A resolution commendatory of General Wagner, the retiring member, was adopted. The thirty-fifth annual report of the trustees of the Philadelphia Gas Works has just been prepared. The quantity of gas manufactured during the year was 1,163,-162,000 cubic feet, an increase over the year 1868 of 96,492,000 cubic feet. The largest consumption in any twenty-four hours was on the night of the 23d of December, amounting to 5,301,000 cubic feet, showing an increass over the same time in last year of 494,000 cubic feet.

The street mains laid during the year amount to 187,253 feet, making the entire length nearly 583 miles, being an increase over the number of feet laid in 1868 of over 700 per cent., which was owing to the great increase in building and consequent demand for services and meters, showing a larger increase than any three years since the erection of the works.

The tackle above gave way, and the block fell and struck him on the head, inflicting severe injuries.

GUNS IN POSITION-THE CRISIS IN SPAIN,

LAST NIGHT'S DESPATCHES. THE IMPENDING PARIS BOMBARDMENT-1500

ETC, ETC. LONDON, Jan. 1 .- The N. Y. Herald correspondent at Versailles gives the following account of the operations before Paris to the 27th ult.:-

one of the severest bombardments from the French forts which the German investing army has been called upon to sustain. The French opened a feu d'enfer about midnight. It soon ceased, and the remainder of the night was undisturbed. Christmas day was quiet till 2 in the afternoon, when the French forts suddenly fired and then relapsed into silence. On the part of the Germans there was no reply. The investing army made no sign which could indicate where the heavy gons are. The German siege guns are in position and prepared to attack the forts. The guns of Fort Mont Valerien have thrown solid shot into the bank of the Seine below the terrace of St. Germain, west of the fort. and a distance of over six miles. Everything is in readiness for the bombardment of Paris on the most terrific scale. All the German batteries are complete, guns mounted, and ammunition sufficient.

The French ironclad Guyenne has been ordered to leave Queenstown. A Prussian corvette is cruising off Dungarven, a little west of Queenstown.

Mezieres has been occupied by the Germans. The French have evacuated other advanced posts northeast of Paris since the reduction of Fort Avron, and the forts around Paris are silent.

The twentieth Prussian division repulsed a superior French force in the rear of Vendome, capturing some guns. In the engagement near Arras 175 French infantry were captured.

Troops are concentrating in southwestern R assis. The report that commissioners were to be sent to the United States to settle the dis-

pute about the fisheries is untrue. The Prossian Government explains the sinking of the British ships in the Seine by stating that they were fired at to bring them to. The navigation of the Thames is obstructed

by ice. The Sultan and Khedive are again at log-

gerbeads. The ex-Empress Eugenie gave a New Year's reception to the French exiles. Among the guests were Persigny, the Marquis La Vallette, Rouher, and many other distinguished men of the Empire.

Cardwell, Minister of War, in a speech at Oxford to-day, eulogized M. Bright for his services to the country, and refuted the reports of the inefficiency of the army and contrasted the armaments of England, Prussia, and the United States. He declared that the British Government was resolved to transmit to its successors an unrivalled inheritance, and to uphold the honor of England and the

London, Jan. 2-(Special to the N. Y. World.)-Bismarck writes to Odo Russell that Prussia is justified, under the law of nations, in sinking English ships. Although the payment offered has been refused, because unaccompanied by an apology, he renews a tender of payment.

Additional artillery is going to Paris, and the number of siege guns, of all calibres, now in front of Paris is 1500.

The constituents of Gladstone have signed a petition asking him to resign, because his policy has reduced them to pauperism.

The government at Bordeaux has designated Jules Favre to represent France at the conference. A correspondent at Berlin says the Court

of Berlin believe that Paris will soon cap

There is a significant interchange of courtesies continually between Berlin and Wilbelmshohe, and the Emperor is confident of his restoration. The spirits of the Empress are depressed, and she spends most of her time in weeping and praying for the return

BORDEAUX, Jan. 2.—Gambetta, in his address yesterday at the Prefecture, said the Government was bound to the defense of the country, but it was mortal. We must not confound the republic with persons who had been forced by events to assume power. These men, when the invasion had been repelled, would resign and submit their actions to the judgment of the nation. The largest liberty would be allowed to an expression of opinion. All speech must be as free as thought: but language engendering actions hostile to the Government would be repressed with energy.

The weather is very cold and the rivers are frozen. The troops suffer terribly, and many French and Prussian soldiers have been frozen to death. Accounts from the invaded districts show

the most inhuman atrocities committed by the enemy without provocation,

BESANCON, Jan. 1 .- The enessy has evacuated the town of Gray after a severe combat with the francs-tireurs, under Colonel Borray. The Prussian losses were heavy and the French small.

QUEENSTOWN, Jan. 2.—Arrived, steamship City of London, from New York. The steamship Acadia arrived at London, December 31.

The evacuation of the plateau before Mont Avron by the French causes much depression in Paris. A meeting of the Mayors of Paris was help last week to censure the Government for its inactivity, but it proved a failure. It is reported that the palace of Malmaison was set on fire by the guns of Mont Valerien, and was totally destroyed.

VIENNA, Jan. 2 .- Field Marshal Moering, of the Austrian army, is dead.

Madeid, Dec. 31. - The Cortes have adopted a resolution in honor of the memory of Prim, and declare that the deceased deserved well of his country, and places his family under the protection of the nation. The Cortes have also passed a vote of confidence in the Government.

Madrid, Dec. 31.—(Special to the N. Y. Herold.)—The death of Prim has intensified the excitement in this city. Inflammation set in and the amputation of his arm was found necessary, though it did not save his He retained consciousness to the last, and when made aware of the approach of death, bade adieu to his friends and, it is said, expressed much anxiety for the safety of the King. Great apprehension of an outbreak of conspirators exists, but the Government is making efforts to allay the excite-

DARMSTADT, Jan. 2.—Prince Louis of Hesse telegraphs to the Government here, that two regiments of Hessians, with a battery, fought on Saturday with a superior force of the enemy southeast of Orleans. The Germans lost fifty

Rome, Jan. 1 .- King Victor Emanuel left this city to-day amid enthusiastic demonstrations. Before his departure he made a donation of 200,000f, for charitable purposes, and begged the municipality to devote to a similar object the moneys intended to defray the expenses of the festivities on the occasion
