Boone is still in danger, and the prisoners were committed to await the result

—At Berlin the Alabama question is re-ported as practically decided through the Treaty of Washington, and it is there rumored that the American envoys on the Continent have received instructions to agree with the powers for the protection of private property at sea. The consent of England and France is believed to be doubtful.

The Republican manifesto which appeared yesterday, is signed by eighty-one deputies of the Left in the Assembly. It accuses the Monarchist deputies of not keeping the agreement made at Bordeaux, whereby it was stipulated that partisan politics should be avoided, and charges that Legitimist members from the provinces are intriguing for the restoration of a monarchy and for intervention in Italy in favor of the Pope.

—The London Times of yesterday says, regarding the Treaty of Washington, that it was not England alone that yielded some of her claims, but that the United States made great concessions, and expresses the hope that, taking pattern from the adjustment of the American question, the nations of Europe will rise to a higher conception of the aims and duties of international fellowship.

These Bonds are a First Mortgage upon a first-class completed Trunk Line of Railway extending class completed Trunk Line of Railway extending from Selma, Alabama, to Pensacola, Florida—the finest harbor on the Gulf. The payment of both principal and interest is guaranteed by the State of Alabama, whose currency obligations sell in the market at 104. The total direct dept of the State is only \$6,000,000, and the indirect possible indebtedness, caused by its railway guarantees, amounts only to \$8,000,600, making the maximum possible indebtededness of the State below \$15,000,000, which sum is less than its debt in 1837, when an issue of bonds to the extent of \$15,500,000 was made to establish a oanking system, which debt was reduced by redemption to \$4,000,000 in 1861, previous to the war. The taxable property of the State is now thrice what it was at that time, and the population more than double.

The Bonds offered are thus equally valuable either as a Railroad Mortgage or as a State Bond; and with the double security thus provided, we unhesitatingly recommend them as equal to any invest-
