CITY INTELLIGENCE

DEATH OF AN ESTIMABLE AND VENERABLE CITIZEN .- John Roset, Esq., died yesterday at West Philadelphia, in the seventy-sixth year of his age. In his active days Mr. Roset was a prominent merchant. His father, Jacob Roset, having attracted the notice of the Emperor Joseph II, of Austria, was educated at the Imperial Military Academy at Presburg, Hungary; but being a devoted admirer of the character of Washington, he came to the United States in 1792 expressly to see him, Washington being then in Philadelphia as President. From that time he made this city his home. Subsequently he engaged in business here, associating with him at a later day his son Mr. John Roset, just deceased, who was born in Philadelphia about the year 1794. Mr. John Roset possessed in an emi-nent degree the qualities that make up the character of the true Christian gentleman; he was ruled by a strict sense of honor in his own conduct, and yet had a broad charity for the fallings of others; he was firm and resolute in doing what is right, and yet gentle and courte-ous in all his intercourse in business and social

Mr. Roset's daughters married several of our most prominent citizens, among whom are A. J. Drexel, Dr. J. L. Ludiow, and John A. Brodhead. and the mourners have the sympathy of the entire community in their bereavement.

SUICIDE OF A PHILADELPHIAN IN NEW YORK. -Alexander Barbat, aged 48 years, of this city, yesterday entered the liquor store of Thomas Roach, No. 806 Eighth avenue, New York, and procured a glass of liquor. Unobserved by the bartender he afterwards swallowed a quantity of laudanum and died in a short time,

A COMBINATION.—A project was set agoing some time ago looking to the union of the Old and the Junger Mannerchor singing societies. Since then a number of meetings have been held and all the necessary preliminaries arranged. Nothing now remains but the adoption of a name, for which purpose both of the organizations meet in their respective halls to-night. Should the union be completed the new society will be one of the strongest in the country, the old Mænnerchor numbering 50 singers and 450 contributing members, whilst the Junger consists of 75 singers and 700 contributing members. The intention is to build a magnificent hall in a central portion of the city, so as to suit all

GERMANTOWN MATTERS.—The improvements at the city reservoir, situated on Allen's lane, Mt. Airy, still continue, and, under the manage-ment of Supervisor Morrell, are rapidly approaching completion. A number of workmen are still actively engaged, and in the course of a few weeks the works will again be in successful operation. The macadamizing of Green street will be finished about the first of September. The Young America Cricket Club have arranged for all their matches abroad during next month. when their annual tour takes place. The bridge acress the Wingohocking at Mill street is very dilapidated and out of repair. The bridge was built in 1814, and looks as though it might have been entirely neglected since that time.

HEAVY ROBBERY.—A depraved young scamp named Thomas Holden, aged but 16 years, yes-terday entered the yard of a dwelling at Eleventh Wharton streets, and stole from off the clothes-line a newly washed shirt, with which be proceeded to a pawnbroker's office and secured fifteen cents thereon. Thomas was sub-sequently arrested and Alderman Bonsall sent

FINANCE AND COMMERCE.

RVENING TELEGRAPH OFFICE, Wednesday, Aug. 10, 1870.

The money market to-day is less active, owing to the unfavorable weather, but there is a fair demand for brokers' loans, which continue in much favor both at the banks and elsewhere. Most lenders avoid time loans, except for short dates, whenever they can procure employment for their funds on good collaterals. The result is more favorable terms for speculative purposes than business men of the highest credit

We quote call loans at 5@6 per cent, and firstclass business acceptances at 6@8 per cent. for short dates.

The balance of the list was firm but quiet. They bear seven per cent. interest, clear of all taxes, principal and interest payable in gold, and the thickly settled and thrifty country through which the road passes, and the exhaustless beds of valuable iron ores on the line, will make a very large and profitable local traffic; and the fact that it must be the line for the transportation of all the anthracite coal that goes West, and all the bituminous coal that goes East, must make the resources of the company more than ample

not only to meet the interest on the bonds, but also to pay divi-dends on the stock. The high price of Government bonds and the low rate of interest they are likely to bear will naturally make capitalists seek first-class home securities for their surplus means, and we feel fully warranted in commending the Sunbury and Lewistown securities to the confidence of the public. It is understood that the Pennsylvania Railroad Company will operate the road as soon as it is completed, and good management can therefore be safely looked for.

N. Y. MONEY MARKET YESTERDAY.

From the N. Y. Herald, "The speculative interest of the street, in view of the events now transpiring in Europe, is very naturally more manifest in the Gold Room than elsewhere; but to-day the Stock Exchange was stirred from its long somnolency and aroused into something like activity by rumors that the rival railway corporations have concluded a treaty of peace anent the expected movements of the crops this fall and in furtherance of the corporate against the individual

interests of the public.
"Gold was the feature in the beginning of and throughout the day. In the forenoon it was weak, but comparatively steady. Toward midday a quotation of 85% for our five-twenties in London produced some uneasiness in view of rumors that the French army had made a stubborn stand, and of opinions that the war in Europe would be only the more bitter and protracted for the first reverse to the French arms. The effect was an advance in gold to 118%, the highest point of the day. Thence-forward it grew weak, and as the foreign bankers were bold and unhesitating sellers on the theory that the war was nearer an end with the repulse of Napoleon than if he had made a triumphal crossing of the Rhine, the price yielded to 117%, whence, under reports that Napoleon was dead, his ailments, being aggravated by the excitement of his defeat, having proved suddenly fatal, it fell to 1171, the decline to that point being assisted by sales of long gold, which was forced upon the market through the obliteration of the speculators' margins. The short interest in the market has been and is still very large. Hence the price did not remain longer than a moment at 11136, but under purchases by the bears, ran up to 118 and eventually to 11832, when it was announced that a million gold had been cleared through the Custom House for export to-morrow. and that the late steamer to-morrow would doubtless, increase this figure by a large per-

Attorney-General Akerman vill deliver an address before the Southern Republican Association some evening this week.

Under this plan payment is made by check upon the United States Treasury.

The New Banking Law. Mr. Kidder, of Boston, to-day deposited \$50,000 in bonds with the Treasurer of the United States, as security for the first issue of gold national bank notes. This is the first bank to commence operations under the recent law. Applications are expected from several San Francisco banks. Despatch to the Associated Press.

WASHINGTON, Aug. 10. Commissioner Parker returned to Washington this morning.

The Death of Victor. General Sully reports the death of Victor, head chief of the confederated Flathead nation, aged 85 years. This is a great loss to the Flatheads. In former years he was one of their greatest warriors, but many years ago he joined the Catholic Church, and ever since has been a devout Christain. General Sully says he don't know of any one among the Flatheads who can take his place, and have the same influence over the nation.

Lebouf Removed to Prevent Mutlay in the French Army-No Official News of Prus-sian Movements-Why MacMahon was De-

feated. LONDON, Tuesday, Aug. 9 .- Letters from Metz speak in the most undisguised way of the calamitous and fabulous incapacity of the Em-veror. Marshal Lebouf and all the military dandies composing the military staff of the army utterly lost the confidence of the army, and the change in the command was an absolute ne-

cessity to prevent mutiny.

All this while, there is no official news whatever of the whereabouts of the Prussian army, and, under the circumstances, "no news is bad It is stated that General MacMahon wanted.

some days before the battle, to fire the forests in his front, through which the Germans came down unexpectedly upon the French, but the Emperor declined to authorize the step. Le Favre, editor of the Soir, who has just arrived in Paris from Forbach, says he witnessed the entire destruction of General Frossard's corps, and claims to speak for 30,000 French soldiers who were cut to pieces by the fault of their leaders, and who lamented with their latest cry that they fell uselessly. The universal cry of the army, M. Favre says, is give us gene-

rals that we can trust. The Soir was hitherto a Government paper, but it now attacks the Ministers for clinging to power, and augmenting the garrison of Paris when every soldier is wanted at the frontier. further says:—"Every soldier now here is an insult to us. If you are incapable of saving your country, the country must save itself." It was rumored in Paris to-day that the Em-

peror is expected at St. Cloud incognita. PRUSSIAN COAST DEFENSES.

The Harbor Fortifications-A Pressian Ironclad Passes the French Fleet Unseen-Bismarck on the Objects of the War. LONDON, Tuesday, Aug. 9.—The special cor-respondent of The Tribune at Berlin writes on

Saturday, 6th instant:-

"The whole coast is in a state of perfect defense. I have witnessed excellent artillery practice. The iron-clad Arminius, which left for the North Sea, in the teeth of the French squadron, has reached port without seeing or being seen by the French, though she passed them while at Fredericksha-ven. The yacht Grille, the swiftest ship of the Prussian navy, is out on the Baltic, with orders to keep close to the French and watch their movements. She is in no danger of being caught. A French corvette, near Bornholm. attempted to chase her, but gave it up after half an hour.
