The Moabite Stone.

covery of the Moabite Stone we take from

an English paper. The writer, Mr. Keim, is

a Prussian clergyman, who has been for

It was on the 19th of August, 1868, that in

the course of a journey I undertook to Jebl

Ajloon and the Belka, I arrived at Diban

(ancient Dibon), about one hour to the north

of the Wadi Mojeb (Arnon). For the sake

of my friend and protector Zattam, the son of the famous Fendi-l-Faiz, Scheich of the

Beni Sachr, who accompanied me, I was re-

ceived in a most friendly way by a tribe of

the Beni-Hamide, encamped near Diban. Carpets and cushions were spread in the tent

of the Scheich, and coffee prepared with all

heard of it, or they would not have shunned

trouble and expense to secure this treasure.

the ceremonial of Bedouin etiquette.

-A meeting of the Board of Directors of the City Trusts was held yesterday. Mr. James H. Windrum, a graduate of the col-ege, was appointed architect to provide plans and supervise the alterations of dwellings on Chesnut street, above Eleventh, into stores, and also the erection of new buildings on the lot at Sixth and Brown streets. The present physicians at the college were reelected, and the salary fixed at \$600 each per annum. Authority was given to purchase cadet muskets for the military company in the college

Mr. L. E. Lippincott and wife were elected steward and matron of Wills Hospital, in place of Mr. Charles Oat and daughter, resigned.

Henry M. Phillips, Esq., was elected Vice-President, and Mr. H. W. Airey was chosen permanent Secretary of the Board of Trusts. It was ordered that general admission tickets be not received on the 21st of May, the day of the meeting of the alumni. The excursion of the pupils to the Girard coal lands was fixed for Friday next. Some of the members of the board will accompany the

-At a meeting of the Law Academy held last evening the following officers were elected for the session of 1870-71:--

Provost, Hon. George Sharswood; Vice-Provosts, Hon. J. I. Clark Hare, E. Spencer Miller, Richard C. McMurtrie, George Junkin, William Henry Rawle, Clement B. Pen-TOBE

President, Samuel S. Hollingsworth; Vice-President, James L. Ferriere; Treasurer, Charles A. Lagen; Secretary, Harry T. Kingston; Assistant Secretary, H. C. Satterthwaite; Librarian, George Sharswood, Jr.; Recorder, Theodore Barrett.

-A meeting of persons representing this trade was held last evening at the hall, Eighth and Locust streets.

-A mass meeting was held last night at the Academy of Music under the auspices of the Celtic Association. Its object was to protest against the "threatened extirpation of the Irish people at home, through the opera-tions of the Gladstone Coercion bill." The meeting was large, and Mr. T. Leslie Riley presided.

Domestic Affairs.

-Gold closed yesterday at 1151.

-Many outrages and murders by Indians are reported from Arizona. -A large reduction is to be made in the

force of the War Department by the 18th of July.

-Cincinnati police are resolved upon se-curing a better observance of the Sabbath in that city.

-The Tax bill is to be ready for reporting to-day. It will reduce taxation at least thirtyfive millions.

-Fifty thousand dollars are asked by the Superintendent of Coast Survey for the survey of Alaska and the Aleutian Islands.

-General Butler was again met by Brooks, the objector, when he essayed last evening to introduce his San Domingo resolution in the House.

-In the House yesterday, after the close of our report, the Northern Pacific Railroad bill was taken up, and on the question whether it should be read a third time, the yeas were 77 and the nays 92. The bill was finally referred to the Committee on the Pacific Railroad, with amendments offered by twenty-three of the members. Mr. Lynch, from the Committee on Decline of American Commerce, reported his bill to revive the navigation interests. Mr. O'Neill introduced

which was referred, repealing the act

5. Quadrille-Mode, Bilder. 6. Terzetto and finale, Lucrezia Borgia. trusted with the business of transacting the matter with the Bedouins at Diban, but the difficulties he met and the greediness of the Arabs put an insuperable obstacle in his way. The services of another native were subsequently engaged, but also without success. The matter, being thus necessarily entrusted to the hands of natives, of course then ceased to be a secret, and other parties also heard of it and exerted themselves with laudable zeal and energy to obtain, if not the stone itself, at least a copy of it; and one cannot too highly praise the zeal, energy, and tact of M. Ganneau and Captain Warren, who have through their exertions preserved to the learned world parts at least of this most valuable monument of Hebrew antiquity, and who I sincerely trust will ultimately succeed in obtaining and deciphering

the whole inscription. Scheich Zattam has since informed me that he had in his possession a small idol made of brass with similar characters upon it, which I have, however, lately been informed was sent to Nablous, and sold there. Whether this is true or not I know not. But most assuredly a scientific expedition to Moab is a great desideratum, and could not but greatly enrich our knowledge of Hebrew archieology. I have to add that among the letters I I copied from the Moabite inscription I see several letters which are not found in the parts published by M. Ganneau and Captain Warren. Probably these letters are of rare occurrence, and found on pieces not secured. I have not thought it necessary to give you my entire alphabet, but only those letters I missed in the inscription published by the gentlemen referred to. F. A. KLEIN. JERUBALEM, March 23, 1870.

of 1800, which authorizes Maryland and Georgia to levy a tonnage tax on vessels. The Tariff bill was resumed in Committee of the Whole. On steel car wheels, the duty was made 3 cents per pound, and on steel blooms for car and locomotive tires wrought to pattern, 21 cents. On steel carriage, car, locomotive, and other springs, 6 cents. An additional paragraph was inserted, laying a duty of 9 cents per pound and 10 per cent. ad valorem on crinoline, corset, or hat steel, commercially known as wire. Another was inserted laying 35 per cent, on sword blades, and 45 per cent. on swords. No amendments were made to the paragraphs relating to platinum, brass, etc. To the paragraph imposing 40 cents a pound on nickel several amendments were offered, but they were rejected, and the House without further action adjourned.

Foreign Affairs.

-Queen Victoria opened the new building of the London University yesterday.

-By the French opposition press the plebiscitum vote is regarded as without social, political or religious significance. —The outbreaks in Paris would appear to

have been more serious than at first reported. Many lives were lost in their suppression.

-Paris is in such a state of ferment that the presence of immense bodies of police and troops is necessary to maintain even a semblance of order.

-A desperate revolt was made, on Tuesday, by the convicts in the French prison La Roquette. One keeper was killed and two wounded before it was suppressed.

THE LEAGUE.

A Grand Affair.

Last evening the members of the Union League gave a full dress reception at their building on Broad street. For the occasion the spacious garden in the rear of the hall was transformed into a ball room, giving an apartment 180 feet by 100, enclosed by can-vas, and so thoroughly decorated with flags and bunting that even the tent appearance was disguised, and nothing remained but a magnificent room, brilliantly lighted by several hundred gas jets. A full orchestra stationed in the west end of this room discoursed the music

The building of the League was used as reception, dressing, and banqueting rooms, and here the most lavish outlay and good taste were exhibited. Every room, with the vestibules and halls, were almost filled with rare exotics, plants, and flowers, and the several apartments were thus transformed into flower gardens. Outside every attention was given to the comfort and convenience of the guests. A covered way led from the curb to the entrance, and flowers were also used here for decorative purposes. The whole affair was a great success, the guests numbering over a thousand, including Governor Geary and other distinguished gentlemen.

The immense assemblage first began surging into the building about 8 o'clock, and by 10) o'clock had increased to its height. The various committees, however, had so arranged their pl ns that no confusion whatever was occasioned by the crowd.

The music began at 8 o'clock and continued till 1. The following was the order of dancing:-

- Waltz-Carneval Spruenge,
- Barbe Bleue (selections).
- Galop-Wildfeur,
- 4. Remembrance.

I am sorry to find I was also the last Euro-bean who had the privilege of seeing this monument of Hebrew antiquity in its perfect state of preservation; and it is for this reason I think the few observations I am able to offer on the subject may be welcome to those who take an interest in this important discovery. When I came to the spot where this precious relic of antiquity was lying on the ground I was delighted at the sight, and at the same time greatly vexed that I did not come earlier, in order to have an opportunity of copying at least a good part of the inscription, which I might then, under the protection of Zattam, have done without the least molestation. I, however, had time enough to examine the stone and its inscription at leisure, and to copy a few words from several lines at random, chiefly with a view, on my return to Jerusalem, to ascertain the language of the inscription, and prevail on some friends of science to obtain either a complete copy of

the nscription, or, better, the monument itself. The stone was lying among the ruins of Diban perfectly free and exposed to view, the inscription uppermost. I got four men

to turn it around (it was a basaltic stone, exceedingly heavy) in order to ascertain whether there was no inscription on the other side, and found that it was perfectly smooth and without any inscription or other marks. What time was left me before sunset I now employed in examining, measuring, and making a correct sketch of the stone, besides endeavoring to collect a perfect alphabet from the inscription. What I have I now enclose, and vouch for the perfect correctness of what I give, having taken it down on the spot. The itone is rounded on both sides, not only at the upper end, as mentioned by Monsieur Ganneau, who says:-"La forme de la stele etait celle d'un carre long, termine en haut par une partie arrondie, l'angle inferieur de droite etait deja casse depuis fort longtemps." From his sketch also of the stone he admits it not to have been rounded, but square at the bottom; but the fact of this being so cannot but be of importance to him, as it will give him the comfortable assurance that in the lower corner sides there are not as many words of the inscription missing as would be the case if it were square at the bottom, as he was wrongly informed by his authority; for, as in the upper part so also in the lower, in exactly the same way, the lines become smaller by degrees. Possibly in the length of the several lines there may be more letters to supply, as now supposed, as in this respect the information received by M. Ganneau is not quite correct. He says of the stone: -"D'apres les estampages elle aurait eu 1 metre de hauteur et 6.60 centimetres de largeur avec une epasseur egale."

According to my correct measurement on the spot, the stone had-

1 metre 13 centimetres in height,

70 centimetres in breadth, and

44 35 centimetres in thickness, and, according to my calculation, had thirtyfour lines; for the two or three upper lines were very mech obliterated. The stone itself was in a most perfect state of preservationnot one single piece being broken off, and it was only from great age and exposure to the rain and sun that certain parts, especially the upper and lower lines, had somewhat suffered. On my return to Jerusalem I showed my sketch and parts of the inscription to Dr. Petermann, of Berlin, who I knew took great interest in archaeological researches, and he was delighted at the information, and imme-

diately took the necessary steps to acquire the Moabite monument for the Berlin Museum. A young clover Arab at Salt was en-
