THE LEASE.

The United Canal and Railroad Companies of New Jersey-Meeting of Stockholders and Election of Officers.

TRENTON, N. J., May 10.-The largest most exciting, and, in many respects, the most important meeting of the stockholders of the United Canal and Railroad Companies of New Jersey that ever took place occurred yesterday afternoon at the new, commodious, and very handsome building erected by the joint companies on Clinton street, near the depot, at Trenton, New Jersey.

The meeting was organized at 12 o'clock by

General Robert F. Stockton, who first proposed Mr. Bingham, of Camden, as President of the meeting. That gentleman declining to act, General John S. Irick, of Vincentown. Burlington county, N. J., was proposed, and he was accordingly elected President. Lewis Elkin, Esq., of Philadelphia, was elected as Secretary; Josiah Wallace, Esq., as Judge of Election; and Henry L. Gaw and Henry D. Johnson were selected as tellers.

The above organization was effected to conduct the election of directors of the Delaware and Raritan Canal Company, and they met in the front second story room of the building. In the rear and adjoining room the Camden and Amboy Railroad election took place, and the following organization was effected:-President, G. W. Stout; Secretary, S. J. Bayard; Judge of Election, Charles Tomlinson; Tellers, Wm. Vandergrift and

Samuel Lilly.

Considerable confusion took place at the start to get in votes, when, on motion of Mr. W. Jackson, lines were formed, and the stockholders deposited their votes by turn. A large number of proxy votes were taken, and some of the stockholders in voting represented 2000 shares and over. The voting took about three hours, and at the conclusion the tellers and judges of election retired to count the votes, and in due course of time they reported the successful candidates as

Mr. John Hulme, of Philadelphia, offered the following RESOLUTION.

Resolved, That the managers of the joint companies of New Jersey give sixty days' notice, by advertisement in three or more of the leading public newspapers of the cities of New York, Philadelphia, and Baltimore, of a the leading public newspapers of the cities of New York, Philadelphia, and Baltimore, of a desire to sell or lease the works of the joint with the black powder."

companies, and soliciting propositions for the purchase or lease thereof.

Mr. Duryee moved to refer the resolution to the Board of Directors of the united companies for their consideration and such action as they deem best for the interests of the stockholders.

The second resolution is as follows:-Resolved, That when the proposals for the purchase or lease of the properties of the joint companies shall be acted upon by the joint boards, the same shall be printed, in circular form, giving all details of proposi-tions, contracts, and leases in full, and sent to the respective shareholders of said joint companies not less than twenty days prior to a future meeting of shareholders, to be espe-cially called for the purpose of considering the adoption or rejection of said proposals, contracts, and leases.

SPEAKS ON HIS RESOLUTION. Mr. Hume said he understood there were other roads which desired a lease, and the stockholders should advertise for proposals, to get the best they can. If we have, said he, more than one bidder, we can get a better price, if it is determined to lease the roads at all. The stockholders should not be called here again to hear what the managers of the company have to say regarding the lease. They should have a fair opportunity to discuss this proposition now. We, as stock-holders, should thoroughly understand what the proposition is. I hope everything will be done open and above board. I feel that we can get a better price than what is now offered.

OPPOSITION TO THE PENNSYLVANIA BOAD. Mr. Hulme said he did not believe the directors would do anything in an improper manner. I do say, he continued, that the stockholders have something to say in this matter. Is there anything wrong in the proposition I made, that offers might be received from others? They present as good guarantees as the Pennsylvania road. I have doubts as to the capacity of the Penusylvania company to carry out its lease. If our roads cannot earn ten per cent. the Pennsylvania road cannot earn two per cent. I am afraid to pu: this road in the management of another road which is not economical.

Mr. Duryee said, so far as the value of the consolidated roads was concerned, it is frittering its strength away. I know, and others know, this is our opportunity. If the Pennsylvania Road don't take it, others will. They have to go through our State. Twothirds of the stock of this company qualifies the sale. The decision to-day will show their conclusion. Two-thirds of these stockholders will not vote in favor of this lease. We must have the money and means to bring this great capacity of ours out. We will have good security, and that is what the Pennsylvania Road will give us. I am willing to trust the matter to the board elected to-day. I still press my amendment.

Mr. Cannon thought it was a simple proposition, and should be submitted to the stockholders. We ask, he said, simply the adoption of this resolution offered by Mr. Hulme This proposition the stockholders should

Mr. Hulme was willing that the resolution should be referred to the incoming board. The resolution was then referred.

THE SECOND RESOLUTION, Mr. Hulme said he hoped the second resolution would be adopted. It is that we may have thirty days' time to consider this

Mr. John G. Stevens thought it a very delicate thing to legislate for so many stockholders who were not present. I shall vote, he said for the privi ge of voting my whole I believe it is not only proper, but I represent two thousand shares here to-day, and I think I have more rights than the man who represents but one share.

Mr. Hulme said it was simply asked, after the board had passed an opinion, to lay their decision before the stockhelders twenty days before it was closed.

Mr. Green said this was simply a request for information and nothing else.

The second resolution was then agreed to PARISIAN ECONOMY. No doubt there have been of late some very strange things utilized in Paris. The news-papers have given hints enough of the experimental diet of those from whom emanated the saying, Il faut manger; but a short time since a very singular trade had sprung up, for there the lower classes have not the same objection to use refuse food that our own have. Some years ago an old seldier named Pere Chapellier, who for some time followed the profession of a ravageur, one of those odd beings who still in that city rake about the central gutter of its back streets with a booked stick and a lantern, perceived in the course of his business that when the chiffon-niers came in with what they had collected, they always had a great quantity of pieces of stale bread, which they could not dispose of. Perceiving this, and knowing that a vast quantity of breadcrumbs are used by the cooks and the Parisians generally, he determined to establish himself as a regular preparer of breadcrumbs. He could not depend upon the chiffonniers, however, for a supply, so he made an arrangement with the cooks and scullions of the schools and colleges and convents; and one morning he posted himself in the centre of the Halles (great market), sur-rounded with baskets full of bread-crumbs, and round his hat he placed in large letters the following announcement: —"Bread-crumbs for sale!" The hit was tremendous; his trade increased, and presently, growing ambitious, and ascertaining the wants of the cooks, he determined to turn breadcrumb manufacturer, and sold them two sous cheaper than any one else. quote from Mr. Simmonds' work the sequel of this singular industry:-"He saw that in the bread he received there were two sorts, the good and the bad. He had thought of separating them, but then be found the profit would not compensate for the trouble. He determined to invent a new industry; he made croutes au pot. Stranger, if you ever go to Paris, never order saupe au pain au

crouton, except at the Trois Freres, Cafe de

Paris, or Vefours. All comes from the

fabrique of Chapellier, from the chiffonnier's

basket, the college scrap-basket, the convent alop-tub. He has established, near the

Barrier Saint Jacques, ovens which never

cool, and from whence thousands of pounds

of bread are daily poured forth to be sold as

crumbs or crusts. A large number of men. women, and children are busy piling and

grating the merchandise as it comes out of

the oven. The carbonized pieces and scrap-

ings are pounded, sifted through silk sieves.

and sold to the perfumers to make tooth-

powder. Nothing is more curious than the

warehouses of Le Pere Chapellier. They

are immense buildings, where mountains of

bread are received every minute. Workmen

separate these pieces; on the right are those

redestined for man, on the left those destined for rabbits. Wonderful order and

cleanliness are everywhere visible. Young

This machine is entirely different from the old style Beer Pump. It performs its own work, and requires no labor. The liquors are forced up from the cellar to the bar-room by means of a pressure of air made by force of water, and can be drawn just as clear as directly from the barrel. Among the many advantages claimed for this machine are, that the beer or ale never becomes flat, and can be drawn as cold as ice water with very small expense of ice.

The Apparatus can always be seen at my place in operation, or at any of the principal soloons in this city. 5 6 stuth12t*
