

THE AMERICAN PARTY SOUTH.

It must be very clearly demonstrated, by this time, to the most sceptical, that the American party, even of the South, has followed its great predecessor, the Whig party, to a political grave.

The Goodwood Races.

We have sent our American horses to England; they have arrived; they have been seen; they have been run; and they have been beaten.

Had this result been first achieved at the New York Races, we should have received it with distrust, for the same set forth by us some time since.

A great many rumors, of course, are already in circulation as to the devices employed on this occasion, to deprive us of our natural prerogative of superiority over everybody in every thing.

If Britons never will be slaves, neither will Americans consent to be distanced. All nonsense apart, it is really of some importance that we should not make fools of ourselves, because two of our horses have been out run by four horses of British breeding on the British turf, and a Gallic Monarque. We can only regret the circumstances. We can only regret the next time.

If we must be beaten, it is a satisfaction that we have been beaten fairly, and in good company, and before an honorable assembly of spectators.

The New York correspondent of the Boston Journal says that the authorities are in possession of evidence that will clear up the Burdell mystery.

It will be remembered that an account can be gathered of the manner or place in which Dr. Burdell passed his last night, from the time he took his dinner, at 6 o'clock, at the Metropolitan Hotel, till eleven o'clock, when he was seen to enter his house, at 81 Bond street, on the night he was murdered.

It is interesting to note that the murderer entered the house and secreted himself early in the evening, and the evidence is regarded as complete.

It is also alleged that the murderer was the one who personated Burdell at the marriage.

THE BULL FIGHTING IN SPAIN.—A correspondent of the Philadelphia Evening Bulletin, writing on board the U. S. ship Constellation, at Gibraltar, says:

I almost forgot to mention an amusing event which we witnessed while lying at Cadix. We visited St. Mary's, a small village on the opposite side of the bay and attended a bull fight.

There was an immense number of spectators from various places in the surrounding country, who really seemed to enjoy the scene.

One man and eleven horses were killed by three bulls, one bull alone killing the man and five horses.

The keeper of the bull would not kill him, as he said he was too valuable. The others, however, were killed.

I never witnessed such a scene of barbarity in my life before, and never wish to see another, yet you will see hundreds of Spanish life fights and beat heavily on the result.

The Philadelphiaans are more famous for these sports than the people of any other section of Spain.

In Cordova, bits to the amount of \$10,000, \$15,000 have been made on a single bull killing a certain number of horses or riders.

They were in a small boat, which upset where the water was eight feet deep, and all five drowned before the accident was discovered.

By order of Chairman.

Dr. Tabbs will be at his rooms in Bridge water, on Monday next, 24th inst.

In consequence of the unexpected appearance of the Sheriff's sales, our issue has been delayed some hours this week.

THANKS.—We scarcely know how to return suitable acknowledgments to our friend Col. DAVID DUNLAP, for a Basket full of choice vegetables. The basket was of large size, and the Col. evidently had his eye on the Scriptural injunction, for he gave us "good measure, pressed down, shaken together, and running over."

A man so proverbially liberal to Editors, must have an easy conscience, and can sit down to pleasant dreams. May he live and flourish many, many years.

WOULD NOT FACE THE MUSIC.—As we feared, our neighbor had not the courage last week to step up boldly and take ground opposite to that assumed by Mr. Wilmot in his recent letter, although he was very prompt to publish, and stigmatize it as an "undisputed Know Nothing" document. Come, neighbor, know nothing! As we, neighbors, know nothing, we would not face the music.

Will you have the kindness to join issue with Mr. Wilmot, and avow that, as a general thing, you do not prefer native-born citizens for official positions?

Will you be good enough to join issue with Mr. Wilmot, and say that no occasions can arise when the naturalized citizen ought to be preferred to those born on the soil?

Will you join issue with Mr. Wilmot, and tell your readers that you are opposed to the protection of American Labor, American Rights, and American Interests?

Will you join issue with Mr. Wilmot, and oppose a reform in the naturalization laws, so as to effect the purification of the ballot-box?

Will you join issue with Mr. Wilmot, and declare yourself in favor of the landing of foreign paupers and criminals upon our shores?

Will you join issue with Mr. Wilmot, and avow yourself opposed to Free Schools?

Will you join issue with Mr. Wilmot, and declare that the Bible ought to be excluded from these Schools?

Now, neighbor, place yourself on record, and let us see where you stand upon these propositions. Give us a plain Yes or No, to each and all of them, and then your readers will be able to determine whether you or Mr. Wilmot is the better Know Nothing.

FATAL OCCURRENCE.—Mr. Samuel McCullough, of this place, who has been engaged for some years in running a canal-boat from this point to the Lake, died last week, we regret to learn, from the effects of a kick by a horse, received at or near Sherman's Corner, in Crawford county, Pa. He lived some twenty hours after the occurrence. The deceased was about 30 years of age, and leaves a widow and several small children.

PARTY GOOD BROKE.—A dividend to the stockholders of the Beaver Hay-press, of 99 per cent., for the last five years, or 16 per cent. annually, was declared and paid last week by the proper officers.

Two members of President Pierce's Cabinet had died within the last two months—Hon. W. L. Marcy, Secretary of State, and Hon. James C. Dobbin, Secretary of the Navy.

Cow Killed.—A cow belonging to a German was killed by a locomotive, at the west end of the Railroad Bridge, on the 12th inst.

THE MAIN LINE—ITS RECEIPTS & EXPENDITURES.

When we took up our pen last week to comment on a statement in the Star, of the week previous, relative to the Receipts and Expenditures of the Main Line, and suggested by our neighbor General Carter, we did it with a view of engaging in a controversy that would bring to light all the facts connected with the case.

But as the General has, in the meantime, brooded the idea that "the Main Line" is the better part of the value, and suggested by our neighbor General Carter, we did it with a view of engaging in a controversy that would bring to light all the facts connected with the case.

total expenditures of the Main Line for the year 1853 at \$1,224,266.80. A part of this sum was spent for new work on the Portage Road, and a part for new work on the Columb's Road, and the balance for locomotives, motive power, repairs, lock keepers, collectors, damages and Canal Commissioners' expenses. But for convenience we will range them all under the following heads:

Construction \$654,106.62
Repairs \$241,162.81
M. Power, on Col. Road 405,682.99
M. Power, Portage Road 397,339.46
Repairs " " 96,218.13
Expenses on Canal portion 830,876.87

Exp'ds according to Aud. Gen. \$2,124,266.80
Receipts according to C. Com. \$1,874,822.60

Expenditures over Receipts \$249,444.20

But we may be asked, why these surplus figures and conflicting statements of the Canal Commissioners and Gen. Carter? We have already shown that the Canal Board appropriated entirely or charged to some other account, such items as they did not wish to appear against the Main Line. Our neighbor's arithmetical effort is not so laudable; but if we were permitted to express an opinion as to how his figures were obtained we would say that it was highly probable, that his calculations in this instance, were characterized with much the same precision that a similar effort was some time ago.

At "headquarters," on the night of the last general election, our neighbor, was selected by his Democratic fellow citizens, to keep the "books posted," as the returns came in from the rural districts, so that at any time it might be seen how the vote stood. The returns came pouring in, and rumor has it, that the gallant General had the Democracy up nearly even with the Republicans all night.

The length of this article already prevents our commenting on the facts brought out in the above tables; we shall endeavor to do so in our next paper.

A man wont prove anything by asking questions.—Star.

Such is the reply of our neighbor to the queries propounded him last week relative to the carelessness of the Democratic Trustees of the Academy, in suffering that building to be outrageously abused, during the five or six successive years it was under their control. We disagree with our neighbor, that the asking of questions proves nothing; and we beg to remind him that questions sometimes prove to be very troublesome customers; and they also very frequently prove that the individual to whom they are addressed lacks nerve to answer them.

Whenever the Star shows that the Board of Trustees, controlled by Democrats, and of which the editor was a member, was not grossly negligent in its duties, in permitting the Academy building to present so shabby an appearance, without even putting forth an effort to save it, it will be time enough then to enter into a discussion as to alleged mismanagement during the past ten months.

Gov. Chase, of Ohio, was last week re-nominated by acclamation. He is one of the purest and most accomplished officers in the Union. We trust he will be re-elected by an overwhelming majority.

CALIFORNIA.—The Republicans of California are going into the fight with great spirit and determination. They have nominated the Hon. Edward Stanley, an able and eloquent debater, and formerly a Whig member of Congress from North Carolina, as their candidate for Governor.

An African M. E. Camp meeting will be held at the old camp ground, near Judge Irwin's, commencing on Thursday the 27th inst.

John Spear, has been appointed Postmaster at Enon Valley, in place of R. G. Patterson.

The new Conference appointed to settle the difficulties that existed in relation to the selection of a candidate for Senator in Mercer, Lawrence and Venango counties, met at the former place, last week, and nominated Wm. M. Francis, Esq., of Lawrence.

FOR THE BEAVER ARGUS.—It appears that the Democratic candidate for Treasurer (Mr. Grim) has of late been very lavish with his epithets against the American party and its members; calling them all kinds of ugly names, such as "dark lantern party," "midnight assassins," "liars," &c.

We would like Mr. Grim to tell us if he did not join this party once, and whether he did not take upon himself all the obligations of the party?

Mr. Grim did you not join the New Sewickley council? Speak out in meeting, Phillip. If you did belong what did you say so bad that you must now call them all kind of hard names? Don't be backward Phillip, let us hear from you.

We would also like to have Mr. Scudder H. Pierson, (candidate for Trustee) define his position on this point.

Mr. Pierson, will you inform us whether or not you ever belonged to the American party? Did you not belong to the Vanport council? Did you not act as one of the officers of that council? Did you not declare last fall that you were a Straight out Fillmore man, and that you intended to vote for him? Did you do it or were you setting the Jesus? Did you not say after the election you had voted for Mr. Fillmore? If you did belong to the American party, why is it that you are so free with your denunciations against that party now? Is it because the Democrats nominated you for Trustee? Come speak out Scudder don't keep us in the dark.

Perhaps the illustrations Bob McGregor can give us some information on this point. Don't get mad Robert but answer the questions decently. We don't like to see you rear and pelt on, you look so ugly when you do that. Don't say those nasty words of yours; its not nice. Now Robert do answer those questions without getting in a passion and making such ugly faces. More anon.

AN INQUIRY.—For the Beaver Argus.—In your last issue I noticed a *careful* little article charging the authorship of a communication, which lately appeared in the Star signed "An Anti Know Nothing," upon the "individual" who was a candidate before the Republican convention last year for District Attorney, and was defeated.

I am that "individual," and I beg room to say to your readers that I did not write, indite or suggest the article which appeared in the Star signed an "Anti Know Nothing," or any article that ever appeared in the Star purporting to have been written by an individual on the South side of the River. That article was *unthought of* by me until I saw it in the Star.

The entry of this positive and unqualified repudiation of the charge, of authorship as preferred, is all that is here sought. Owing to the style of my assailant I have no wish to join issue with him.

As to being a "miserable creature," or having a "Bore Side" I have only to say that I wish I may never be in a worse fix than I am at present, and as to being a "mule" or having been a "Know Nothing" they are equally severe charges and are as true as the other. Yours truly, J. G. Bliss.

Leaving the Ranks.

The dissatisfaction in the ranks of the Ohio Democracy is spreading, and we should not be surprised if the entire party, federal office holders excepted, should go over to the Republicans. The Columbus correspondent of the Cincinnati Gazette says:

"These Dred Scott approvals and United States Marshal arrests have most seriously affected Democratic sentiment. Judges of Ohio, Judge Caldwell, and Judge Corwin, late of that distinguished tribunal, have in the fullest extent of indignant language and eloquent phrasing, denounced the proceedings had towards the freedom of Ohio, and Judge Warden, guardian of the same, has left the party altogether, and declared his purpose to vote the Republican ticket."

LIVING FAST.—Stuart B. Adams, a young man of 23 years, has been arrested in New York, for embezzling money to the amount of nearly thousand dollars, under the following circumstances:

Adams has been employed as bar keeper of the Howard Hotel, corner of Broadway and Maiden Lane, on a salary of \$1 a day. During the time mentioned, a large business was done at the bar, but yet the receipts were comparatively small.

Mr. Lamb, the proprietor, wondered much at this, but could not bring himself to believe that his bar-tender was playing him false. At length, he employed a person to remain one day in the bar-room, and keep record of the number of glasses sold. The result was that discrepancy of \$20 was discovered between the number of drinks sold and the receipts accounted for. Expolice officer Farley was then sent to watch Adams, and soon ascertained that he associated with sporting men, and fast women; and that he frequently spent at houses of ill resort more than his monthly salary; that one of his female favorites had recently purchased the house in which she lived on Thompson street, and that there was reason to believe that the purchase money was obtained from the gay bar-tender. Further inquiries were made, when a young man named Schiller, who had acted as an accomplice with Adams, revealed all the know of the transaction. Adams was thereupon committed to prison.

He has been in the employ of Mr. Lamb nearly eight years, first serving as a bell-boy at a public house in Brooklyn.

Newspaper Office Attacked.—On the night of the 21st inst. a Mr. J. M. Brown, with a friend, was sitting in the office of the Herald, of which he is the editor, in Oskosh, Iowa, a tavern keeper named Bowen, in conjunction with a number of others, made an attempt to break upon the door with the avowed intention of seeking the office, when Mr Brown, after warning them to desist, fired two shots, from a revolver, the second of which pierced the breast of Bowen, causing his death in about twenty minutes.

NEW CONSTITUTION OF IOWA.—From the returns received from various portions of Iowa, the indications are that the new constitution has been adopted by the people of that State. Several of the Democratic counties have cast their vote in favor of it. Dubuque county went strongly against it; but that is counterbalanced by other counties of the same political stripe, giving heavy majorities in its favor. The Republicans generally voted for it, though the vote was light.

There is nothing in the whole list of medicine creating such a stir among us as Dr. Sanford's Invigorator or Liver Remedy. It gives such quick relief as to convince the patient of receiving benefit almost as soon as the medicine is taken.

We do not know a single instance where it has been taken without benefit, and in nearly all cases a complete cure is effected by its use. It has acquired its wide popularity simply because it does what it is recommended to do. It is constantly enlarging its circle of friends, carrying, healing, and giving joy to the hearts of those suffering from Liver Complaint, Jaundice, Dyspepsia, or general debility.

The Dead Restored to Life.—A few years ago it was generally supposed that gray hair could not be restored to its original color, or made to grow on bald heads; but since the advent of Professor Wool's Hair Restorative, many persons who had years ago are now seen daily in the various walks of life, appearing in all the vigor of youth, wearing their own dark flowing locks simply from having used this great Restorative.—Louisville Times.

AGE AND DEBILITY.—As old age comes creeping on, it brings with it many attendant infirmities. Loss of appetite and weakness impairs the health, and want of activity makes the mind discontented and unhappy. In cases where old age adds its influence, it is almost impossible to add vigor and health, and although jannay remedies have been tried, all have failed, until *Barthe's Holland Bitters* were known and used. In every case where they have been employed, they have invariably given strength and restored the appetite. They have become a great agent for this alone, and are used by many people who are suffering from loss of appetite and general debility. In cases of long standing chronic diseases, they act as a charm, invigorating the system, and giving nature another opportunity to repair physical injuries. See advertisement in another column.
