Mr. Welfsohn's Concert.

The concert given on Saturday evening at the Foyer of the Academy of Music by Mr. Wolfsohn attracted a large and fashionable audience. The programme was in some respects a resume of the principal features of Mr. Wolfsohn's matince performances, and it presented fine examples of the different composers whose works have been illustrated during the past season. Schubert's Marche Militaire, which was one of the novelties of the evening, made a decidedly favorable impression. It was admirably performed, and the music itself is of a character to sult the popular taste. Beethoven's "Moonlight" sonate was also well received, but this, like many other compositions of the same master, requires a highly educated ear for its proper appreciation, and it was listened to with respect rather than enthusiasm. A beautiful duo by Chopin was admirably played by Mr. Wolfsohn and Master Barili, and the whole entertainment was of a character to please the musical connoiseur and to aid in the education of the public taste.

The City Amusements.

AT THE CHESNUT the variety troupe from the Adelphi Theatre, Boston, will appear this even-ing. The burlesque of The Magpie and the Maid will be given, with a great number of other attractions, including a fine ballet lod by the great Morlacci, Ethiopian comicalties by Lew Sim-mons, E. N. Slocum, Walter Bray, Eph. Horn, Johnny Thompson and other favorites; G. W. Jester. the man with the laughing hand; Miss Clara Burton, jig dancer, and others who will contribute to the entertainment of the andience with various specialties.

AT THE WALNUT the drama of Not Gu lty will be performed this evening. This piece was un-avoidably withdrawn some months ago in the midst of an unusually successful run, and as it will be given with all its original features, including the great battle scene, it will probably

achieve as great a popularity as ever. AT THE ARCH Mr. Joseph K. Emmett has made a hit with his personation of "Fritz." He

will appear this evening and during the week. McEvor's "Hibernicon" has achieved a great success at Duprez & Benedict's Opera House. This is really a fine panorama of Ireland, which is made additionally interesting by the musical and dramatic performances by which it is illustrated.

AT THE ELEVENTH STREET OPERA HOUSE a new burlesque entitled The German Exiles and a musical interlude called Parepa's Debut are announced for this evening, with other attractions

THE PANORAMA OF "THE PILGRIM" will be exhibited at Concert Hall this evening for the benefit of Christ Church Mission. "The Pilgrim" has entered upon its seventeenth week, and its popularity seems to be undiminished. It is certainly one of the most successful entertainments ever given in this city.1

the return of the tug Gem to Cowes, parties from on board industriously circulated the falsehood that the Sappho unfairly shot 11% miles ahead at or before the signal to start, and his statement has been telegraphed to many of the sporting papers of England. The universal conviction now is, however, that the Sappho fulfilled all the conditions of the race accurately and honorably, and those most concerned readily admit it. The resolution was not laid on the table-yeas, 84; naya, 86. On motion of Mr. Cessna, the resolution was re-ferred to the Reconstruction Committee. Mr. Schenck, Chairman of the Committee of Ways and Means, reported a bill to reduce internal taxes, and made an explanation to the House. He reminded the members that there was now on the general calendar in Committee of the Whole a bill reported in March last to codify and reduce into one all the laws relating to internal taxation. From pre-sent appearances, and from the condition of busi-ness, it was not probable that the bill could be dis-posed of in its entire form at this session. That bill was the result of a very great deal of labor on the part of the Committee of Ways and Means, both in this and in a former Congress. The Committee of Ways and Means had come to the conclusion to divide the matter of that large bill on internal taxation into three bills, and to ask successively the action of the House upon them. The committee proposed, in the first place, a bill to modify and, to a great extent, repeal all the internal taxation laws of the country, with the exception of the laws on fermented liquors, distilled spirits, tobacco, cigars, and stamps. Then the committee would report a bill, relating to

the laws on fermented induors, distinct spirits, tobacco, cigars, and stamps. Then the committee would report a bill relating to those articles, and then it would report a general bill relating to the organization of the Internal Revenue Department. The bill which he now offered was the first of these three. It related to a repeal of a large portion of internal taxation, and it repeal of a large portion of internal taxation, and it

repealed the tax on legacies and succession, which last year produced \$2,434,593. It repealed all the taxes on gross receipts of rail-roads, insurance companies, and other coporations and kinds of business, with the exception of lotte-

and kinds of business, with the exception of lotte-ries, theatres, places of public amusement, etc. The whole of such taxes produced last year \$3,444,210, and the reduction now proposed was estimated at \$6,109,617. All tax on sales was taken off except that assessed on dealers in liquors, which would make a further reduction of \$8,197,754. It repealed all special taxes, except on retail and wholesale dealers in liquors, distillers, rectifiers, manufacturers of stills, brewers, manufacturers of tobacco, banks and bankers, stock and money brokers, foreign commercial brokers, foreign insur-ance effents, claim agenes, patent-right dealers. brokers, foreign commercial brokers, foreign insur-ance effents, claim agents, patent-right dealers, pawnbrokers, proprietors of places of public amusement and of gift enterprises, and jugglers, proprietors of bowling allevs and billiard rooms, lottery managers and dealers in lottery tickets. It reduces the special tax on keepers of hotels, inns, and taverns to \$10, if not exceeding the rental value of \$500, adding \$300 for each \$100 of rental beyond \$500. The reduction thus made would amount to \$5.744,762. It modifies the income tax so as to increase the exemption to \$1500, leaving the percentage the same as now-5 per cent. This would effect a reduction of \$5.741,105. It charged the law in respect to incomes so that

The Tax Bill Reported. General Schenck reported his Tax bill at 3 o'clock and asked to have it printed and recommitted, with power to report back at any time. He stated that it was the intention of the committee to report it back this week, and that they proposed to consider it in the House under the five minute rule, so as to expedite business.

With regard to the Tariff Bill, he said he did not hope to do more than get it through the House this session, so that it might be ready for the Senate next session. He offered a resolution giving the Committee of the Whole power to close debate upon any part or the whole of the bill within a given time, and explained that the effect of the resolution would be to enable the House to dispose of the tariff in a few days.

The House refused to suspend the, rules so-asto adopt the resolution, and Mr. Schenck is now trying to get it through under the previous question. Those who oppose the tariff are afraid that if Schenck's resolution was adopted he would close the debate on all that remains of the bill and shut out amendments.
