SOUVENIR OF THE ELECTION OF 1869.

"Teny" Laws, the Democratic Candidate for Hentster of Wills. Proves to be the Chausplon Ballet-box Stuffer and Kopenter.

We desire our readers to carefully read the following sworn testimony, taken before the committee which tried the contested election of Diamond

Robert C. Tittermary sworn-I live in the Fifth dvision of the Second ward; have lived there all my life; I was about the polls all day of the last general election; I am well acquainted with all the people in the division; I saw a party of strangers going from poll to poll that day; they were led by a man named McGonigle and Anthony Laws; none of them lived in the ward except the leaders: I know that one of the party was from Washington!

Edward Wolker sworn-I was at the polls of the Sixth division of the Fourth ward on the day of the last election; there was a party of fifteen or twenty strangers came to the polls; they drove our legal voters away; they were led by McGonigle and Laws; they pulled out pistols and pointed at the

Charles Peak aworn-I reside at No. 617 Wharton street, in the Eighth division of the Second ward; I am pretty well acquainted with all the voters in that precinct: I was about the polls most all day of the last election; I saw a large party of strangers there about noon; they got into the line and commenced to vote: I went after a party to drive them away, and when I came back they had done their work and left; they were brought there by Anthony Laws and McGonigie; Anthony Laws was a member of the De-mocratic City Executive Committee; I know that these strangers were from Baltimore!

William strokenson sworn—I live in the Twelfth division of the Twenty-second ward; have lived in the neighborhood a long time; I was about the poils on the day of the last election; I saw a party of strangers; some ten or twelve of them came to the polis and broke into the line; pushed others out of the line and went up to the window with their votes! Charles Dean sworn—I live in the First division of the Fourth ward; 1 have lived there forty years; I am acquainted with all the voters in the division; was about the polls nearly all day last election there was a party of about lifteen strangers came to the polish they all got their votes in; they left, and I followed them to the Second division of the ward, and gave notice that they had voted in the ward, and gave notice that they had voted in the First division, but they all succeeded in getting their votes in at the Second division as well as the First; they were led by Tony Laws and McGonigle! Audubon Davis sworn—I am a special reporter; I was at the depot of the Philadelphia, Wilmington and Baltimore Railroad at three o'clock on the morning of the last election, upon the arrival of the train; I saw a large body of men, strangers, get off the train; they got into a number of carriages, and were driven rapidly away; they were met and were driven away with a lot of gentlemen who I know are

Democratic politicians! Voters of Philadelphia, this Anthony A. Laws is the man whom the Democratic party have nominated for Register of Wills in reward for this service, and they ask you to vote for him after he has robbed you, as this sworn testimony proves, of the right of suffrage by depositing hundreds of illegal votes to kill the effect of your vote.

[COMMUNICATED.] Our Candidate for Register of Wills. The convention that placed in nomination William M. Bunn'made a wise selection. His adherents detected immediately after their organization that he would be the winning man, and without disparaging any of the other candidates before the convention, I think I may safely assert that the intention was from the beginning to nominate a man who had been in active service under the old fing, and who had acquitted himself with credit without having received a commission for his services. The communication which appeared in your issue a few days ago, signed "Twentieth Ward," did Mr Bunn justice in speaking so honestly of his military career. The Democratic party have, in some justances, honored the soldier in selecting him for position, but the cases have been very rare, and they have invariably chosen ex-officers for their nominees. Now our great party have an opportunity presented them for complimenting a man who held the position of a private, and let them come up to the work nobly,

DISSIPATION AND LATE HOURS.-After the festal night comes the miserable next morning, with its headache, its qualms, its gloomy reflections. Business must be attended to; but neither mind nor body is fit for business. What is to be done? How are the energies of the system to be worked up, and its reserves of vitality brought out? How is the clouded brain to be cleared?-the languid and relaxed frame braced up for action? Under such circumstances a single wine-glassful of PLANTATION BITTERS will bring about an immediate and beneficial change, and a healthful glow will be diffused through the whole organization by the tonic operation of this wholesome cordial.

Science has converted a wild product of the Irish coast into an element of immeasurable dainties of the most wholesome, nutritious, and delicious character; and the price of this new staple is less by one-half than that of any other article of the same class containing a like amount of nutriment. Need we say that SEA MOSS FARINE is the article referred to? The wealthy and enterprising New York Company engaged in its manufacture are entitled to the thanks of every philanthropist for introducing this new source of excellent and agreeable food, at a price which places it within the reach of all. Towns, Oct. 10.—The carrier pigeons brought here by balloonists from Paris yesterday were sent back to that city to-day with despatches from the Ministry here.

The French National Arming.
The Moniteur to-day warns the public that numerous Prussian agents have lately come into France, and are endeavoring to make contracts with departments and towns desirous of purchasing arms. The Moniteur says this may cause dangerous delays in the national arming.

Prussian Prisoners at Tours. A convoy with Prussian prisoners has arrived here.

refuses to accept an ovation which has been tendered him by the people of this city. In his reply he says that the people must think first of

the national defense. Fourteen Prussian *ples
were recently apprehended near this city. They were trying to procure information concerning the inhabitants, with a view to make requisi

tions. They were promptly shot. Prussians Protect the Vintage. London, Oct. 10.—The vintage has begun in

Champagne, and the workmen are protected by the Prussians. The lack of good regimental officers delays the organization of the French army.

The Roman Deputation have been warmly received in Italy. They were banqueted at Pisa and Florence. The Prussians have preserved Fontainebleau Cruelty on German Vessels.

The United States Consul at Oran, Algiers, is trying, but thus far vainly, to mitigate the cruelty to the crews of German vessels illegally detained as prisoners of war. The Constitutional Election. Bismarck recently informed the Mayor of

elections for the National Assembly, but that the Tours Government had countermanded them. The Levee En Masse. The German press ridicules the idea of a French levee en masse as mere bombast to cover

Tours, Oct. 10.-Prefect Delaforge, who so energetically defended St. Quentin with the National Guard behind barricades and repulsed the Prussians, had received no military education. He was the editor of a Paris journal. The Situation Grave-Corps of Sharpshooters The Siecle has advices from the invaded departments which show that the situation is grave, owing to enormous and repeated requisi-

tions by the Prussians. The inhabitants are

forming companies of sharpshooters. Those

already organized have obtained some marked

successes against the Prussians. In many cases stragglers or small bodies of the enemy have been destroyed. A strong body of Franc-Tireurs arrived here to-day from Marseilles. They are composed of gentlemen from the south of

France, and carry a black flag. Affairs at Metz. La Liberte to-day publishes a despatch, announcing several successful sorties by Bazaine. In its comments, La Liberte says the success of these sorties forms the reason why the Prussian despatches have recently made no mention of

the affairs at Metz. Prince Frederick Charles is Ill with typhus fever, and has been obliged to leave the army. It is said he is now at Ferrieres.

More Skirmishing. Despatches from Maintenon, Malesherbes, La Grange, and Chartres announce the presence of Prussians in these places. Several encounters have taken place at Dreux. Cattle Captured.

The franc-tireurs have captured great quanti-

ties of cattle lately that had been taken from

the people by the Prussians in their requisitions.
