CITY INTELLIGENCE.

THE COAL TRADE.

The Market-The Prospect in Schuylutit-The Workings of the Ventilation Bill-Quotattons, Ere.

The market at this port is in about the same concition as it was at the time of the last report. The supply is large, and the demand is about equal to it, not being either exorbitant or the opposite. Pro-bably the demand is even better than that of last year, but the supply being so much greater there is no effect on the prices. Besides this, at about this time last year the great freshet took place which

raised the prices consideratily.

The 163; per cent reduction on wages for September, though accepted for the present by the men, is evidently considered in the light of a very bad job altogether. The men are dissatisfied both with the reduction and with the manner in which it was made. There are rumors of a strike from some quarters, but probably wilnout any foundation. The following paragraph from their organ of last week expresses their sentiments exactly:—

We feel very much the reduction, but we cannot

see how it can be helped, unless we could fating trate a general suspension, and we see plainly that Luzerne men will not go into it, consequently we can see nothing but for Schuylkill men to work on the Gowen compromise till some feasible plan is found out to make things better. We nope the men of the lower counties will act wheely in this matter of the lower counties will act wisely in this matter, and not do that which will cause future repeatance. It will be seen from this that the late agreement is regarded in the light of a misstep for which there is no remedy at present, though it would be very pleasant if there were. By the end of this month, before which time no strike could be inaugurated, the end of the season will be so near that it would probably be to nobody's interest to begin one then. There is, therefore but little fear of such an event eyen if the authorities did lean that way. The wise advice about taking any action which may cause future repentance, makes it very evident that considerable of that article has been made necessary by the late long continued strike. If the men had seen sooner what was to their best interests, they, by their good condition by reason of continuous work at moderately good paying wages, would not now feel so much the reduction which they did not ex-

It can be seen also that the lesson taught by the one strike has done some good, at least for a while, long strike has done some good, at least for a while. The mild tone in which the above paragraph is written contrasts strongly with the bitter and unreasonable utterances from the same source during the past summer. The difference is so great as to lead to a doubt that the same hand guides the helm. The late remarks have all been in the same spirit, giving sound, reasonable advice in many particulars, while the contrasting ones were as violent and blind as

the contrasting ones were as violent and blind as they were unjust and untrue.

The more feasable plan referred to probably has reference to the idea of an agreement between employers and men by which all difficulties will be settled by arbitration, and not by strikes. This, if it could be consummated, would be a glorious scheme, and on the side of the men it is claimed that they are strongly in favor of it. We seriously doubt, however, if such a plan would ever be held to by either party, if it were ever made. It is too just for the peculiar requirements of either side.

The operators in Wyoming have been petitioning Governor Geary for permission to work a full force.

Governor Geary for permission to work a full force of men, under the Ventilation bill, in mines where there is but one opening, but where a second is in progress of construction during the time intervening before its completion. The Governor says that the law did not contemplate a stoppage of the regular number where the other openings were being made, and he was surprised that the inspectors so

understand it.
The Potomac freshet has interfered with the transportation of Cumberland coal to Geergetown, and prices at that point have risen accordingly.

At Mauch Chunk there were transported south by all routes during the past week, 119,678-16 tons, against 118,371-05 tons the preceding week, an increase of 1307-11 tons. In the same week of 1863, 68,089-09 tons were transported, giving 51,589-07 tons in layor of 1870.

Vessels and barges at this port during the week

have been very abundant.

The following are the prices of coal by the cargo at Port Richmond for shipments east of Bordentown and south of Cape Henry, and to points along the line of the Delaware and Raritan Canal:—

THE DEMOCRACY.

Their Latest Political Dodge-The Arrest of the Bultlmore Negroes - The Arrangement Conduct on the Part of the Police Anthorities. The matter of the wholesale arrest of negroes resterday morning by Lieutenant Killacky and a squad of policemen has created a feeling of disgust among not only our colored citizens, but also among the more respectable portion of the white fraternity. The movement was obviously one of the many desperate attempts now being made by the Democracy in the interest of their candidates. The many recent expositions of the fraudulent doings of the Democratic leaders and the police force were operating so successfully against the 'unterrified" that something must be against the "unterrified" that something must be done to counteract their influence; and what else would effect that result better than the arrest of a lot of negroes, who it could be alleged were coming here from other places for the purpose of voting the Republican ticket? And who could arrange the programme better than Josephs and the other quasi leaders of the Democracy? They are known to be using every artifice to accomplish the election of Gerker and Laws, the opponents of Messrs. Leeds and Bunn, to the sacrifice of the reat of the ticket, and Madaine Rumor has it, upon good authority, that they are now spending money which will hereafter be taken from the police department. Tacy have resorted to every dodge, and this, their latest, is the weakest attempt yet made. It was so trans-parent that it was at once said that they were the fathers of it, and later developments have conclusively shown that the Republicans had nothing to do with the matter. One of these Demogratic leaders was openly charged with having made the arrangement, and he dared not deny it. The plan of operations, as disclosed subsequently, were that a "en' w was sent to Baltimore with a pocket fan of Leeds and Bunn stickers with instructions to gather he was acting in the interest of the Republican party of this city. He was to indee them to visit Philadelphia and give them 55, with the promise of an additional \$10. While on the way he was to supply them with tax receipts signed by republican collector, and these stickers, which was thought would convince the people of Palladel-phia that it was a Republican arrangement. But the presence of the stickers of Messrs Leeds and the presence of the stackers of Messrs Leeds and Bunn was strong evidence that the leaders of the uniterified were in the plot, and the presence of the tax receipts was much stronger evidence of that fact, for they have been proven to be forgeries. Mr. Joseph Tatham, the personal poll-tax e diector of the Second ward, hearing that his name was appended to these documents, repaired to the Central Station and openly asserted that he had issued no receipts in the names given, and under his arm was his official record. He demanded of Alderman Ke r to see the documents, but was refused. He then apto see the documents, but was refused. He then applied to Colone! Mann, and that gentleman, as his counsel, made a demand of the magistrate, when he was referred to the Chief of Police, and notwithstanding that their production was so damnging to his party he directed that they be exhibited. On examination Mr. Tatham boldly proclaimed them forgeries. But to continue the plan of the Demography. This fellow in Raitimore, having out. forgeries.—But to contain the crafts:—This fellow in Baltimore, having got a squal of ignorant negroes, gave information which reached the Chief of Police of that place, who telegraphed to the Chief of this city, that colored repeaters were on their way to Philadelphia. The police then re-paired to Arch street wharf, and on the arrival of the steamer made the arrest; but in doing that they allowed the leader, a white man, to escape, aut, it is believed, intentionally. It was no part of the pro-gramme to intercept him, for had he been seen there is no doubt but that he would have been recognized as a Democratic tool.

The conduct of the authorities after the incarce

ration of these negroes was scandators in the extreme. The news of their arrest spread rapility. extreme. The news of their arrest spread rap. Us, and coming to the knowledge of colored residents, some of them, knowing that there was to be an O id-Pellows' demonstration at Wilmington, went to the station, where they were notified that unless they immediately quit the place they would be located up. They applied to counsal, and Mr. J. Alexander Simpson and Major J. T. Pratt repaired at differentimes to the station, and were refused the pravilege of seeing their clients. The former was treated more as a felon than an attorney. Application was made to Mayor Fox, and the only answer that could more as a felon than an attorney. Application was made to Mayor Fox, and the only answer that could be obtained was that the prisoners would have a hearing at 2 o'clock. The reporters of the public press received similar treatment, and it is this fact that prevented The Tallacash presented giving full details of the arrest.

CASE DISHISSED .- The Democracy this morning made a lame attempt to imprison a colored man named Jacob Turner, residing in Lynn street, Tweifth ward, upon the charge of perjuty. The allegation was that he had vouched for a man named Knoots, who was not a resident of the ward. Competent testimony was given to the effect that knoots resided with Mr. Paris, No. 427 Lynn street, for over six weeks. This was at the time Turner vouched for him. Only a week since the man left the house, and moved late another section of the city. The hearing in this case came before Aiderman Kerr, who discharged the prisoner, after having held him last evening for the hearing to-day. The name of Knoots had been stricken from the registry list by the Republican canvassers.

The retition offered by Mr. King in Councils at their last meeting, for removing Belgian blocks from Walnut and Spruce streets, was from the contractors and not from the property owners, as stated in the morning papers. It appears the pavement was laid in compliance with an oreigance of Councils on All the bills have been collected excepting on the properties No. 1609 Walnut street, and Nos. 1516, 1528, 1530, 1531, 1513, and 1535 Spruce street, the owners of which refuse to pay. FROM WASHINGTON.

North Carolina Politics. Special Despatch to the Evening Telegraph.

WASHINGTON, Oct. 8 .- An ex-United States Marshal of North Carolina, who has just arrived here, says Governor Holden is engaged in a bitter fight with his own organ, the Raleigh Standard. They have repudiated each other, and the Standard promises some rich revelations about Holden's administration of State affairs. The Democrats only lack two of having a two-thirds majority in the Senate. It is believed that they will throw out at least three of the Republicans, and thus get complete control of the Senate. In the event of this the programme is to impeach Holden and turn him out of office before his term expires.
