Indeed, ery few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmers but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevalls; besides it wom generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is allies true of Colds, Feverish symptoms, and Billious derangements. They all tend to become or produce the deep seated and formidable distempers which loud the hearness all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond tiellef, were they not substantiated by persons of such exalted position and character as to forbid the suspleion of untruth.

Among the many eninent gentlemen who have testified in favor of these Pills, we may mention:

The composition of my preparations is laid open to all men, and all who are competent to judge on the sulject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are she first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.
