NEWS SUMMARY.

G. W. P. Edward G. Lee, accompanied by officers of the Grand Division Sons of Temance, made an official visitation last evening rogressive and Morning Star Divisions. Last evening an interesting entertainment s given, under the anspices of the Northern berties Boys' Grammar School, at Concert II. The entertainment consisted of recita-

ns and dialogues by the pupils and music by ofessor Jean Louis, assisted by Professors J. Beckel, George Bishop, and John Bower, as Mary A. McCartney, Fanny Keim, Idampert, Messrs. Bradshaw, North, Roden, and

The services incident to the opening and dication of the Arch Street M. E. Church were atinued last evening, when an impressive ser-to was preached by the Rev. Charles H. Fow-D. D. The fine organ is not nearly com-ted, on account of which the musical porns of the services have not been so elaborate they would have been were the organ finished. About half-past 8 o'clock last evening Hugh ok, eighty years of age, residing at Twelfth d Anita streets, was run over by a railway car Reed street, above Tenth, fracturing his left gn and right foot. He was removed to the

ansylvania Hospital.

The connection of High Constable Benjamin anklin with the police department has been solved, by reason of ill health. Mr. Franklin ame attacked to the force during the Mayory of Alexander Henry, Esq., and though iding the position of High Constable, was de-ted for detective business. After the resigna-n of Mr. Joseph Wood as Chief of Detectives, Franklin was appointed to fill the vacancy, did so until bad health compelled his retirent. Under Mayor McMichael he was rein-ted in his old position, and was retained by yor Fox, but has always acted as a detective

LONDON, Nov. 18.—[Special to the New York craid.]—I have authority for saying that telesphic dispatches have been received by the government indicating the position taken by Prussia regard to the Russian question. Prussia deares that she views Russia's claims as natural, id there should be an amicable settlement of the fair. She cannot see any reason for alarm on the rt of the co-signatory Powers. Russia might the appealed to the co-signatories for a revision the treaty of Paris, but one of them has at prest no organized government and is therefore unble to take part in any congress that might have on proposed. It seems to be admitted by Grandle that infractions of the treaty have actually arred in the case of the principalities, not by ssin's action.

This is the substance Pruesia's reply, and she will hold aloof from any

rther action in the matter.

Prussia is so sore armistice between Prussia and France was really is own, he refrained from proposing it, and ushed England to take the initiative. His action the present Russian compileation is crippled for e same reason. He fears to take any step, lest e excite the enmity of Prussia, and is really auxons to resign. The general belief is that the Rusan movement is really only intended to work in the interests of Prussia, in order that the outside orld may have something else to watch beside the perations of Prussia in France. It is believed that ablic opinion in Europe now alone delays the ombardment of Paris. While little doubt is en-ertained of eventual trouble through the Eastern gestion, it is not believed that the present im-regio will lead to war. The note in reply to Gortshakoff's letter is concillatory, and expresses satisaction at the peaceful declaration of Russia.

Great activity, nevertheless, has been evident in the army of the north for three days, and there is good reason to suppose that a concentration of the forces of this command is about to take place, with the object of marching to the relief of Paris by moving eastward and endeavoring to make a junction with the army of the Loire, between Fontain-bleau and Creteil. Gardes Nationale will be left to defend the fortified towns. It is reported that the army of the north numbers 120,000 men, but the early locate 95,000.

LONDON, Nov. 18—[Special to the N. Y. World.] A special telegram from Tours, dated the 17th, has the following: General D'Aurelles de Paladines has reported his strategetic movements, which se-

cured his late victory at Orleans, and has accomplished another still more important success. While holding the German forces at Toury, by threatening them in front with a force equal to their own, he has swung around his left wing, moving at the same time a whole corps from Chartres along the road leading through Albis, Orsonville, Authon and St. Hilaire, to Etamps, where the corps paused. By this movement General Paladines thrust himself between the Duke of Mecklenburg and Parls, while also encircling the German army in the front, right flank and rear.

While this was going on the Germans, divining the danger, commenced to retreat from Toury northward along the road to a point twelve miles south of Etampes. Some fighting occurred, resulting in advantage to the French, who everywhere greatly outnumbered the enemy. General D'Antelles vanguard is now twenty-two miles due south of Versailles.

The government at Tours has information to the effect that the advance of the army of Prince Fredcrick Charles only reached Auxerre to-day, ten days' march from Toury.

A special dispatch from Berlin, dated the 17th

inst., states that a great meeting was held at Mu-nich on the 12th. An address was voted to the King of Bavaria, expressing anxiety lest Bavaria should refuse to enter the bund on the same terms with the other southern states, and petitioning the King to avoid the danger of the isolation of Bavaria from the rest of Germany, and to this end to dissolve the Chamber, which was elected under other influences

Vensalizes, Nev. 18.—The King to-day telegraphed to Queen Augusta, at Berlin, that the Grand Duke of Mecklenburg yesterday repulsed the enemy along the whole line near Dreux. General Treskow, at the same time, captured Dreux. Many prisoners were taken, and the enemy were pursued in the direction of Le Mans.

NOTICE TO MARINERS.

Scotland—West Coast.—Intermittent Light on Ru Stoer.—The Commissioners of Northern Lighthouses have given notice that, on and after the 1st November, 1870, a light will be established on the south ear of Ru Stoer, the western extremity of Sutherlandshire, on the west coast of Scotland. From the white light-house, 47 feet high, will be exhibited an intermittent white light, which will be seen at its full power one minute, and then suddenly eclipsed for half a minute. The light, which will be shown from an elevation of 195 feet above the level of high water, should be seen in clear weather from a distance of 195 miles, and be visible to the westward until cut off by the land. The illuminating apparatus is catadioptric.

PROPOSALS.

DROPOSALS FOR LIVE OAK.

NATY DEPARTMENT,
BUREAU OF CONSTRUCTION AND REPAIR,
WASHINGTON, D. C., November 5, 1870.)
SEALED PROPOSALS for the delivery of 208,000 SEALED PROPOSALS for the delivery of 203,000 cubic feet of Live-oak Timber, of the best quality, in each of the Navy-Yards at Charlestown, Mass., and Brooklyn, N. Y., will be received at this Bureau until the sixth (6th) day of December next.

These proposals must be endorsed "Proposals for Live Oak," that they may be distinguished from other business letters.

The offers may be for one or both yards, but must

be for the whole quantity in each yard, and, as required by law, must be accompanied by a guarantee.

Eureties in the full estimated amount will be re-

Sureties in the full estimated amount will be required to sign the contract, and, as additional and collateral security, twenty-five (25) per centum will be withheld on the amount of each delivery until the contract is satisfactorily completed.

In all the deliveries of the timber there must be a due proportion of the most difficult and crooked pieces; otherwise there will be withheld such further amount in addition to the 25 per centum as may be judged expedient to secure the public laterest until such difficult portions be delivered. The remaining 15 per centum, or other proportion of each bill, when approved in triplicate by the Commandant of the yard, will be paid by such purchasing paymaster as the contractor may designate within thirty (30) days after its presentation to him.

It will be stipulated in the contract that if sixt oe made by the parties of the first part in delivering all or any of the timber named, of the quality and at the time and place provided, then, and in . at case, the contractor, and his sureties, will forfeit and pay to the United States a sum of money not exceed-ing twice the total amount therein agreed upon as the price to be paid in case of the actual delivery thereof, which may be recovered according to the Act of Congress in that case provided, approved March 3, 1843.

The 203,000 cubic feet to be delivered in each yard will be in the following proportions:—Say 33,000 cubic feet of pieces suitable for stems, sternposts, cubic feet of pieces suitable for stems, sternposts, deadwoods, aprobs, sternpost knees, keelsons, and hooks, all siding from 17 to 20 inches, and the hooks siding 14 and 16 inches. These pieces to be in the proportions in which they enter into the construction of a ship of war; conforming substantially in shape, length, and character with those heretofore received, with frames of corresponding siding, the moulds of which can be seen at any pavy yard; 130,000 cubic feet of the siding of 13 and 15 inches, in about equal quantities of each, and 10,000 cubic feet of a siding of 12 inches; all these pieces being in length from 13 to 17 feet, with a natural and fair curve of from 12 to 30 inches or more in that length, and one-half the number of pieces to have from the and one-half the number of pieces to have from the mean to the greatest crook. Also 50,000 cubic feet of timber siding 43 and 15 inches, in length from 17 to 20 feet.
All to be sided straight and fair, and rough-hewe

the moulding way to show a face of not less than two-thirds the siding, the wane being deducted in the measurement. The limber to be cut from trees growing within 30 miles of the sea, of which satisfactory evidence will be required, and to be delivered in the respec-tive yards at the risk and expense of the contractor,

subject to the usual inspection, and to the entire approval of the Commandant of the yard.

The whole quantity to be delivered within two years from the date of the contract. Satisfactory evidence must be presented with each proposal that the parties either have the timber or are acquainted with the subject, and have the

facility to precure it.

In addition to the above, separate "Sealed Proposals" will be received at the same time, on the same terms and conditions and similarly endorsed, from persons having the timber on hand already cut, for the delivery in each of the navy yards at Charlestown and Brooklyn, of from 3 to 50.000 cubic feet of Live-oak, the principal pieces siding 14 to 17 inches, the remaining portion 12 and is inches; the principal pieces and crooked timber being in the same proportion to the quantity offered as that specified in the first case, with the same lengths and crooks.

The whole amount contracted for in this case

must be delivered on or before the 1st February, The Department reserves the right to reject any and all bids for any timber under this advertisement if considered not to the interest of the Government to accept them, and to require satisfactory evidence that bids are bona fide in all respects, and are made

by responsible persons FORM OF OFFER, (Which, if from a firm, must be signed by all the members.)
