THE WORRY OF AILING CHILDREN!-Their ill-humored fretting when too peevish to play and not sick enough to give up-how familiar is this phase of childhood to every parent! Frequently, too, there is apparent a want of appetite, a depression of spirits, an evident loss of strength and vitality, and still no development of specific disease; but with these symptoms to deal with, you may be sure a good, safe tonic, such as Dr. Jayne's Vermifuge, will, in a short time, bring the little patient around and restore the general health. This preparation, besides, relieves Dyspepsia in adults, and thoroughly eradicates Worms in old and young. Every mother would do well to keep a supply of so safe and practical a curative on hand. Sold everywhere.

A NEW ADDITION TO OUR NATIONAL BILL OF FARE. -The committee of ladies appointed by the Farmers' Club of the American Institute, among whom was an eminent medical graduate and the wife of the Secretary of the Institute, state in their report that a packet of SEA Moss FARINE, costing twenty-five cents, will produce, when combined with milk, in due proportion, full sixteen quarts of blanc mange, while a packet of corn starch, maizena or farina, costing sixteen cents, will only produce, with a like quantity of milk, from four to six quarts, thus showing that the new food staple is actually worth, as a means of nourishment, about one hundred and fifty per cent. more than heretofore-popular preparations from maize and grain. It is also stated that it has none of the heating properties of ordinary farinaceous food, and is digested and assimilated with wonderful rapidity.
