PHILADELPHIA, SATURDAY, MAY 14, 1870.

FIBST EDITION CITY INTELLIGENCE.

Mr. McFarland Has His Say The Great New York Bridge. Etc., Etc., Etc., Etc., Etc.,

M'FARLAND.

A Reply of Mr. McFarland to bis Late Wife-What He Ualis Conflicting Statements. The N. Y. Sum of this morning publishes the fol-lowing card from McFarland:-The pretended statement of my wife, published in the *Tribune*, induces me to send for publication in the *tribune*, induces me to send for publication in the *tribune*, induces me to send for publication in the various journals in this city letters which were written me by her at the several times to which the pretended statement has reference. It is asserted that I was a drunken brute, and that I was very cruel to my wife.

pretended statement has reference. It is asserted that I was a drunken brute, and that I was very cruel to my wife. After reading these letters, the public will judge for itself. And, even without them, I consider that the verdict of the jury justifies my course, especially when it is considered that the prosecution was unable to produce upon the witness stand a single person from the locality where he lived during the greater portion of our married life, or from any other place, who could testify that I ever treated her unkindly or spoke a harsh word to her. The testimony that Mrs, Calhoun gave during the trial materially conflicts with what she stated in the Indiana divorse matter. She swore in Indiana that I was appointed Commissioner of Enrolment through the appointment of Commissioner of Enrolment in April 1863, nearly three years before I ever knew or heard of Mrs. Calhoun, or she of me. She testified during the late trial that she first be-came acquainted with me in the latter part of 1865, the year she swore that she first became acquainted with me. How then could she have procured me that appointment in 1863 ? I received an honorable discharge, and was one of the last of the Enrolment Commissioners in this city mustered out of service. Mr, Samuel Sinclair, publisher of the Tribuwa, also discharge, and was one of the last of the Enroiment Commissioners in this city mustered out of service. Mr. Samuel Sinclair, publisher of the *Tribune*, also swore in the recent trial that in the early part of 1864 he saw me intoxicated once, and that my wife told him not to tell her father about it. Mr. Sin-clair was not acquainted with her father, Mr. Sage, and had never seen him for years after the date mentioned in his (Sinclair's) testimony, which, in other respects, varied materially, and against me, from that which he gave in the habeas corpus case in Massachusetts. This testimony in both cases is a matter of judicial record.

THE EAST RIVER BRIDGE.

Progress of the Work on the Great Calsson. Work upon the great caisson for the East River Bridge proceeds with rapidity. Since it was towed into port from Greenpoint, last week, three layers of yellow pine timbers have been laid upon it. These are thirteen inches in diameter and three inches apart. The interstices are filled with gravel and a cement that stices are filled with gravel and a cement that water serves only to harden. Seven more layers of these timbers are to be added, and the caisson will then be lowered to the bed of the dock, which has been dredged for the pur-pose to a depth of thirteen feet below low-water mark. The greater part of the bottom of the caisson is hollow, and when finally completed the earth will be dug out about twelve feet below it. Means will be taken to exclude the water, and the work will be accomplished by men who will descend into the cavity. Iron cylinders, three descend into the cavity. Iron cylinders, three and a half feet in diameter, have been prepared for a man-hole and for the admission of all. Other cylinders, six and a half feet in diameter, will be used for raising the earth from below. The caleson is now kept alloat by the constant pumping of air into the hollow beneath, which forces out the water. It is 168 feet long by 102 feet wide, and 120 men are employed in com-pleting it. It will be ready to sink soon after the 1st of June, and when a few inches under low-water mark the granite foundations of the tower will be laid upon it. Boring has begun upon the New York side, at Pier 29, to prepare for another calsson, which is to be laid next November.

and Dr. William Pepper Vice-Director. THE INFECTED DISTRICT-CASES OF HELAPSING FEVER AT THE COUNTY PRISON.—Health Officer Jobn E. Addicks to-day made a report of the condi-tion of Alaska street to the Board of Health, from which we print the following extracts:— Gentlemen:—Since the last meeting of the board I have daily visited the Alaska street district, and beg to report that every duty is promptly performed, and the sanitary condition of the whole district is very much improved. No effort and action will be relaxed, but continued with full effect as long as any necessity may exist. The whole peeple are fully alive to the occasion, and leave us much less to do than formerly, of their own action.

action. The sick are being now promptly reported, and in every case, when required, the houses are thoroughly cleaned and closed; cellars and rooms coming under the late order of the beard are closed after cleaning, as fast as dis-

and closed, centars and rooms coming under the late order of the beard arre closed after cloaning, as fast as discovered.
Bince my last report, I regret to say I have taken three cases of four from the prison on Thursday and two cases on Friday. I have no report to day, and trust it will not increase in that institution.
Thave again called the attention of the Building Inspectors to the old rotten shantines and rookeries, and also capoed prive wells, and they have assured me that everything we suggest shall be dons, and they expect to receive the order of the Court to day.
Bince the district has been under the obarge of the Heelth Officer, 81 cases of contagious forer, 55 being relapsing, have been admitted to the Municipal Hospital. Five of the cases of relapsing fever proved fata.
The Kraset Goodman, Port Physician, reported day, and about the same number, with two from the prison, to day. He accounts for the increase partially by the fact that the people are now promptly reporting sickness of the Hospital.

FUNDS FOR THE HUMBOLDT MONUMENT. - At a re-cent meeting of the Alexander Von Humboldt Mon-ument Association, the following gentlemen were ument Association, the following gentlemen ware constituted a committee for the following gentlemen ware subscriptions for the erection of a statue of that eminent gentleman in Fairmount Park, the inan-gural ceremonies of which took place on the occa-sion of the corner-stone laying of the monument last fail:--Rudolph Keradi, Joseph Kinicke, F. W. Thomas, L. Herbert, O. Seidensticker, Julius Hein, E. Herwig, C. M. Baumann, and Paul Jagode. The honor and respect in which the great author, travel-ler, and philosopher is held by not only the Ameri-can nation, but by the entire world, render it neces-sary that Philadelphia should rear such a monument as is proposed. as is proposed.

The Status of the Trade-The Number of Men Working and the Number Idle-The Meeting of the Anthracite Board-Massachusetts Coal Legislation-A Thieving Captula Caught-

THE COAL TRADE.

of the Asihracite Board - Massachusetts Coal Legislation - A Thieving Captula Caught-Quotations, Etc. At a meeting of the General Council of the W. B. A., held at Shamokin, Northumberiand county, on the 97th and 98th ulf., the following reports were presented from the different regions:--"Northumberiand county, 768 men working on the basis, and 1000 men idle. Columbia county, 900 men all idle except three, who are working on the basis of 1969, Carbon county, 508 men working on the basis of 1969, and 1650 men idle. Luzerne county, 1,666 men. No report was made of any men idle. Schujkfil county, 10,000 men, all idle except three hundred working on the basis of 1869. "From these reports 11 will be seen that Inzerne county, or the Scranton and Wilkesbarre region, is the only one in which all the men are at work. These are working on the \$2 basis of 59, and are employed by the Delaware, Lackawanna and Western Kallroad Company. The 360 men working in the Schuylkill region are very inconsiderable in number when compared with the 10,000 who are idle. They are so very inconsiderable that the sus-pension in Schuylkill county is to all intents and purposes total. In Carbon county all the collieries are at work except those operated by the Lehigh Coal and Navigation Company at Summit Hill and Navigation for the subset 1000, while about 4,000, are idle. Including Luzerne county the suport theore of working hands is about 12,500, who by reason of the present suspension have not only to support themelves, but also directly and indirectly the sum-ber of working hands is about 12,500, who by reason of the present suspension have not only to support themelves, but also directly and indirectly the id-out hole doubled, in which case there would be very visit chance for high prices, and consequently for

would be doubled, in which case there would be very little chance for high prices, and consequently for the §5 basis. In the Lehigh region the trade is brisk, but not so good as it has been. Several orders have been countermanded. The great demand comes from furnaces and manufactories. A few Philadelphia consumers have been ordering largely from Lehigh and Wyoming, having given up all hope of a speedy resumption in Schuylkill county. At Manch Chunk the tonnage on both railroads and canal for the week was 11,691 tons against 123,926 tons for the previous week, which is a decrease of 12,235 tons. During the present suspension at the Summit mines, the only tonnage by the Lehigh Canal is that of coal from the Beaver Meadow and Wyoming regions, transferred from cars to boats at Coalport and East Manch Chunk. Many of the boatmen on the Le-high Canal, in consequence of the poor prospect for the season, have moored their boats and are em-ploying their teams on farms.

The Lehigh Valley Rallroad, on Wednesday last, issued an important order to all the shippers, stating that no more coal would be loaded for the Reading Road, whether the cars belonged to the Reading or

Road, whether the cars belonged to the Reading or any other company. In Schuylkill county matters remain the same, Large numbers of men have left since the celebra-tion at St. Clair. The reports of the Reading Road show an increase over the previous week, the total of all kinds being 55,498 tons. The resolutions passed by the Anthracite Board of Trade at their meeting in Pottsville on Thursday show a strong determination to stand out against the demands of the workmen. The meeting repre-sented five millions of tons per annum. The former written pledge, signed by seventy-six firms, binding themselves to the resolutions, was ordered to be reprinted. The Philadelphia Coal Company was de-nounced as "void of all honor and unworthy of con-fidence," because they had broken this pledge and started their collieries on the old basis. The suspen-sion of the Shamokin operaters was highly en-dorsed.

dorsed. The Legislature of Massachusetts has recently passed a law providing that all coal shall hereafter in that State be sold by weight excepts 2000 pounds. coal is sold. The sellers are required to obtain his services, and it is his business to weigh the coal, to keep a record for the use of both buyer and seller, and to give a certificate of weight when required. Such an officer would have his hands full in Penn-Such an officer would have his hands full in Penn-sylvania. The captain of a canal boat was recently arrested in New York for stealing coal. The boat was loaded in Hoboken for New York, and on arrival the cargo was found short 14 tons. It was clearly proven that the captain sold the coal. This is the first instance of an attempt on the part of the trade to put an end to an evil which has long been known, but which it has never been possible to remedy. This attempt was very successful through the exertions of com-petent detectives. The captain is now in jall await-ing his trial. The prices of coal at Port Richmond remain with-out material change. The following are the current rates of freights from Port Richmond for the week ending May 18:-Bath, \$2; Boston, \$1.7562; Charles-town, \$2.16; Gioacester, \$2.15; Hingham and dis., \$2.25; Lynn, \$2.06; Salem, \$1.70; Norwich and tow, \$1.75; New Haven, \$1.70; S. Norwak, \$1.70; Greenpuint, \$2; New York, \$161.30; Troy, \$1.70; Fortress Monroe and dis., \$80; From Baltimore;--Philadelphia, \$161.06; New York, \$1.90. THE CENTENNIAL ANNIVERSARY OF INDEPEN-DENCE.—The subject of celebrating the one hun-dredth anniversary of the Declaration of Indepen-dence in 1876 has been agitated for some time, and it can be safely said that the event will transpire. New York, Washington and Philadelphia have an-nounced themselves as candidates as the site for the occasion. Last winter committees of the Pennsyl-vania Legislature, City Councils and the Franklin Institute visited Washington, D. C., and appeared before the Committee on Manufactures on behalf of Philadelphia. Mayor Fox is in receipt of the following from the chairman of the committee:--

SECOND EDITION LATEST BY TELEGRAPH.

The Western Railway Slaughter.

Production of Pig Iron. Important Naval Intelligence.

The Worth Atlantic Fleet. Etc., Etc., Etc., Etc., Etc.,

FROM WASHINGTON.

From the North Atlantic Fleet. Special Despatch to The Evening Telegraph. WASHINGTON, May 14.—Her Britannic Ma-

jesty's gunboat Dart, which was in the harbor of Havana May 5, is of 428 tons and 80-horse power, and commanded by Commander John Carnejee. Her battery consists of 1 68-pounder and 2 20-pounder Armstrong guns. She is a good-looking vessel, and reported as very swift under steam.

Admiral Poor, commanding the North Atlantic fleet, informs the department under date of May 7 that he has ordered the Tuscarora to Havana to relieve the Nantasket, in order that she may go to Key West to fill up with coal and provisions and proceed to Samana as soon as possible, touching en route at Trinidad de Cuba, to inquire into the troubles existing there.

Vessels at Mare Island, Cal. The Mohican, Commander W. W. Low, ar-rived at the Navy Yard, Mare Island, Cal., on the 3d, for stores and partial change of battery, and requiring her poop-deek recaulked.

The second-rate steamer Lackawanna is being repaired at the Mare Island (Cal.) Navy Yard. New beams and knees are being placed for a spar-deck. She has received new planking from the water line, and new planking is to be placed below water line. She is also to have considerable addition to her keel; engines are undergoing repairs and new water bottoms being put to the bollers. It is thought that it will take about five months to complete her.

The "Tallapoona." Special Despatch to The Evening Telegraph. WASHINGTON, May 14.—The U. S. steamer Tallapoosa, Lieutenant D. P. McRichie, will sail from the Washington Navy Yard the first of next week for the Northern stations, touching en route at Norfolk, Va., and Annapolis, Md.

The U.S. Yacht America, from the Naval Academy, is going to the Navy Yard at New York for recoppering, new sails, etc.

Appointments Revoked. Secretary Robeson has revolved d'acong car-penter Daniel Dwyer, the former on account of having been condemned by medical survey for disabilities not originating in line of duty, and the latter for having been reported unquali-fied for the position and also condemned by the medical survey.

THE FRENCH CONSPIRACY.

First Rumor of its Discovery in Parls-Beaury Suspected and Tracked-His Arrest and the Capture of Protot.

<text><text><text><text> t ire.

THE CULPRIT BEAURY.

THE CULPRIT BRAURY. The Patric has the subjoined particulars:--"The principal agent of the plot, the individual entrasted with the execution of the crime, is a young man of twenty-two, bachelor of letters, and belonging, report says, to good family. After having for some time led a dissipated life, and undergone a condem-nation, he enlisted in the army, and then deserted. He is the instrument of the Revolutionary Commit-tee in London, and more particularly, it is said, of M. Flourens.

M. Flourens. "Since his arrest he does nothing but shed tears. bewails his fate, and confesses everything. We learn the seizure of weapons and boxes of ammunition; there were thirty bombs and four hundred cart-ridges. The belief is that M. Ledru-Rollin, know-ing of this affair, left Paris in order not to be in the capital when the matter broke out."

THE BOMBS.

capital when the matter broke out." THE BOMBS. The following description of the bombs, which have been seized, is curious:—Each one is divided perpendicularly into two halves which, when united, form a figure somewhat resembling a thick cake with a hole in the centre, and bound together by a strong screw. The exterior diameter is five and a quarter inches, and the thickness of the metal is about three-eighths of an inch. The upper and lower cavities are ribbed inside and peirced with eighteen holes, to which can be adapted nipples and caps, or nails, with the heads inside. In those seized the latter plan has been adopted, and some of the perforations are left unoccupied to permit the entrance of air, which vastly increases the force of the explosion. The in-terior of these terrible implements was destined to receive four glass tubes, a quarter of an inch in diameter and four inches in length, to be filled with picrate of potash or fulling to favor its projection. To any one conversant with mechanics or frearms this invention of 1870 will appear much more deadly than those of Orsini; for the mere shock of a fail would be sufficient to break the glass and produce the explosion. But in order to guard against the possibility of a failure, the series of nails above mentioned have been introduced. Everything tends to the heliof inter-the origins in the form an upper window. The amount of explosive material which they are each capable of containing is smillicent to spread destruction in a circle of at least thirty yards around, and the force with which the fragments would be person was struck on the head, chest, or stomach, and to break a limb if it hit elsewhere. The iron is discharged is sufficient to kill instantaneously, if the discharged is sufficient to kill instantaneously, if the person was struck on the head, chest, or stomach, and to break a limb if it hit elsewhere. The fron is of excellent quality and of the third fusion, that is to say, a casting from metal already previously re-fined. The projectile had evidently been invented by a clever mechanician assisted by an able chemist-A founder, a turner, and a fitter had been found, but not a finisher, for the final part of the work, in-cluding the union of the two portions, has been exe-cuted by persons having only inferior tools and not understanding the working of metals. The man who had these bombs in his keeping is named Roussel. It was on Friday night that the police came to arrest him. Immediately on finding himself in the hands of the agents he began to cry out "Help! Help! They are arresting all the Re-publicans!" At these cries a considerable number of persons ran up and threw themselves upon the policefuene, who, notwithstanding their energetic efforts, were obliged to yield, and the prisoner took flight.

DOUBLE SHEET-THREE CENTS. THIRD EDITION FROM EUROPE BY CABLE. A Discourse from Mapoleon. Austria's Coldness to the Pope. Southern Methodist Conference. Etc., Etc., Etc., Etc., Etc., FROM WASHINGTON.

Navy Orders.

Navy Orders. Despatch to the Associated Press. WASHINGTON, May 14.—Master Isaac I. Yates has been ordered to examination for promotion. Lieu-tenant-Commander Henry Glass is detached from Philadelphia and granted thirty days' sick leave, Surgeon James Suddards is detached from the Asiatic fleet and placed on waiting orders. The orders of Lieutenant Horace Eimer to the North Atlantic fleet have been revoked, and he is ordered to the monitor Terror.

FROM THE WEST.

The Methodist Conference.

The Methodist Conference. MEMPHIS, May 14.—In the Methodist General Con-ference, Bishop Wightman President, a very large number of reports of committees, petitions, and re-solutions were read and adopted, mainly relating to slight modifications and changes of discrepancies; also one providing for an orphans' home in each conference in charge of a board of trustees. Memo-rials from colored members of the Georgia and Ten-nessee Conferences, expressing their devotion to the Church South, and hoping for a commutation of these kindly relations heretofore existing. The Committee on Removal of the Book Concern to Louisville reported in favor of two houses, one kettered to the Committee on Books and Periodi-cals.

Also, a memorial establishing a mission in the

mpire of Brazil. To-day being the last day under the rule adopted, on which petitions, memorials and resolutions are to be received for reference, an immense number are being presented.

FROM THE PLAINS.

The Denver Central Read. DENVER, May 14.—The preliminary survey of the Denver Central and Georgetown Railroad has been completed. At no place will the grade exceed so feet to the mile. The engineers will immediately locate the line and the company will push the work energetically.

Fatal Accident. Redwood Fisher, City Surveyor, and a highly re-spected citizen, was killed on Thursday by a run-away team.

to the 11th inst have been received. The mising was progressing slowly on account of the scarcity of water in the galches. The water is to come in by a dutch, and will reach Nigger and Humbug Guiches this week, when the supply will be increased to 900 inches. The prospect was generally encouraging.

FROM EUROPE.

made for the official proclamations are being made for the official proclamation of the vote re-cently thrown. The Emperor will receive a deputa-tion of the Corps Legislatif and deliver a discourse

GENERALITIES.

A Child With a Horse's Head.

A Child With a Horse's Head. A poor German couple residing on North William street, between Meeker avenue and ferbert street, Williamsburg, have a female infant, which was born on the 3d of April last, whose face and head is strangely deformed. The lower portion of the face resembles that of a horse, and the whole front portion of the upper are extended down over the lower jaw, making two large nostrils, which connect without divi-sion with the mouth, thus making but one large orifice in the face. The tongue is long and bifurcated. There is no roof to the mouth, the formation of the interior being exactly like that of a horse. The child is unable to take natural nourishment, and is fed by hand. It eats vora-ciously, and devours as much as four ordinary children of its age. Its breathing is stentorous, and this is her first child. A large number of persons have visited the family. The child is ickly and will not live long.

Singular Murder Trial.

A proceeding in a murder trial in San Fran-cisco attracts attention, not so much because of its importance in the particular case as on ac-count of the possibility it indicates that judges so disposed might take advantage of a similar occasion to entirely defeat the object of the law. James Dwyer was tried for killing Diedrich Wohlers. The trial lasted four days. Five hours after its conclusion the jury reported their disa-greement, asking for further explanations from the judge, which he declined to give. They saw no possibility of agreement with the informa-tion they possessed, and he discharged them. If a judge can discharge a jury that disagrees after only five hours' deliberation on the testi-mony of a four days' trial, why could he not within one hour, or, for that matter, within ten minutes, "with the thanks of the Court?" If not, why not? A proceeding in a murder trial in San Fran not, why not?

ninutes, with the thanks of the Court? If not, why not? Self-Murder with all the Modern Improve-ments. As some of the men employed in the car and repair shops of the Harlem Railroad Company at Central Morrisania were proceeding to their work early yesterday morning, they found the body of an unknown man suspended to a tree in the woods near by. The deceased appeared to be a German about twenty-eight years old, and had evidently repaired to the spot fully prepared to carry out his design of self-destruc-tion. He had provided himself with plenty of ropes, a portion of which he adjusted with slip-nooses for his hands, while another piece was arranged with a slip-noose for his neck. With these he ascended a tree, fastened one end of the long rope to a limb of the tree, and adjusted through the nooses of the other rope behind him, and thus msde his fatal leap. Californin for Ceasamptives.

him, and thus made his fatal leap. California for Communitives. The California coast may yet be selected in preference to any other part of the world as a resort for consumptives, the more southern por-tion of that State surpassing, in respect to the two essentials—equable temperature and dry alr—the Riviera or the Island of Madeira. The avtenues of temperature in January and July. air-the Riviera or the Island of Madeira. The extremes of temperature in January and July, and the rainfall in the three localities, are thus stated:-Mentone, 40 and 73 degrees tempera-ture, with 23 inches rainfall; Funchal, 60 and 70 degrees, with 30 inches; San Diego, 51 and 72 degrees, with only 10 inches rainfall. If these facts can be generally made known, and the in-ference as to the suitableness of the climate be correct, that which is worth to invalids more than all her gold may be found on our Pacific shore.

HOMES FOR THE HELFLESS.—The second anniver-sary of the Pennsylvania Industrial Home for Blind Women, will be held at the Central Presbyterian Church corner of Eighth and Cherry streets, next Monday evening, May 16, at $\frac{1}{2}$ before $\frac{2}{3}$ o'clock. Addresses will be delivered by Revs. Drs. Henson, Breed, Reed, and others. The public are cordially invited to attend. Music by the orchestra of the Blind Institution. A doreal and strawberry festival. in ald of the

Bind institution. A floral and strawberry festival, in ald of the Baptist Home will be held at Horticultural Hall, on Wednesday and Thursday, June 15 and 16.

Wednesday and Thursday, June 15 and 16. AN ARRIVAL FROM PARIS OF A PHILADELPHIA. MERCHANT.—Mr. Finn, of the firm of Howell, Finn & Co., at Ninth and Chesnut streets, has just returned from a trip to Paris, after having visited all the leading paper-hanging factories in that city and in Europe. He has made arrangements with many of the establishments to produce in Philadel-phia simultaneously with their appearance in Europe all the new designs of paper-hangings and other articles pertaining to the trade. This spirit of enter-prise is greatly to be commended.

Fox's NEW THEATRE .- The trouble between Mr. Fox's NEW THEATRE.—The trouble between Mf. Fox and the proprietors of the American Theatre building has now culminated in the purchase by Mr. Fox of the property of the Academy of Fine Arts, on which he intends to build a fine new theatre and abandon the Walnut street building entirely. He will obtain possession in a month's time, and will then immediately begin operations, so that the theatre will be done by the first of October. The lot has a front of 100 feet on Chesnut street and a depth of 170 feet. The lot and the new building to-gether will cost not less than \$200,000.

MISSING MAX.—An insame Spaniard, who arrived in this city a few weeks ago from Malaga, has been missing for a few days. He is 5 feet 7 inches in height, 38 years of age, slim and sickly looking. He has a black moustache and dark complexion, and wore a blue sack coat, gray vest and pants, with black stripe down the side. Information will be re-ceived at his residence on Cass street, between Twelfth and Thirteenth streets,

CORONER'S CASE .- Coroner Tavlor at noon to-day CORONER'S CASE. — Coroner Taylor at noon to-day held an inquest upon the body of the unknown white woman which was finhed out of a cesspool in the rear of No. 627 Alaska street yesterday morning. The testimony showed that she had gone there to sleep, and the seat being in an insecure state had fallen through. The jury rendered a verdict of death from sufficiation.

THE WAGNER ZOUAVES .- A colored organization THE WAGNER ZOCAVES.—A colored organization known as the Wagner Zouaves this morning made application to the Mayor for "arms and accoutre-ments." The muster-rolls show A Company to con-tain 85 men; B, 39; C, 50; D, 85; E, 44; F, 34; G, 84; H, 38; K, 84. Total, 392. The regiment will be officered solely by colored men.

AMONGST THE PHILISTINES, John S. Jones, re-siding at No. 1631 Frankford road, last night paid a visit to St. Mary street, where he fell in with a couple of cyprians named Sarah Richardson and Mary Fitzgerald, who robbed him of \$75. The females were arrested and will have a hearing to-day at the Central Station.

PETTY THEVING. —A depraved specimen of femi-ninity, named Jane Hoffmann, last night entered the yard of one Thomas Walls, Seventh and St. Mary streets, and robhed the clothes line of a lot of washed muslin, etc. Jane was arrested, and Alder-man Collins sent her to prison.

CAPTURED.—The notorious Daniel Reading, for whom the police have been searching of late, was yesterday captured, and this morning taken into court on a "bench warrant" to answer the charge of assault and battery upon two of the Fourth dis-trict policemen.

APOPLEXY.—George Rubicand, constable of the Fourteenth ward, was yesterday attacked with a stroke of apoplexy at Ninth and Spring Garden streets. He was removed to his residence, Taur-teenth and Wallace streets, where he now lies in a critical condition.

ATTEMPTED ROBBERY.—A "night prowler" last night attempted to force an entrance to the pork packing establishment of Mossrs. Michener & Bro., Front and Willow streets, by forcing open a cellar door. He was forced to skedaddle by the approach of a policeman.

CRICKET,-The second of a series of practice games, First Eleven vs. The Field, will be played on the ground of the Philadelphia Cricket Club at Cam-den on Wednesday next.

chairman of the committee:--House of Expresentatives, Washington, D. C., May E. 1870. Manual and M. Fox, Mayor of Philadelphia, John J. Shor-maker, Ess., Chairman Committee of Select and Common Conneils of Philadelphia and Wa. Seller, Ess., Chairman Committee of Pranklin Institute, Philadelphia: Gentriemen: At a very full meeting of the Committee of Manufactures, beid gesterday morning, the 11th inst, ind Saturday, the 10th and 11th days of June next, in compliance with the invitation as generously extended the Upinade 11th days of June next, in compliance with the invitation as generously extended the Decleration of American Independence. I believe tan sit, very respectfully, your obcession of our visit, a inl representation of the committee. Tan, sir, very respectfully, your Offent Servant, Chairman Committee on Manufactures.

Chairman Committee on Manufactures. JEWISH HOLIDAYS.—To-morrow, the 15th of May, is the festival of Sheence Pesach in the Jewish calen-dar. This festival is not much observed among the Jews in this country, but in the East, where the old customs are vigorously kept up, the day is a general holiday. The festival of Pesach is the Jewish Pass-over. The Sheence Pesach is an after-Passover for the benefit of those who have been absent from home on the regular Passover, so that they may be able to appear in their temple, and offer their sacri-ficial gifts, which they have not been able to do on the festival of Pesach. The 19th of May is also a Jewish festival, but more generally observed. This is the festival of Lag Becomer, or the thirty-third day after the first of the Passover. This is a great day of rejoioing after the season of sorrow and fasting immediately succeed-ing the Pesach. It is to commemorate the staying of a pestilence which had carried of great numbers of the disciples of Akiba, one of the Taimudists. It has likewise a symbolical interpretation, symboliz-

of the disciples of Akiba, one of the Taimudists. It has likewise a symbolical interpretation, symboliz-ing the thirty-three days cleansing of the Jews from the flith of slavery after the flight from Egypt, and preparatory to the giving of the law which was re-ceived seventeen days later. The first day of every Jewish month is a haif holi-day, and by some Jews this day and the one imme-diately preceding are kept as fast days. They are called by some Jem Kippur Kaddan, or Minor days of Atonement.

lays of Ato

GONE TO IRELAND.—On the 9th of April one Thomas Terrence suddenly disappeared from his heme, and his clothes being found at Vine street ward, Schuylkill, the supposition was at once formed that he had committed suicide. For several days the Harbor Police grappied for his body, but being unsuccessful they gave the job up. Yesterday a letter was received bearing the English postmark, and on being opened it was found headed "Cork," May the "oncst," 1570, and signed Thomas Terrence. Thomas states in his letter that owing to the passage of the Reform and other bills, he desired to return to Ireland to make arrangements for the return of his whole family, but his wife objected. He there-fore, in order to avoid a "war," suddenly disappeared. He now avers that she will have to follow him, as he intends sticking to the "ould sod." GONE TO IRELAND .--- On the 9th of April one

SCALDED.-A young man named Martin Lee, em-ployed at Hunter's Milis, Hestonville, this A. M. accidently tumbled into a vat of boiling water, and was so severely scalded internally and externally that his life is despaired of.
