CITY NOTICES.

TO THE AMBRICAN PUBLIC. TESTIMONIALS.

The manufacture and the great practical worth of the Sanborn Steam Fire proof Safe having been fully established, it is now offered to the business public, and offered with assurance, supported by indisputable facts, that it is THE BEST SAFE IN THE WORLD, for it has been proved, again and again, to far outlast in a fire those that have heretofere been regarded as the very best. It is most thoroughly made, and of the best material, is furnished with Sargent's celebrated Magnetic Combination Lock, than which there is none better, and in all burglar-proof qualities it is unsurpassed, while for beauty of style and finish, freedom from dampness and all inconvenience in use, as in its power to resist fire, it is without a rival. It is therefore assuming nothing but simple fustice to the facts to offer the Steam Safe as the most thoroughly scientific, most complete, and perfect safe that can be obtained. In support of these claims we call attention to a few of the testimonials it has won :-

WHAT IS SAID OF IT. "The fire-proof quality of the Steam Improvement is established beyond question; and since so many safes, in recent great fires, have falled to preserve their contents, an improvement like this must be welcomed with great satisfaction."-Boston Daily Advertiser.

"This Steam Improvement will effect a thorough revolution in safe-making."-Philadelphia Evening Herald, Sept. 21, 1867.

"This safe affords, undoubtedly, the best protection against fire of any one in the market."-Bangor Whig, Feb. 15, 1868. "It seems to be the only safe that deserves the

name FIRE-PROOF."-Worcester Daily Spy, Jan. 14, "The Steam Attachment is decidedly the greatest

improvement we have ever seen in Fire-proof safes. and the result of the trial proves that all that was claimed for the invention it has accomplished."-North American and United States Gazette, Nov. 14,

"Sanborn's invention has been proved by the most satisfactory tests to be exactly what its manufacturers represent."-Portland Daily Press, March 3, 1868. "In the tests to which these safes have been subjected their absolute security is demonstrated beyoud the possibility of cavil,"-Forney's Philadelphia

HOW TO GURE CONSUMPTION. THE PHILOSOPHY OF DR. SCHENCK S GREAT MEDICINES-Will people never learn to know that a diseased liver and stomach necessarily disease the entire system ? The plainest principles of common sense teach this, and yet there are thousands who ridicale the idea and continue in a course which almost inevitably brings them prematurely to the grave. Living, as the majority of the people do, at complete variance with the laws of nature, it must be apparent to all that, sooner or later, nature will revenge herself. Hence we find that persons who indulge to excess in the use of very rich or indigestible food or intoxicating drinks, invariably pay a heavy penalty in the end. The stomach becomes disordered, and refuses to act; the liver falls to perform its functions; dyspepsia and its attendant evils follow, and still the suffering individuals persist in clinging to the thoroughly exploded ideas of the past. Dr. Schenck's medicines are recommended to all such. They bring sure and certain relief wherever they are used as directed, and all that is necessary to establish their reputation with every siling man or woman in the 1 nd is a fair and impartial trial of them. Let those who are skeptical on this point, and who have permitted interested persons to prejudi e them against t ese now celebrated remedies for consumption, discard their prejudices, and be governed by the principles of reason and common sense. If the system is disordered, depend upon it, in nine cases out of ten

SCHENCK'S MANDRAKE PILLS,-The daily increasing demand for these pills is the best evidence of their value. Thousands upon thou ands of boxes are sold daily. Why? Simply because they act promptly and efficiently. Invalids who may not find it convenient to call on Dr. Schenck in person, are informed that full and complete directions for use accompany each package of the

the seat of the disorder will be found in the sto-

mach and liver. To cleanse and invigorate the sto-

mach and to stimulate the liver to healthy action,

MANDRAKE PILLS, PULMONIC SYRUP, AND SEAWEED TONIC,-These medicines will cure Consumption, unless the lungs are so far gone that the patient is entirely beyond the reach of medical

It may be asked, by those who are not familiar with the virtues of these great remedies, "How do Dr. Schenck's medicines effect their wonderful cares

The answer is a simple one. They begin their work of restoration by bringing the stomach, liver, and bowels into an active, healthy condition. I. 8 food that cures this formidable disease. Schenck Mandrake Pills act on the liver and stomach, promoting healthy secretion, and removing the bile and slime which have resulted from the inactive or torpid condition of these organs and of the system generally. This sluggish state of the body and the consequent accumulation of the unhealthy substances named prevent the proper digestion of food, and as a natural consequence create disease, which results in prestration, and finally in death.

Schenck's Pulmonic Syrup and Seaweed Tonic, when taken regularly, mingle with the food, aid the digestive organs, make good, rich blood, and, as a natural consequence, give desh and strength to the patient. Let the faculty say what it may, this is the only true cure for consumption. Experience has proved it beyond the shadow of a doubt, and thousands are to-day alive and well who a few years since were regarded as hopeless cases, but who were induced to try Dr. Schenck's remedies, and were restored to permanent health by their use.

One of the first steps the physician shou'd take with a consumptive patient is to invigorate the system. Now, how is this to be done? Certainly not by giving medicines that exhaust and enervatemedicines that impair instead of improve the functions of the digestive organs. Dr. Schenck's medicines cleanse the stomach and bowels of all substances which are calculated to irritate or weaken them. They create an appetite - promote healthful digestion-make good blood, and, as a consequent they invigorate and strengthen the entire system. and more especially those parts which are di-eased, If this cannot be done, then the case must be regarded as a hopeless one.

If the physician fieds it impossible to make a patient feel hungry, if the diseased person cannot partake of good nourishing food and properly digest it, it is impossible that he can gain desh and strength; and it is equally impossible to bring a patient to this condition so long as the liver is burdened with diseased bile, and the stomach laden with unhealthy slime.

Almost the first request made to the physician by a consumptive patient is that he will prescribe medi cine that will remove or allay the cough, night sweats and chills, which are the sure attendants on Consumption. But this should not be done, for the cough is only an effort of nature to relieve itself, and the night sweats and chills are caused by the diseased lungs. The remedies ordinarily prescribed do more harm than good. They impair the functions of the stomach, impede healthy digestion, and aggra-

vate rather than cure the disease. There is, after all, nothing like facts with which to substantiate a position, and it is upon facts that Dr. Schenck relies. Nearly all who have taken his medicines in accordance with his directions have not only been cared of consumption, but from the fact that these medicines act with wonderful power upon the digestive organs, patients thus cured speedily gain flesh. Cleansing the system of all impurities, they lay the foundation for a solid, substantial structure. Restoring these organs to health, they create an appetite. The food is properly assimilated; the quantity of blood is not only increased, but it is made rich and strong, and in the face of such condition of the system all diseases

must be banished. Full directions accompany each of the medicines, so that it is not absolutely necessary that patients should see Dr. Schenck personally, unless they desire to have lungs examined,

MEDICAL:

NATURE'S REMEDY. THE GREAT BLOOD PURIFIER.

A valuable Indian compound, for restoring the health, and for the permanent cure of all diseases arising from impurities of the blood, such as Scrofula, Scrofulous Humor, Cancer, Cau-

cerous Humor, Erystpelas, Cancer, Salt Rheum, Pimples and Humors on the Face, Ulcers, Coughs, Catarrh, Bronchitis, Neuralgia, Rheumatism, Pains in the Side, Dyspepsia, Constipation,

Costiveness, Piles, Headache, Dizziness, Nervousness, Faintness at the Stomach, Pains in the Back, Kidney Complaints, Female Weakness, and General Debility.

This preparation is scientifically and chemically combined, and so strongly concentrated from roots, herbs, and barks that its good effects are realized immediately after commencing to take it. There is no disease of the human system for which the VEGE-TINE cannot be used with PERFECT SAFETY, as it does not contain any metallic compound. For eradicating the system of all impurities of the blood, it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease. Its wonderful effects upon these complaints are surprising to all. Many have been cured by the VEGETINE that have tried many other remedies. It can well be called

SEWING MACHINES. DO NOT BUY A Sewing Machine

Until you have seen and examined the American Buttom-hole, Over-seaming Sewing Machine, the great trium ph of inventive genius. It is claimed for this Machine that it will supply all the various necessities of the household in the sewing line. We claim for it unquestionable superiority over all others as a family machine. The simplicity, ease, and certainty with which it operates, as well as the uniform excellence of its work throughout the entire range of sewing, in stitching, hemming, felling, tucking, cording, braiding, quilting, gathering, and sewing on, over-seaming, embroidering on the edge, and its beautiful button-hole and eyelet-hole work, place it unquestionably far in advance of any machine now before the public.

It is also the cheapest, intrinsically, as well as the best, since it is really TWO MACHINES COMBINED IN ONE (by a simple and beautiful mechanical arrangement never before accomplished by human ingenuity), making both the lock stitch and bu ton-hole stftch, as occasion may require. It is, at the same time, simple in construction, comparatively noiseless, easily understood, and, in a word, it combines with these advantages, which are exclusively its own, the most desirable advantages of all others.
