From Our Own Correspondent.

HARRISBURG, Jan. 19, 1871. That all is not peace and harmony in the Board of Public Charities has been made apparent to-day by the publication of a report addressed to the Legislature by General Thomas L. Kane, President of the board. The appearance of this document was totally unexpected, and it is deplored by the friends of the measure establishing the commission. It seems that there have been troubles between the members of the board and the President, which have grown to such proportions that it becomes the duty of the Governor, or whoever has the contral of the body, to interpose his authority. Impediments have been thrown in the way of the board, and they have as yet been unable to prepare the annual report directed to be made by the act of Assembly. In addition to this, the harmony usual among gentlemen of the character of those detailed for this special duty of visiting correctional and charitable institutions has been disturbed to such an extent that it will never be restored until the axe has been wielded and a head or two lopped off. The disturbing element has been either the President or the members of the board. The idiosyncracics and eccentricities of the former and the high reputation of the latter are too well known by Pennsylvanians to receive any further consideration at the hands of your correspondent. The accompanying report and the one which will be issued by the remaining members of a committee of which the General is chairman will serve to throw some light upon the matter, and it would certainly prove an interesting feature of the latter document, if the transactions of the late meetings of the above committee were divulged, and it might be the means of accounting for the penning of the present report of General Kane. Both sides have their versions of these difficulties, and it is anticipated that the whole affair will, before long, be given to the public.

One who seems to be posted says that it has been manifest for some time that the President has been failing in health, and that he has become exceedingly morose and irritable. Although he attends all meetings of the board and its committees, yet he has occasioned all sorts of unpleasant feelings by a too free use of the power conferred upon him as presiding officer. The following is the report of General Kane in full:-

PHILADELPHIA, NO. 1904 WALNUT ST.,

January 16, 1871. 5 To the H norable the Senate and House of Representatives of the General Assembly of Fennsylvan'a Gentlemen:-The organization of the Board of Commissioners of Public Charities, under the act of

April 24, 1869, was for various reasons attended with delay. A juli board was first obtained by the ap-pointment of the Hon. Heister Clymer, who took his seat at the quarterly meeting of June 8, 1879.

The commission, as at present organized, con-sists of Heester Ciymer, of Reading, appointed for one year; Charles A. Woods, of Pittsourg, appointed for two years; George L. Harrison, of Palladelpha, appointed for three years; George Diwson Coleman,

General Agent and Secretary. The board found themselves compelled to appoint

additional Secretary under solution thirteen of act. For the sum of \$1500 per annum they were

chief of bureau. His Excellency Governor Geary, in his annual His Excellency Governor Geary, in his annual fit sage to your honorable body, of the 6th instant, stated that the first annual report of the Board of Public Charitles would be presented to you early in the session. After the message was communicated, the board held a meeting January, 11th instant, at which they devolved the preparation and publica-tion of their report upon a special committee of which the president was chairman, with instruc-tions. The special committee held a meeting is tions. The special committee held a meeting in Philadelphia, Saturday, January 14, at which it wa formally resolved to disobey these instructions. This it is believed by me was done with a view to defeat the presentation of any report to your honor-able bodies from the board-except so far as the report of the general agent might claim to be condered one.

sidered one. It is proposed to put the General Agent's report into the State Printer's hands this week. As a pui-lic document, it will not be of a creditable charac-ter. The General Agent might very properly be forbidden to ran up a bill for printing before being authorized to do so by the General Assembly. The recommendations, so called, of the Board of Public Charities, which will be taid before you, are not entitled to more notice than the compliment of their formal reception. The commissioners ad-vocating the appropriations appear not to have

vocating the appropriations appear not to have been qualified, if they were so minded, to frame and been qualified, if they were so minded, to frame and present to yon any well-ordered scheme or system of charities. It requires an education, apparently, to realize how grave agencies for evil are invoked by a reckless and imp ovident distribution of State alms. As long as the board continued unprovided with a proper basis of facts and principles to guide them, they should have scrupulously refused to in-vite you to trifie with the great interests of the com-munity. REORGANIZATION OF THE TREASURY.

A bill is now lying in the Committee on Retrenchment and Reform providing for the reorganization of the State Treasury. It provides that the Commissioners of the Sinking Fund shall select nine banks as State depositaries, four to be located in Philadelphia, three in Pittsburg, and two in Harrisburg. All funds are to be placed in these depositaries by the State Treasurer and interest placed to the credit of the State on monthly balances. A full report of all transactions with the Treasurer is required to be made to the Auditor-General once a month.

A "LITTLE" WILLIAM.

A real healthy bill has been presented by Mr. Smith, of Philadelphia. It has more privileges than are usually found incorporated within the same space. It is in the shape of a supplement to the act incorporating the Germantown Cottage Company, an organization which received considerable ventilation after the adjournment of the last Legislature. The present "little William" is couched in the following language: -Whereas, The "Germantown Oottage Company," under and by the anthority of the act incorporating the said company, was empowered, among other rights and privileges granted, to construct such "works and improvements as may be deemed expe-dient and proper by them." And whereas, A supplement approved the 23d of February, A. D. 1870, to the act incorporating the said "Germantown Cottage Company" contemplates sid to "any contractor by advancing money to such contractor, or by guaranteeing the execution of a contract for the building, construction, or equip-ment of public or private improvements." And whereas, The name and title of the said "Germantown CottageCompany" have been changed to that of the "Commonwealch Improvement Com-pany," under and by authority of a supplement ap-proved April 6, 1870, to the act incorporating the said "The Germantown Cottage Company." New, therefore, in order the more effectually to carry out the objects and purposes of the said Whereas, The "Germantown Cottage Company,

carry out the objects and purposes of the said charter and the supplements thereto, and to aid in the development and improvement of the country-Section 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvaria, in Jeneral Assembly roet, and it is hereby chacted by the authority of the same, that the said "the Commonwealth Improvement Company" is hereby authorized to purchase and sell railroad stocks, bonds and other securities, and to make advances in money and credit to railroad and other improvement, mining, and manufacturing com-panies, and to aid contractors, miners and manuIN A BERREND.

I have not a favorable report to present you of the "doings" of the board during the past year. The board consists of five persons, or six, in-cluding an officer who is ex officers a member. The law imposes upon the board deliverative as well as executive duties. In such organizations numbers are the opposite of an element of strength. The attention of their agent and secretary, too, not having been sufficiently devoted to the important duty of collecting the statistics called for by section 14 of the act, some members of the board may very reasonably consider themselves uninformed upon reasonably consider themselves uninformed upon the necessary facts on which decided opinions should be based. A resulting infirmity of purpose would be naturally expected on the part of such members when called upon to assume responsibili-ties in speech or action. These allowances I desire to make, in fairness, before reporting the board to your honorable body and his Excellency the Gover-nor of the Commonwealth for common.

nor of the Commonwealth for censure. Although an imperfectly digested compilation from the legislation of other States, containing unnecessary repetitions which in some cases appear to conflict with each other, the general meaning of the act of April 24, 1869, is plain. In the House as well as in the Senate distinguished monphers are now seated who remember the debate upon its passage and the state of public feeling at the time. Giving the act the benefit of a simple and honest common sense interpretation, it serves well enough the chief purposes for which it was intended. Its obscurity excuses no dereliction of duty on the part of the individuals who accepted under it the obligations

and advantages of office. It is my unpleasant duty, then, to communicate to you officially my deliberately formed opinion that the Commissioners of Public Charities have rendered no service of respectable importance or value to the State; and that they have left wholly unperformed duties which the public confidently looked to them to execute. They have relieved the Legis-lature of no responsibility. In the consideration of the appropriation bills of the present session, they will be found but to have added to its embarrassments. They have resolved to recommend the ap-plications of certain institutions to the exclusion of thers, involving the State by their so doing (if the Legislature should obey their recommendations) in committals of which they nave shown themselves to be without sufficient discernment to detect the practical bearing or the important and possibly

I, therefore, recommend that the act of April 24, 1868, establishing the Board of Public Charities, having failed to accomplish the objects for which it was enacted, be repealed.

The amount will be seen to be stat5:55 for the year ending December 1, 1570, alone, About \$2000 worth of work has been done by the Corresponding Secretary, not more. And a much better investment for these two thousand dollars

The Board of Public Charitles, as collectors of The Board of Public Charitles, as collectors of statistics, did not enter upon an untrodden field of inquiry. The Prison Discipline Society, the Citizens' Association, and such citizens as Joseph R. Chas-dier, Philip S. Bandolph, Maulon H. Dickinson, Jeremiah Willitts, Joseph Parrish and others, had expended their time and money likerally to collect such data as were obtainable without the authority of Government to back them, and had called public attention most successfully to the necessity of a searching inquiry being instituted into the condition of all the pri-ols and almahouses of the State. To have simply reintursed Mr. Dickinson his expanses, or to have reintured to the members of the societies named their subscriptions, would have enabled these philanthropists to have continued their great work, and would have brought gifts late their trea-sury sinficient to enable them to prosecute their in-vestigations further.

Vestigations further. It should henceforth, in Pennsylvania at least, be held to have been demonstrated once for all that we have not made a great political discovery in granting governmental powers to commissions of "gentlemen of independent means."

WANT OF SLEEP .- Oplum or morphine is usually prescribed as a soporific. Both are violent remedies, and react violently; producing nausea, headache, and prostration. They are often given when they are not needed; and not unfrequently they increase the irritation of the brain instead of soothing it. Probably in seventy-five cases out of a hundred in which they are administered, PLANTATION BIT-TERS, given in moderate doses and at proper intervals, would have the desired effect. Persons who find it difficult to compose their minds to sleep after lying down at night, or whose slumbers are disturbed by bad dreams, or are too brief to afford due nonlishment, are advised to try the PLANTATION BITTERS as an anodyne; for this comprehensive medicine is not only a tonic and alterative, but a delightful sedative-a "balm of hurt minds" as well as a revivilier of enfeebled frames.

Its use, as a means of producing healthful sleep, involves none of the unpleasant secondary consequences of a resort to the former narcotics. They all, without exception, excite the stomach, while the effect of the Bitters is to tone, and without irritating that sensitive organ.

The First Through Line Across the State.

From North to South, giving a direct route from St. Paul to St. Louis.

The location of this line, through the richest and most thickly settled part of Iowa, assures to it a LOCAL TRAFFIC of great magnitude and unquestioned profit. Forming, as it does, the shortest and cheapest avenue of communication between the coal fields of Iowa and the lumber markets of Minnesota, it will also have its carrying facilities taxed to provide for the COAL AND LUMBER TRANS-PORTATION which the rapid setting of the country and the extension of the railroad system of the Northwest will combine to increase far beyond its already large dimensions. In addition to these inevitable sources of profitable revenue, the CENTRAL RAILROAD OF IOWA will have peculiar advantages for T&R)UGH BUSI-NESS. It is not only the most natural outlet for the bulk of the Northwestern carrying trade, but some of its largest stockholders being identical with the principal owners of the various railroads ofverging from St. Paul and Duluth, the freight and passengers from the Lake Superior and Mississippi River, the St. Paul and Pacific, and the Northern Pacific Railroads will be mainly transferred to this line. Upon this railroad, thus favorably situated, there are issued

First Mortgage

7 Per Cent, Gold Bonds

To the small amount of \$16,000 per mile, which are offered at the low rate of 90 and accrued interest, in currency.

Nearly two and a half million dollars of these bonds have been sold, leaving about one million remaining, which are being rapidly taken by investors. The Company is composed of strong capitalists who have carried the work of construction rapidly forward, without being dependent upon the sale of the Bonds. The amount of money thus invested is a guarantee of the soundness of the Company's bonds.

A First Mortgage for so small an amount, upon a road so sure of large business, and in so strong hands, may well be considered a perfectly safe socurity. Holders of Government Bonds will find a decided advantage in exchanging them for Central Iowas, and realizing the increase of interest, beside the difference of exchange.
