

FROM ENGLAND

London, October 20, 1857. Every thing was going on well here, and the money market was regaining even an appearance of buoyancy...

It now stands at 8 per cent, beyond which it has never been carried in modern recollection. The only period of such a change was exactly ten years back...

Such is the confidence here in the prospect of a speedy change at New York, that even the last quotations of exchange would probably fall to induce large shipments of specie as a direct speculation.

It appears that yesterday's mail brought a large number of bills with orders for return to be made in gold. The disposition of the public to take advantage of the present prices of American securities continues without abatement...

The return published on Saturday last showed £10,109,943. There has since been a diminution of about £570,000, but this has been partly caused by the payment of the October dividends.

A panic could be caused only by a fear that really sound securities may become altogether unmarketable, and that the credit of untroubled houses may suffer.

Of course the losses sustained by the individual firms, connected with the houses that have stopped in America, must be very heavy; but they have been extraordinary.

The weather remains unusually warm for the season, and the foliage of the country, untouched by the slightest breath of frost, presents all the green luxuries of June.

Strength and Health Restored. Mr. John Davidson, living on the banks of the Pennsylvania Canal, writes: "When I commenced taking Benger's Hot and Bitters I could hardly walk."

FROM KANSAS

More Fraudulent Returns Reported. Second Proclamation from Governor Walker and Secretary Stanton.

PROCLAMATION TO THE PEOPLE OF KANSAS

Since our proclamation of the 10th inst., projecting the so-called election returns from the Oxford precinct in Johnson county, another very similar case has been presented for our official action.

Indeed, all persons actually conversant with the number of the population of the county, treat with derision the large vote returned to have been given there.

From the intrinsic evidence on the face of these papers, we are convinced that they are not genuine, but simulated and fictitious. Besides they present no evidence that the oath, required by our statutes, was administered to the clerks or judges of the election, to secure from all of them the impartial discharge of their duties according to law.

But, in addition to these grounds of decision against the legality and validity of these pretended returns, there is yet a more conclusive reason which constrains us not to count them.

In rejecting these papers, we do not go behind the returns, because no legal or valid returns were made. Neither in the former instance, nor in this, have we claimed any power to judge of the qualifications of voters, and to exclude votes deemed to be illegal.

These disreputable attempts to destroy the elective franchise, and all popular government which is based upon it, and to substitute the responsibility of rejecting such papers, or rendering ourselves accomplices in the fraud, by giving our endorsement and sanction, will meet, we doubt not, the serious reprehension of honest men of all parties in this Territory, and throughout the Union.

It is to be repeated that our entire course during the last month depends on the news that may arrive on your side. In reading the present advices, therefore, your readers will only have to bear in mind the fact that the news back at the tidings which may have been reported to us by the two or three steamers which may lately have sailed, to form a good estimate of our proceedings.

Strength and Health Restored. Mr. John Davidson, living on the banks of the Pennsylvania Canal, writes: "When I commenced taking Benger's Hot and Bitters I could hardly walk."

BEAVER ARGUS

WEDNESDAY, NOVEMBER 11, 1857.

PERSONAL.—We this week commence to send out bills to those who are indebted to us on subscription or otherwise, and we hope they will be promptly heeded.

DIVINE SERVICE.—We have been requested to say that the Rev. Mr. SOUTHWELL, will preach in the Presbyterian Church, in this place, on Sabbath next, at 11 o'clock.

AGRICULTURE.—The Secretary of the County Agricultural Society requests us to say that the first premium, stated in the published list as having been awarded to J. J. Anderson, should have been to Samuel Stiles, for the best six varieties of Peaches, and also the best collection of Peaches.

THE DIFFICULTIES OF THE TIMES.—The "oldest inhabitant" would perhaps be puzzled to carry his mind back to a period when there existed so much stringency in monetary matters, in commercial and business circles, among nearly all classes, in every section of this country, and even on the other side of the Atlantic, than is found to exist at the present time.

REMARKABLE FACILITY SEEMS TO attend all the individuals who have been clothed with Executive functions, and sent out to this distracted and ill-fated Territory.

THE HOOD CHOLERA.—We hear that a number of swine have died in the neighboring village of Bridgewater, within the past few weeks, of this fatal disease.

NEWSPAPER.—Our young friend, F. H. Impey, who will be remembered by many of our village readers, and who is known as a young gentleman of more than ordinary talents, has become associated with another gentleman in the publication of no less than two papers—one at Port Byron, Rock Island Co., Ill., and the other at Le Claire, Scott Co., Iowa.

INDIAN SUMMER.—The weather for the past week has been exceedingly mild and spring-like. The Almanac-Makers have it that Indian Summer commenced on the 4th inst., and will terminate to-morrow.
