## Two Hundred Years.

H. T. HELMBOLD claims a superior mode of extracting its virtues. The experiments were made while engaged in the DRUG business in the city of Philadeiphia, nineteen years ago, prompted by the alarming increase of diseases of the Bladder, Kidneys, Gravel, and Urinary Organs, existing in both sexes. These diseases were justly attracting as much attention as diseases of the Liver, or any other vital organs of the body. Upon the sound and healthy condition of these important organs, the healthy and harmonious action of the nervous system and Liver, and consequently the happiness of the entire human family, depend. That Buchu should act upon both Liver and Kidneys, to prepare it so that it would retain its strength and active principle was his aim. It must not be made, as housekeepers make tea, by boiling. It is a delicate Leaf, and its active principle would be destroyed by such a process. It must be prepared in VACUO, and from the long leaf, fresh and carefully selected.

THE SUPERIORITY OF MY MODE OF PREPA-RATION BRING ACKNOWLEDGED, I now ship even to the point (CAPE OF GOOD HOPE) where the leaves are gathered large quantities of

## MY FLUID EXTRACT.

IN FACT, THE ARTICLE STANDS PRE-EMI-NENT. AND IS KNOWN IN ALL PARTS OF THE WORLD.

The first and most important object was to offer to the afflicted a remedy that was perfectly safe, and could be taken by adults and children. Ignorant persons, who pay no attention to dose, direction, or advice, might reason, "That if a teaspoonful, taken occasionally, did good, two would do better, and perhaps a bottle would cure in a day."

Many have broken down their health by dissipation, and on this principle; but they had been years in doing so.

What I would have understood is, that no injury can arise from its use. It is as safe as any article of food; but patients must not expect any medicine to rebuild a wrecked or shattered constitution in a few days.

This truth is so self-evident that it would seem unnecessary to repeat it, were it not for the fact that thousands of persons who are intelligent in all other matters seem to think, unreasonably, that a curative agent must exhibit its specific effects immediately, when the fact is that time is often an important element in the progress of a safe and thorough cure, even when the medicine is working the best results. These same persons would expend

HUNDREDS, YES, THOUSANDS OF DOLLARS, IN

ARTICLES OF LUXURY AND DISSIPATION,

And think less of it than they would of

Fifty Dollars in Medicine

To rebuild a Broken-down and Worn-out Constitution.

I propose to give evidence that this Remedy is not

a patent medicine. The objection which generally lies against all discoveries and inventions in medicine is "publicity." If somebody should discover a remedy to prolong life, or an infallible cure for cholers or consumption, what a monster he would be to withhold his knowledge! We have yet to learn from what chapter or verse in Scripture to quote, "That men may not heal others of their fellow-men of any disease."

Nor have we asked Pickwicks, affected prudes, or, in short, men who are possessed of every kind of sense but common sense, and all kinds of opinions but their own. The Buchu is a good thing. It has hundreds of thousands of living witnesses to attest its virtue and commend it.

It is given chiefly in complaints of the urinary organs, such as gravel, chronic catarrh of the bladder, and morbid irritation of the bladder and urethra, diseases of the prostate gland, and retention or the incentinence of urine, from a loss of tone in the parts concerned in its evacuation. GREAT SUFFERING.

A PERMANENT CURE OF GRAVEL OF TWELVE YEARS' STANDING-STONE PASSED AND TO BE SERN.

BURNSIDE, Conn., Dec. 15, 1869.

Dr. Helmbold:

DEAR SIR:-It is with much pleasure that I write you upon facts respecting myself. I do not know hardly how to express myself. I have been for the last ten or twelve years the greatest sufferer man could be and live; but more sometimes than others. The complaint was the "kidneys" and "bladder." Have consulted doctors, both in Massachusetts and this State, and taken pills, I may say by the quart, also liquored medicines, but found no relief from any, and got worse the last six months. I was so that I could scarcely get about. I could not rest night or day. It would soon have been "all up" with me, if I had not seen your advertisement in the Berkshire Courier, headed "Kidneys," I read it through, and thought I would try it. I purchased a bottle, but, mind you, had not much faith in it. Why should I, when I had been trying so many things that cost me so much? Well, I began taking it, and before I had taken the first bottle I felt bad; but I finished it and got another. By the time I took half of the second I still got worse (apparently). When I walked it seemed as if my right kidney was falling from its place, and I felt really bad. I felt so, before I had finished the second, that I had made up my mind it was of no use trying any more-and all this time the "Buchu" was doing its work, but I did not know it; so I gave it up and went to Hartford on Saturday, to one of the best doctors in the city. He said it was the neck of the bladder, and I should have to undergo an operation. He gave me medicine and I went home quite downhearted. On Sunday I was unable to go to church. I had not taken any of his medicine, but on my return contipued using the "Buchu," and in the afternoon had a desire to urinate, but could not. About one hour after this I tried again, with the same result; but the next time it was the same as turning a faucet and stopping it off again. It was so for three times, and the third time there was something came through the passage. I examined it, and it is the ugliest stone or gravel you ever saw, covered over with little pieces which collected together. It looks the color of a mud-turtle, and was as hard as So you see the Buchu wa though I was feeling so bad. I purchased another bottle, thinking there might be some more behind, but since that has passed I have been as well as ever in my life. I have the stone securely wrapped, and those who have seen it in this place are sur-

I cannot tell you all, but this is a true story of my case, and you are welcome to make such use of my name as you think proper. I am pretty well known in Berkshire; also in Connecticut. The advertisement saved me. Why not publish more? The Springfield Republican is a wide-spread paper. If any one wishes to see this wonder they can do so. I could write all day, but think I have said enough this time, so I remain your ever well-wisher.

PERMANENT CURE OF A PATIENT WHO HAD SUFFERED FOR FIFTEEN YEARS WITH DIS-EASE OF THE KIDNEYS.

This is to certify that in the year 1869 one of our customers, a gentleman aged 50 years, who had been afflicted for fifteen years with disease of the kidneys, called on us for HELMBOLD'S EXTRACT BUCHU, and after having used eight bottles, stated to us that he considered himself permanently cured. He has no hesitation in stating that he received more benefit from the use of HELMBOLD'S EXTRACT BUCHU than from the treatment of various eminent physicians during the time above stated, and recommends the same to all who may be suffering from any disease originating from a disordered state of

Statements similar to the above have been received by us from various sources during the past four years. Yours, truly,

A CASE OF TWENTY YEARS' STANDING.

PHILADELPHIA, Pa., June 25, 1861.

H. T. Helmbold, Druggist:-

DEAR SIR:-I have been a sufferer for upwards of twenty years with gravel, bladder, and kidney affections, during which time I have used various medical preparations, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted my family physician in regard to

using your Extract Buchu. I did this because I had used all kinds of advertised remedies and had found them worthiess, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubebs, and juniper berries, it occurred to me and my phy sician as an excellent combination, and, with his advice, after an examination of the article and consulting again with the druggist, I concluded to try it. I commenced to use it about eight months ago, at which time I was confined to my room.

From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks was able to walk out. I felt much like writing to you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer, and see if it would effect a perfect cure, knowing that it would be of greater value to you and more satisfactory to me. I am now able to report that a cure is effected after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did. Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use on such occasions.

DEAR SIR: - I have in my practice used (in the maority of cases where disease of the urinary organs existed) BELMBOLD'S EXTRACT BUCHU, and can confidently say that I have never known it to be used without the greatest beneficial results. I have consulted patients after partaking of it, and they invariably confirm my statement. I am satisfied that the preparation is an established fact, convincingly proved by the practical test of long experience.

About six weeks ago he bought of us one bottle of your "Buchu," and before he was through with one bottle he passed a gravel that weighs eight grains, which we now have on exhibition at our drug store. He says that he will never be without the "Bucha" in his house again. Your preparations are gaining favor every day.

TO BE SEEN.

DEAR SIR:-I commenced taking your "Extract of Buchu" about two weeks since for an affection of the gravel, bladder and kidneys. I suffered by spells very much for a few days past. But vesterday relief came through the effect of your "Buchu." A stone passed from my bladder about the size of a large pea, and I now feel perfectly well and entirely free from the pain that I have suffered with "so hard." I attribute my cure to your medicine entirely, and would recommend all persons similarly affected to try it. I have great faith in its curative powers.

THANKS TO MR. HELMBOLD.

GIRARD, Penn., March 31, 1869.

EDITOR "COSMOPOLITE":-I desire as an unsoliited tribute to the merits of Helmbold's Buchu, and for the benefit of those similarly afflicted as myself, to say that after consulting many eminent physicians, and trying nearly all the best advertised reme dies, in the vain hope of finding relief from aggravated kidney and bladder diseases, from which I have suffered excessively for many years, good fortune finally suggested to me Helmbold's Buchu, which I commenced using with little faith, and no apparent beneficial results, for about a month. At the expiration of that time, however, I thought I commenced to experience slight relief, which encouraged me to persevere in its use, and now, at the expiration of four months, although I am an infirm old man, nearly 78 years of age, and consequently medicines cannot be expected to favorably affect me as they otherwise would, I have found such unspeakable relief and permanent benefit from Mr. Helmbold's valuable discovery, that I feel I ought to publicly record the fact, as an acknowledgment to him and a valuable suggestion to the public.

Yours respectfully,

Dr. H. T. Helmbold;-

Two bottles only of the package of your valuable Buchu presented to the Institute have been used by the children, and with perfect success. In the case of our little Lieutenant A. J., his pride is no longer mortified, and he is free from the daily morning anathemas of the chambermaid who has charge of his bedding. I feel that a knowledge of the result of our use of your Buchu with the calldren under our charge may save many a Superintendent and Matron of Boarding Schools and Asylums a great amount of annoyance; and many a poor child, suffering more from weaki ess than from habit, may be spared punishment that is (not knowing it as a weakness instead of a bad habit) most unjustly inflicted upon them. Thanking you on behalf of the children, and hoping others may alike be benefited,

DEAR SIR:-I take great pleasure in sending you a certificate, in addition to the many you have received from suffering humanity. I can scarcely find language sufficiently strong to express my heartfelt gratification at the wonderful cure your "Buchu" has effected. For four years I have suffered beyond description. All my friends (with myself) came to the conclusion that my case was incurable. Accident placed your advertisement in my hands. I commenced taking your "Buchu." I followed the directions, and to my utter astonishment, before I had taken seven bottles of your valuable medicine (I would give \$100 a bott'e if I could not get it at any other price), I am entirely cured. I most earnestly recommend it to all those suffering from disease. I have told many persons to take your valuable medicine, and they are doing so with great success. Mr. H. T. Helmbold; -

DEAR SIR:-In regard to the question asked me as to my opinion about Buchu, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form of preparation of it I have not used, or known to be used, in the various diseases where such medicate agent would be indicated. You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in my judgment, is warranted by the facts.

I have seen and used, as before stated, every form of Buchu-the powdered leaves, tincture, fluid extract-and I am not cognizant of any preparation of that plant at all equal to yours. Twelve years' experience ought, I think, to give me the right to judge of its merits; and, without prejudice or partiality, I give yours precedence over all others.

I value your Buchu for its effects on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other Buchu or any other proprietary compound of whatever name.
