CITY INTELLIGENCE.

THE COAL TRADE.

The Suspension, Its Consequences and the Prospects of its Continuance-The Year's Business in All the Regions-The Complete Founage for the Week-The Business trom this Port for the Year.

The suspension still continues, and is as general as the officers of the W. B. A. could possibly make it under the most favorable circumstauces. The only collieries which are working are about four or five in the Schuylkill region, about the same number in the western part of Schuylkill county, and those in the Lykens Valley, where the W. B. A. has no jurisdiction. There are rumors of several more starting in Schuylkill, and also of those which are running stopping through the efforts of the W. B. A., but, as far as can be ascertained, these are rumors only.

In the Wyoming region the men are taking things coolly, waiting for the suspension to come to a natural termination; but from Schuylkill we have reports of violence in several instances between the striking men and those employed in the working collieries. This gives the suspension there much more the appearance of a regular strike, violence and lawlessness being the almost inevitable accompaniment of idleness in that region. It is to be sincerely hoped that work will be resumed by the first of next month It certainly will be in the Scranton region if the companies see it to their advantage, no matter what the men may say. The iron men of the Lehigh region com-

plain that this suspension (suspensions generally also) is greatly injurious to their business. They suffer because they have no facilities for stocking large amounts of coal, which, there-fore, has to be handled considerably before getting it to the furnace, thus putting them to great expense. The coal also being exposed to the weather, is not so good for their purpose. They also complain that the uncertainty o the duration of the strikes is a great annoyance: but this inconvenience is common to al having anything to do with the trade.

The yearly reports from all the regions are coming in slowly. The Miners' Journal gives the following figures:-Total from Schuvlkill county during the year, 3,138,420 tons; North-umberland county, 1,030,713 tons; Columbia county, 307,551 tons, and Dauphin county (semibituminous), 453,817 tons. From the Lehigh region 2,880,491 tons were sent; from the Cumberland, including gas coal from West Virginia. 1,965,954 tons, a decrease for 1870 of 185,873. The Lykens Valley collieries produced 453,817 tons during the year.

The reports of the mining inspectors for the districts embracing Schuylkill, Northumberland, and Dauphin countles state that there are employed in and about the collieries of those districts 30,000 men and boys. Of this number 21,000 are employed in Schuylkill and 9000 in the other counties. These counties mined, in 1870 6,166,509 tons, of which 4,920,518 were sent to market, and the balance, 1,345,991, were, consumed in the regions. This would give 187 tons mined to each man and boy during the year in Schuylkill county, and 236 tons to each in the other counties. Deducting one-sixth of the employes as engaged in the improvements, etc. and other work about collieries, it would give 225 tons to each man and boy in Schuylkill, and 278 to each in the other counties.

It is estimated that of the 4,910,518 tons of coal mined, prepared, and sent to market, about one-tixth, or S20,000 tons, were wasted in its preparation for market, and had to be hauled from the collieries as waste and dirt.

The following is the complete summary of the trade for the past week, as reported for the Pottsville Miners' Journal of to-day:-

1570. 1571. INC. & WEEK. | TOTAL. WEEK. | TOTAL. DEC. Anthracite. P. &. R. R.... 19,863 3 0,011 26,319 387,311 31,374 36,225 43,518 3,8,337 21,780 339,118 86,700 1,852 21,780

THE APPLE OF DISCORD.

The Rumpus in the Board of State Charitles. and What Occasioned It-Some Light on the Subject.

It is very unfortunate that in many superisory bodies there is usually one member whose eccentricities, or overbearing disposition entirely prevents any harmony of action. We have had one lamentable illustration of this nature in an important body in our city, which, in the main, is constituted of gentleman of very high attainments and irreproachable standing in the community. We have presented to us now another, and an equally forcible illustration in a body, which though not local, has a very important work in our city, viz .:- The Board of State Charities. Just at the moment when the public were anticipating the report of its doings during the year 1870, we learn that there is none, but in lieu thereof the surprising statement from the President of the board, General Thomas L. Kane, that:-

'It is my unpleasant duty to communicate to you [the Legislature] officially my deliberately formed opinion that the Board of Commissioners of Public opinion that the Board of Commissioners of Pablic Charities have rendered no service of respectable importance or value to the State, and that they have left wholly unperformed duties which the puo-lic confidently looked to them to execute,"-

followed by a sweeping charge of general incompetency on the part of the members, and the asseveration that the experience of the board inculcates another lesson, which in plain terms is: -"The evil of appointing gentlemen of independent means to such offices." Then comes the condescending statement that perhaps the gentleman named would have done creditably had they been paid a monthly stipend, and labored under an "exacting chief of bureau!"

For the purpose of getting a further insight as to the cause of this discord, which provoked the General to "rush into print," we called upon several gentlemen who have a knowledge of the trouble in the board, and from them learned of some queer idiosyncracies manifested by the On very many occasions these interrupted the harmony of the meeting, and drove one of the members into resigning. Mr. Penulman, of Pittsburg, one of the original members, withdrew, saying:--"I must resign, or Kane will drive me crazy." It happened on many occasions when charitable institutions filed applications with the board for State ald, that General Kane would often vote to triple the amount asked for, so that when it was \$1000, in the falness of his heart the General wanted it to have \$3000. the rest of the members could not coincide with this, believing as they did that the institutions were the best judges of their wants, there first arose a spirit on their part of conscientious opposition, and on his a feeling that his coadjutors were beneath him in wisdom, and as we may learn from his letter to the Legislature, "in-firm of purpose." In response to our query, "Was there any discord at the meetings?" the answer was on the part of our informant, "Oh, no; simply that on nearly all questions the vote was 4 to 1, and that one the General !"

The latest event, which capped the climax to the unpleasantness, was in reference to the report of the board to the Legislature. annual It is said that this, the General, wLo as we judge from his letter, knew his own good sense, and the incapacity of his compeers, wanted to write and submit himself. The members thought that it should not be prepared by one alone, but by a committee, which was accordingly appointed, of three the General being its chairman. On last Thursday week at Harrisburg this committee sat from 9 A. M. until 2 P. M., without accomplishing anything, and on the following day another session succeeded with no better result. The General could not agree with his brethren, the brethren could not, although with due defference to his superior wisdom and expe-rience, coincide with him. Another meeting was to have been held, but in a moment when least expected-or not expected at all-the President presents a report to the Legislature without the authority of the board, and in which he sets out with the statement:-"'I have not a

The New Mascale Temple of Kensington Lodge, No. 211. Kensington Lodge, No. 211, A. Y. M., which was constituted in 1828, and has always existed since its establishment in the old district from which it takes its name, has given a new evidence of its prosperity. To-day its new edifice, which hereafter will be known as the Kensington Masonic Temple, will be completed. It i erected at No. 1301 Richmond street. It has a front of 34 feet, a depth of 77, and is three stories in height, though it rises far above the buildings which flank it. It is rough cast and presents a very attractive appearance. The upper stories are to be devoted solely to the uses of the lodge, and for this purpose the third has been converted into a beautiful meetingroom, 34 by 57 feet, and finished in handsome style. Adjoining this is a reception-room, 21 by 34 feet, not wanting in any comforts and conveniences

MASONIC.

The Lodge room is entirely refitted with new and handsome black walnut furniture, covered with blue reps. The ceiling and walls are frescoed in a very handsome style. A magnificent Axminster carpet, the prevailing colors of which are light blue and white, is spread upon the floor. The gas fixtures are in keeping with the decorations of the room-than which none finer are in the city. Connected with the lodge room are two small ante-rooms, appropriately furnished. Above the reception room is the banquenting room, 29 by 34 feet, which has been furnished with the necessary conveniences.

The cost of preparing the building for the occupancy of the Lodge was about \$12,000. The committee having the supervision of the work Chairman; John W. Lee, Henry Einwechter, Robert Peall, Enoch Remick, Jacob D. Enyard, Alexander M. Long, Jonathan Dickinson, and Charles K. Neisser Secretary. The Lodge has now 348 members, and is in a gratifying condition of prosperity. The present officers of the Lodge are as follows:-Edwin Smith, W. M.; William Godshall, S. W.; Alfred Clegg, J. W.: John W. Lee, Treasurer; and Charles K. Neisser,

Secretary. The Building Committee have decided to open the new temple on Tuesday and Wednesday next, from 3 to 10 P. M., when the public will have an opportunity of inspecting this handsome edifice.

OUR COMMERCE.

Some Items Regarding It-A Heavy Cargo. At the wharf of Logan Brothers & Co. the hip Research, 1300 tons burthen, has just ship finished taking on her cargo. This is very large and valuable, consisting of 10,267 barrels of refined petroleum, being the largest shipment from this or any other port in the country. The entire cargo is valued at \$100,000. This indicates the wharfage facilities at Greenwich Point. The Research carries this oil to Antwerp. During the past week the receipts of crude

and refined petroleum at this port were :--

Makes a total on hand of ... shipped, the two heaviest cargoes being that of Research, which we have given, and that of the British ship City of Kingston, 434,610 gallong. Twelve vessels are now loading.

Last evening there were in the city, loading and discharging cargoes .-Steamships..... Shins 21

PERTIES OF TAR.

The pine tree has long been known to possess valuable medical properties. For pulmonary diseases it is doubtful whether any remedy has as yet been discovered equal to it. It seems to change and renew the very structure on which it acts, and to infuse into the system an indescribable power equal to the natural power before disease had even taken hold of the body, so as to make, as it were, an entirely new tissue, and to give a newness of life and energy which one who has been sick a long time knows the value of ut cannot fully describe. The great objection, however, to all tar preparations has been their unpleasant taste, and consequent liability to sickness and nauseate the stomach. We have before us, however, a preparation of the kind referred to, which obviates all these objections, and is as agreeable to the palate as it is valuable in the cure of disease. We mean "Dr. Wishart's Pine Tree Tar Cordial," a real, genuine, bona fide medicinal cordial. distilled from the pine tree by a process known only to the Doctor himself, the sale and popularity of which are only equalled by the amount of suffering it has relieved, and the number of diseases it is so well calculate to effectually cure. In the Pine Tree T Cordial the invalid may be sure he has remedy of very extraordinary power for three and lung affections, and when taken in con junction with the "Great American Dyspepsi Pills," an infallible cure for dyspepsia, liver complaint, sick headache, and the many ail. ments arising from a disordered state of the liver and digestive organs.

In our sphere as publishers we feel some legree of cautiousness in what we reco to our readers, but when we know of any thing of value to the public we shall not hes tate to make it known through our columns We advise those of our readers who are suffer ing from dyspepsia, etc., to give Dr. Wishart' celebrated remedies a trial.

FOR SOUTHEASTERN PENNSYLVANIA ANL SOUTHERN NEW JERSEY, Naval Battle-Prassian Vessel Victorious. LONDON, Jan. 20-7 A. "It will be seen that there were 102,880 tons of all kinds sent to market for the week, against 166,537 for the corresponding week last year, of which 94,826 were anthracite. The trade is also ahead of last year, so far, 354,886 tons.

"There is, therefore, no use in running up the prices of coal so much in our cities, as some are trying to do. The mines that are working will give a supply until arrangements are made to go to work again."

There are no quotations this week for freights or prices from this port, as business is practi-cally at a standstill, so far as the wholesale trade is concerned. For the coal on hand at all the shipping ports the prices have advanced, but the demand is not good.

The following table, reported by Hammett, Neill & Co., shows the amount of coal shipped from Port Richmond to the various points mentioned during the year 1870, as compared with the previous year:-

	1869.	1870.	
Nova Scotia	5,582.00	238.00

From this it will be seen that the exhibit for this year's business is anything but favorable. Not only is the total amount far behind that of last year, but, as stated in a former article, the last year, but, as stated in a former article, the business with New York and all points con-trolled by the New York market is not to be compared with that of former years. This is owing to the difficulty of the high rates of transportation which the Philadelphia opera-tors have met with this season, they not being other being seal to the near port of Philadelphic able to bring coal to the near port of Philadel-phia from its mines at as cheap a rate as that at which New York firms were able to obtain it which New York firms were able to obtain it direct from their much more distant coal re-gion. It is only to the Southern ports where New York business is ont of the question as an opposition to ours that the Philadelphia figures show any increase. In all other cases the figures of last year are far in advance. The busi-ness with New York itself shows the greatest decline, the amount sent in 1839 being nearly double the amount sent in 1839. double the amount sent in 1870.

favorable report to present you of the 'doings of the board during the past year." Whether such gentlemen as Heister Clymer, of Reading, Charles A. Woods, of Pittsburg, George Dawson Coleman, of Lebanon, and George L. Harrison of Philadelphia, are all in the wrong

and General Thomas L. Kane in the right is for the reader to determine. The Board of State Charities has accomplished a great deal of good in Philadelphia. One of

the first institutions that attracted the attention of Mr. Harrison, in this city, which formed a part of the district under his jurisdiction, was the Almshouse. Here he discovered, in the insane department, that curable patients were in constant contact with those incurable and that all were herded together by reason of a want of

He had this matter before the board, and the result was an official communication to Councils, upon which \$70,000 was obtained to build additions (now going up). What for years had been clamored for not only by the Guardians, bu grand juries, this board obtained by placing the subject, in all its gravity, before the city govern ment. Another error was rectified. In the Hospital, where it had been customary for but one physician in chief to attend a day, there being at the time 350 patients in it, now fou attend, and not only is the ground gone over more carefully, but the poor and debilitated wards of the city obtain as good a treatment as though they were attended privately. These are two reforms which go to the credit of th men who are "infirm of purpose."

AID FOR THE FRENCH .- The ladies connected with the French Bazaar are now collecting naterials to make into clothing for the wounded French soldiers and their families. Linen. flannels, cast-off clothing, and all articles of wearing apparel will be most thankfully re-ceived by Madame P. Jacob, No. 935 Spruce street, who has perfected arrangements whereby the articles can be sent direct to Bordeaux free of cost, and there received by Countess de Flavigny, President of the Committee of Relief. Many of the families of the French soldiers are homeless in that desolate country, and it is to be hoped that the efforts of the ladies of the recent French Bazaar to protect them from the cold blasts of winter may be attended with great success.

INTERFERING WITH AN OFFICER.-Yesterday Lieutenant Leech, of the Sixteenth district, called to account a man who was driving at an immoderate rate on Thirty-sixth street, near Market. While reading the driver a lecture, a man named Benjamin Smith stepped up to the Lieutenast, and dared him to arrest the law-breaker. He also gave the officer some impudence. Smith was then taken into custody, and after a hearing before Alderman Lungren, was held to bail to answer. The driver of the team was allowed to go about his business.

A CONCERT AT THE BEDFORD STREET MIS-SION,-There will be a free concert of vocal and instrumental music at the mission building, No. 619 Bedford street, on Monday evening, January 23, 1871, to commence at 8 o'clock. It will be under the direction of Thomas A'Beskett, Jr., assisted by Messrs. Philip Wright. G. H. Barrett, George R. Richards, and John Huggard, Esqs. The plano to be used on the occafion is of George Steck & Co.'s manufacture, and will be kindly furnished free of charge by Messrs. Gould & Fischer, No. 923 Chesnut street.

DROWNED.—About a quarter past 11 o'clock last night Officers Clawson and Morris were at-tracted to Willow street wharf by cries of dis-trees. They hastened to the wharf and there discovered a man floundering in the water. They attempted to save him, but were unsuc-cessful. Some time afterwards the body was recovered. It proved to be that of a man named Monshan living in Coombs' alley. Monahan, Hying in Coombs' alley.

APPLICATION FOR A PARDON.-Notice is given that application will be made to the Governor for the pardon of Otto Brandenburg, son victed of assault and bettery with intent to kill. We suggest that the example of Ficken is meeting with many followers.

BEAT HIS BROTHER.-John McArthur was arrested last night upon the charge of assault and battery. It is alleged that he went to the house No. 1420 South street, and beat his brother in a shocking manner. John was held in \$600 ball to answer by Alderman Dailas.

150,000 barrels were reshipped to other ports. This esculent rapidly grows in public favor.

THE MORTALITY OF THE CITY .- The number of deaths in the city for the week ending at noon to-day was 333, being an increase of 36 over those of last week, and an increase of 8 over the corresponding period of last year. Of these 159 were adults; 164 were minors; 247 were born in the United States; 62 were foreigners; 9 were people of color; and 10 were from the country. Of this number 44 died of con-sumption of the lungs; 16 of disease of the heart; 10 of marasmus; 9 of old age; 9 of typhoid fever; 18 of convulsions; 42 of inflammation of the lungs; 13 of debility; 8 of scarlet fever; 4 of congestion of the brain; and 2 of relapsing

The deaths were divided as follows among the different wards:-

NEW PUBLIC BUILDINGS .- The committee of five appointed yesterday by the President of the Public Buildings Commission to consider the bids of Mr. Earnest, Mr. Carroll, and Mr. Nichol, for removing the trees from the Penn Squares, met at 1 o'clock this afternoon, and agreed upon a report to be presented to the Commission at the next meeting. The bids of Messrs. Benswinger, Bridges, and Bonaton for enclosing the squares with board fencing twelve feet high, were also considered and acted upon.

MISSING .- Abraham Spear, aged seventy years, has been missing from his home at Third and George streets since Monday last. His relatives are in great distress concerning his whereabouts.

FAST DRIVING .- John Miller was arrested yesterday for fast driving over Chesnut Street Bridge. He had a hearing before Alderman Randall and was fined.

ROBBED.-A canal boat lying near South street wharf;"on the Delaware, was boarded by thieves last night, and robbed of a lot of lines.

PHILADELPHIA, 1 10 tufétrp

A medical expert, holding honorable coll giate diplomas, devotes his entire time to the examination of patients at the office parlor Associated with him are three consulting pla sicians of acknowledged eminence, whose so vices are given to the public free of charge. This opportunity is offered by no other ir stitution in the country.

Thousands of certificates of absolute cur (when all else failed to afford relief), as w as recommendatory letters without number have been received by Dr. Wishart, the pr prietor, attesting the uniform success wi which they have been employed. Many said letters are from the highest sources, i cluding eminent statesmen, Governors, Stat judges, clergymen, etc.-men slow to be oc vinced, prejudiced perhaps at first, but fe ing themselves under a sense of duty bou to tell the Doctor what they had done for th and to recommend them to others. The Gr American Dyspepsia Pills and Pine Tree Cordial are sold by all druggists throughout the world. They can also be obtained at D WISHART'S GREAT FAMILY MEDICIN STORE, No. 232 North SECOND Stree Philadelphia, where a successful practisin physician can be consulted each day, free charge. Those in need of professional aid counsel will do well to make a note of the above. Communications by mail, solicitin professional advice, will be considered strict confidential and promptly answered, free charge. The most complete stock of Fam. Medicines, Hair Preparations, Perfumer etc., in the city. Give us a trial. Addr all communications,

L. Q. C. WISHART, No. 232 NORTH SECOND STREE 1 14 21 28 wayst PHILADELPHIA.
