committee on Pacific Railroads. It recommends no legislation, but expresses the opinion that the advantages are so great that the Government will send freight over said road as far as practible to do so.

THE

A Petition from Miners

of Colfax county, New Mexico, has been pre-sented in Congress by Mr. Julian, praying to have the right of the so-called "Maxwell Land, Grant and Railroad Company," to an im-mense tract of mineral country known as the Moreno mines, investigated, and the lines of the grant defined by an authorized Government survey. This is another Mexican grant, in which the miners are contesting their claim in opposition to an English company of capitalists who are endeavering to appropriate an immensely rich mineral region to itself.

The Enforcement Bill. Special Despatch to The Evening Telegraph

The Senate has taken up the enforcement bill, and a majority has agreed to sit it out until a vote is reached, if it takes all night and all day to-morrow. The Democrats are determined to resist the bill at every stage, and by all means in their power. Four or five of them are prepared to talk against time, and it is now a question of physical endurance. The Democrats charge that the object of the Republicans in hurrying this bill up at this late stage of the session is to defeat several appropriation bills and throw

them over to next Congress. They charge that the President having discovered that the San Domingo commissioners cannot return before the middle of April, he is anxious to have a session of two or three months of a new Congress so as to get action on the report of the commission. The defeat of the appropriation bills the Democrats assert will afford a pretext for a long session.

The House is engaged on the last of the ap-propriation bills, and will probably finish it to-day. The members of the Committee on Ap-propriations of the House conceded the fact that two or three bills will fail in the Senate.

CONGRESS.

FORTY-FIRST TERM - THIRD SESSION.

Senate. WASHINGTON, Feb. 24.—The credentials of William Window as Senator from Minnesota for six years from March 4 next were presented by the Vice-Pre-sidert, and haid on the table. Mr. Stewart, from the Committee on the Pacific Patheoda, reported press the outstion of transporta-

Railroads, reported upon the question of transporta-tion of Government freights on the Pacific Railroad, recommending that the interests of the Governmenwould be subserved by transporting all the freights overland, instead of via Panama, and that by retain-

overland, instead of via Panama, and that by retain-ing 50 per cent, the semi-annual interest would be previded for. The report of the committee, in writing, was ordered to be printed. Mr. Carpenter, from the Judiciary Committee, in response to the resolutions of the Senate in regard to the retention by the Government of more than fifty per cent, of the transportation over the Pacific Railroad, submitted a written report adverse to the opinion of the Attorney-General, and claimed that under the provisions of the existing law the Govern-ment has not the right to retain more than fifty per cent, of the amount. The report was then ordered to be printed.

cent, of the amount. The report was then ordered to be printed. Mr. Trumbull, from the Judiciary Committee, re-ported favorably the bill repealing the test oath, and asked to be discharged from the farther considera-tion of the President's message on the subject. So

The Senate concurred on the motion of Mr. Chand-ler, in the House amendment to the Senate bill to secure better protection to passengers on steaml'ouls. generate the Descent strength of MARCH M

The difth section of the bill appropriates \$7500 for the salary of an Envoy Extraordinary and Minister Plenicotentiary to the German Empire; \$2500 for the Secretary of Legation; \$1800 for an Assistant Secretary of Legation. Mr. Haldeman moved to increase the item for the compensation and expenses of the commission for determining the pending questions between Great Britain and the United States from \$25,000 to \$20000

tenders, \$100,000.

He said that the object of his motion was to obt sin an opportunity of expressing his opinion on the sub-ject of the commission. He had intended, if he could have obtained the floor, to offer a preamble and resolution which he believed empodied the and resolution which he believed embodied the opinion of two-thirds of the members of the House. That was, that it was manifest destiny that all por-tions of the North American continent and the ad-jacent islands must in the course of time be associated together under one gene-ral government; that such inevita-ble annexations and changes of allegiance should be carefully prepared and facilitated, and that therefore the declaration by the high commis-sion of the absolute power and right of the British and American colonies to withdraw their allegiance by a vote of a majority of their inhabitanes, and to seek such other national connection as they may elect by a vote other national c nuection as they may elect would be hailed as an act of high amity and wisdom that would greatly allay the unhappy irritation now existing between the United States and Great Bri-tain. He then withdrew the amendment. Mr. Wood inquired as to the item of \$4000 for ex-penses the United States and Legation in

penses incurred by the United States Legati in in Paris in protecting German subjects in France, and whether the German Government would not reim-

burse those expenses. Mr. Dawes replied that the German Government had offered to do so, but that our Government thought it would be a small business to go into an account on such a matter, and preferred to pay the expense itself

Mr. Wood expressed himself satisfied with the

explanation. Various propositions were submitted by Messra. Wood, Brooks of New York, Cox, and Fox for the repeal of the duty on coal, but they were all ruled out of order.

repeat of the duty on coal, but they were all ruled out of order. Among them was a proposition by Mr., Fox to strike out an item for fuel for the Treasury Depart-ment. He remarked in connection with it that while the poor people of New York were perishing from cold, on account of the high price of coal caused by the legislation of Congress, ne would not vote for fuel to "toast the shina" of the friends of the Remulican party.

Republican party. The item of \$230,000, to pay the State of Massa-chusetts for cost of coast defenses, was ruled out of order on a point of order made by Mr. Farnsworth, on the ground that there was no law authorizing it. on the ground that there was no law authorizing it Mr. Dawes expressed his surprise at the raling of the Speaker pro lem., Mr. Scofield, in the chair, but declined, from a motive of delicacy, to appeal

from it. Mr. Sargent, however, did appeal from it, The declaion of the chair was sustained. Mr. Sargent then moved to suspend the rules so as to make the item in order in the bill. The motion was rejected, and the item was there-fore excluded.

OBITUARY.

The Venerable George E. Blake.

The venerable George E. Blake, who has kept a music store on Fifth street, a few doors above Chesnut, for so many years past, died at his residence in the same building, last evening. Mr. Blake had attained the extreme old age of ninetyfive years, and has long been regarded as one of the celebrities of this city. He has been for many years the oldest music publisher

in the United States, and there is but one music house in the country whose original establishment antedates his. That is the music publishing house of Lee & Walker, Philadelphia, which was founded in 1774 by George Willig, who died very old, in 1851. Mr. Biake left England, his native country, at the age of sixteen, coming to Philadelphia, where he funeral, from teenth street worked for a while as a carpenter and taught at 2 o'clock.

pose, none, it is believed, has proved as efficiely :as PLANTATION BITTERS. This wonderful vegetable tonic appears to contain all the elements necessary to keep up the staminal strength of the systen, and to protect it from the damaging effects of visitist-tudes of temperature and other unhealthy influences to which we are all more or less exposed. The extraordinary invigorating and regulating properties of the preparation adapt it especially to the con fition of the old and feeble, whose lamp of life is burning low, and requires a nutritious stime ant to sustain it.
