WORTHY OF CONSIDERATION. The average annual imports of cotton and woolen manufactures are about fifty millions of dollars; the average annual imports of iron, manufactures of iron, and steel are about twenty-five millions of dollars; the average annual import of manufactures of silk are about twenty-five millions of dollars; total one hundred millions.

There is no actual necessity for importing a dollar's worth of cotten and woolen goods, because we manufacture them ourimporting a dollars worth of iron, because we have enough of that in Pennsylvania, Maryland and Virginia to supply not only ourselves, but the residue of the world; and there is no very pressing necessity to import so largely of manufactures of

Without entering into arguments, it is merely suggested that if the imports of the there would be no occasion for papies and financial revulsions. Exporting fifty millions of dollars—
rious matter to any country; we can stand most things, but not that long. Importing fifty millions of gold annually is quite another affair, and this or any other equations.

PILLS

FOR ALL THE PURPOSES OF A

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly asso in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success to accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have mone of the objections, but all the advantages, of very other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system is to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all ribes are but the consequence of diseased action in the liver. As an aperient they afford presupt and sure relief in Costiveness, Piles, Colic, Dysentery, Humiors, Scrofula and Scarry, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required. Rrysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the body, and restore the wasted or dis FAMILY PHYSIC.

This remody has won for itself such notoricty from its cures of every variety of pulmonary disease, that it is entirely unnecessary to rejount the cridences of its wirtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hositate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of Colds, Coughs, Hoarseness, &c.; and for Children it is the pleasancest and safest medicine that can be obtained.

Here is one from the old pioneer Mctlodist preacher of Ohio, Rev. J. B. Finley.

I believe Bowman's Vegetable Compound to be the best remedy for Diseased Throat and Lungs, of the day. I have tested it, and found it to be the best of all the popular remedies I ever tried, and I have tried very many. I recommend it to the public. Try it and you will be convinced of its superiority.
