"The Marriage of Pigare" by the English

The furious rain-storm caused the finest work The furious rain-storm caused the finest work in the repertoire of the company now performing at the Academy of Music to be sung last evening to the smallest audience of the season. Those who did attend, however, enjoyed a rare treat, for the music of The Marriage of Figuro is so purely delicious that it would be a pleasure to hear it even if not rendered by the most theroughly competent artists. The performance at the Academy last evening, however, was up to a high rank of excellence, as was to be exto a high rank of excellence, as was to be expected, for the leading characters were sustained by the same singers as last season, with the exception that Mrs. Bernard personated "Su-sanna" instead of M'me Rosa, and Mr. Bowler "Don Bassilio" instead of Mr. Nordblom. Mrs. Bernard made a very excellent representative of "Susanua," and in the beautiful "Letter Duet" especially she sang with much expression. Miss Hersee, as the "Countess," acted and sang charmingly, and Mrs. Seguin, as the page "Cherubino," filled the ideal of the character completely. Mr. Laurence as "Count Almaviva," Mr. Campbell as "Figaro," and the other performers acquitted themselves creditably, and as the choruses were well sung and the orchestration unusually good the entertainment was one worth braving the rain storm to witness.

LABOR.-Labor is capital. Bestow good health upon a man, so that he can labor every six out of seven days, and no matter how poor he may have been at the commencement of life's great race, he will be certain to accumulate a fortune, provided he takes care of his earnings. PLANTATION BITTERS is certain to make the weak ones strong, and to preserve the health of the healthy. From four to six hours is considered the ordinary limit for brain work. At the expiration of this time the phosphorus is carried off, and the man becomes irritable and nervous. If he is poor, and continues on at his task, as most of poor doctors, lawyers, and editors do, he will be certain to shorten his days and fill an untimely grave, as did Sir Walter Scott, unless he uses Plantation Bitters, which speedily restores his vital energy, repairs his indigestion, and corrects the sluggish circulation of his blood.

CERTIFICATE OF AN EMINENT CHEMIST,-I have made a careful chemical analysis of the Sozobont, from an impartial sample purchased by me personally from a leading drug house of this city, but nothing of an injurious or objectionable character has been found in its composition.

JAMES G. POHLE, M. D., Analytical Chemist, No. 489 Broadway, New York, Late Dr. James R. Chilton & Co.

WITHOUT SPOT OR SEDIMENT .- Phalon's Vitalia, or Salvation for the Hair, has no bad smell, and does not stain the skin. It has no ingredient that subsides in the form of filthy sediment. Consequently, it is not shrouded in darkened bottles. The natural color of the hair, however completely it may have faded out, is invariably reproduced by the Vitalia, Sold by all druggists.

NEVER PAILING SAFETY AND SUCCESS.-MRS. WINSLOW'S SOOTHING SYRUP IS a safe and certain remedy for all diseases with which children are afnicted during the process of teething. It has stood the test of thirty years. Never known to fall. Gives rest to the mother and relief to the child. Cures wind colic and regulates the bowels.

MR. WILLIAM W. CASSIDY, the jeweller at No. 8 South Second street, has one of the largest and most attractive stocks of all kinds of Jewelry and Silverware in the city. ZELL'S ENCYCLOPEDIA, DICTIONARY, AND GAZETTEER

Is now fast approaching completion. The price for the entire work, unbound, will still remain for a limited time as originally announced, namely, \$25. As it has been found advisable to increase the size of the original work about 200 pages, beyond the number at first proposed, those who purchase or subscribe now will get the benefit of this addition without change, otherwise they will be obliged to pay for the same. This book is a complete and unabridged dictionary of the English language, as good as the boot, a Gazetteer of the World, and a more complete, newer, and fresher Encyclopedia than any now in print; the price is lower than that of any other Encyclopedia—and but a little above that charged for an Unabridged Dictionary or a Gazetteer alone—and being the latest and begun and completed within the short space of two years—not drawing through an unlimited number of years, as has always heretofore been the case with works of this magnitude—it must necessarily be by far the newest in point of information, as, for example, the article Napoleon is brought down to his surrender, Prussia to the present war, etc.—and the populations are given either in accordance with recent der, Prussia to the present war, etc.—and the populations are given either in accordance with recent State Census or that of the General Census of this year, or from other reliable information, and every pains taken to make the information given new and
