It is understood that Sepator Morton Will Reply. He does not know whether he will be able to do so to-morrow or not.

President Grant does not wish to have the

debate precipitated now. There are many Republican Senators who think that the question had better be discussed and disposed of as soon as the report of the commission is laid before Congress. Other and probably a majority of Republican Senators are opposed to considering it at the present session, and their views wil probably prevail.

The Ku-Klux Bill. The House Select Committee, after two hours' session, were unable to agree upon the bill submitted by Judge Shellabarger. All the members were present except Mr. Dawes. They meet again this evening, when they hope to come to some agreement. The Republican members of the committee are not disposed to adopt the extreme views contained in General Butler's

CONGRESS.

FORTY-SECOND TERM-FIRST SESSION.

Washington, March 27.—Long before the hour of meeting, the galieries and corridors leading to the senate were densely thronged ov an immense audience eager to hear the speech of the Senator from Massachusetts, Mr. Sumner, who had been an nounced to address the Senate on San Domingo. The dislomatic and ladies galieries were almost entirely monopolized by the fairs-x At 12 o'cook the spectacle was one of the most animated ever witnessed in the Senate champer.

Mr. Sumner's appearance on the floor was wel-

Mr. Summer's appearance on the floor was welcomed by the gaileries with applause.

Upon the conclusion of the reading of the journal, Mr. Summer took the floor, and asked for the reading of the resolution recently submitted by him, and already published, against the use of the "hited States may all forces to uphold Baez in an attempt to sell his country in violation of its continution, and threatening the ntegrity and existence of the friendly power of hayti

Ee then submitted and had read by the Secretary an additional resolution, as follows:— Resolved, Thet whatever may be the title to the

territory under an unratified treaty, it is positive that, after the allure of the treaty in the Senate, all pretext of title ceased, so that our Government is in all respects a stranger to the territory, without excuse or apology for an interference against its enemies, foreign or demestic; and, therefore, any belligerent intervention or act of war on the coast of San Domingo, after the failure of the Dominteau tresty in the Senate, is unauthorized violence, utterly without support in law or reason, and proceeding directly from that kingly prerogative which is disowned by the Constitution of the United States.

Mr. Fenton called attention to the fact that in the pressure to gain admittance to the galleries hundreds of ladies had been excluded, he therefore moved that the cloak-room and corridors in the rear of the Senate Chamber he opened for their accommodation. There being no objection, the Sergeant-at-Arms was directed to carry out the motion as the order of the senate. motion as the order of the senate.

Mr. Thurman hoped the Senator from Massachusetts, Mr. Sumner, would not be interrupted at the expiration of the morning hour, but would be allowed to proceed regularly. So ordered,

Mr. Sumner then arose and addressed the Senate

at length, speaking from the seat of his colleague, Mr Wilson. (The speech of Senator Summer will be found elsewhere.)

The States and Territories were called for bills and joint resolutions, for reference only. Among them were the following:By Mr. Pendleton, a bill to increase the duty on manufactured machinery imported from foreign

By Mr. Cox, to repeal the duty on watches By Mr. Storm, for the reduction of taxes, to promote peace, and for other purpose,

Also, a bill to secure the suffrage to the people of Utan without distinction of race, sex, or previous condition of servitude. By Mr. Leonard Myers, to place the mission to Russia in all respects on a footing with the missions to Great Britain, France, and Germany.

Numerous bills were introduced for the removal

Americus bits were introduced for the reinoval f political disabilities. By Mr. Armstrong, a bill to establish the Territory of Pembina, and to provide government therefor.
Mr. Hibbard offered a series of resolutions decla ratory of what the finaucial policy of the Government should be; that the tax should be for revenue only, and not for the benefit of class interests at the general expense; that economy requires there should be raised only two hun-ored and fifty millions of revenue, including interest, and twenty millions towards paying the interest of the public debt, and that in case the Committee of Ways and Means shall not be appointed at the present ression, a special committee of seven be ap-pointed to report a reform of the revenue tarif, without discrimination, in favor of particular in-

terests.
The House, by a vote of 52 against 83, refused to second the demand for the previous question.

Mr. Eldridge, to test the sense of the House,
moved to lay tee first resolution on the table. This was disagreed to—yeas, 2—namely, Messrs.
Brooks, of Massachusetts, and Maynard. Nays,
153. The resolutions were then referred to the
Committee of Ways and Means when appointed.
The first resolution thus referred is as follows:—

Resorted, That the financial policy which aims merely at a rapid extinguishment of the public dept by perpetuating the burdens of taxation is inexpe-dent and impositic, and the faith and credit of the Government depend on the development of the recourses of the country and their relief from Inordi-

nate taxation.

These resolutions are the same as were offered by Mr. Cox last Monday.

The question occurring on the second resolution, Mr. Cox moved to adjourn, saying he wanted to see whether San Domingo was stronger in the House than relieving the people from taxation.

The House, at quarter past 1 o'clock, adjourned.
