AYER'S PILLS

New and singularly successful remedy for the care of all Bilious diseases—Costiveness, Indi-stion, Jaundice, Dropey, Rhennatten, Pevers, at, Aluniors, Nervousness, Irritability, Inflammastion, Jaundice; Dropey, Ricentacitim, Fevers, and, Huniors, Nervoiners, Irritability, Inflammaions, Heidache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c. &c. Indeed, ery few are the diseases in which a Purgative Medine is not more or less required, and much sickess and suffering might be prevented, if a harmoss but effectual Catharite were more, freely used. Vo person can feel well while a costive habit of ody prevalls; besides it soon generates serious and then fatal diseases, which might have been avoided of the timely and judicious use of a good purgative this is alike true of Colds, Feverish symptoms, and silious derangements. They all tend to become or roduce the deep scated and tormidable distempers which load the hearses all over the land. Hence's cliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extendent in a first in the consummate skill to meet that demand. An extendent in a first in the strength of the supposition of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Among the many eminent gentlemen who have testified in favor of these Pills, we may mention Dr. A. A. Hayte, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high professional character is endorsod by the Honery C.Winterer, Expender of the House of Representatives.

Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of emischt public men' is faund in their effects upon trait.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are composition and study are offered to the public as the best and most complete which the present state of medical science can afford. They are composited not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a mannerias to insure the beat results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been believes to the did mode of connection, every vivines.

in the Cherry Pectoral and Fills both, to produce a more efficient remely than had hitherto been be tained by any process. The reason is perfectly obvious. While by the old mode of competition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obmaxims qualifies of each substance employed are left behind, inself-active virtues only being retained. Hence it is self-evident the cite is should prove as they have proved more purely remedial, and the Pills a surery more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an introduce Physician, and as he could not knowled by which both are remedy without knowing its composition. It have supplied the accurate Formule by which both are received in the property of the United State and British American Provinces. If however, there should be add to promptly forwarded by mail to his address.

Of all the Parchit Medicines that are offered, how few would be taken if their composition was known. Their life consists in their mystery. I have no mysteries.

Their life consists in their mystery. I have no mysteries.

The dotaposition of my preparations is laid open to all men, and all who are compared it judge on the subject freely acknowledge their conviction to their intrinsic merits. The Cherry Pecteral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many daminent Physicians have declared the schie thing of my Pills, and even more conficently and are witting to jectify that their anticipations were nor than realized by their effects upon trial.

They operate by their powerful influence on the internal viscers to purify the blood and simulated into healthy action—remove their distinctions of the stonach, lowers, liver, and other areas of the ideal, wherever they exist, such details. Being sugar wright critish of discounting and being purely regretable, no farm analysis of their use in any quantity.

The Greatest Medical Discovery OF THE AGE.

Dr. KENNEDY, of Roxbury has discovered in one of our common pasture weeds a remedy that cures every kind of humor, from the worst Scrofula down to a common pimple. He has tried it in over 1100 cases, and neve failed except in two cases. (both thunder humor.) Reader, I peddled over a thousand bottles o this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after trial it always speaks for itself. There are two things about this herb that appear to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846 second, that it should cure all kinds of hu-
