together and counsel with him. He then a read a letter which had been sent him by the Postmastress of Richmond, and the following despatch :---

MAY DAY .-- The at-one-time festival of the first of May will to-morrow make its debut for the present season. The sweet, the balmy May will to-morrow open its lovely arms and receive us to its soft embrace. How lovely, how us to its soft embrace. How lovely, how divinely sweet the thought! This present condition of the thought is appropriate under the existing circumstances of clear sky and summer air. Should the dawn of to-morrow, however, r a northeaster, a dull sullen rain. overcast sky, the metaphor should not be so expressed. The embrace would then be one of coldness, and, consequently, disagreeable. The loving arms of a Queen of the May, no matter who she might be, would then be decidedly preferable. But alas! that time-honored institution is now no more. We no longer dance around a liberty-pole crowned with flowers, having for our mistress the prettiest girl in the neighborhood. Every one now selects his own May Queen and dances around her and with her to his heart's content. But such is life.

ing the cars into the gutter. After he had thrown eight or ten cars in the gutter, a little boy who was passing near the Opera House informed Officer Dennis Mengher of the strange man's doings, and the officer immediately went after him. When found he fought manfally, and said that he was taught by his mother that all men in America were free, and that he intended to be free if it took all summer to do it in. The officer succeeded in ar-vesting him. resting him.

FROM F. GUTEKUNST, No. 712 Arch street, we have received a fine photograph of the Capitol Buildings at Washington. The National Capitol is one of the very few public edifices in this country that are entirely creditable to the aesthetic culture of the country. The Capitol is at once imposing in itself, as such a structure should be, and it is suggestive of the uses to which it is devoted. Mr. Gutekunst has succeeded in getting an admirable view of it, and this photograph is certainly one of the best, if not the very best picture of this great national edifice ever made. The photograph neatly ramed will make an appropriate and attractive decoration for any wall.

HAMMER AND BUSKIN.

The "Rea. Day" at the French Theatre. Yesterday about 11 cclock a few unhappy look-ing gentlemen assembled in front of the French theatre in Fourteenth street. Among them were Mr. William Butler Duncan, Mr. S. Salomon, and Mr. Frederick Pallman, the first principal stock-holder of the French theatre, the second charge d'affaires for Mr. Grau, and the last present lessee of the theatre. Mr. Grau being in Europe, of course he was physically incapacitated from attending. To give the reason of this meeting it is necessary to go some way back in the history of the theatre. In the spring of 1869 the French Theatre was without a lessee. Mr. Bateman and Mr. Grau both endeavored to get it. Mr. Grau offered the most, and the theatre was handed over to him for five years at a yearly rent of \$20,000, comprising the house on Fif-teenth street. At that time Mr. Grau was quite icenth street. At that time Mr. Gran was quite engagement. Mr. Sirau paid down \$13,000 on the Ristori engagement. Mr. Sirau paid down \$10,000 deposit, and consmenced immediately to improve and enlarge the theatre at a cost of some \$30,000 to himself. This was at his own risk, and he was supposed to get the benefit of the enlargement. Immediately after this Mr. Grau's opera bouge company came over from France, and is generally very well known to have lost a great deal of money for its manager. In fact, so much that hitle by little he lost all he had, and so much that little by little he lost all he had, and gradually got behind hand in his rent. When the era bouffe broke up Mr. Grau was some \$10,000 behind hand, and during the summer, the theatre be-ing untenanted, the matter got worse and worse, until Mr. Grau in despair vouchsafed some property he possessed to meet the demands of the stockholders who were rather hard on him considering that he had made such notable improvements and been to such expense for their theatre. Again, lately, Grau got in debt for rent, and, when owing some \$12,000 here, he suddenly left for Europe, leaving his affairs in a very bad state of collapse. Immediately Mr. Dunvery bad state of collapse. Immediately Mr. Dun-can, the banker, commenced a suit in the Supreme Court against Grau to dispossess him on ac-count of non-payment of rent. It was on this decision that the sale took place yesterday. The lease was first put up for sale for the three years and a half unexpired term, and after some de-sultory bidding was knocked down to Maurice Friend for \$300. It was announced then that anybody who sought Grau's unexpired lease would have to pay Grau's arrearage of rent, amounting to \$12,000, besides the \$20,000 a year. But Mr. Friend paid his deposit like a man. Then the cosumes, scenery, and properties of Mr. Grau were put up. As they were not exhibited, though the list seemed very long, no one knew what they were. The highest bid was James H. Taylor's, stage mana-ger of the Grand Opera House, to whom they were ger of the Grand Opera House, to whom they were knocked down for \$200. It seems doubtful whether he will get them, however, as Mr. Duncan, in leav-ing, enjoined that nothing be allowed to leave the theatre without his permission .- N. Y. Berald to-day. Crazy Man Amuses Himself by Throwing Street Cars off the Track.

About 9 o'clock last night, says the Louisville Journal of Thursday, a man made his appearance near the c mer of Fourth and Green streets, whose actions created some excitement. He started a minstrel show, and told the boys who had congre-gated around him that he would show them how patted around him that he would show them how Johnby Allen does "Josephus Orange Blossom," and after singing awhile he danced. Just as he was dancing after the last verse a street car came along, when he ran out and stopped the car to tell the driver that the "wheels had been turning." The driver that the was fooled, started on with the ear when the start for the started on with the ear, when the $p \sim tem$, showman got a large rock, and, following the car, dashed it under the wheels, throwing the car of the track, when it run into the gutter. Is entirely vegetable and contains no liquor. It is a compound of Fluid Barracts. The Roots, Harbs, and Barks from which these extracts are made, are gathered in Germany; all the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of this Bitters. There is no alcoholic sub-stance of any kind used in compounding the Bitters; hence it is free from all the objections incident to the use of a liquor preparation. 0 HOOFLAND'S GERMAN TONIC

my family during the past year, and can recommend them as an excellent tonic, imparting tone and vigor to the system. Their use has been productive of decidedly beneficial effects. WM. F. ROGERS.

HON. JAMES M. WOOD, Ex-Mayor of Williamsport, Ponnsylvania.

I take great pleasure in recommending "Hoofland's German Tonic" to any one who may be afflicted with dys-

N

pepsia. I had the dyspepsia so badly that it was impos-sible to keep any food on my stemach, and I became so weak as not to be able to walk half a mile. Two bottles of Tonic effected a perfect care, JAS. M. WOOD. JOHN EUTERMARKS, ESQ.,

Law Partner of Judge Maynard, Williamsport, Pa. This is to certify that I have used "Hoofland's German Bitters" for dyspepsia, and found it an invaluable remedy

OBITUARY.

Prince Anatole Demidoff.

The death of this distinguished personage is reported by cable. Prince Demidoff came of a very wealthy and distinguished Russian family, and was born in Florence in 1812. He was made Prince of San Donate by the Grand Duke of Tuscany, and married the Princess Mathilde de Montfort, daughter o Jerome Bonaparte and Catherine of Wurtemburg, but having obliged himself to bring up his children, should any be born, in the Roman Catholic religion, contrary to the rule of his own country and his own religion, he lost for some time the favor of the Em. peror Nicholas. He was summoned home to answer his offense. His marriage, however, had no issue and was soon dissolved. On the outbreak of the Russian war against Turkey in 1853 he was attached to the Russian Legation at Vienna and made Conncillor of State. On various occasions he evinced a liberality not inadequate to his immense possessions by donations and foundations for public charity and the promotion of science.
