CITY INTELLIGENCE. THE COAL TRADE.

The Scranton Sale—The Monthly Rate of Wages in the Shamekin Region—Dismtisfac-tion in Schuyikili—The Trade—Quotations, The September sale of Scranton coal took place in

The September sale of Scranton coal took place in New York on Wedneslay. It was generally expected that the rates at this sale would rule higher, but, as it will be remembered we predicted in our last week's article, they were considerably lower. The average decline on the last month's sale was about ten cents per ton.

This is contrary to the gensral ruling at this time of the year. It is not very encouraging for the trade at this port, an advance in tolls having just gone into effect. But still an opinion is hazarded by many in the trade that this variation in the Scranton prices, which is not slight considering what the advance usually is, will have no influence what the advance usually is, will have no influence on business. It is thought that an advance in price can be made sufficient to cover both the increased tolls and an advance rate. We give below the state-ment of the sale in detail.

Lump opened with the sale of 100 tons at \$4.27%, fell off to \$4.15, rallied to \$4.20, fell off again, 1000 tons selling at \$4.17%, and closed at \$4.10, passing off to layer lots.

tons selling at \$4.17%, and closed at \$4.10, passing on in large lots.

Steamboat opened at \$4.40, then advanced to \$4.42%, and closed at \$4.45, the larger part of amount offered going at \$4.42%.

Broken opened at \$4.85, sold largely at that rate, but toward the close was weaker, and 500 tons sold at \$4.75, rallied and closed at \$4.77%. This size was

disposed of in small lots.

Egg passed off quickly, there being an unusually small proportion offered, opened at \$5°10, sold down to \$5°07%, and closed steady with large sales at \$5°05. Stove opened with the sale of 200 tons at \$5°50, fell off to \$5.40, became a trifle brisker at that rate, and was run up again to \$5.50, and closed at \$5.47% Very few large lots were sold, the greater part being taken by small dealers. Many were surprised at the rapidity with which this size passed away. These held off to get it at a lower rate, and were consequently disappointed.

quently disappointed.

Chestnut opened at \$4-10, and was rapidly run up to the state opened as \$4.27%, being in particularly good demand at this price. At the close 100 tons were given away at \$4.20, amid much merriment.

The following is the rabular statement of the sale

as compared with that of last month:-Tons. August 31. July 27. 11,000 Lump\$4'10@4'27½ \$4'20@4'37 10,000 Steamer 4.4@4.45 16,000 Grate 4.75@4.85 8,000 Egg. 505 510 500 65 02 ½

The statement that the rate of wages for the month of August in the Shamokin region had been fixed at \$2.84 as the price of coal at about the same time that the Schuylkill rate was fixed was incorrect. The meeting of the operators' and workingmen's committees did not take place until the first of this month, ar onen the rate was found much higher than expected. The Shamokin region has the advantage over Schuylkill in having the choice of markets. The average price was found to be \$2.93, and the operators have agreed to pay on the \$3 basis

In Schuylkill there has been some dissatisfaction with the finding of the wages committee. One colliery near Tamaqua is said to have suspended in consequence. The workmen generally when they resumed did not believe that prices would be lower, and this belief was fostered by some operators who have been bragging about their high prices. Consequently the dissatisfaction. quently the dissatisfaction.

The trade is brisk, and must necessarily be so on

account of the increased production, or stagnation will ensue. Vessels still continue to arrive and the shipments east are increasing daily. At Boston, within the last ten days, over forly schooners have entered, laden with coal from this port, The new ventilation oill will, where enforced, tend to reduce the production somewhat. In collieries where there is but one opening, not more than twenty men will be allowed to work at one time. This, however, will affect New York more than Philadelphia, because a greater number of the mines in Schuylkill are provided with two or more openings, either exit passages or ventilation shafts. There are about twenty collieries in Luzerne county which have been served with notices to work but a limited number of men on account of a deficiency in this respect.

The coal dirt utilizing schemes have at last been brought to what appears to be a satisfactory termination. A company in Carbon county is now at work manufacturing an improved article of com-pressed dust which is said to give great satisfaction. It is in the form of cubes about five inches square. A contract has been concluded with the ment for the supply of the art is cheap, is well adapted for being packed closely in vessels, and is remarkably free from impunities. At Mauch Chunk there were transported south, during the past week, over both railroads and canal, 130,106 11 tons against 106,933 15 tons the previous week, an increase of 2g,192 16 tons. During the corresponding week last year 97,124-01 tons were shipped, an increase for 1570 of 32,982-10 tons.

The following are the prices of coal by the cargo

at Port Richmond for shipments east of Bordentown and south of Cape Henry—to other points rates are 40 cents per ton higher than the quotations:-Schupikill Red Ash, \$4.80@4.90; do. THE QUINTESSENCE OF THIEVING .- A day or two ago a death occurred in a family by the name of Thompson, located on Thirty-fifth street, above Eim. Last evening, after their retiring, a thief, who it is supposed was hidden in the cellar, entered the room in which the corpse laid, and removing it from where it stood, opened a closet, and robbed it of a five-pound English bank note, a gold English hunting-case watch, \$42 in cash, a lot of coin, some small notes, and a bracelet. He then doned a well-worn black coat and slouched hat, and donning a silk hat and green-colored coat, left,

THE NEWS.

Its Reception In the City-Scenes Around the Newspaper Offices-The Rejoiding among the

The news of the surrender of MacMahon's entire The news of the surrender of MacMahon's entire army, and the taking prisoner of the Emperor of the French himself, was received in this city about 10 o'clock this morning. At first it was considered too good to be true, and but little excitement was manifested, but this unbelief gradually gave way to a feeling of confidence, and much rejoiding was occasioned thereby.

The telegram was first sent from the telegraph to

casioned thereby.

The telegram was first sent from the telegraph to the newspaper offices, and in the hands of carriers, clerks, compositors, and editors, created quite a sensation. The news therein contained was soon displayed upon the bulletin boards. The passers-by stopped to read, but at first believed not. Later, however, large crowds assembled in front of the different offices, and the greatest excitement en-

sued.
THE EVENING TELEGRAPH was early on the scene. An extra was issued by 11 o'clock, and soon the shrill voices of the newsboys made the day hideous with their cries of the "Surrender of Napoleon!" The edition was rapidly bought up. Knots of mer were gathered at different points on the pavement all reading from the same copy or being read to by one more excited than the rest. The scene reminded one forcibly of the scenes around Third and Ches-

nut at different times during our late war.

As was to be expected, the Germans were the most exultant. Numbers of them might be heard talking excitedly in their deep gutturals, and making the most peculiar and emphatic motions with their the most peculiar and emphatic motions with their hands and bodies, totally regardless of the other people on the street. The German beer saloons were thronged with the jubilant persons, and lager flowed like water. Everybody treated everybody else, and everybody else treated everybody in return. Many of the German families immedately set about decorating their houses, Flags were displayed at every available point, and bunting and other brightly colored materials were draped from many windows. By this afternoon or to-morrow these windows. By this afternoon or to-morrow these dwellings and the many German saloons will present quite a gay appearance.

An Unsuccessful French

General Fallly Shot. LONDON, Sept. 3 .- The following despatch

has just been received here:-BRUSSELS, Sept. 3-Noon.-General Failly has been shot, one account says by MacMahon's orders, and others by his own soldiers.

Prince Napoleon Disgraced. The Empress enjoined Prince Napoleon to return to Paris. He has refused, and a decree has been issued stripping him of his rank of Prince and Senator.

The Terrible Defeat. The Etoile of this date says the French have been utterly defeated. The Emperor and Mac-Mahon are prisoners.

Outrages of the Soldlery. The French soldiers massacre their own officers. Many of the latter have escaped to

The Bombardment of Strasburg. BERLIN, Sept. 3 .- The following news is offi-

MUNDELSHEIM, Sept. 2-11 A. M .- At four o'clock this morning the French at Strasburg opened a violent but ineffectual fire along the entire line. A savage artillery duel ensued.

The Prussian losses are unknown. When the telegram left they certainly were unimportant. The French made a sortie against the Isle of Waaken and on the railway near the station Colonel Renz with a battalion of Baden grenadiers repulsed them and drove them back into the city. One officer and four chasseurs were taken prisoners. Lieutenant-Colonel Weiden was wounded. The second parallel is nearly

French Troops Disarmed in Belgium.

French troops passed the Belgian border near Bouillon. They were promptly disarmed. In one body of 3000 men were one general and several officers of the imperial staff, who gave up their swords.

Bazaine's Efforts to Get Free.

MALIMCOURT, Sept. 2-Noon.-Since Wednesday morning Bazaine has constantly sought to get to the northward from Metz with his army. The forces of Prince Frederick Charles and General Manteuffel repelled all his efforts, and especially in the action that may be styled the battle of Norseville the French were flung back into the fortress. The Prussian force in this battle was composed of the 1st and 2d Corps and a portion of the landwehr. The conflicts occurred for the most part around Serigny and Norseville.

How the Surrender was Effected. LONDON, Sept. 3-3:30 P. M .- The following despatch from Berlin has just been received here:-The particulars of the battle of Sedan are still deficient, though at Paris it is thought the contest resulted favorably to the French. The Emperor certainly made a demand for a truce by letter, and then came in personally and surrendered.

France Still Hopeful. Paris telegrams continue to say that Mac-Mahon may hold out under shelter of the

fortress, that Bazaine's position is good, and that he lacks neither provisions nor men. Martial Law in Algeria. LONDON, Sept. 3 .- Martial law has been de-

clared in Algeria. The Russian press unite in sympathy with Prussia. No News Direct from Paris. New York, Sept. 3-2.30 P. M .- Although

despatches have been received in this city today by the French cable, not a word has been heard from the Paris agent of the Associated Press, which indicates that the censor has forbidden the transmission of all news of a political character. Further Confirmation Despatch from Minister Bancroft.

WASHINGTON, Sept. 8 .- Minister Bancroft today telegraphed the following to the Department of State: - "MacMahon's army has capitalated. The Emperor Napoleon surrendered to King William without prejudice to the Parls
