

NEW-YORKISMS.

From Our Own Correspondent. New York, July 7, 1870.

The two public baths in operation have met so far with complete success—the women no less than the men. At first it was feared that respectable girls and women would not patronize them, but the event has proved this fear to be without good foundation.

The baths are open for families from six in the morning till five in the evening, and between these hours, though mostly between six and nine at night, all ages of the tender sex may be seen wending their way along Fourteenth street to North river and along Fifth street to East.

Nearly every girl and woman carries a small bundle which, it is fair to suppose, contains a towel, a bathing-dress, a cake of soap, and perhaps, in some cases, a hand-brush. These public baths have not yet been made the theme of any lecture from a strong-minded woman, but will probably come under the ban—or under the blessing—before long.

I have not yet seen the audacious reporter so bold as to affirm that he has witnessed the sports of any of these nymphs in the water, although the indecorousness of his doing so would not be very great, since they all wear bathing-dresses and are said to conduct themselves in an extremely quiet and inoffensive manner.

This I can venture to say, however—that the bathing-dresses are not by any means those elaborate articles of the toilette which fashionable women wear at watering-places. In most instances it consists merely of a common calico gown, and even sometimes of a night-dress, not unlike what Mr. Harry Beckett used to wear in the character of "Aminta" in the burlesque of *La Sonnambula*.

The "Vivandises" ballet troupe of Madame Lanner is to make its first appearance in this city next Monday evening at the Grand Opera House. In order that there need be no misapprehension as to the material of which the figurantes and corymbes consist, I may mention that only a few of the troupe—the principal dancers—are Viennese, and that the others are all English, which accounts for their ruddy complexions and blonde hair.

Madame Lanner herself is of course a foreigner. So is Bertha Lind. The others came from bonny London, according to their own account, and created great havoc among the hearts of Fisk's clerks the other afternoon by going into the offices on the first floor of the Erie Opera House to get some good pieces changed into greenbacks.

The French wrestlers at Wood's Museum have created as great an excitement as could probably be created by anything of the kind this warm weather. There is a very remarkable female among them called Milla, Angela—which is rather a soft, sweet-sounding title for so masculine looking an artist. She it is who does the strong business, such as whirling around upon her shoulders a bar at each end of which is suspended a good-sized man.

Wood's Museum has not imported these attractions before it became time. What with the sticks upon the stage and the smell of animals in the menagerie portion of the house, the *tout ensemble* was anything but attractive.

Chinese Help and Irish Hindrances. Upon calling, a day or two ago, at the house of a friend, the door was opened by a mite of a body, with complexion like a sheet of brown wrapping-paper, hair like an Indian's, and eyes like beads set obliquely in its head.

MR. WILLIAM W. CASSIDY, the jeweller at No. 23 South Second street, has one of the largest and most attractive stocks of all kinds of Jewelry and Silver-ware in the city.

PERSONAL. OFFICIAL. DEPARTMENT OF STATE. WASHINGTON, July 1, 1870.

MEDICAL.

The Era of Revolutions. If the jog-trot savages of precedent and routine who flourish a century ago could now revisit the scenes of their former labors, how completely they would be taken aback by the wholesome innovations which modern skill, knowledge, and enterprise have made upon their rusty precepts and parolled practice!

In medicine, especially, we have got entirely out of the old worn-out grooves, and taken a new and more philosophical road to health. The German School of Medical Chemistry is perhaps the most progressive and successful. It has repudiated the stereotyped notions of the past, and substituted in their stead a new class of alternatives and restoratives capable, it would seem, of working wonders. Prominent, perhaps foremost, among these stand the well-known household remedies—

- HOOFLAND'S GERMAN BITTERS, HOOFLAND'S GERMAN TONIC, AND HOOFLAND'S PODOPHYLLIN PILLS.

They are the Greatest Known Remedies

For Liver Complaint, Dyspepsia, Nervous Debility, Jaundice, Disease of the Kidneys, Eruptions of the Skin, and all diseases arising from a Disordered Liver, Stomach, or IMPURITY OF THE BLOOD.

These medicines have acquired a reputation exceeded by none, and when we see such names as those of Chief Justice Thompson, ex-Chief Justice Woodward, Justice Sharwood, Mayor Rogers, of Buffalo, New York, together with those of the leading clergy of the country, and prominent statesmen and citizens, appended to strong testimonials in favor of these popular preparations, we recognize the evidence thus volunteered as unimpeachable and conclusive. Such men do not give their sanction and approval to articles which they do not KNOW to be of sterling excellence, and therefore when they state through the columns of the press that HOOFLAND'S GERMAN BITTERS is a valuable medicine in cases of Indigestion and Dyspepsia, of great benefit in cases of Debility and want of Nervous action, and a safe and valuable preparation for General Debility and Liver Complaint, we feel assured that they speak from actual EXPERIENCE and OBSERVATION, and with a due sense of the weight of their influence and of the words they employ.

The testimony in relation to the TONIC, which contains a stimulating element omitted in the Bitters, is equally satisfactory.

Hoofland's German Tonic. Was compounded for those not inclined to extreme bitters, and is intended for use in cases when some alcoholic stimulant is required in connection with the Tonic properties of the Bitters. Each bottle of the Tonic contains one bottle of the Bitters, compounded with pure SANTA CRUZ BARK, and flavored in such a manner that the extreme bitterness of the Bitters is overcome, forming a preparation highly agreeable and pleasant to the palate, and containing the medicinal virtues of the Bitters. The price of the Tonic is \$1.50 per bottle, which many persons think too high. They must take into consideration that the stimulant used is guaranteed to be of a pure quality. A poor article could be furnished at a cheaper price, but it is not better to pay a little more and have a good article! A medicinal preparation should contain none but the best ingredients, and they who expect to obtain a cheap compound and be benefited will most certainly be deceived.

Hoofland's Podophyllin Pill. Is also highly extolled and pronounced to be the most efficient Cathartic known to the Medical World. Being composed of the ACTIVE PRINCIPLE of Mandrake, in combination with other effective ingredients, they act more powerfully upon the Liver and Secretive Organs than any other Pills. Their operation is free from griping or nausea.

Two Pills a Dose. It does not require a handful of them to produce the desired effect. From personal experience and otherwise, we have no hesitation in saying that, taken in connection with the Bitters and Tonic, they will speedily cure the most severe and long-standing cases of Liver Complaints, Constipation, or any other derangements of the organs of digestion.

The Pills will Purify the Blood, will thoroughly cleanse the Liver of all unhealthy impurities, and relieve the Stomach and Bowels, while the Bitters or Tonic strengthens and adds new life to the entire system, enables the Stomach to digest the food, and transforms the sickly, emaciated, weak, and feeble body into one of health, strength, and vigor.
