### CITY INTELLIGENCE. THE COAL TRADE.

The Dull Market—The Schnylkill Squabble— Declining Prices—A Meeting of the Trade today-Quotetlone.

The coal trade at the present time is dull and unvarying, so dull in fact that a general suspension in all the southern regions on the part of the operators is talked of. Should this movement be carried out the probabilities are that in place of bringing better times and advanced rates, the effect will be to throw the whole trade into the hands of the Scranton and Lecheranna Companies.

whole trade into the hands of the Scranton and Lackawanna Companies.

The trouble in Schuylkill is fast narrowing down to a personal fight between the representatives of the opposing sides. How long those who compose the sides will uphold their representatives in the personal conflict remains to be seen. These illustrious personages appear to have laid all the questions at issue aside for the present, and are now devoting themselves to the exquisite amusement of calling each other "liars," "fools," and other unpiesant but harmiess epithets. All this may be very well in its way, but it does very little towards coming to an understanding between employers and

coming to an understanding between employers and men, to the relief of both parties.

The Schuyikill Canal, by a vote of the company large enough to be decisive, is now virtually leased to the Reading Railroad Company for a term of nine to the Reading Railroad Company for a term of nine hundred and ninety-nine years. By this means the Reading Road has put itself in possession of another power to aid it in becoming the great monopoly, and an equal of the great New York company. That such a change is to the best interests of the Navigation Company, judging from the past year, cannot be coubted; and if right management is used by the lessees, nothing but good can result to the trade and the workingmen.

The Pennsylvania Coal Company having their market in New York, have given notice that their prices for coal for delivery, in July, will average thirty cents per ton less than June rates. If higher rates are what the striking men are looking for, this is not a favorable symptom.

rates are what the striking men are looking for, this is not a favorable symptom.

A private and select meeting of the coal trade of Philada., and of operators from the coal region, was held this morning at the office of Messra. Audenried, Norton & Co., No. 328 Walnat street, to take some action on the present position of affairs. As the proceedings are mostly kept private for the present, for various reasons, it has not yet transpired what all was done. It is hoped, however, that some movement of importance was inaugurated, which will eventually affect the trade for the better.

At Mauch Chunk, during the week ending June

At Mauch Chunk, during the week ending June 24, there were transported over both raliroads and the canal, 100,971 09 tons, against 125,744 11 tons the week previous—being a decrease of 24,773 02 tons. It is said that this great falling off cannot so much be accounted for by the slackness of trade, as by the fact that on last Friday a week a general meeting of the Wesself at the cannot so much as the fact that on last Friday a week a general meeting of the Wesself at the week and as the state of the week and the week and the state of the week and the fact that on last Priday a week a general meeting of the Wyoming region miners was held at Wilkesbarre. As this place is some distance from the homes of many of those who attended it, very little work was done on Saturday, and consequently the reduced tonnage of the week.

From Messrs. Hammett, Neill & Co., No. 217 Walnut street, we have received the following circular.

"We have again to report the condition of the market totally devoid of all change, the demand being steady and well supplied at former quotations.

"A convention, composed of one delegate from each district of the Workingmen's Benevolent Association, was held in Schuylkill county on Thursday, when it was resolved to adhere to the \$3 basis of 1829. This ends all hope of a general resumption on next Monday, and it is not now probable that any work will be done until after the Fourth of July.

probable that any work will be done until after the Fourth of July.

"The Delaware, Lackawanna and Western Railroad Company have announced that their eighty-fourth auction sale of 80,000 tons of coal, from the Lackawanna regions, of the usual sizes, deliverable at their depot, Elizabethport, N. J., during the month of July, will take place on Wednesday, the 28th inst."

### DESTRUCTIVE FIRE.

A Pyrotechnic Establishment in the Fifth Ward Destroyed This Morning-An Explosion-One Fireman Killed and Several Injured.

This morning, about ten minutes of 5 o'clock, an explosion and fire occurred in the pyrotechnic department of Messrs. J. B. Bussier & Co., No. 107 South Water street, on the east side, below Chesnut. The building, in view of the approach of the Fourth of July, was fully stocked with all varieties of fireworks. It is a three-story brick structure, and is owned by Moro Prillips, Esq. The first notification a policeman received of the occurrence was a small explayer followed by smoke issuing from the build. explosion followed by smoke issuing from the building. The firemen were promptly on the spot, and, on breaking open the doors about ten minutes after on breaking open the doors about ten minutes after the fire broke out, a terrific explosion took place, shattering the glass in the neighboring buildings and pushing the south wall of the building about one foot from its original position. So severe was the explosion that the report was heard distinctly in Camden, some of the windows in that place being violently shaken. It resulted in the death of one fireman and in several others receiving severe injuries. The stock of Messrs. Bussier & Co., consisting as it did of all kinds of fancy fireworks, was totally destroyed. The loss amounted to about \$10,000, on which there is an insurance of \$5000 in the American Insurance Company. The building sustained a loss of between \$4000 and \$5000. It was insured in the American Insurance Company for \$3000, Adjoining No. 107 to the south is the three-story

United States Commissioner Clarke to day at noon, William Bryan was called up for a final hearing on the charge of selling cigars in violation of the United States Revenue laws.

Colonel Peter Sides, Special Assistant Assessor of the First district, sworn—From information received on the 23d inst., I sesterday morning went to the store of William Bryan, southeast corner of Tenth and Pice streets: I there made an examination of his stock; I found in a room in the rear of the store a box containing 90 cigars, put up in bundles containing 20 each; the box I was told containing 100 cigars; the latter, he said, he manufactured in the Second district; I told him it was a visitation of the law to have them there in that condition; Mr. Byran informed me that the cigars were left there in that condition by a party; I then examined the show-case, and found the boxes in the case had been filled by the same kind of cigars as those in the boxes; I then made a seizure of the cigars is the cigars were not boxed or stamped; he also had exposed for sale 300 cigars in three bundles, which were unstamped and unpacked.

Charles A. Sears, of the Secret Service, testified that he was in the company of Colonel Sides when the store of defendant was visited. His testimony was in corroboration of that given above.

The defendant was held in \$1000 bail to answer.

Report upon the San Domingo Case

FROM WASHINGTON. The Defaulter Gale.

WASHINGTON, June 25 .- The Government has re washington, June 25.—The Government has received the sum of \$5272\*15 in gold, the amount of the
defalcation of the book-keeper, Gale, of the Naval
Office, Boston, from the firm which had intrusted
this amount to one of its clerks for the payment of
duties on goods in bond. It will be remembered the
clerk and book-keeper divided the sum between
them, while the Government was defrauded by its
just dues; hence the demand for the above. The United States Steamer Ossipee

Landsman William Harrison was drowned on the night of the 15th instant, in attempting to desert from the Macedonian, while at anchor in the Severn river, off Annapolis, Md.

The Revenue is Pennsylvania.

The Commissioner of Internal Revenue is in receipt of a communication from Supervisor Tutton, of the Eastern District of Pennsylvania and New Jersey, bearing date June 24, stating that he is in receipt of a letter from Assessor Rea, of the Ninth District of Pennsylvania, showing that the assessments in that district for the year ending April 30, 1870, \$481,215-24, an increase of \$31,334-38. The expenses for assessment were apparently about the same for both years, but when Mr. Rea came into office on 1st of May, 1869, the annual assessment was not nearly completed, so that it was necessary for him to retain additional assistance for about two months, at an expense of about eight hundred dollars. On the 1st of May, 1870, the work was nearly completed, so that at least eight hundred dollars of the expense for assessing for 1870 properly belongs The Revenue in Penusylvania. the expense for assessing for 1870 properly belongs to the year 1869, which would show quite a respecta-ble decrease in the expense for 1870. Supervisor Tutton also writes under the same date that he is in receipt of a like statement from Assessor Rube of receipt of a like statement from Assessor Rube of the Sixth District of Pennsylvania, showing the amount of assessments in that district for the year ending April 30, 1869, to have been \$512,902,39, and for the year ending April 30, 1870, \$579,489,25, or an in-crease of \$66,586,86, while for the same period the expenses for assessing were reduced \$2,951,43. Important to Distillers.

Deputy Commissioner Given has received a communication, in which it is stated that distillers, after pressing the cider which is used in distillation from the pomace, can get a material which produces vinegar by dampening the pomace and pressing again, making what they call water, which only requires to be fermented to make vinegar, and they describe do so on the distilling premises. desire to do so on the distilling premises. In reply, he decides that the act of July 20, 1888 section 12, prohibits such business; that is, it pro-hibits the use of a still on any premises where vine-gar is manufactured. But he sees no objection to their pressing such water cider from the pomace at the distillery, and the removal of the same before fermentation takes place, or, in other words, before the vinegar is actually manufactured.

Among the items of the miscelianeous appropria-tion bill, agreed to by the Honse to-day, is sixtynine thousand three hundred and forty-six dollars for completing the Appraiser's stores at Philadelphia. This is in addition to forty thousand for the same purpose in the deficiency bill.

The San Domingo Question Exoneration of General Babcock. Desputch to the Associated Press.

Washington, June 25.—The following is the con-cluding portion of the report of the Select Commit-tee on the memorial of Davis Hatch:— Accorning to the testimonial of ex-Commercial Agent Smith, Hatch had been engaged in other illicit traffic at Barbara. The Danish vessel, Rotto, was consigned from St. Thomas to Hatch, at Barabona, and was undoubtedly engaged in illicit traffic, in which Hatch connived. She was seized, cou-demned, and sold by the Dominican Government.

That a person so situated should make reclamation against the Government he was thus offending would seem to be singular, and from what is before us we cannot presume that Hotch had or has now any ground for a claim of indemnification. If he was damnified at all, a fact which it is not necessary to don't would be the received the second of the second

was damnified at all, a fact which it is not necessary to deny, it was his misfortune, growing out of his own fault, and without assuming to say that he can establish no just claim against the Government of the Republic of Dominica, we are constrained to say that we are not able to see its justice, and that at any rate his application to Congress in this behalf is premature and irregular.

We cannot but regard this unusual course as an attempt by Hatch, in making his alleged grievances public, to prevent a fair consideration of the treaty of annexation, to arouse unfounced prejudices against it, and finally to defeat it. His course evinces a want of that candor and circumspection which should characterize every American citizen abroad, in a matter in which his Government and country are concerned. Loud and passionate clamors against individuals. and passionate clamors against individuals. Blind surmises and personal pique that warp the judgment, and induce a forgetfulness of matters of fact, are not the means proper to be exercised to induce our judgments in matters of such grave importance. The committee therefore recommend that Hatch's petition be indefinitely postponed.

DRESIDENT LINCOLN, AT THE OUT DRESIDENT LINCOLN, AT THE OUT break of the War, by proclamstion, calied for forty-two thousand volunteers to suppress the Rebellion, and the War Department promised that each soldier should have a bounty of \$100, when discharged.

THE SUPREME COURT OF THE UNITED STATES HAS DECIDED THAY THIS PROMISED BOUNTY MUST NOW BE PAID. We are prepared to obtain it for every soldier who enlisted before July 22, 1561, for three years, and was subsequently honorably discharged, whether he served for a short or long time.

It is desirable to have the soldier's discharge, but the beunty can be obtained where the discharge is lost or cannot be had. No collection, no charge.

Call upon or write to the General Collection Agency, R. S. LEAGUE & CO., No. 125 S. SEVENTH Street, Philadelphia.

THERE ARE MANY SOLDIERS A Sailors, their orphans and widows, and their heirs, who have good claims for arrears of pay, bounty, prize money, commutation of travel or commutation of ra ions, which ought to be paid them.

In many such cases applications have been made, but remain unsettled for want of proof or from neglect, and frequently from incompetency of the agent who filed the claim. We will give advice to our contrades when written to for it or called upon, free of any charge, gladly.

THE DESIGNATION OF THE PARTY OF

## The Era of Revolutions.

If the jog-trot slaves of precedent and routine who flourished a century ago could now revisit the scenes of their former labors, how completely they would be taken aback by the wholesome innova-tions which modern skill, knowledge, and enterprise have made upon their musty precepts and purchind practice! In medicine, especially, we have got entirely out of the old worn-out grooves, and taken a new and more philosophical road to health.

The German School of Medical Chemistry is perhaps the most progressive and successful. It has repudiated the stereotyped potions of the past, and substituted in their stead a new class of alteratives and restoratives capable, it would seem; of working wonders. Preminent, perhaps foremost, among these stand the well-known household remedies—

HOOFLAND'S GERMAN BITTERS. HOOFLAND'S GERMAN TONIC.

HOOFLAND'S PODOPHYLLIN PILLS.

They are the Greatest Known Remedies For Liver Complaint, Dyspepsia, Nervous Debility, Jaundice, Disease of the Kidneys, Kruptions of the Skin, and all diseases arising from a Disordered Liver, Sto-

mach, or IMPURITY

OF THE BLOOD.

These medicines have acquired a reputation exceeded by none, and when we see such names as those of Chief Justice Thompson, ex-Chief Justice Woodward, Justice Sharswood, Mayor Hogers, of Buffalo, New York, together with those of the leading clergy of the country, and prominent statesmen and citizens, appended to strong testimonials in favor of these popular preparations, we recognize the evidence thus volunteered as unimpeachable and conclusive. Such men do not give their sanction and approval to articles which they do not KNOW to be of sterling excellence, and therefore when they state through the columns of the press that HOOF-LAND'S GERMAN BITTERS is a valuable medicine in cases of Indigestion and Dyspepsis, "of great benefit in cases of Debility and want of Nervous action," and "a safe and valuable preparation for General Debility and Liver Complaint," we feel assured that they speak from actual EXPERIENCE and OBSERVATION, and with a dne sense of the weight of their influence and of the words they

The testimony in relation to the TONIC, which contains a stimulating element emitted in the Bitters, is equally satisfactory.

## Hoofland's German Tonic

Was compounded for those not inclined to extreme bitters, and is intended for use in cases when some alcoholic stimulant is required in connection with the Tonic properties of the Bitters. Each bottle of the Tonic contains one bottle of the Bitters, comomed with pure SANTA CRUZ RUM, and dayored in such a manner that the extreme bitterness of the Bitters is overcome, forming a preparation highly agreeable and pleasant to the palate, and containing the medicinal virtues of the Bitters Tac price of the Tonic is \$1.50 per bottle, which many persons think too high. They must take into consideration that the stimulant used is guaranteed to be of a pure quality. A poor article could be furnished at a cheaper price, but is it not better to pay a little more and have a good article? A medicinal preparation should contain none but the best ingredients, and

operation is free from griping or nausea.

It does not require a handful of them to produce the desired effect. From personal experience and otherwise, we have no hesitation in saying that, taken in connection with the Bitters and Tonic, they will speedily cure the most severe and long-standing. cases of Liver Complaints, Constipation, or any other derangements of the organs of digestion.

The Pills will Purify the Blood, will thoroughly cleanse the Liver of 'all unhealthy impurities, and relieve the Stomach and Bowels, while the Bitters or Tonic strengthens and adds new life to the entire system, enables the Stomach to digest the food, and transforms the sickly, emaclated, weak, and feeble body into one of health, strength, and vigor.
