Mr. Ott repre-sented that he had the money in the Second Na-tional Bank of Scranton, but he did not wish the check presented at once. THE FRANKLIN INSTITUTE .- We invite the attention of our readers to the inaugural meeting of the season at the Franklin institute, which takes place this evening at 8 P. M. As the meetings of the Institute have for their object the presentation of all that is new, interesting, or valu-able in science and the mechanic arts, the discus-sion of their merits or demerits, etc., an attendance at them can scarcely fail to prove of interest and advantage. It need scarcely be stated that these meetings are free to all.

THAT COUNTERFEIT BILL.—James Gallagher was arrested the other day upon the charge of passing a counterfeit twenty-dollar bill on Mr. James Falby. A final hearing in the case took place before Alder-man Kerr on Monday, and defendant was discharged from custody in consequence of one John Quiun appearing and testifying that he gave the note to Gallagher to get changed. Yesterday Quinn was taken into custody, and after a hearing before Alderman Smith was held in 6600 ball to answer. Alderman Smith was held in \$600 ball to answer.

AGRICULTURAL FAIRS.—The annual East Penn-sylvania Agricultural Fair held near Norristown, and now just concluded, is said not to have been a very successful exhibition. The attendance was smaller than that of any other year. The display of cattle, produce, etc., was not large, though the quality was good. The domestic department was the most complete. This was in charge of a com-mittee of ladies who did everything to satisfaction. mittee of ladies, who did everything to satisfaction. The cause of the inferiority was thought to be the extremely dusty state of the roads, which hisdered persons from entering goods and diminished the attendance.

The annual exhibition of the Montgomery County Agricultural Society commences to-day at Spring-town, near Norristown, on the regular Fair Grounds. It will continue open until Friday evening next. This county exhibition, it is thought, will surpass that of East Pennsylvania, in which several counties were represented. A plowing match is advertised, and also a trial of washing matchines. Several horses will trot for premiums over the track of the Fair Ground. A novelty is announced in the form of a trial of skill by ladies in harnessing, unharnessing, and driving horses. A trial of threshing machines will also take place.

FROM WASHINGTON.

The Georgia Question. Special Despatch to The Evening Telegraph.

WASHINGTON, Sept. 21.-Information re-ceived here from Georgia states that the bill providing for an election, approved and endersed by Akerman, Attorney-General of the United States, and unanimously recommended by the Republican State Central Committee, came up for adoption in the Senate to-day. The Democrats endeavored, by filibustering, to prevent its passage, but, being foiled, asked leave of absence and retired from the Senate in a body.

The bill was then passed by the Republicans without amendment. This commits the friends of the State administration fully to the support of the Attorney-General's views, and in favor of providing for a fair election in December. The Democrats desire to prevent any election under the law being passed and to hold an elec-tion in November, as prescribed in the old Con-federate code, where no provision is made for colored voters, and thus again claim to carry the State as in 1868 for Seymour.

The English Mission.

A letter received here from Judge Orth to-day states that he has never been tendered the mis-sion to England, and that he has no desire to leave the country. It is now said that the person fixed upon by the President for the position is Old Ben Wade. Mr. Wade is expected here in a few days.

The Cartage System.

It is rumored here that the discussion of the late troubles regarding the cartage system and the requirements respecting the discharge of goods under the general order from the docks of European steamers in New York, has been renewed there. It appears that Secretary Boutwell differed from the belief of the late Collector Grinnell that the interests of the Government would be subserved in changing the sys-tem and instead of discharging goods at the docks transfer them to the West street warehouse.

Secretary Boutwell ordered Mr. Grinnell to go back to the old system; but up to the time he went ont of office he had not obeyed the order. Mr. Murphy, his successor, is still in a quandary. The order has not been obeyed, though the decision of the Secretary is still operative. The question arising is whether the patronage of the new cartage system and the new warehouse is too great a boon for the Collector to relinquish, and who will get the benefit of the business.

Limitation of Appropriations.

The decision of the Attorney-General in reference to the limitation of appropriations, and which has operated to stop payment of claims as well as to prevent the erection of public buildings in several large cities, is creating great hardship in business circles, and no remedy can be had until the meeting of Con-gress. Among other business interests affected are railroads, who cannot receive money on requisitions for public transportation unless they discount the same by banks or moneylenders. Money accommodations are, therefore, held at high rates.

A Mysterious Vessel.

The Collector of Customs at Wilmington, Dela-ware, writes to the Treasury Department that the French bark Cayenne, of Bordeaux, was found abandoned, by a coaster near Cape Henlopen, and taken charge of by the crew of the coaster, and towed up to New Castle, Delaware, by a tug, on the 19th. The abandoned vessel is loaded with hides, logwood, etc. There is no means of knowing why she was abandoned, no papers being found on board.

Secretary Belknap has returned, and is at the Department to-day performing his official duties.

RHEUMATISM. This disease, once a terror to the afflicted, has lost, of late years, many of its fearful and fright-ful aspects. Since the introduction of DR. FIT-LER'S REMEDY, those suffering from the disease have happily found a means of mastering the dread disorder. The use of that specific speedily drives every vestige of Rheumatism and Neuralgia from the system, and being purely vegetable, it not only cures those diseases thoroughly and effectively, but it also improves the general health, and leaves the system strengthened and invigorated. Rheumatic sufferers, by all means, should try it and prove its singular efficacy.—*Cincinnati Enquirer*.
