DEFALCATION.

Another Philadelphian Embaras with Other People's Fanda-The Debtor on the Read to Enrope-The Creditors on the Auxions Beach

-Probable failure. This morning the business community of Philadelphia was startled with a ramor of another genuine sensation in the shape of a defalcation by a member of one of the most prominent wool houses on Front street. The rumor at first failed to be believed, but as the morning wore on those interested began to call at the place of husiness of the reported

call at the place of fusiness of the reported missing gentleman to accertain the truth of the report, when it was found that that individual had undoubtedly left for parts unknown, with a large quantity of somebody's money. The house to which the defatcator belonged is that known as Thomas Hilsen & Go., wool brokers, doing business at No. 38 S. Front street, and the missing gentleman is Mr. Thomas Hilsen himself, the head of the form. The origin of the rumor was the reception of

The origin of the rumor was the reception of a telegram from the firm of B. W. Bond & Co., a telegram from the firm of B. W. Bond & Co., wool brokers in Boston, Mass., of which the firm of Hilsen & Co. is a branch. This telegram was sent to one of the members of Hilsen & Co., and stated that Mr. Hilsen had undoabtedly gone to Europe with a large amount of money belonging to the house. He was supposed, the telegram stated to have sailed in the statement telegram stated, to have sailed in the steamer Syria. The amount of the detalcation is supposed to be about \$60,000.

Various reports were on the street as to the amount and as to how it is distributed among the various creditors, but the exact truth cannot be gotten at as yet. It is not even known for a certainty who some of the creditors are, nor can be until further advices are received from Boston. According to one report the heaviest amounts are not held in Philadelphia, though several of our firms will suffer to some degree. According to another report Philadelphians will be the greatest losers, as much as \$15,060 being owing to a single firm in this city. The names of various houses are given, but, from want of proper proof to back the assertion, their names are withheld. The firm of Thomas Hilsen & Co. will undoubtedly fail, that being the opinion expressed by its remaining members, but what amount will be has not yet been ascertained.

Mr. Hilsen has always borne a high business character, and no thought of such a transaction had ever entered the mind of any one having business with the house. The firm has always met its engagements promptly, and the business community has always reposed the greatest confidence in it. The honse has been doing quite a large and flourishing business for some time past, and a prosperous season was looked forward to, which however is now cut short by the unceremonious departure of the principal partner. Mr. Hilsen resided on West Washington Square, where he was favorably known by the residents in the vicinity. Movements are now being inaugurated to

obtain if possible part of the missing money, but with only doubtful hope of success. The members of the firm are in anxious expectation of any news from or concerning the missing man.

DARING ROBBERY.

Safe Blowing a Success. At Fifty-fifth street and Lancaster avenue are two establishments used for the flour and feed business, and occupied by Messrs. George C. Hall & Co. and Samuel D. Hall & Co. Last night three thieves entered the places, and with sledge-hammer and crowbar broke open two of Lillie's safes. From one they obtained a \$500 greenback, a check for \$57 on the Bank of North America, drawn in favor of George E. Hall & Co. by Wistar Morris, and \$41.05 in currency. Out of the other they took \$200 in cash and four checks; one drawn by Francis O. Yarnall for \$72 on the Bauk of North America, one drawn by Charles Scott for \$37.78 on the Philadelphia National Bank; one drawn by Firth a for \$26.90 on the one drawn by J. L. Wilke for \$17 on the Bauk of Northern Liberties. Opposite the places re-sides a man named Thomas Hunter. Mr. Huater heard the party at work, and securing his revolver crossed over, when the thieves ran out and jumped a fence and ran into an oat field. Hunter fired three shots after them, when they returned the compliment by firing two at him: they then made off. Mr. Hunter at once proceeded to the Sixteenth District Station, and word was immediately sent to all the station-houses. A strict guard was placed on all the bridges, and shortly afterwards the following-named were captured while crossing the Wire Bridge:-Thomas Lemon, aged nineteen, from Newark, N. J.; Thomas Bowman, aged seventeen; and Pat. Marmion, aged nineteen, from New York. On searching them but \$10.50 were found on them. They will have a hearing at the Central Station to-day.

A PAID FIRE DEPARTMENT,

Another Disgraceful Firemen's Row. Another Disgraceful Firemen's How. This morning another row occurred whilst some of the companies were returning from the fire at Twenty-third and Lombard streets. One of the participants was the Columba Hose Company, already notorious for rowdyism; the other is supposed to be the Shiffler Hose Company. Horns, spanners, and knives were freely used. A couple of the members of the Columbia were badly cut. The whole affair has been hushed on a name are not obtainable. up, and names are not obtainable.

This morning Lientenant Thomas, with the Reserve Corps, served the warrants and succeeded in capturing only one man named George Savage, whose place is in Black Horse alley. The paraphernalia of the other establishments, situated in Harmony court. South Third street, Gold street, and Black Horse alley, was taken in charge by the policemen and destroyed. Savage had a hearing at the Central Station this afternoon.

TWELFTH OF JULY .- Yesterday was the 12th of July, and the carpet weavers of Kensington had a glorification accordingly. As usual, all hands got drunk and a fight ensued. The affair occurred in a tavern at Front and Master streets. The Tenth district force made a raid on the brawlers and arrested Joseph Paul, John Riddle, William Thompson, James Evins, James Kelso and Thomas Bunting. They were taken before Alderman Fggleton, who held them each in \$400 bail to answer.

DRUNK AND DISORDERLY .- Jacob Glasgow and Isaac Wilson, two of the descendants of Ham, whilst drunk, occupied their time yester-day by insulting passers-by in the neighborhood of Eighth and South streets. Officer Gallagher arrested Glasgow, when Wilson drew a blackjack and made an assault on him. The officer then collared Wilson also. Both of the inebriates were sent to prison.

DROWNED.-William Robinson, aged thirty-five years, fell overboard at Race street whard bout eleven o'clock last night and was drowned. The Harbor Police, hearing the splash, went to his assistance, and recovered the body whilst it was yet warm, but all efforts at resuscitation Deceased resided at No. 136 N. Front street, and leaves a wife and three children.

FINANCE AND COMMERCE.

EVENING TELEGRAPH OFFICE, Wednesday, July 13, 1870. 5 The money market shows considerable animation to-day, and rates for all classes of loans are quite firm. The range for call loans on good collaterals is not reported below 4@5 per cent. this morning, whilst prime discounts are steady at 6@7 per cent., the latter being readily obtained on three and four months contracts. It is generally believed that the climax of ease in the loan market has been reached, and that the period o ow rates for money has passed for the present. The excitement in the gold market has greatly subsided, and the premium is decidedly down-ward. The opening sales were made at 112%, and closed about noon at 1121%. Government bonds were quiet and stronger. Local stocks were moderately active and slightly stronger. State securities were quiet. City sixes sold at 101% for the new and 100% for the old. The Tax and Funding Bill.

The Senate has agreed to the conference re-port on the Tax bill, and is now considering the report on the Funding bill. The Tax bill will probably be adopted by both houses to day. As soon as the conference report comes from the Senate, it will be taken up by the House. The Apportionment Bill.

The House, by a large vote, refused to take up the Apportionment bill, and it was finally sent to the conference committee. It is feared that it cannot pass this session.

Non-Concurments of the House,

The House has non-concurred in the Senate amendments to the Civil Sunday Appropriation bill and also to the Senate amendments to the Army bill, and asked for a conference committee.

Business in Conference.

All business before the two houses is rapidly getting in conference, and it is estimated that six conference committees are now in session, taking a large portion of the Senators.

The Georgia Bill.

The conference on the Georgia bill is likely to end a failure. Butler and Farnsworth are so determined upon fight that it will be impossible for them to harmonize.

They damaged a number of fastenings, but only succeeded in entering the outer kitchen, where they were evi-dently disturbed and fled. N. Y. MONEY MARKET YESTERDAY. From the N. Y. Herald.

"Financial circles are still agitated by the news from Europe, and to day the excitement spread to the Stock Exchange, which had been heretofore comparatively quiet.

"The gold market was feverishly excited throughout the day, and in a sharp decline from 114 to 112 enacted the counterpart of the movement which enacted the counterpart of the movement which took gold so unreasonably above its price. The earliest dealings this morning, before the formal opening of the Gold Board, were at 114, from which point there was a decline to 113, during the board, on the report that Leopold, the Prince of Hohenzollern, had declined the offer of the Spaaish crown. Private despatches later in the day reported the wor fooling still unplated in Former and gold crown. Private despatches later in the day reported the war feeling still unabated in France, and gold worked its way back to 114½. Here it was reported that 'the difficulties between France and Prussia have been amicably adjusted,' and the pressure to sell gold led to a scene of perfect tumult in the Gold Room. The crowd of brokers stood in a dense mass around the fountain and sold militons on millions. The clearances to-day reached the enormous sum of one hundred and twenty-two militons, and to-morrow's report will doubtless show as The clearances to-day reached the enormous sum of one hundred and twenty-two millions, and to-morrow's report will doubtless show as large transactions for to-day's business. The whole street 'had gone 'long' of gold on the stampede to sell out made as exciting picture. Just as gold, however, was obstinate in going up on the war news, and when peace was announced the stampede to sell out made as exciting picture. Just as gold, however, was obstinate in going up on the war news, it was obstinate in going up on the of peace. It took the purchase of hundreds of mil-lions to advance gold to 115%. It took the sale of as large an amount, almost, to iower it to 112. After the excitement had subsided, an inquiry was started as to the reinability of the news that the difficulties had been amicably adjusted, and it was found that it had been based, so far as could be ascertained, on the simple repetition of the an-nouncement that Leopold had declined the Spanish crown, and that King William had given a qualified dischaimer of his participation in the offer of the vacant throne. On this there was some uneasiness, and gold went back to 112°, and might have gone up more sharply had French rentes been reported to 11, as against 66% yesterday, with a general advance in railway shares and securities generally. As a consequence the Gold Room closed remarkably duit compared to so excited a market as prevailed in the previous portion of the day.

The Pekin-Massacre Hoax.

LONDON, July 13 .- Much indignation is expressed here and on the Continent at the false story of the massacre of foreigners in China. Arrangements will be made at once to ferret out and punish the author of the Post's telegram.

The Journal Officiel appears this morning with an article stating that the Government has no news of the reported massacre in China, and that the story is generally considered false.

Another Great Fire in Constantinople. CONSTANTINOPLE, July 13 .- Another disastrous fire occurred here day before yesterday. The flames raged for nine hours, in which time 1500 houses, mainly of the poorer class, were consumed.

CONGRESS.

FORTY-FIRST TERM-SECOND SESSION.

Senate. WASHINGTON, July 13,-Mr. Davis introduced a bill to settle and adjust all claims of the Choctaw nation of Indians against the United States. Referred to the Committee on Indian Affairs.

Mr. Pomeroy presented a memorial from citizens of the western part of Kansas for a land grant in ald

of a railroad through that section. The Annual Post Route bill was amended and passed, and also the resolution to print 20,000 a idi-tional copies of the bill to enforce the fifteenth amendment.

Mr. Sherman, from the conference committee on the Tax and Tariff bill, submitted a report, which was adopted.

He stated that the more important of the Senate amendments had been agreed to by the House. The principal question referred to the conference committee was relative to the tariff on sugar, in regard to which the committee reported a classifica-tion, which was in substance the Senate classification, with a slight reduction on melado sugar, and an increase of one-fourth per cent. on one of the higher grades of sugars.

The duties on books and Bessemer steel remained as passed by the Senate. By the report, all assistant assessors now engaged in assessing taxes which are stricken out by the bill are to be immediately discharged and supervi-sors' districts are to be consolidated

The following are the rates on sugar: —On all mo-lasses five cents per gallon, on syrup of sugar, con-centrated mefado and concentrated molasses one and a half cents per gallon, on all raw or Musco-vado sugar not below No. 7 Dutch standard in color, one and three fourth each party and the or of all borg one and three-fourth cents per pound, on all above No. 7 and not above No. 10 Dutch standard in color, two cents per pound, above No. 10 butch standard in No. 13 two and one-fourth cents per pound, on all other sugars above No. 16 and not above No. 20, Dutch standard in color, three and one-fourth cents per pound, on all sugars above No. 20 four cents per pound.

He explained that the committee had provided for three classes of bonds-two hundred millions of five per cents., three hundred millions of four-and-a-half per cents., and one thousand millions of four per cents. The expense of negotiation had been fixed at one half of one per cent., ander the control of the Secretary of the Treasury. The seventh section, relating to the national banks, had been stricken out, leaving the bill merely a voluntary funding bill.

funding bill. The power of the national banks had been shown in the House, but he (Sherman) would be prepared at all times to require the national banks to take the bonds proposed by the bill. In reply to an inquiry by Mr. Williams, Mr. Sherman stated that on the basis of last year's receipts the reduction of taxes to effected by the tax bill would amount to seventy-six millions.

THE ENGLISH MISSION.

Hon. Frederick T. Frelinghuysen, the New Appointee.

A special despatch from Washington announces that the President has just sent in to the Senate the name of the Hon. Frederick T. Frelinghuysen, of New Jersey, as the successor of Mr. Motley as Envoy Extraordinary and Minister Plenipotentiary from the United States to Great Britain.

Mr. Frelinghuysen is a near relativea nephew, we believe-of the distinguished Theodore Frelinghuysen, who was the Whig candidate for Vice-President on the ticket with Henry Clay in 1844. He is a native of New Jersey, and at present resides in the city of Newark. He was born at Millstone in that State, on the 4th of August, 1817, and received his education at Rutgers College, New Brunswick, of which his celebrated relative was at one time President. After leaving college he studied law, and for many years continued to practice with great success, achieving the reputation of being one of the ablest lawyers in New Jersey, and indeed in the Middle States. Acting with the old Whig party until its disruption, Mr. Frelinghuysen became associated with the Republican movement from the start, and has always been a consistent member of that party, although he has generally been regarded as rather conservative in his tendencies. In 1861 he was appointed Attorney-General of New Jersey by Governor Olden, being reappointed to the same position in 1866 by Governor Ward.

On the death of the Hon. William Wright he was appointed by Governor Ward United States Senator, to fill the vacancy, the present Secretary of the Navy, General George M. Robeson, becoming his successor in the Attorney-Generalship. Mr. Frelinghuysen took his seat in the Senate on the 24th of January, 1867, and his temporary appointment to that body was soon after confirmed by the Legislature of New Jersey, which elected him to fill the remaining portion of Senator Wright's term, which expired on March 4, 1869, Mr. F. took a leading position in the Senate, being selected to serve on the Committees on Judiciary, Naval Affairs, and Claims. Before the expiration of his term, however, the Democrats had come into power again, and the Hon. John P. Stockton was elected his successor. He is a man of unquestioned ability, a thorough scholar, possessed of an attractive and forcible style as a speaker. His qualifications for the most important diplomatic positions in the gift of the Government time alone can develop.

House.

Continued from the Third Edition. The report having been read at length, Mr. Schenck proceeded to explain it. The bill, he said, was not just what, perhaps, any member desired. He could very frankly say for himself that there were a number of things in it which did not comwere a number of things in it which did not com-mand his entire assent, but all little difficulties were sunk in the general character and value of the bill itself as a leading measure. Trying the bill by the complete returns for the last fiscal year, he calculated that this bill would reduce internal taxes \$50,000,000 and the customs receipts \$27,000,000. He would not hesitate to say that the reduction to

be effected by this bill, compared with the receipts of last year, would be over \$80,000,000. He regretted that the House had assented to the first ame Senate, which struck out 75 pages, more than half of the House bill, including special taxes on brokers and bankers and their sales. Hereafter all Wall street operations would be free from any burden whatever, and a source of revenue from which millions had been and might be obtained without interfering with any of the fair, legitimate industry of the country was swept away. He should always believe that the House had in

that matter acted somewhat unadvisedly. Perhaps it was partly his own fault in having moved the previous question, and thus put himself in a condition where he had only four or five minutes to explain the matter; but he thought it was still more the fault or the mistake of gentlemen who led the House in that direction under influences which they in that direction under inducates which they did not know of themselves, for it was within his knowledge that the theatre men and brokers and the lottery men were very busy that morning about the Hense and in the lobbies.
