The Progress Made in Yen Years-Dempart-son of the Census Returns of 1860 and 1870.

OUR MANUFACTURES.

We published yesterday afternoon a preliminary statement of the manufactures of the city of Philadelphia for the year ending June 1, 1870, according to the returns of the recent census. These returns are subject to revision, and the aggregates will doubtless be considerably increased before they are incorporated in the final official report of the Census Bureau. Below we office the aggregates of the table published by us give the aggregates of the table published by us yesterday, in comparison with the returns for the year ending June 1, 1860, according to the official report of the census of that year:—

Annual cost of raw mate-69,562,206 135,979,777 It is generally admitted that the manufacturing returns of 1860 were incomplete, and this circumstance affords proof of the incompleteness of the returns of 1870, as published. A decrease of 206 in the number of establishments decrease of 200 in the number of establishments is shown, as compared even with the imperfect returns of 1860, while it is apparent to every one that there has been a large increase during the past decade. But the returns of the 6000 establishments, in round numbers, given at the two periods show a most gratifying increase. The amount of capital invested has been almost replied the number of employes has increased trebled, the number of employes has increased more than one-fifth, the annual cost of labor and raw material has almost doubled, and there is shown almost a corresponding increase in the annual value of the products manufactured. The returns of 1860 do not give the horse-power of the establishments, and do not distinguish the ages of the employes, which omission accounts for the blanks in the above table.

A large proportion of the increase exhibited is confined to a few leading industries. Under the head of sugar refineries, the returns of 1860 give 8 establishments, with an invested capital of \$1,546,000, an annual consumption of raw material valued at \$4,844,950, and an annual product of \$6,356,700. In 1870 there were 11 establishments with an invested capital of \$3,494,000, a consumption of raw material worth \$18,206,062, and an annual product of \$19,581,-374. The manufacture of carpets likewise shows a great increase. In 1860 there were 84 esta-blishments, with a capital of \$1,757,800, employing 2111 hands, consuming raw material valued at \$1,194,622, and producing carpets valued at \$2,601,325. In 1870 there were 205 establishments, with a capital of \$2,863,650, employing 4715 hands, consuming \$4,798,253 in raw material, and producing annually carpets valued at

THE FICKEN SHOOTING CASE .- It will be remembered that last February a wealthy sugar refiner of this city named Ficken shot an innocent little boy for leaving a valentine under his door, and the youth will be a cripple for life. The perpetrator of this cruel deed gave \$12,500 bail for his appearance, and then fied to Europe. In the usual course the bail was forfeited, and an execution was issued, but Ficken's private counsel, Mesers. Cassidy and William B. Mann, are now seeking to have the judgment of forfeiture stricken of and for that purpose they feiture stricken off, and for that purpose they some six weeks ago entered a rule, which stays the Sheriff's writ. Every Saturday since this rule has been upon the list, but his never been answered to, and yet the District Attorney, notwithstanding his recent action in regard to forfeited recognizances, has never insisted upon the rule being disposed of. Why is this?

THE OLD DODGE .- Daniel Gallagher, a cabman, has been committed to prison by Alderman Borsall to answer the charge of extorting money from a drunken citizen. It seems that Gallagher was engaged to drive the citizen from the Baltimore depot to the upper section of the city. Instead of carrying out his contract he stopped at Ninth and Christian streets, and told the citizen that he had arrived at his destination He then gave him a piece of paper, which he said would answer for his fare in the city railway. Gallagher was soon after arrested and committed, as above stated.

LIBEL.—A hearing takes place this afternoon, before Recorder Givin, in the case of Colonel Thomas Fitzgerald, who is charged, on the oath of Robert F. Simpson, mauager of the New American Museum, Ninth and Arch streets, with "uttering and publishing malicious libels, calculated and intended to injure deponent in his business, and hold him up to public

scorn and ridicule."

Defendant will be represented by William B.

Mann and Charles N. Mann, Esqs., while
Charles W. Brooke and Henry M. Dechert, Esqs., will appear for the prosecutor.

TREFT OF RAILROAD IRON.—James Davis, residing at Fifty-second and Market streets, was arrested yesterday at Twentieth and Market streets, while in the act of selling railroad iron, the property of the Pennsylvania Railroad Company. Defendant had a hearing before Alderman, Lones and was committed in default of man Jones, and was committed in default of \$400 bail.

ARM CRUSHED.—Edward Calvert, residing at No. 4519 Worth street, Frankford, had his arm caught and crushed in the machinery of Rowland's mill, where he was employed. The suf-ferer was removed to the Episcopal Hospital. The limb will have to be amputated.

SERIOUSLY INJURED.—Henry Dorrs (colored) fell on the ice at Cadwalader and Oxford streets this morning and seriously injured himself. The sufferer was removed to his home at Brinton and Jefferson streets.

SUDDEN DEATH .- The Coroner was notified this morning to hold an inquest, at No. 717 Spafford street, upon the body of Sarah Godfrey (colored), aged four years, who died suddenly in the street.

WE HAVE received \$5 from D. R. Humphries for the benefit of the widow of the late Captain Christian, in addition to the amounts previously acknowledged.

#### FROM WASHINGTON.

Special Despatch to The Evening Telegraph.
Washington, Jan. 18.—Secretary Boutwell

was before the Ways and Means Committee today for the purpose of securing some supplemental legislation relative to the tax on brandy, gin, and rum. It appears that by some flaw in the wording of the law the tax on rum is two dollars and a half, when it should be two. The Secretary desires to make the tax on all these liquors uniform.

San Domingo Commissioner Wanted. The President has not yet been able to secure a third person on the San Domingo Commission. Several to whom it had been offered declined today by telegraph. Owing to this unexpected delay there is some doubt as to whether the Tennessee will be able to sail on Monday, as arranged. The President, on being asked whether it was his intention that this Commission should return before the 4th of March, replied that that was a matter altogether with the Commission. He did not conceal the fact that it was his desire to have action at this session, but he did not know whether it was possible.

The Apportionment Bill.

There is so much difference of opinion in the House Judiciary Committee with regard to the Apportionment bill that it is doubtful if it will befreported at this session. The principal differences are with regard to the number of members of the House of Representatives and the time when the bill shall go into effect.

Mr. Willam Welsh and Indian Affairs. The charges preferred by Mr. William Welsh against the Commissioner of Indian Affairs, thirteen in number, are regarded as very strong and of a serious character by the Committee on Appropriations. Investigation will begin next Tuesday, and in the meantime General Parker is busy preparing his defense.

It is the intention of the Senate to-day to dispose of the case of Admiral Porter, and for this purpose there will be an early executive session to-day. There is no doubt among Porter's friends but that he will be confirmed. Official Particulars of the Loss of the Saginaw. Despatch to the Associated Press.

WASHINGTON, Jan. 13 .- The Secretary of State has received a despatch from our Minister at Honolulu, dated at that place December 27, received by way of San Francisco, saying the steamer Saginaw was a total wreck on Ocean Island October 29. All hands were saved, with three months' provisions at quarter rations. Water, seal, and birds were abundant. On the 18th of November a boat was sent to Honolulu to obtain relief, with William Halford, John Andrews, James Muir, and Peter Francis. On December 19 the boat upset on the surf at the island of Kanal, of this group.

All were drowned with the exception of Halford. All the bodies were recovered with the exception of that of Francis. Halford reached Honolulu the 24th of December, with a tin case of despatches, which are forwarded by this mail. The Minister says he has despatched a schooner and a steamer, which sailed on the 24th and 26th of December, with ample supplies for the rescue. Ninety-three persons from the wreck are on Ocean Island.

#### INDIAN AFFAIRS.

Commissioner Parker's Defense. Commissioner Ely S. Parker has addressed to the Secretary of the Interior a long defense of his administration, from which we take his summing up of the question: -

In conclusion I desire to express a convic-

In concusion I desire to express a conviction which has forced itself upon my mind, that these gratuitous charges upon the Indian Office are but a determination to carry out certain theories put forth by Mr. Welsh in 1869. It will be recollected that in April, 1869, President Grant appointed Mr. Welsh as one of the Indian Commissioners authorized to be appointed under the act of Congress of April 10, 1869. He then claimed that the expenditure of all Indian then claimed that the expenditure of all Indian appropriations was also intended to be placed in the hands of said Commission. To this proposition Hon. J. D. Cox, then Secretary of the Interior, and myself, dissented, and in this we were sustained by the President. He then resigned from the commission, and has since labored as a voluntary agent, it seems, keeping a watch-ful eye upon the transactions of the Indian Office, with a view to detecting irregularities and exposing them, and thereby taking from it the management of the Indian funds. The determination of the President to call in the religious element of the country to aid in the mangious element of the country to aid in the man-agement of Indian affairs, and the Episcopal Society, of which Mr. Welsh is a prominent member, having had assigned to them most of the Dakotah district as their special field of labor, has opened the most plausible pre-text to renew the attempt of 1869, at least so far as that society has acquired jurisdiction in Dakotah, notwithstanding the Indian Office has maintained the peace and kept the Indians commaintained the peace and kept the Indians com-paratively quiet there and elsewhere. I will not assert that he and his associates, or any other religious organizations, are not as competent to manage and disburse Indian funds as the Indian Bureau; but there being at present no law authorizing such a course, the bureau is bound to repel all such attempts. Since the accession of President Grant to the office of Chief Executive of the nation the Indian Bureau has been conducted solely and wholly with a view to the maintenance of peace and the avoidance of expensive and horrible Indian wars, the amelioration of their condition and their advancement in civilization. I also think it proper to remark that during the past and preceding year the communications from Mr. Welsh relative to Indian affairs have not always been couched in those terms which might be expected from one not authorized to dictate or control; but as there was a probability that his motive was a desire to promete the welfare of the Indians, his wishes have, as far as the same were practicable and not incompatible with existing laws, been complied with. Very respectfully, your obedient servant,

ELY S. PARKER.
