NEW and singularly successful remody for the A cure of all Bilious diseases—Costiveness, Indigestion; Jaundice, Dropsy, Rheumatism, Fevera, Gott, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Jimbs, Female Complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of foody prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become oppoduce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family playsic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Prtients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character at to fortid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention:

DR. A. A. HAYER, Analytical Chemist, of Buston, and State Aasayer of Massachusetts, whose high professional character is endorsed by the Hons. Edward Evernett, Scnator of the U. S. Ronzer C. Winnerse, Minister Plen. to England. Two or three bottles are warranted to cure the salt rheum.

Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vogetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been intained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acromonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect is should prove as they have proved more purely remedial, and the Pills a surer more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the connect of an attending Physician, and as he could not properly judge of a remedy without knowing its composition. I have supplied the accurate Formulæ by which both nay rectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them; they will be promptly forwarded by mail to his address.

The composition of my preparations is laid open to all the pa extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after trial it always speaks for itself. There are two things about this herb that appear to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846 second, that it should cure all kinds of hu-

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1858, I peddled it and sold about six bottles per day—In April 1854, I sold over one thousand bottles per day of it. Some of the wholesale Druggists who have

en in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of i from all quarters.
In my own practice I always kept it strictly

for humors—but since its introduction as a gen-eral family medicine, great and wonderful virtues have been found in it that I giver susected. Several cases of epileptic fits -- a desense which was always considered incurable, have been cured by a few bottles. O, what a merce it it will prove effectual in all cases of that a will malady there are but few who have seen more of it han I have.

I know of several cases of Dropsy, all of them aged people cured by it. For the various dis-eases of the Liver. Sick Headache, Tyspepsia, Asthma, Pever Ague, Pain in the Side, Dis-eases of the Spine, and particularly in diseases. of the Kidneys &c., the discovery has done more good than any medicine ever known. Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently and are willing to certify that their suticipations were more than realized by their effects upon trial.

They operate by their effects upon trial.
