#### This Morning's Session.

This Morning's Session. The association reassembled this morning at 9-O'clock, in the Nicetown Baptist Church, the Mode-rator, Rev. Isaac Cole, in the chair. The proceed-mas were opened with devotional exercises. The Treasurer presented his report, which was adopted. It shows receipts of \$21'12, and expend-itares of \$170'50. Oh motion forty dollars of the balance in the Treasurer's hands was ordered to be transferred to the church building fund. "The following resolution was adopted :--

Table erred to the church of high grad. The following resolution was adopted :--Resolved, That we heartily sympathize with all efforts to prepare and circulate faithful versions of the word of God in all languages. The Committee on Corresponding Bodies reported a number of minutes as received. The report was re-ceived.

ceived.

The Committee of Arrangements for the next ses-

Ceived.
The Committee of Arrangements for the next session recommended the town of Plymonth as the place for the next meeting, also that Kev. J. Everats Jones preach the introductory sermon; Rev. T. A.
Gill, of the First Germantown Church, being alternate. Rev. George Frear, of Reading, to preach the doctrinal sermon; Rev. J. H. Parks, of Mana-junk, alternate; and Rev. R. B. Cook write the circular letter, Rev. George Hand, alternate.
The report was received and adopted.
The Committee on Obluaries reported on the death of Edgabeth Ferris, a worthy pastor's wife, and of Rev. J. B. Williams, late pastor of the Plymouth Church.
The report was adopted.
The Kev. Mr. Luther, a returned missionary from India, made an address on the subject of missions, that being the special order for 16 o'clock. The reverend gentieman was colliged to return to his pative land on account of Ill-health. He gave a short sketch of his work in Burmah. The Rangoon mission with which he was connected was established about 1850 by Rev. Mr. Vinton. At that time his efforts were much beinged by the English officers of the Government. It is chillely different now. The Government officers now are among the greatest enemies with which the missionaries have to contend. The way of working is to send out one or two young men, evangelists, at the beginning of the dry season, to one of the numerous clusters of vilages. two young men, evangelists, at the beginning of the dry season, to one of the numerous clusters of vil-lages. They hold meetings usually in the verandah of the chief's house, or the principal house. They preach here, and also hold schools and teach the children. The only cause why the whole continent of Asia has not been convulsed with a religious effort is because there are not men enough. This method of working is sure to do it in time. This is the true evangelist way. It is the way the first disciples worked. These schools which are thus established always give birth to churches. There is not a single instance known where a school has been thus established without a church followhas been thus established without a church follow-ing within the space of two years. The converts made within the race of Correns are very stable, more so even than those of the Burmese nation. They can be depended on as much as any American the elogical student. It is found that to produce this effect they must be taught while they are young. By teaching the young the foundations are laid on which the structure can be firmly reared in fatare ages. The missions now are in their second stages. The work of foreigners is mainly now one of oversight. The main work itself is done by the natives. Men must be sent to train up enough of these native workers. When we get to the third stage, the missions can take care of themselves and train their own mon. The great want is for dust

of the sinner who should himself have borne all the punishment of sin. It was also a substitution of punishment as well as person. The death of the Son of God was put in place of the actual execution of the law. This substitution necessitated incarnation. By passing by the nature of angels and taking upon himself a nature part man, part God, He was able to procure a redemption which took in both matter and spirit, At the conclusion of the sermon the association adjourned until 2 o'clock P. M.

THE FUNERAL OF EX-JUSTICE GRIER,-The funeral

THE FUNERAL OF EX-JUSTICE GRIER.—The funeral of the late ex-Justice Grier took place from the resi-dence of the deceased, No. 1428 Spruce street, at 11 o'clock this morning. The funeral was in a man ner very private, as only the nearest relatives of the de-ceased and those intimately associated with him in his profession attended. The remains were enclosed in a black cloth covered wainut coffin, on the lid of which was a sliver plate bearing the announcament of his name and date of birth and death. The ex-Justice was a member of the Tenth Pres-byterian Church, at Twelfth and Wainut streets, and in the absence of the pastor, Rev. Dr. Henry A. Boardman, the funeral services were conducted by Rev. Dr. Breed. The interment took place in Laurel

mate friend. an intimate friend. The following gentlemen acted as pall-bearers:--Justice Strong, Hon. John Cadwallader, Chief Jus-tice Thompson, John William Wallace, Esq., the reporter of the United States Supreme Court at Washington, Judge A. V. Parsohs, George Harding, Esq., A. Boyd Cummings, Esq., and the Hon. Wil-liam A. Porter. liam A. Porter.

liam A. Porter. THE BEETHOVEN SOCIETY announces that its first rehearsal of the present season will take phace on Tuesday evening next, at No. 1123 Chesnut street. A grand concert will be given by the society, under the direction of its conductor, Mr. Carl Wollsohn, at the Academy of Music, on the evening of the cen-tennial birthday of Beethoven, December 11. The programme will consist entirely of the compositions of the great master, and will be given in a style, as regards quality of orchestra and choral material, never before approached in Philadelphia. The society has been preparing for this event for nearly a year, and its officers and members firmly trust that their labors may result in such a performance as will re-fect credit upon the musical taste and cultivation of our city, and also form a proper tribute to the memory of the great Beethoven.

FRANKLIN INSTITUTE.—From an advertisement in another column it will be seen that the second stated meeting of the Optical Section of the Franklin Institute will be held this evening. The first meet-ing occurred just before the adjournment of things ing occurred just before the adjournment of things generally last June, and was a great success. On the present occasion we learn that, in addition to a very interesting exhibition of objects in the gas microscope, there will be shown a series of solar photographic taken during the past summer by Mr. S. M. Rutherford, of New York, exhibiting remark-able sun-spots, and also the new oxygen light, which receive no mercel of time magnetia or microsci all those who have not secured, by membership in the Institute, the privilege of attending these and other interesting and instructive sessions, should correct the omission at once.

THE BESSON & CO. STORE [ROBBERY .- The detectives yesterday, after recovering all the property stolen from Besson & Co's store in the public house at the southeast corner of Tenth and Girard avenue, at the southeast corner of Tenth and Gliard avenue, paid a second visit to the place in the hope of arrest-ing the proprietor of the house. Thomas J. Connor, but they found that he had died for parts unknown. The officers then arrested the bar-tender, Mr. Far-rell, Mrs Connor, and her two sisters. Last night they made a tour through the city, and at Eighth and Wainut streets they came across Jim Logue, and at Eleventh and Chesnut streets they encoun-tered Buck Taylor and Bill Price. These were taken into custody and locked up for a hearing upon the charge of complicity in the store robbery.

THE APPOINTMENT OF ELECTION OFFICERS .- Nine o'clock this morning was the hour fixed by Judges Allison and Ludlow, of the Common Pleas Court, for hearing argument on the applications made to the Court for the vacation of appointments of elec-tion officers made by the Board of Alderman for certion onicers made by the Board of Alderman for cer-tain divisions, the reasons assigned for the removals being based on the grounds that they were non-resident, etc., and also that while appointed as De-mocrats they are in effect Kepublicans. Judge Alli-son being engaged in a homicide case in the Oyer and Terminer, was unable to appear in the Common Pleas, and by agreement the election case was post-const until the same beautie morrow.

Counterfeit Fractional Currency.

#### FROM EUROPE.

Resumption of Democratic Newspapers in France. LONDON, Sept. 28 .- All the democratic papers

in France, which were suppressed under the Empire, have resumed publication. A Mob at Nantes

removed the statue of Billault from the principal square of the city a few days ago. Instead of tearing it down and smashing it, they packed it up and considerately sent it to his family.

The Parts Saburbs. The people residing in the suburbs of Paris have returned to their houses, whence they had been driven by the lawlessness of Mobiles. "Do Unto Others, Etc."

The Times of this morning says that France may be serious and heroic in refusing to cede her territory to Germany, but it is inconsistent with her constant avidity in seizing the territory of others.

#### The Region Around Paris

for twenty kilometres from the walls is depopulated and devastated. A few courageous shopkeepers alone remain in the villages, tempted by enormous profits.

#### Firing on the Gunbonts.

The Prussians opened fire on the gunboats while passing St. Cloud recently, killing and wounding several of the French.

#### Prussians Erecting Batteries."

The Prussians are erecting a battery at Sevons. A lively fire was opened on them from Fort d'Issy while they were at their work. The Prassian Invasion-Reported Moving of the Government from Tours.

LONDON, Sept. 27 .- (Special to the New York Telegram.)-The Prussians on entering Meaux made requisitions for rations and horses. They only remained a short time, the evident intention being to sweep the south of France. The seat of government has been moved to Poitiers.

#### FROM WASHINGTON.

Consterfelt Fractional Currency.

Despatch to the Associated Press. WASHINGTON, Sept. 28 .- General Spinner to-day received a letter from Springfield, Mass., enclosing a counterfeit fifty cent note (new issue), bearing the vignette of Stanton, for which the Treasurer stated recently he would give five dollars, firmly belleving there was no such counterfeit in existence. The writer calls his attention to this offer, and General Spinner will accordingly remit five dollars. As the reward was only offered for the first note of this description sent to the Treasury, it is not likely that further vigilance will be met by a similar remittance from here. The counterfeit is by no means a good imitation and can be detected

# WASHINGTON, Sept. 28 .- The Secretary of the Navy has issued the following order:-WASHINGTON, Sept. 28.-The public obsequies of the late Admiral David G. Farragut will take

place in the city of New York, under the direction of the Common Council, on the 3th of September inst. The attendance on that occasion of the officers of the navy at the obsequies of this distinguished man will be a gratification to the department. The commandants of the various naval ships and stations will give the necessary leave to all officers who desire it and who can be spared from pressing duty. As a further mark of respect, the department will be closed on the 36th Inst.

GEORGE M. ROBESON, Sec. of the Navy. FROM THE DOMINION.

stage, the missions can take care of themselves and train their own men. The great want is for first-class workers. Several men have been sent who were totally unfit for the place. This has been potled by the natives. A native once asked concerning one of these incompetents why he had been sent, remarking that he would not be worth his sait in America and would not be and his worth his salt in America and would not earn his hving there. Of course he could not earn it in

The missionary work in this country will eventufilly be narrowed down to furnishing the means. There will be no need in a short time to furnish £lly. foreign men who cannot stand the climate. If a sufficient number of men arc only furnished now to train the natives, in fifty years they will be so trained that they can take care of the work themselves, and convert the rest of the nation.

serves, and convert the rest of the nation. What is known as the Burmese mission is not so fourishing as that of Corren. The English ritualists have the whole territory. They have fine buildings, and spent last year as much as forty thousand dol-lars in school buildings alone. They have only to eask for the money to get it. These are the greatest coponents to the Baptist work in that region. They give a suberdial education, and observe the matives give a splendid education, and charge the natives nothing for it. That field cannot be gotten back. The great efforts of the ritualists have overcome as They have the best native teachers. Fifteen years ago they took Burmese natives and trained them for the work. But the Baptists have got such a hold on the Correns that the ritualists cannot do much harm there. Sometimes, however, their fine organ and music, their beautiful chapels, and their systems of rewards, draw off some of our convert children, but

it is not often. After the close of the missionary address the Cominities on Devotional Exercises reported in part, and recommended that a collection be taken at the close of the doctrinal sermon for the Baptist Historical Society. Received and adopted. The Board of Trustees offered a report relating to

an election to fill vacancies in that body. The re-port was received, but action on it was deferred Intil the afternoon session. The special order for 11 o'clock, the doctrinal ser-

mon, was then delivered by Rev. J. B. Hutchinson of Olivet, the congregation first singing the hymn "The year of jubilee is come."

The year of jubice is come. The speaker took as his text the twenty-fourth verse of the 3d chapter of Paul's letter to the Romans, "Being justified freely by His grace, through the redemption which is in Christ Jesus." The doctrinal theme of the sermon was redemption

The following is a short abstract:--Redemption sometimes means the price paid, at other times it means the act of paying down the price, and at still other times it means the effect of the price being thus paid. The Scripture sets down redemption as a remedy. God had originally set down a certain course of events. The effects of sin interfered with this course. The remedy for this channels is redemption change is redemption.

The salvation of a sinner is not the primary and leading work of redemption. The redemption of a Christian believer through Christ is only a part of the work. The whole work includes also the demption of all matter from the effects of sin.

The creation cannot have its full perfection with out redemption, and therefore God cannot have His due. Redemption is the educator of nature. This idea is carried out in many parts of Scripture. Our attention is called to the redemption which is in Christ Jesus. The apostle in the text goes from the particular to the general. There are three thoughts embodied in the text,

the purpose, the place, and the principle of redemp-

The first purpose if the Glory of God. It is apparent that through and by sin God is mistaken. Men, by reason of sin, cannot see God as He is, and so mistake Him and His purposes. Not in creation as it is, can we perceive the whole glory of God. Crea-tion wants to know what God is in His moral character as well as what He is as the creator. What is manifested of God in His creation, government, and justice is not all that God is. Do we know all God's Justice is not all that God is. Do we know all God's love for right and justice? All His power? Aside from redemption, we say no. Take, as an example, the prodigal's return. It was only when the prodi-gal returned and saw the father governing the feast, ordering the servants, and greeting the retarned one, that he knew all the father's heart, and his

capacity for mercy and compassion. The second purpose of redemption is to establish law. The introduction of sin was upon the princi-ple that God in His administration of law was arbi-trary. It was not perceived that his introduction would may the whole method and law of God. Auother purpose is the destruction of Satan. Satan was not disheartened by his failure in heaven. He still had power in other places. It is necessary that he should be robbed of all power, and this is one of

the prime ends of redemption. The destruction of sin is another purpose. By means of redemption sin is made to stink in the nostrils of believers. Another purpose is the salva-tion of a sinner. This has already been referred to. How can God save a sinner when He has said that How can God save a sinner when He has said that He will damn him? This is the problem which is solved in the Gospel. It is solved by re-demption. The last purpose is the completion of creation. Through redemption we are to have a new Bessens and a new earth. Matter is not to be permemory marred through the temporary blight of she. The second though the temporary blight of that the deliverance or mediation is to be wrought put through Christ Jessa. There must be notherity Mr. E. L. Davenport.

poned until the same hour to-morrow.

SERIOUS ASSAULT AND BATTERY .- Last evening Edward Duncan, residing on Frankford road, below Otis street, had a hearing before Alderman Heins on a charge of assault and battery on Theodore Johnson. It seems that on Sunday, the 15th instant, two boys were fighting at Frankford road and Norris street. Johnson separated them, and in so doing took one of the lads, who was the brother of the defendant, by the arm. Edward then came along and attacked Johnson. The parties separated, and coming together again, Duncan struck Johnson attacked Johnson. across the face with a piece of a harrel head, crash-ing in the nose. The prisoner was held in \$1500 ball to answer.

SLIGHT FIRES .- Shordy before 1 o'clock this morning a slight fire occurred on Broad street, above Washington avenue, caused by the upsetting of a

coal-oil lamp. About S o'clock this morning the roof of a house in Klander place, in the neighborhood of Eighth and Race streets, was slightly damaged by fire.

William Gormley, while proceeding to the last-manued fire, was run over at Eighth and Fitzwater streets by the carriage of the Philadelphia Hose, and was slightly injured. The sufferer was removed to his home, No. 12 Ashland street.

TO BE HEARD AT THE CENTRAL .- George Palmer and Samuel Benner were arrested at Beach and Shackamaxon streets vesterday by the Tenth dis-They will have a hearing at the Central Police Sta-

tion this afternoon. Bridget Curran will also have a hearing at the same place. She was arrested in the Tenth district yesterday for the larceny of a clock and a bundle of clothing belonging to a neighbor.

FRIGHTENED.—About half-past 11 o'clock last night the hospital attached to the Northern Home, south-east corner of Twenty-third and Brown streets, was entered by thieves, who threw out of the window a number of blankets and quilts, which they contemplated carrying off. The matron of the hospital heard the noise made by the thieves, and gave an alarm, whereupon the scoundrels fied and escaped

RECOVERED .- The miniature steam yacht stolen from the wharf of the West Jersey Ferry Company in Camden was recovered at Mariborough street wharf yesterday, and a man named James Swift was taken into custody upon suspicion of being con-cerned in the larceny. He had a hearing before Alderman Quirk, and was held to await the action of the Jersey authorities.

TAPPED & TILL-John Wallace and Richard Cas-TAPPED A THL. John Wallace and Richard Cas-sidy, in mates of the Newsboys' Home, were arrested yesterday upon the charge of robbing the money-drawer in Cornell's tobacco store, No. 226 S. Ele-venth street. They had a hearing before Alderman Belshaw, and were committed in default of \$600 ball each each.

STORE ROBBERY .- Some time on Monday night the furnishing store of Mr. John T. Scott, No.205 S. Tenth street, was broken into by thieves and robbed of about \$50 worth of goods. At an early hour this morning, Lieutenant Flaherty recovered the stolen property in a wagon, in a small street in the rear of

CORONER'S CASES .- The Coroner was notified this forming to hold an inquest at Filbert street wharf, chuyikiil, upon the body of an unknown man found drowned. Also upon the body of a man named Alexander, who was found dead on a lot on Wash-ington avenue, below Ninth street. His death is attributed to intemperance.

CRUELTY CASE .- Albert W. Moore, driver of eam on the North Pennsylvania Railroad, was arrested yesterday on the charge of craelly beating one of his horses. The prisoner had a hearing be-fore Alderman Becker, and was fined \$19 and held 1 \$700 ball to answer.

THE NUTTING EXPEDITION .- The Fairmount Park Commission have directed a communication to the Board of Public Education informing them that the Park is at the service of the school children for one lay's nutting. The communication will be acted on at the meeting next Thursday.

These regulations will comprise every point referred to in the law on the subject, and be voluminous. They will be ready in a few days,

#### A Revenue Assessor Resigned.

Mr. Cleveland, the Internal Revenue Assessor of the Thirty-second district of New York, has resigned his office.

Indian Affairs-Report of Commissioner Wil-liam Weish, of Philadelphia. Special Despatch to the Evening Telegraph.

WASHINGTON, Sept. 28 .- Mr. William Welsh, late Chairman of the Indian Commission, made this morning his report to Judge Otto, acting Secretary of the Interior. He has just visited Spotted Tail's tribe of Brule and Sloux Indians, Yankton and Santee Sloux, Ponkas and Chippewas of Minnesota. Many of the pro-minent chiefs sent through Mr. Weish important suggestions to the Government, under belief that through other mediums the the Great Father never seemed to care about his red children, and that his agents did not properly grease the wagon wheels. Therefore, goods sent did not reach them. The report contains many important suggestions as to the best modes of treating, locating, and civilizing these Indians, and it is receiving the favorable consideration of the Interior Department, the War Department, the Agricultural Bureau, and the Bureau of Education. The Land Office has been instructed to take immediate steps concerning the Indian reservations that are well suited to agriculture. where Indians would be well treated and permanent occupation assured them. The Interior Department was gratified to learn that Spotted Tail's large tribe of Brule Sioux are most friendly to the whites. The report shows a wonderful progress in

Christian civilization, both with the Santee Sioux and the Yankton Sioux, and also the progress made by the ministers and teachers. Thomas Hughes, M. P.

who has been here for two days, returns to Philadelphia to-day.
